2023 Awarded the Nobel Prize for Literature in 1969, Samuel Beckett's influence on 20th century fiction and drama is immeasurable. Published in conjunction with the RT (Radio Telefís Éireann) Thomas Davis Lecture Series to mark the centenary of Beckett's birth, Samuel Beckett - 100 Years consists of thirteen essays by many of the foremost academics studying Beckett today. Literary luminaries such as John Banville and Anthony Cronin line up alongside philosophers Dermot Moran and Richard Kearney to delve into the psyche of the man responsible for classics such as *Murphy*, *Krapp's Last Tape*, and *Waiting for Godot*, while actors Barry McGovern and Rosemary Pountney describe what makes his works so theatrical. The book is a challenging and serious look at Beckett's work and its impact on literature today.

Moto Guzzi Sep 10 2021 This book tells the story of one of

the world's most innovative, beloved, and famous

motorcycle manufacturers on its 100th anniversary. In 1921,

Giorgio Parodi founded Moto Guzzi with the mechanic Carlo

Guzzi. The purpose of the company was to design

innovative motorcycles in the Mandello del Lario

headquarters on Lake Como,

where the factory still stands today. Moto Guzzi bikes immediately stood out for their high performance and technical sophistication. Their greatness was proven by competition wins, and these sporting triumphs were accompanied by commercial success that made Moto Guzzi the most important motorcycle manufacturer in Italy. These victories did not happen by chance, but were the result of continuous innovation. The company soon decided to withdraw from competitions because of its “manifest superiority” and instead focused on production.

It has since continued to churn out iconic innovations and models, like the California, which was chosen by the LAPD for their patrols. Moto Guzzi is no longer just a motorcycle but, like Harley-Davidson, it has become a style, a philosophy and a sign of belonging to the Guzzi tribe that unites movie stars like Ewan McGregor with acclaimed designers like Tom Dixon, musicians like Billy Joel, and astronauts such as Paolo Nespoli.
