Governance for Drought Resilience Aug 31 2020 This book presents the findings of a team of scientists and practitioners who have been working on the project "Benefits of Governance in Drought Adaptation" (in short: the DROP project), which is included in the European Union's INTERREG IVB NWE programme. The DROP governance team developed a Governance Assessment Tool (GAT), which allows the governance setting of a given region for planning and realizing drought adaptation measures to be assessed. Based on this assessment, recommendations can be developed for regional water authorities concerning how to operate most effectively towards increased drought resilience in this context. The GAT has been applied to six regions in Northwest Europe: Twente and Salland in the Netherlands, Eifel-Ruhr in Germany, Brittany in France, Somerset in the United Kingdom, and Flanders in Belgium. These regions are subject to drought aspects related to nature, agriculture and freshwater. This book will aid regional water authorities and

other relevant stakeholders interested in governance assessment, whether that context is about water, more specifically about drought or flooding events, or other environmental issues.

Further, the GAT can and has also been applied more broadly to a range of governance contexts for water management and beyond.

Gluten-Free Food Science and Technology Jun 29 2020

Coeliac disease (CD) and other allergic reactions/intolerances to gluten are on the rise, largely due to improved diagnostic procedures and changes in eating habits. The worldwide incidence of coeliac disease has been predicted to increase by a factor of ten over the next number of years, and this has resulted in a growing market for high quality gluten-free cereal products. However, the removal of gluten presents major problems for bakers. Currently, many gluten-free products on the market are of low quality and short shelf life, exhibiting poor mouthfeel and flavour. This challenge to the cereal technologist and baker alike has led to the search for alternatives to gluten in the manufacture of gluten-free bakery products. This volume provides an overview for the food industry of issues related to the increasing prevalence of coeliac disease and gluten intolerance. The properties of gluten are discussed in relation to its classification and important functional characteristics, and the nutritional value of gluten-free products is also addressed. The book examines the diversity of ingredients that can be used to replace gluten and how the ingredient combinations and subsequent rheological and manufacturing properties of a range of gluten-free products, e.g. doughs, breads, biscuits and beer may be manipulated. Recommendations are given regarding the most suitable ingredients for different gluten-free products. The book is directed at ingredient manufacturers, bakers, cereal scientists and coeliac associations and societies. It will also be of interest to academic food science departments for assisting with

undergraduate studies and postgraduate research. Knowledge Translation in Health Care Jun 09 2021 Health care systems worldwide are faced with the challenge of improving the quality of care. Providing evidence from health research is necessary but not sufficient for the provision of optimal care and so knowledge translation (KT), the scientific study of methods for closing the knowledge-to-action gap and of the barriers and facilitators inherent in the process, is gaining significance. *Knowledge Translation in Health Care* explains how to use research findings to improve health care in real life, everyday situations. The authors define and describe knowledge translation, and outline strategies for successful knowledge translation in practice and policy making. The book is full of examples of how knowledge translation models work in closing the gap between evidence and action. Written by a team of authors closely involved in the development of knowledge translation this unique book aims to extend understanding and implementation worldwide. It is an introductory guide to an emerging hot topic in evidence-based care and essential for health policy makers, researchers, managers, clinicians and trainees.

Bedrijfskunde Oct 14 2021 Wie de ambitie heeft om te gaan ondernemen of dat al doet, moet van vele markten op zijn minst een behoorlijke basiskennis hebben. Deze uitgave brengt die kennis bij elkaar. Na een inleidend hoofdstuk over wat ondernemen wil zeggen, overloopt ze één na één alle essentiële elementen, zoals belangrijke economische begrippen, vennootschapsvormen met speciale aandacht voor de 'handelszaak', boekhouding, jaarrekening, kostprijscalculatie, investering, budgettering, financiële analyse,... Een apart hoofdstuk is besteed aan het opstarten van een eigen onderneming. De auteur voegt vele voorbeelden en cases toe. Zo wordt de jaarrekening besproken aan de hand van reële gegevens van een bestaand bedrijf. "Dit boek lijkt dik, maar leest als een trein..." Robin Demeeter, ondernemer pur sang "Als je het reilen en zeilen van een onderneming wil kennen, is dit boek echt de moeite" Prof. dr. Ronald Buyl "Poelaert verstaat de kunst om concrete zaken in verband met de onderneming aan te brengen. Geen overbodige ballast ... alleen de kern van bedrijfseconomie wordt toegelicht. Het hoofdstuk over boekhouden en kostprijscalculatie is een juweeltje van pedagogische aanpak. Eerst kort de theorie en dan onmiddellijk toegepast in realistische cases." Francis Cornelis, boekhouder "Dit boek puilt uit van concrete en toepasbare bedrijfskundige concepten. De opbouw

