Le ali degli angeli May 24 2020 Il presente testo affronta il tema dell'Angelologia studiando la Cabalà, le lettere ebraiche che compongono il nome di ognuno dei 72 Angeli e proponendo una spiegazione del carattere, dei talenti e dei difetti appartenenti a tutte le persone nate sotto l'influenza di ogni Angelo specifico. Inoltre ci sono capitoli introduttivi e di spiegazione sui Fiori di Bach, Fiori Australiani, Pietre, Aromaterapia e colori in quanto rimedi consigliati per creare un collegamento diretto

con la propria energia Angelica specifica. Questi rimedi hanno la capacità, se usati in sinergia tra loro e con l'intenzione profonda della persona, di eliminare tutte quelle ostruzioni energetiche, psicologiche ed emotive che impediscono di contattare il flusso di energia del proprio Angelo, precludendo così le possibilità di sviluppo più profonde della persona.

**Listening as Spiritual Practice in Early Modern Italy** Jun 17 2022 The early seventeenth century, when the first operas were

written and technical advances with far-reaching consequences—such as tonal music—began to develop, is also notable for another shift: the displacement of aristocratic music-makers by a new professional class of performers. In this book, Andrew Dell'Antonio looks at a related phenomenon: the rise of a cultivated audience whose skill involved listening rather than playing or singing. Drawing from contemporaneous discourses and other commentaries on music, the visual arts, and Church doctrine, Dell'Antonio links the new ideas about cultivated listening with other intellectual trends of the period: humanistic learning, contemplative listening (or watching) as an active spiritual practice, and musical mysticism as an ideal promoted by the Church as part of the Catholic Reformation.

In this book, a follow-up to his 1996 monograph *Celestial Sirens*, Robert Kendrick examines the cultural contexts of music in early-modern Milan. This book describes the churches and palaces that served as performance spaces in Milan, analyzes the power structures in the city, discusses the devotional rites of the Milanese, and explores the connections among city politics, city-scape, and music.

Music and Visual Culture in Renaissance Italy

Jun 24 2020 The essays in this volume explore the relationship between music and art in the Italian Renaissance across the long sixteenth century, considering an era when music-making was both a subject of Italian painting and a central metaphor in treatises on the arts. Beginning in the fifteenth century, transformations emerge in the depiction of music within visual arts, the conceptualization of music in ethics and poetics, and in the practice of musical harmony. This book brings together contributors from across music and art history to

consider the trajectories of these changes and the connections between them, both in theory and in the practices of everyday life. In sixteen chapters, the contributors blend iconographic analysis with a wider range of approaches, investigate the discourse surrounding the arts, and draw on both social art history and the material turn in Renaissance studies. They address not only paintings and sculpture, but a wide range of visual media and domestic objects, from instruments to tableware, to reveal a rich, varied, and sometimes tumultuous exchange among musical and visual arts and ideas. Enriching our understanding of the subtle intersections between visual, material, and musical arts across the long Renaissance, this book offers new insights for scholars of music, art, and cultural history.

Venetia Libera; poema heroico. [Edited by A. and S. Pancetti, etc.] Apr 22 2020

*Baronial Patronage of Music in Early Modern Rome* May 16 2022 This is the first dedicated study of the musical patronage of Roman

baronial families in the sixteenth and early seventeenth centuries. Patronage – the support of a person or institution and their work by a patron – in Renaissance society was the basis of a complex network of familial and political relationships between clients and patrons, whose ideas, values, and norms of behavior were shared with the collective. Bringing to light new archival documentation, this book examines the intricate network of patronage interrelationships in Rome. Unlike other Italian cities where political control was monocentric and exercised by single rulers, sources of patronage in Rome comprised a multiplicity of courts and potential patrons, which included the pope, high prelates, nobles and foreign diplomats. Morucci uses archival records, and the correspondence of the Orsini and Colonna families in particular, to investigate the local activity and circulation of musicians and the cultivation of music within the broader civic network of Roman aristocratic families over the period. The author also shows

that the familial union of the Medici and Orsini families established a bidirectional network for artistic exchange outside of the Eternal City, and that the Orsini-Colonna circle represented a musical bridge between Naples, Rome, and Florence.

**Monteverdi** Sep 08 2021 Claudio Monteverdi is now recognized as the towering figure of a critical transitional moment of Western music history: relentless innovator in every genre within chamber, church and theatre music; self-proclaimed leader of a 'new dispensation' between words and their musical expression; perhaps even 'Creator of Modern Music'. During recent years, as his arrestingly attractive music has been brought back to life in performance, so too have some of the most outstanding musicologists focussed intensely on Monteverdi as they worked through the 'big' questions in the historiography and hermeneutics of early

Baroque music, including musical representation of language; compositional theory; social, institutional, cultural and gender history; performance practices and more. The 17 articles in this volume have been selected by Richard Wistreich to exemplify the best scholarship in English and because each, in retrospect, turns out to have been a ground-breaking contribution to one or more significant strands in Monteverdi studies.
