La vendetta è pericolosa, ma l' amore è un gioco ancora più letale. Solo una persona che mi ha tradito è ancora viva: mio padre. Per me non c' è niente che abbia più importanza di fargliela pagare e strappare mia sorella dalle sue mani. Ma i miei tentativi di salvarla lo hanno solo reso paranoico, e ora la ragazza che volevo salvare è costretta a sposare un socio d' affari di mio padre, tutto a causa mia. Ho cercato di tenere a distanza il Quad, i quattro uomini che non riesco a smettere di amare, ma la tentazione che offrono è più forte della mia forza di volontà . Continuo a ripetermi che è solo una cosa fisica e che non mi fido di loro, ma, con il passare dei giorni, mantenere salde le mie convinzioni diventa sempre più difficile. Non sono mai stata così in pericolo e i nemici ormai mi circondano. Non credo ci sarà un lieto fine per me, anzi, più vado avanti e più sono certa che morirò , e questa volta sarà per sempre. Per tutti noi l'assunzione quotidiana di caffeina coincide nientemeno che con la «condizione normale della coscienza». Eppure, quell'alcaloide naturale è a tutti gli effetti una droga, come rivela l'«esperimento di privazione» cui Michael Pollan si è sottoposto, trovandosi afflitto via via da mal di testa, letargia e «intensa angoscia». Per cercare di rispondere alla domanda cruciale da cui è partito - che cosa sia esattamente una droga -, Pollan intreccia reportage, «memoir» e saggio scientifico, spaziando attraverso varie discipline e concentrandosi soprattutto su tre molecole psicoattive: oltre alla caffeina, l'oppio, il cui effetto - secondo il poeta vittoriano Robert Bulwer-Lytton - è assimilabile al «sentirsi accarezzare l'anima dalla seta», e la mescalina, la più «sacra», che permise ad Aldous Huxley di vedere il mondo nella sua autentica «bellezza, minuzia, profondità e "quiddità"». Da questo affascinante percorso emerge ogni aspetto di queste sostanze, e in particolare la loro «natura bifronte»: il loro essere cioè «veleni» e «attrattori» al tempo stesso, in grado da un lato di dissuadere gli animali dal mangiare le piante che le producono, dall'altro di spingerli a utilizzarle accrescendo così la loro espansione ecologica: la caffeina contenuta nel nettare di certe piante, per esempio, rende le api impollinatrici «più affidabili, efficienti e

industriose». Un'ambiguità che contraddistingue anche il millenario rapporto con le «droghe» degli esseri umani - e spiega come mai, sul piano evolutivo e culturale, «quella che era iniziata come una guerra» nei loro confronti si sia «trasformata in un matrimonio». The Maltese Dialogue is the first comprehensive treatise of the history, institutions, and political projects of the Order of the Knights of Saint John of the Hospital, commonly known as the Maltese Order. It was written during the tenure of Grand Master Fra Claude de la Sengle (1553-1557), although the conversation between Commendator Fra Giuseppe Cambiano, one of the Order's most prominent sixteenth-century functionaries, and three Venetian patricians, on which the Dialogue is based, may have taken place even earlier. The contents of the Dialogue fall in three categories: the opening section is the first detailed precis of the Hospitallers' history; then comes the bulk of the treatise, presenting a concise summary of the Order's constitution, institutional and legal organization, election procedures, recruitment of knights, rituals of instalment, and financial matters. The remaining section is a polemical expose arguing for the benefit of the Order's abandoning of Malta and the recapturing of Tripoli. The Dialogue offers a hitherto unexplored, first-rate source on the Maltese knights' self-projection as a unique transnational institution of early modern Europe in the era of nation-states, on the power plays of the major political agents in the sixteenth-century Mediterranean, and on Western Christian strategies of engagement of Ottoman imperialism at the peak of its expansion in the region. Those interested in the history of Christian-Muslim interaction, the evolution of crusading practices in the era of early modern predatory warfare, and the construction of historical memory on the case study of the longest-lasting, and still extant, knightly