van het boek is zodanig dat de lezer stap voor stap inzicht krijgt in de operationele en financiële werking van de onderneming. Kostprijscalculatie wordt vaak gezien als een moeilijke opdracht. Met dit boek krijgt de lezer tools in handen die het berekenen van kostprijzen van producten plots eenvoudig maken...” Karel van den Berghe, bedrijfsleider Globis “Een must voor elke verantwoordelijke manager...” Lode Degeyter, algemeen directeur van de Hogeschool West-Vlaanderen “Dit schitterende boek kan ik elke beginnende ondernemer aanraden.” Steve Stevens, ondernemer en manager Durf Ondernemen UGent “Beschouw dit werk maar als een referentie in de beginselen van bedrijfseconomie. De verdienste is vooral dat het boek elke ondernemer en manager zal weten te prikkelen: van economische concepten tot vennootschapsvormen over kostprijscalculatie en financiële analyse van de onderneming. Alles wordt in een bevattelijke taal concreet en helder gebracht. Een aanrader...” Kurt Cofyn, Chief Operating Ofcer Cargill “Ondernemen is risico durven nemen. Ondernemen is durven buiten de lijntjes kleuren. Ondernemen vereist daarnaast ook grondige kennis van de economische context waarbinnen men opereert. Verder is men het aan zichzelf verplicht om een minimum aan financiële bagage te hebben. Dit vlot geschreven boek helpt je moeiteloos op weg...” Pol Descamps, oud-directeur-beheerder eigenaar Barco Industries “Bedrijfskunde is een breed studiegebied. Poelaert is erin geslaagd om de 5 kernaspecten ervan duidelijk en helder te belichten. De cases geven duidelijk inzicht in soms complexe vraagstukken...” Dirk Laverge, docent economie aan de Hogeschool West-Vlaanderen

Heb jij de nodige ondernemersvaardigheden? Test het in dit boek. Moet ik echt een bvba'tje opzetten of doe ik gewoon een eenmanszaak? Is een eenmanszaak belast via de personenbelasting of via de vennootschapsbelasting? Hoe lees ik een balans? En een resultatenrekening? Hoe wordt de winst in de onderneming uiteindelijk “bestemd”? Afschrijven? Waarom doet men dat? Wat

is het nut voor de vennootschap ervan? Waarom zijn afschrijvingskosten geen kaskosten en zijn kosten van huur dat wel? Als ik als ondernemer iemand aanneem als bediende, wat is dan grosso modo de kost van die persoon voor de onderneming? Ik maak in mijn onderneming winst kwartaal na kwartaal. Toch staat er op de bankrekening van de onderneming onvoldoende geld. Hoe komt dat toch? Ik wil een onderneming starten en heb schrik van alle administratieve rompslomp. Waar kan ik terecht? Hoe kan ik als ondernemer beter mijn boekhouder begrijpen, opvolgen en zelfs kritisch "teasen"? Moet ik echt een boekhouding kunnen voeren om te ondernemen? Ik wil investeren in een machine. Hoe bereken ik het rendement van mijn investering? Hoe kan ik als ondernemer de kost van mijn producten/diensten/departementen berekenen? Het zijn allemaal praktische vragen waarop je in dit boek een helder antwoord krijgt.

The Normans Sep 24 2022 "Lars Brownworth's *The Normans* is like a gallop through the Middle Ages on a fast warhorse. It is rare to find an author who takes on a subject so broad and so complex, while delivering a book that is both fast-paced and readable." Bill Yenne, author of *Julius Caesar: Lessons in Leadership from the Great Conqueror* "An evocative journey through the colourful and dangerous world of early medieval Europe" Jonathan Harris, author of *Byzantium and the Crusades* There is much more to the Norman story than the Battle of Hastings. These descendants of the Vikings who settled in France, England, and Italy - but were not strictly French, English, or Italian - played a large role in creating the modern world. They were the success story of the Middle Ages; a footloose band of individual adventurers who transformed the face of medieval Europe. During the course of two centuries they launched a series of extraordinary conquests, carving out kingdoms from the North Sea to the North African coast. In *The Normans*, author Lars Brownworth follows their story, from the first shock of a Viking

raid on an Irish monastery to the exile of the last Norman Prince of Antioch. In the process he brings to vivid life the Norman tapestry's rich cast of characters: figures like Rollo the Walker, William Iron-Arm, Tancred the Monkey King, and Robert Guiscard. It presents a fascinating glimpse of a time when a group of restless adventurers had the world at their fingertips.

