In a future where the Population Police enforce the law limiting a family to only two children, Luke, an illegal third child, has lived all his twelve years in isolation and fear on his family's farm in this start to the Shadow Children series from Margaret Peterson Haddix. Luke has never been to school. He's never had a birthday party, or gone to a friend's house for an overnight. In fact, Luke has never had a friend. Luke is one of the shadow children, a third child forbidden by the Population Police. He's lived his entire life in hiding, and now, with a new housing development replacing the woods next to his family's farm, he is no longer even allowed to go outside. Then, one day Luke sees a girl's face in

the window of a house where he knows two other children already live. Finally, he's met a shadow child like himself. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to? "This text uniquely provides comprehensive coverage of the history of parenting and parent/school collaboration, current issues and immigration trends affecting American schools and communities, diverse family structures, and many techniques that teaching professionals can use to engage family members of all children more completely as partners in education. Chapters on working with families of children with special needs and on child abuse are remarkable aspects of this text." -BOOK JACKET. Tomie dePaola's beloved 1983 classic returns to print just in time for the holiday season! Three wise men of the East, having seen a new star symbolizing the birth of a great king, follow the star to Bethlehem where they present gifts to the newborn Jesus. This

beautiful rendition of the well-known tale is sure to delight young readers. WINNER OF THE 2016, 2015, 2014 & 2013 PREFERRED CHOICE AWARD, 2012, 2011 AND 2010 BOOK OF THE YEAR FOR CHILDREN'S INTERACTIVE BOOKS AND THE 2009 SEAL OF EXCELLENCE AWARDED BY CREATIVE CHILD MAGAZINE.

Not since the Three Bears has there been a children's story about the family of three or the only child. This book captures the spirit and love of the family of three and invites other family numbers to participate. The book is interactive and asks children to draw pictures representing their own family unit on the blank pages. This makes the book more than just a storybook but a pictorial journal of the child's personal family experience. Inspired by her own family of three, Vivian Cameron-Gallo sets out to take the "only child" out of the isolation that generalizes and labels the only child. The single child does not stand alone but stands as an important part of a larger unit, a family. This interactive story is

about families and the things they do together. The illustrations by Christina Simcic have captured the love of many different families. "We're Three" let's you know that your place in the world is special! REVIEWS: Rating: Five Stars: "There are all kinds of families in this great big world. Some are big with lots of kids and some are small, with not too many or simply none at all." Did you know that the single-child family is the fastest growing type of American family? Yet, when author Vivian Cameron-Gallo, the mother of an "only child," sought a children's book that represented her daughter Ava, she found only a few and those had a melancholy tone with negative stereotypes. Therefore, inspired by her own family of three, she wrote this endearing little book to make the single child feel "normal" and part of something bigger a family. The gentle, flowing verse makes for easy reading, and the colorful drawings by Christina Simcic add visual beauty to the text. I think that We're Three is a very beneficial and

useful book, and it has my hearty endorsement. -

On a dark night, travelers from across France
cross paths at an inn and begin to tell stories of
three children. Their adventures take them on a
chase through France: they are taken captive by
knights, sit alongside a king, and save the land
from a farting dragon. On the run to escape
prejudice and persecution and save precious and
holy texts from being burned, their quest drives
them forward to a final showdown at Mont Saint-
Michel, where all will come to question if these
children can perform the miracles of saints. Join
William, an oblate on a mission from his
monastery; Jacob, a Jewish boy who has fled his
burning village; and Jeanne, a peasant girl who
hides her prophetic visions. They are
accompanied by Jeanne's loyal greyhound,
Gwenforte . . . recently brought back from the
dead. Told in multiple voices, in a style
reminiscent of *The Canterbury Tales*, our
narrator collects their stories and the saga of

these three unlikely allies begins to come together. Beloved bestselling author Adam Gidwitz makes his long awaited return with his first new world since his hilarious and critically acclaimed Grimm series. Featuring manuscript illuminations throughout by illustrator Hatem Aly and filled with Adam's trademark style and humor, *The Inquisitor's Tale* is bold storytelling that's richly researched and adventure-packed. "It's no surprise that Gidwitz's latest book has been likened to *The Canterbury Tales*, considering its central story is told by multiple storytellers. As each narrator fills in what happens next in the story of the three children and their potentially holy dog, their tales get not only more fantastical but also more puzzling and addictive. However, the gradual intricacy of the story that is not Gidwitz's big accomplishment. Rather it is the complex themes (xenophobia, zealotry, censorship etc.) he is able to bring up while still maintaining a light tone, thus giving readers a chance to come to conclusions