order, will find it to be a highly intriguing and informative reading. The book talks about the design and construction of the building 774 at CERN. The building 774 is a unique building both for its architectural value and for its location. Located in front of the CCC (Control Center) at CERN is the main door of more than 100,000 tourists come visiting CERN each year. This groundbreaking work is the first full book-length publication to critically engage in the emerging field of research on the queer aspects of translation and interpreting studies. The volume presents a variety of theoretical and disciplinary perspectives through fifteen contributions from both established and up-and-coming scholars in the field to demonstrate the interconnectedness between translation and queer aspects of sex, gender, and identity. The book begins with the editors' introduction to the state of the field, providing an overview of both current and developing lines of research, and builds on this foundation to look at this research more closely, grouped around three different sections: Queer Theorizing of Translation; Case Studies of Queer Translations and Translators; and Queer Activism and Translation. This interdisciplinary approach seeks to not only shed light on this promising field of research but also to promote cross fertilization between these disciplines towards further exploring the intersections between queer studies and translation studies, making this volume key reading for students and scholars interested in translation studies, queer studies, politics, and activism, and gender and sexuality studies. Proceedings from an ICREA/ESF Exploratory Workshop on the subject of late Roman fine wares, held in Barcelona (2008), the main aim being the clarification of problems regarding the typology and chronology of the three principal table wares found in Mediterranean contexts (African Red Slip Ware, Late Roman C and Late Roman D). In questo lavoro "Progettare Paesaggio, Landscape as Infrastructure" si confrontano: da un lato le stimolanti proposte progettuali redatte dal gruppo di studenti della Harvard Graduate School of Design guidati dalla docente Paola Cannavò; dall'altro l'analisi del territorio portuense ed ostiense e delle possibili future trasformazioni del contesto paesaggistico determinate dai progetti infrastrutturali, in fase di realizzazione o di valutazione, con ipotesi di linee guida per la riqualificazione e la valorizzazione di questa area, intesa come complesso palinsesto storico e paesaggistico, al fine di rendere evidenti le modalità procedurali di quella reale tutela attiva e dinamica del paesaggio affidata al Ministero per i beni e le attività culturali e da sempre svolta. [ANTONIA P. RECCHIA - Direttore Generale, Direzione Generale per il paesaggio, le belle arti, l'architettura e l'arte contemporanee, MiBAC] The project "Progettare Paesaggio, Landscape as Architecture" combines the inspiring design proposals drafted by a group of students of the Harvard Graduate School of Design headed by the teacher

Paola Cannavò with a study of the portuense and ostiense areas and how the landscape might change due to the construction of new infrastructure, either being completed or in the design stage. The study includes guidelines for the requalification and enhancement of the area considered as a complex historical landscape; it also highlights the past and present active and dynamic protection measures and procedures adopted by the Italian Ministry of Cultural Heritage and Activities. [ANTONIA P. RECCHIA - Director General, Directorate General for the landscape, fine arts, architecture and contemporary art, MiBAC] "Questa pubblicazione e la ricerca progettuale qui documentata, propongono una opportuna testimonianza delle sfide contemporanee della forma urbana, del processo ecologico e dello sviluppo economico affrontato dalla capitale italiana." "Evidenziando gli impulsi complessi e contraddittori di tipo ecologico ed economico di un paesaggio portuale attivo, Cannavò propone un nuovo ruolo chiave per l'architettura del paesaggio come strumento urbanistico. Così facendo promuove una posizione italiana all'interno del dibattito contemporaneo sul Landscape Urbanism