Handbook of Medieval Culture Dec 28 2022 A follow-up publication to the Handbook of Medieval Studies, this new reference work turns to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. The present, innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell, and the devil, education, lordship and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games, and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death, and money.

Warriors, Martyrs, and Dervishes Feb 03 2021 *Warriors, Martyrs, and Dervishes: Moving Frontiers, Shifting Identities in the Land of Rome (13th-15th Centuries)* focuses on the perceptions of geopolitical and cultural change on Byzantine territories between thirteenth and fifteenth centuries through intersecting stories on Turkish Muslim warriors, dervishes, and Byzantine martyrs.

[Pseudo-Kodinos and the Constantinopolitan Court: Offices and Ceremonies](#) Dec 24 2019 The work known as *Pseudo-Kodinos*, the fourteenth-century text which is one of two surviving ceremonial books from the Byzantine empire, is presented here for the first time in English translation. With facing page Greek text and the

first in-depth analysis in the form of commentary and individual studies on the hierarchy, the ceremonies, court attire, the Blachernai palace, lighting, music, gestures and postures, this volume makes an important new contribution to the study of the Byzantine court, and to the history and culture of Byzantium more broadly. The unique traits of this ceremony book include the combination of hierarchical lists of court officials with protocols of ceremonies; a detailed description of the clothing used at court, in particular, hats and staffs; an account of the functions of the court title holders, a description of the ceremonies of the year which take place both inside the palace and outside; the service of the megas domestikos in the army, protocols for the coronation of the emperor, the promotions of despot, sebastokrator and caesar, of the patriarch; a description of the mourning attire of the emperor; protocol for the reception of a foreign bride in Constantinople all these are analysed here. Developments in ceremonial since the tenth-century Book of Ceremonies are discussed, as is the space in which ceremonial was performed, along with a new interpretation of the 'other palace', the Blachernai. The text reveals the anonymous authors' interest in the past, in the origins of practices and items of clothing, but it is argued that Pseudo-Kodinos presents descriptions of actual practice at the Byzantine court, rather than prescriptions.

Laboratories of Autocracy Mar 19 2022 "It's the statehouses, stupid." *Laboratories of Autocracy* shows that far more than the high-profile antics of politicians like Marjorie Taylor Greene or Jim Jordan—and yes, even bigger than Donald Trump's "Big Lie"—it's anonymous, often corrupt politicians in statehouses across the country who pose the greatest dangers to American democracy. Because these statehouses no longer operate as functioning democracies, these unknown politicians have all the incentive to keep doing greater damage, and can not be held accountable however extreme they get. This has driven steep declines in states like Ohio and others across the country. And collectively, it's placed American democracy in its greatest peril since the dawn of the Jim Crow era. But Pepper doesn't stop there. He lays out a robust pro-democracy agenda outlining how

everyone from elected officials to business leaders to everyday citizens can fight back.

Latins, Greeks and Muslims: Encounters in the Eastern Mediterranean, 10th-15th Centuries Aug 24 2022 Trade, shipping, military conquest, migration and settlement in the eastern Mediterranean of the 10th-15th centuries generated multiple encounters between states, social and 'national' groups, and individuals belonging to Latin Christianity, Byzantium and the Islamic world. The nature of these encounters varied widely, depending on whether they were the result of cooperation, rivalry or clashes between states, the outcome of Latin conquest, which altered the social and legal status of indigenous subjects, or the result of economic activity. They had wide-ranging social and economic repercussions, and shaped both individual and collective perceptions and attitudes. These often differed, depending upon 'nationality', standing within the dominant or subject social strata, or purely economic considerations. In any event, at the individual level common economic interests transcended collective 'national' and cultural boundaries, except in times of crisis. The studies in this latest collection by David Jacoby explore the multiple facets of these eastern Mediterranean encounters and their impact upon individual economic activities, with special attention to the 'other', outsiders in foreign environments, foreign privileged versus indigenous traders, the link between governmental intervention, 'naturalization', and fiscal status, as well as the interaction between markets and peasants.