themselves. (Also, there is a farting dragon.)"—Entertainment Weekly, "Best MG Books of 2016 "Puckish, learned, serendipitous . . . Sparkling medieval adventure." —Wall Street Journal □ "Gidwitz strikes literary gold with this mirthful and compulsively readable adventure story. . . . A masterpiece of storytelling that is addictive and engrossing." —Kirkus, starred review □ "A well-researched and rambunctiously entertaining story that has as much to say about the present as it does the past." —Publishers Weekly, starred review □ "Gidwitz proves himself a nimble storyteller as he weaves history, excitement, and multiple narrative threads into a taut, inspired adventure." —Booklist, starred review □ "Scatological humor, serious matter, colloquial present-day language, the ideal of diversity and mutual understanding—this has it all." —The Horn Book, starred review □ "I have never read a book like this. It's weird, and unfamiliar, and religious, and irreligious, and more fun than it has any right to be. . . . Gidwitz

is on fire here, making medieval history feel fresh and current." —School Library Journal, starred review

Statements like "Ich kann doch nicht shufflen!" or other language mixings belong to the everyday life of bilingual children. This book deals exactly with this topic and contains a case study about English-German bilinguals having lived in Great Britain and the U.S. and now growing up in Germany. Thereby, the study is based on the current theory of bilingualism. The study was conducted with a family living in Germany whereby the children were 8, 10 and 12 years old. They were studied for 2 weeks in their everyday lives, and the results should be of interest for all kinds of readers who are interested in languages and their acquisition or who are personally involved in bilingualism. In chapter 1, the term 'bilingualism' is described briefly, the reasons for the chosen topic are portrayed, and the family of the case study and their special situation is introduced. In the next chapter, a

general overview about the theoretical background of bilingualism is given. Important sub items of this chapter are the current status of research, the ways in which bilinguals can be categorized, the 'one person - one language principle' and interferences and code-mixing as important components of bilingualism. In chapter 3, the case study itself is presented. Here, the aims, methodology and materials of the study are described. Subsequently, the results of the case study are brought into relation with the underlying linguistic theory. At the end of the book, the findings of the study are summarized, and further, the consequences for the three children's language acquisition processes are drawn. Decades of research have demonstrated that the parent-child dyad and the environment of the family "which includes all primary caregivers" are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to

protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure.

Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States. "Turning the hearts of the fathers

to the children"--Cover. Meet Lucy McRae and two other young people, Willie Lord and Frederick Grant, all survivors of the Civil War's Battle for Vicksburg. In 1863, Union troops intend to silence the cannons guarding the Mississippi River at Vicksburg - even if they have to take the city by siege. To hasten surrender, they are shelling Vicksburg night and day. Terrified townspeople, including Lucy and Willie, take shelter in caves - enduring heat, snakes, and near suffocation. On the Union side, twelve-year-old Frederick Grant has come to visit his father, General Ulysses S. Grant, only to find himself in the midst of battle, experiencing firsthand the horrors of war. "Living in a cave under the ground for six weeks . . . I do not think a child could have passed through what I did and have forgotten it." - Lucy McRae, age 10, 1863

Period photographs, engravings, and maps extend this dramatic story as award-winning author Andrea Warren re-creates one of the most important Civil War battles through the

eyes of ordinary townspeople, officers and enlisted men from both sides, and, above all, three brave children who were there. You want to be a loving parent who guides your kids towards a life of happiness and success. Find out the ingredients you need in your day in order to become your happiest self.* Catch yourself before you lose your cool. Learn what to do when you lose your patience with a temper-taming toolkit of proven tools to get you back on track.* Heal after the storm. For the days when you do lose your cool, you'll get the exact steps to flush the bad mojo from your body and repair the relationship with

your child (or your partner). This book gives you the best science-backed tools that you need as a busy parent to become your happiest self. Three children, who abruptly lost their father, share the journals that they kept for almost two years, with reflections and advice for those experiencing a similar loss. Bob Marley's songs are known the world over for their powerful message of love, peace, and harmony. Now a whole new generation can discover one of his most joyous songs in this reassuring picture book adaptation written by his daughter Cedella and exuberantly illustrated by Vanessa Brantley-Newton. This upbeat story reminds children that the sun will always come out after the rain and mistakes are easily forgiven with a hug. Every family will relate to this universal story of one boy who won't let anything get him down, as long as he has the help of three very special little birds. Including all the lyrics of the original song plus new verses, this cheerful book will bring a smile to faces of all ages—because every