e l'Ecological Urbanism fornendo al contempo una prospettiva futura per l'urbanistica, anche nell'area di Fiumicino." [CHARLES WALDHEIM - Direttore, Dipartimento di Architettura del Paesaggio, Harvard Graduate School of Design] "This publication, and the design research that it documents, offers timely evidence of the contemporary challenges of urban form, ecological process, and economic development faced by the Italian capital." "Highlighting the complex and contradictory ecological and economic impulses of a working port landscape, Cannavò proposes a renewed relevance for landscape architecture as a medium of urbanism. In so doing, she stakes an Italian position in the contemporary discourses of landscape urbanism and ecological urbanism, while pointing to a way forward for urbanism, even in the fields of Fiumicino." [CHARLES WALDHEIM - Chair, Department of Landscape Architecture, Harvard Graduate School of Design] Now featuring a brand-new design and integration of short film, the newly-revised PONTI: ITALIANO TERZO MILLENNIO provides an up-to-date look at modern Italy, with a renewed focus on helping the second year student bridge the gap from the first year. With its innovative integration of cultural content and technology, the Third Edition encourages students to expand on chapter themes through web-based exploration and activities. Taking a strong communicative approach, the book's wealth of contextualized exercises and activities make it well suited to current teaching methodologies, and its emphasis on spoken and written communication ensures that students express themselves with confidence. Students will also have the chance to explore modern Italy with a cinematic eye through the inclusion of five exciting short films by Italian filmmakers. La coinvolgente storia di Marco e dei suoi amici, che lo accompagnano lungo il percorso che compie, insieme a Sara, verso una vita nuova, nonostante la grave malattia che deve affrontare. Ambientato lungo la valle del Metauro, in un ambiente pieno di storia e di natura intatta, ripercorre il cammino difficile, affrontato con ironia e voglia di vivere, da una condizione di normalità insoddisfacente a una di invalidità pienamente appagante, con un aiuto che viene da lontano nel tempo ma è sempre lì accanto, Margherita. Background There are some researches covering the topic of this research. In what follows, there are some discussion and literature reviews about them. \ First article is titled "properties of SuperHyperGraph and neutrosophic SuperHyperGraph" in **Ref.** **HG1** by Henry Garrett (2022). It's first step toward the research on neutrosophic SuperHyperGraphs. This research article is published on the journal "Neutrosophic Sets and Systems" in issue 49 and the pages 531-561. In this research article, different types of notions like dominating, resolving, coloring, Eulerian(Hamiltonian) neutrosophic path, n-Eulerian(Hamiltonian) neutrosophic path, zero forcing number, zero forcing neutrosophic-number, independent number, independent neutrosophic-number, clique number, clique neutrosophic-number, matching number, matching neutrosophic-number, girth, neutrosophic girth, 1-zero-forcing number, 1-zero-forcing neutrosophic-number, failed 1-zero-forcing number, failed 1-zero-forcing neutrosophic-number, global-offensive alliance, t-offensive alliance, t-defensive alliance, t-powerful alliance, and global-powerful alliance are defined in SuperHyperGraph and neutrosophic SuperHyperGraph. Some Classes of SuperHyperGraph and Neutrosophic SuperHyperGraph are cases of research. Some results are applied in family of SuperHyperGraph and neutrosophic SuperHyperGraph. Thus this research article has concentrated on the vast notions and introducing the majority of notions. \ The seminal paper and groundbreaking article is titled "neutrosophic co-degree and neutrosophic degree alongside chromatic numbers in the setting of some classes related to neutrosophic hypergraphs" in **Ref.