Soapmakers may love to add a variety of materials to soap, but they find that some cause more trouble than others. In the heat of the chemical reaction, an ingredient might discolor, or lose its scent, or develop a bad smell. Or it might cause problems during soapmaking, giving off noxious fumes, or making the soap harden so fast that there's no time to pour it in the mold. Help has arrived. Anne L. Watson extends the low-temp techniques from her book "Milk Soapmaking" to making soap from a variety of special ingredients, including cucumber, citrus, pine tar, beer, and wine. Soaps that have long challenged home soapmakers will now pose no problem at all.

/////////////////////// Anne L. Watson is the first author to have introduced modern techniques of home soapmaking and lotionmaking to book readers. She has made soap under the company name Soap Tree, and before her retirement from professional life, she was a historic preservation architecture consultant. Anne and her husband, Aaron Shepard, live in Bellingham, Washington. /// CONTENTS GETTING STARTED (From High-Temp Soapmaking to Low) WHAT DO I PUT INTO IT? "Soap Making Guide for the Novice" helps the reader to learn what the process of homemade soap making entails and how someone can get started with the process. The process of soap making is not difficult. It takes a bit of planning, having the right ingredients and a lot of dedication to the task. It can not only be a hobby, but can become a way to earn additional income in the long run. Do you know what is the advantage of natural handmade soaps and why more and more people create organic handmade soap at home with their own hands? First of all, it is a creative product, with a piece of your heart and soul. Soap crafting is an occupation for your soul and it brings joy and pleasure for those people who are engaged in this process. Soap produced in large volumes, in chemical industries, cleans so well, that it washes, along with dust and dirt, all the protective oils from our skin. And we end up with dry, prematurely aging skin. Our book with handmade soap recipes will teach you how to create the best handmade soap - a soap that contains natural oils and organic additives - honey, oats, calendula flowers, chocolate and more. Homemade soap is enriched with oils such as olive, sea buckthorn, peach, wheat germ oil and many more oils that have a moisturizing, rejuvenating and anti-cellulite effect. Easy natural homemade soap is a great and original gift, which hardly anyone could remain indifferent about. Natural ingredients, the basis of which skin handmade soap is created, have a beneficial effect on the skin. Natural handmade soap is devoid of drawbacks. Cleansing the skin with organic soap, you can get rid of peeling and dryness. By experimenting with different oils, you can create a soap that is suitable for your skin. Scrub effect, moisturizing effect, vitaminizing effect, anti-cellulite effect-all this is achieved by simply adding an ingredient. The aesthetic side is also important. With our recipes for homemade soap, you will find out how to create any shape: heart, flower, oval, car and so on. In addition, mixing colored masses, adding dry flower petals, using other methods of decoration, you can create a truly unique soap that will delight others and will be a real decoration of your bathroom. Homemade soap can be a powerful means of aromatherapy, because it often includes natural essential oils. Now it will not be difficult to create a soap with your favorite smell. Vanilla and lavender, Lily of the valley and lilac - the smell of soap made with your own hands, will be totally unlike the "chemical" smells of soap made industrially. So once again the advantages of natural handmade soap include: 1. Clear skin; 2. Hydration and nutrition, thanks to natural oils; 3. Aromatherapy while using soap; 4. Aesthetic pleasure; 5. Making your own choices in creating handmade soap, you are able to choose an eco-friendly product.