little thing's gonna be all right! Three children, ages eight (twins) and four, describe how their lives changed when their father died suddenly two years earlier and offer practical advice for overcoming loss and moving on with life. The heartwarming true story of two penguins who create a nontraditional family. At the penguin house at the Central Park Zoo, two penguins named Roy and Silo were a little bit different from the others. But their desire for a family was the same. And with the help of a kindly zookeeper, Roy and Silo got the chance to welcome a baby penguin of their very own. Ayna could predict the future. Cari could find what was lost. Gair thought he was ordinary. The three children of Gest, the chief of Garholt, know the perils of the Moor on which they live. The Dorig, their people's enemies, are cold-blooded, fierce underwater creatures who terrify anyone unlucky enough to happen upon them. The Giants are dangerous and violent. But it's not until their home is invaded that Gair learns of a

dying curse that endangers all three peoples of the Moor. A curse that ordinary Gair, with the help of his extraordinary brother and sister, may be able to break, but only at the most dreadful risk to all three, and to the Moor itself. The Godmother of Silicon Valley, legendary teacher, and mother of a Super Family shares her tried-and-tested methods for raising happy, healthy, successful children using Trust, Respect, Independence, Collaboration, and Kindness: TRICK. Esther Wojcicki--"Woj" to her many friends and admirers--is famous for three things: teaching a high school class that has changed the lives of thousands of kids, inspiring Silicon Valley legends like Steve Jobs, and raising three daughters who have each become famously successful. What do these three accomplishments have in common? They're the result of TRICK, Woj's secret to raising successful people: Trust, Respect, Independence, Collaboration, and Kindness. Simple lessons, but the results are radical.

Wojcicki's methods are the opposite of helicopter parenting. As we face an epidemic of parental anxiety, Woj is here to say: relax. Talk to infants as if they are adults. Allow teenagers to pick projects that relate to the real world and their own passions, and let them figure out how to complete them. Above all, let your child lead. How to Raise Successful People offers essential lessons for raising, educating, and managing people to their highest potential. Change your parenting, change the world. **NOW INCLUDING THE FIRST CHAPTER OF DEMON COPPERHEAD: THE NEW BARBARA KINGSOLVER NOVEL** **DEMON COPPERHEAD IS AVAILABLE NOW FOR PRE-ORDER** An international bestseller and a modern classic, this suspenseful epic of one family's tragic undoing and their remarkable reconstruction has been read, adored and shared by millions around the world. Enjoy a Hanukkah tale full of wonder and miracles from the author of the classic Hershel and the Hanukkah Goblins. Before Simon sails to America, he promises his family that he will get a job and send for them. Simon's mother knows he will need a miracle, so she reminds him to celebrate Hanukkah wherever he may be. Little does either of them know that Simon will spend

the first night of Hanukkah on an ice floe after his ship sinks. The lone survivor out in the wide ocean, Simon lights the first candle, and it attracts a visitor: a polar bear. Does she eat him? No! She shares his latkes, enjoys his songs, goes fishing for him, and even keeps him warm at night. By the last day of Hanukkah, Simon has nearly given up hope of ever being rescued. But then he recounts all of the miracles that have befallen him so far. Perhaps it is not too much to hope for one more, he thinks, as he lights all of the candles in the menorah. The bright glow signals a passing ship, and Simon makes it to New York after all. This fanciful Hanukkah tale -- like none you've ever read before -- celebrates eight miracles: family, friendship, hope, selflessness, sharing, faith, courage, and love. From the author of the Caldecott Honor-winning classic *Hershel and the Hanukkah Goblins* comes a gorgeously illustrated fantasy Hanukkah tale full of miracles, from sharing latkes with a polar bear to surviving a Titanic-

like sinking. The story behind the ancient holiday is included at the end. The real-life Nickel and Dimed—the author of the wildly popular “Poverty Thoughts” essay tells what it’s like to be working poor in America. ONE OF THE FIVE MOST IMPORTANT BOOKS OF THE YEAR--Esquire “DEVASTATINGLY SMART AND FUNNY. I am the author of Nickel and Dimed, which tells the story of my own brief attempt, as a semi-undercover journalist, to survive on low-wage retail and service jobs. TIRADO IS THE REAL THING.”—Barbara Ehrenreich, from the Foreword As the haves and have-nots grow more separate and unequal in America, the working poor don’t get heard from much. Now they have a voice—and it’s forthright, funny, and just a little bit furious. Here, Linda Tirado tells what it’s like, day after day, to work, eat, shop, raise kids, and keep a roof over your head without enough money. She also answers questions often asked about those who live on or near minimum wage: Why don’t they get better jobs? Why don’t