** **HG2** by Henry Garrett (2022). In this research article, a novel approach is implemented on SuperHyperGraph and neutrosophic SuperHyperGraph based on general forms without using neutrosophic classes of neutrosophic SuperHyperGraph. It's published in prestigious and fancy journal is entitled "Journal of Current Trends in Computer Science Research (JCTCSR)" with abbreviation "J Curr Trends Comp Sci Res" in volume 1 and issue 1 with pages 06-14. The research article studies deeply with choosing neutrosophic hypergraphs instead of neutrosophic SuperHyperGraph. It's the breakthrough toward independent results based on initial background. \ The seminal paper and groundbreaking article is titled "Super Hyper Dominating and Super Hyper Resolving on Neutrosophic Super Hyper Graphs and Their Directions in Game Theory and Neutrosophic Super Hyper Classes" in **Ref.** **HG3** by Henry Garrett (2022). In this research article, a novel approach is implemented on SuperHyperGraph and neutrosophic SuperHyperGraph based on fundamental SuperHyperNumber and using neutrosophic SuperHyperClasses of neutrosophic SuperHyperGraph. It's published in prestigious and fancy journal is entitled "Journal of Mathematical Techniques and Computational Mathematics(JMTCM)" with abbreviation "J Math Techniques Comput Math" in volume 1 and issue 3 with pages 242-263. The research article studies deeply with choosing directly neutrosophic SuperHyperGraph and SuperHyperGraph. It's the breakthrough toward independent results based on initial background and fundamental SuperHyperNumbers. \ In some articles are titled "0039 | Closing Numbers and Super-Closing Numbers as (Dual)Resolving and (Dual)Coloring alongside (Dual)Dominating in (Neutrosophic)n-SuperHyperGraph" in **Ref.** **HG4** by Henry Garrett (2022), "0049 | (Failed)1-Zero-Forcing Number in Neutrosophic Graphs" in **Ref.** **HG5** by Henry Garrett (2022), "Extreme SuperHyperClique as the Firm Scheme of Confrontation under Cancer's Recognition as the Model In The Setting of (Neutrosophic) SuperHyperGraphs" in **Ref.** **HG6** by Henry Garrett (2022), "Uncertainty On The Act

Sono sempre più numerosi i progetti di Edizioni Critiche Digitali che permettono di studiare, per mezzo di sistemi open source, il processo di genesi ed evoluzione delle opere attraverso la rappresentazione e interpretazione delle varianti d'autore. Il Seminario Internazionale ECD/DCE Edizioni a confronto/Comparing editions - organizzato nell'ambito del Progetto multidisciplinare THESMA (Sapienza Ricerca 2014) - ha riunito i maggiori esperti in Italia e in Europa di DH per presentare alla comunità scientifica internazionale i principali modelli di edizioni critiche digitali realizzati sulle opere di grandi autori italiani ed europei, da Leopardi a Gadda, da Jane Austen a Proust, da Nietzsche a Pessoa. There is an increasing number of Digital Critical Editions which clarify, by means of open source systems, the genetic process and the evolution of literary works. This has been achieved by representing and interpreting the author's variants. The International Conference ECD/DCE Edizioni a confronto/Comparing Editions - organised within multidisciplinary THESMA PROJECT (Sapienza Research 2014) - has shown to the scientific community the main models of digital critical editions, produced at national and international levels, on the works by important Italian and European writers, from Leopardi to Gadda, Jane Austen to Proust, Nietzsche to Pessoa. A major bestseller in Italy, Paul Ginsborg's account of this most recent and dynamic period in Italy's history is essential reading for anyone wishing to understand contemporary Italy. Ginsborg chronicles a period that witnessed a radical transformation in the country's social, economic and political landscape, creating a fascinating and definitive account of how Italy has coped or failed to cope as it moves from one century to the next. With particular emphasis on its role in Italian life, work and culture Ginsborg shows how smaller families, longer lives and greater generation crossover have had significant effects on Italian society. Ginsborg looks at the 2000 elections, the influence of the Mafia, the decline of both Communism and Catholicism, and the change in national identity. This is modern history at its best. Der Tagungsband enthält eine Auswahl von 41 Vorträgen, welche von den Wissenschaftlern der IPS am 11. Symposium Platonicum in Brasilien unter der Schirmherrschaft der University