The Grammar of Fantasy Feb 07 2021 A collection of essays from the visionary storyteller Gianni Rodari about fairy tales and folk tales and their great advantages in teaching creative storytelling. "Rodari grasped children's need to play with life's rules by using the grammar of their own imaginations. They must be encouraged to question, challenge, destroy, mock, eliminate, generate, and reproduce their own language and meanings through stories that will enable them to narrate their own lives." --Jack Zipes "I hope this small book," writes renowned children's author Gianni Rodari, "can be useful for all those people who believe it is necessary for the imagination to have a place in education; for all those who trust in the creativity of children; and for all those who know the liberating value of the word." Full of ideas, glosses on fairytales, stories, and wide-ranging activities, including the fantastic binomial, this book changed how creative arts were taught in Italian schools. Translated into English by acclaimed children's historian Jack Zipes and illustrated for the first time ever by Matthew Forsythe, this edition of *The Grammar of Fantasy* is one to live with and return to for its humor, intelligence, and truly deep understanding of children. A groundbreaking pedagogical work that is also a handbook for writers of all ages and kinds, *The Grammar of Fantasy* gives each of us a playful, practical path to finding our own voice through the power of storytelling. Gianni Rodari (1920-1980) grew up in Northern Italy and wrote hundreds of stories, poems, and songs for children. In 1960, he collaborated with the Education Cooperation Movement to develop exercises to encourage children's creative and critical thinking abilities. Jack Zipes is a renowned children's historian and folklorist who has written, translated, and edited dozens of books on fairytales. He is a professor at the University of Minnesota. Matthew Forsythe lives in Montreal where he draws and paints for picture books, comics, and animations.

Geometry of the Passions Dec 08 2020 The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between

individual and political projects. Tracing the roles passion and reason have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, *Geometry of the Passions* reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.

The Marquise de Brinvilliers (Celebrated Crimes Series) Sep 04 2020 This antiquarian book contains Alexandre Dumas's historical work, "The Marquise de Brinvilliers". It was first published as part of his "Celebrated Crimes" series, and tells the fascinating story of the trial and

execution and Madame de Brinvilliers, one of the most famous murderers in French history. Accused of three murders, the French aristocrat Marie-Madeleine-Marguerite d'Aubray (1630–1676) was convicted based on her confession—which was obtained through torture—and a series of letters written by her deceased lover. Alexandre Dumas (1802–1870) was a famous French writer. He is best remembered for his exciting romantic sagas, including "The Three Musketeers" and "The Count of Monte Cristo". Despite making a great deal of money from his writing, Dumas was almost perpetually penniless thanks to his lavish lifestyle. His novels have been translated into nearly a hundred different languages, and have inspired over 200 films. We are republishing this antiquarian book now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.