they make better choices? Why do they smoke cigarettes and have ugly lawns? Why don't they borrow from their parents? Enlightening and entertaining, *Hand to Mouth* opens up a new and much-needed dialogue between the people who just don't have it and the people who just don't get it. Award-winning Marcia L. Tate provides a research-based road map for raising children to reach their fullest potential and strategies for helping young brains "grow dendrites." Family is about love no matter how different parents and children may be, adopted or not. Choco wishes he had a mother, but who could she be? He sets off to find her, asking all kinds of animals, but he doesn't meet anyone who looks just like him. He doesn't even think of asking Mrs. Bear if she's his mother-but then she starts to do just the things a mommy might do. And when she brings him home, he meets her other children-a piglet, a hippo, and an alligator-and learns that families can come in all shapes and sizes and still fit together. Keiko Kasza's twist on the "Are you my

mother?" theme has become one of the most highly recommended stories about adoption for children. And their home is nothing like she'd expected, like nothing the Freds had prepared them for."--Back cover Jay and Nia are the children of two worlds, and as they will discover, they can enjoy the best of both. From Mommy's jazz beats to Daddy's classical piano, we will dance with the twins through a book that explores what it is to be of mixed ancestry, proving that a child is more than the sum of their parents. Created to be socially and environmentally conscious, *I AM MIXED* is printed on 100% recycled paper. "I Am Mixed is an invaluable teaching tool that all children from all races can learn from." - HALLE BERRY (from her foreword) "My son, as well as all of his friends, are mixed and they don't know any different. I don't know who this book is better for, the children of this generation or their parents. This book is a wonderful celebration of the beauty of coming from mixed ethnicities and

cultures!" - JAIME PRESSLY (My Name is Earl)
"Such a cute book with great illustrations and a sweet message." - HEIDI KLUM (America's Got Talent) "As a mother of a mixed-race child, I hope my daughter grows up to be proud of who she is and what makes her unique. I Am Mixed is a beautiful, sweet story that encourages children to look within themselves and appreciate the distinct heritage that makes each person special. It reminds us that our diverse cultures and traditions are things that should be honored and treasured." - LAURA LING Some of my favorite books as a kid were the Giving Tree and Bringing the Rain to Kapiti Plain. This is right there with those. Really. No tissue stuffing. It's beautifully illustrated and sincere. Well done Stranger Kids." - AFUA RICHARDSON (Top Cow Comics) In his day, Christopher Pearse Cranch (1813-1892) was a well-known figure in American arts and letters, with close ties to the New England Transcendentalists. Though Cranch made his mark in fields ranging from

poetry and journalism to caricature and oil painting, his most enduring achievements are his novels for children. Collected here for the first time in one volume, these three works - The Last of the Huggermuggers, Kobboltozo: A Sequel to the Last of the Huggermuggers, and The Legend of Dr. Theophilus; or, The Enchanted Clothes - establish Cranch as a pioneer in American fantasy fiction. Until now, these texts have been largely inaccessible. Huggermuggers (1866) and Kobboltozo (1867) went through several printings during the last half of the nineteenth century but have not been reissued since 1901. The manuscript of Cranch's third and last novel, The Legend of Dr. Theophilus, disappeared around 1870 and did not resurface until the 1980s. It has never before been published. As the editors explain in their introduction, Cranch was the first American author to write novel-length works solely for children, and to fuse elements of fantasy and adventure. In an era when most juvenile books

emphasized moral rectitude and acquiescence to adult authority, Cranch put a higher premium on humor and the imaginative aspects of storytelling. *Huggermuggers* and *Kobboltozo* relate the still-entertaining escapades of a shipwrecked American boy, Jacky Cable, and the gentle giants and evil dwarfs who inhabit the unknown island on which he is marooned. In *Dr. Theophilus Cranch* takes children to a faraway place where the sun cannot penetrate the fog and where a suit of enchanted clothes can cause mayhem and grief. True to the novel's closing lines - "For the young, a magic story. For the old, an allegory" - Cranch also satirizes the medical profession and his society's stunting reverence for the past. The editors note superficial parallels between Cranch's novels and *Robinson Crusoe*, *Gulliver's Travels*, and the English "Jack Tales," but they believe that Cranch's stories actually belong more to the tradition of Hans Christian Andersen and the Brothers Grimm, earlier masters at combining elements of fantasy