of Brasília gehalten wurden. Der Band behandelt alle wichtigen Fragen im Zusammenhang mit der Interpretation von Platons Phaidon und der Rezeption dieses zentralen Dialogs in der gesamten Antike. A sette anni dalla pubblicazione di "Iniziazione agli amori karmici", Paolo Crimaldi ha avvertito l'esigenza di proseguire ciò che in nuce era presente in quel libro. Interrogandosi su quali siano gli amori capaci di cambiare la vita, attraverso anche una serie di esperienze personali, è giunto alla conclusione che non c'è un'unica modalità esperienziale di amore destinico, ma sono differenti le opportunità che una relazione affettiva offre per poter cambiare la propria vita, e in genere il momento in cui esse giungono è proprio quello in cui si è maggiormente predisposti a un tale cambiamento, a sradicarsi da atteggiamenti e convinzioni che non ci sostengono più in nulla e che, anzi, tendono a rendere insoddisfacente la nostra esistenza. Lo scopo di questo libro è quello di offrire una serie di spunti di riflessione, delle storie in cui potersi in parte riconoscere e che possano aiutare a non sentirsi soli dinanzi a situazioni simili già vissute o che si potrebbero vivere in futuro. Fornisce inoltre delle tecniche di terapia karmica che possono in qualche modo essere utilizzate per riuscire ad apportare cambiamenti nella propria vita, a superare schemi e modelli affettivi che impediscono di vivere a fondo una relazione affettiva, ma che aiutano a comprendere cosa e perché essa ha da insegnarci e, di riflesso, riuscire così a viverla in tutto il suo

potenziale. Grazie a questo libro sarai in grado di identificare meglio cosa motiva le persone, come pensano e come prendono decisioni, in modo da: • comunicare efficacemente con chiunque; • eliminare le difficoltà nell'implementare il cambiamento nelle organizzazioni; • abbreviare i cicli di vendita e garantire la customer satisfaction; • progettare potenti campagne di marketing e pubblicità; • migliorare i risultati nella negoziazione; • creare team ad alto rendimento, gestendo i punti di forza delle persone. Una NUOVA EDIZIONE completamente aggiornata e arricchita con nuovi esempi, ricerche, applicazioni e 7 nuovi capitoli dedicati alla risoluzione dei problemi di comunicazione e alle strategie di influenza. Dopo averci fatto capire che Ciascuno è perfetto e che Non siamo nati per soffrire, Morelli propone un approccio all'esistenza a tutto tondo, capace, nella sua elementare radicalità, di dare una vera svolta alla nostra vita. La trama del libro Con questo libro, l'autore, partendo dal paradigma dei sistemi complessi, la cui struttura è qualcosa di molto diversa nonché superiore alla semplice somma delle singole parti che li compongono, cerca di unire gli Uomini, tra loro e con la Natura, in un unico progetto di speranza e ottimismo. Benché, in relazione alla sua professione di Medico, egli estende detto paradigma soprattutto al campo della Medicina, vi sono tuttavia dei collegamenti anche con altre discipline umanistiche e con le varie vicende umane e istituzionali, al fine di indurre, con le idee che propone, attività e comportamenti verso il cosiddetto "Bene comune". Non a caso come copertina ha scelto la foto di un'alba estiva - quella di Ponza, la sua isola nativa - come simbolo di nascita di un nuovo e radioso giorno. La motivazione del titolo, "Le ragioni dell'Essere", può essere riassunta in queste frasi che si trovano all'ultimo capitolo del libro: "Siamo immersi in un più ampio progetto a più dimensioni le quali ci condizionano per un fine più grande della nostra umana comprensione. Esiste probabilmente una legge, un linguaggio misterioso, un progetto da compiere, per l'organismo e per la Vita in genere. Un disegno che guida gli eventi anche attraverso le generazioni, come se oltre l'ereditarietà genetica ce ne fosse una di tipo morale, una specie di nemesis, (giustizia compensatrice o giustizia divina) che si attiva e si collega a chissà quale strano meccanismo che poi giudica e sentenzia, secondo l'ordine morale delle cose". Inoltre, per rendere la lettura più piacevole, il libro è stato arricchito con diverse citazioni e poesie. La foto della copertina è stata gentilmente offerta da Gennaro Mazzella da Ponza.
