It is in this context most orchestrators must function, and to whom this book should be of benefit. The term scoring also means the actual writing of notes on the score paper. Transcribing is scoring music written for one kind of musical instrument or group -- say a piano or orchestra -- for a different kind of group. This text deals with those matters. The second part of arranging is the more creative process of writing introductions, modulations, endings, background figures and so on.