and adventure. They also detect in Cranch's heroes a thoroughly American self-reliance and resourcefulness. Written during an important transition in the history of American children's literature, these three novels are of special interest to scholars of American Romanticism. Perhaps most important of all they have not lost their attraction for young readers. The presence in this volume of eleven of Cranch's original illustrations for *Huggermuggers* and *Kobboltozo* only enhances the stories' imaginative appeal. Sami and Stella are best friends and neighbors. When Jasmine moves in across the street, a friendship triangle begins. The girls learn how to adjust and make room for one more. What happens when our lives spin out of control because we are so busy and overcommitted? The negative consequences of such a lifestyle are well known, but few of us are able to put on the brakes so that we can truly enjoy the gift of one another. Tim and Sue Muldoon take both a meditative and practical approach to this issue.

They help us experience the peace that only God can give, and they also share what has and hasn't worked in their own family. While there is no magic bullet, the Muldoons show us that when we put God first in our lives, our other priorities fall into line as well. That makes it possible to discern the best ways to spend our time, both individually and collectively, to build a strong foundation of lasting family relationships. A series of candid reflections by the youngest of three sisters on her daily relationships with her older sisters and family. In *Detox Your Thoughts*, popular psychologist Andrea Bonior, PhD, identifies the 10 most prevalent mental traps that make people feel anxious, insecure, and generally just bad. Clinical psychologist Andrea Bonior has spent over twenty years studying, teaching, and practicing the science of thoughts, emotions, and behavior. In *Detox Your Thoughts*, she uses the latest research into mindfulness, Acceptance and Commitment Therapy (ACT), and Cognitive-

Behavioral Therapy (CBT) to teach you to understand your thoughts—and your body—in a completely different way. To challenge negative self-talk, you must change the way you relate to your thoughts altogether. Bonior shows us how to create new mental pathways that truly stick. For each of the ten mental traps, Bonior offers a new habit to practice, including: • leaning in to your feelings • recognizing and counteracting your blind spots to gain insight • valuing the present moment, and immersing yourself in it. Bonior deciphers the latest research in psychology and neuroscience to help disempower and conquer self-sabotaging thoughts with specific and actionable steps. You're not erasing negative thoughts, but rather growing bigger than they are—and improving your mental and emotional life along the way. • Dr. Andrea Bonior is a popular psychologist and contributor to BuzzFeed and the Washington Post. • *Detox Your Thoughts* was inspired by her popular BuzzFeed challenge of the same name. •

Dr. Bonior's mental health advice column, "Baggage Check," has appeared for 14 years in the Washington Post and several other newspapers nationwide. With bite-sized psychology takes on the thought patterns that plague most people and a practical approach to quitting negative self-talk for good, *Detox Your Thoughts* is a transformational read. • Perfect for readers of the Washington Post's "Baggage Check" column, Goodful's *Detox Your Thoughts*, *Psychology Today*, and *The Cut's* "Science of Us." • Also a good fit for those who love pop psychology, self-help books, and any books related to motivation or happiness. • Fans of *Anxious for Nothing: Finding Calm in a Chaotic World* by Max Lucado, *13 Things Mentally Strong People Don't Do* by Amy Morin, and *Dare: The New Way to End Anxiety and Stop Panic Attacks* by Barry McDonagh will want this. Audio edition read by the author. Craig Juntunen appeared to have it all. He sold his company at the age of 40, and set out to live the good life of

retirement. But he soon began to feel something was lacking. When a friend told him the story of adopting two girls from Haiti, Craig's emptiness gave way to a sense of adventure. On a trip to the desperate Third World nation, a country wracked by poverty, corruption and kidnappings, his self-serving lifestyle began a very profound transformation. At an orphanage outside of Port-Au-Prince Craig encountered Espie, Amelec and Quinn. Even after decades of table-pounding declarations he would never have children, at 51 Craig became a dad. This inspirational story of an unexpected journey and personal transformation will say many things to different people. But for all it delivers a powerful reminder of our responsibility to reach out and be there for kids. "Craig's story is very compelling and very real. It demonstrates the beauty of the adoption story....everybody wins. You start out by providing a home for a child but you end up providing more for yourself than you ever imagined."
