Had I really just made that sound? "What's going on?" "Oh, you don't get it?" she mocked. "Well, I guess the treatment is supposed to make you a bit empty-headed. At least, that's in the precautionary information." I felt at my face, and the obvious started to sink in. "You – you –" "Turned you into a woman, yes," she gloated. "Who knew it would be so easy? And here I was resigned to just another boring Monday." She closed the door behind her and stepped into the room. "And what a body, too," she said. "You said you liked nice tits, right? Well now you've got quite a pair yourself. Maybe that'll help you stop obsessing about mine and every other poor girl who's just trying to earn a living without having to deal with assholes like you." "I –" "Are you starting to feel the other side effects?" she asked. "The – ah – excitability? They say it makes you pretty excitable." "Excitable?" I closed my eyes and shook my head again. "Horny. It makes you a horny little slut, just waiting to be passed around." My eyes flew open at her words. "I –" "Don't worry, I've got you scheduled for a pelvic exam with one of our best doctors. He can get a little rough, I hear, but something tells me you won't object." She gave me a wicked smile. The expression on her face, beautiful but more than a little frightening, was enough to stop any further objections. Reluctantly, I swallowed the pill. It was very bitter. The three man committee wants to know what's going on and they're determined to penetrate right to the core of the mystery. When Veronica volunteers to take a pill to show how harmless they are, she soon finds herself showing she has nothing to hide in a much more literal sense. Before the meeting adjourns, the fertile, over-sexed young bimbo will have the men fill the holes in her case and ensured her examiners leave satisfied with her explanation. Excerpt: "But how would she get pills like that?" the man on the left asked, looking at me with increased interest. "How did you get these pills, Veronica?" the doctor asked, turning back to me. I perked up to have him paying attention to me again. "I'm not really sure, doctor, but it's alright, isn't it? I don't really remember how it all started. I just want you to be happy with me. Wouldn't you like to examine me some more? I promise I'll be a good patient." He put his pen to his pursed lips. "This is a rare opportunity. The change is supposedly quite remarkable. I hope you gentlemen don't mind if I do make some notes of this." "By all means." He reached out his hand and put a finger beneath my chin, raising my face to look at me. I allowed him to guide my head, looking back at him with wide, expectant, eager eyes. "You'll note how submissive she's become," he said. "You're quite eager to please us, aren't you Veronica?" "Oh yes, sir," I agreed, trying to nod but stopping when I felt his finger still holding my head in place. "You want to be a good little slut, don't you?" I shivered excitedly at the word and I felt myself getting very wet. "Yes, sir, very much, sir." "You see how positively she responds to sexually demeaning language," he said, smiling at me. "The change in attitude is remarkable, but it's the physical changes I've heard about that stump me. I really don't understand how they can be possible. Would you like to let me feel your ass, Veronica?" I slipped down off the desk on long, tingling legs and turned to present my ass to him. My heart fluttered again in hopes of another compliment. Bimbo Lawyer Gets Examined is the third installment in the Bimbo Lawyer series. It can be read in sequence or as a standalone story.

All characters are 18 or older. Excerpt: "She's at her most docile immediately after a session," he went on. "This was usually when I found it easiest to take measurements and gauge progress. At other times she can be - through no ill intent of her own - a little ... excitable. That is, if you'd like to examine her, now would be a good time." A babble of quiet speculation met his words. Several of the researchers approached me. They were initially dubious but I smiled encouragingly at them, happy to show I could be cooperative, and managed to stand up straight and expectant. Dr. Asheville usually gave me a little longer to recover after an orgasm, but I was supposed to be on especially good behavior. They surrounded me, obviously enthusiastic about the chance to examine me. Curious fingers felt the smoothness of my skin, the contour of my side, and ran through my thick, lush hair. I basked quietly in their attention and let them touch me wherever they wanted. All the little caresses - ten or twelve hands on me at once - gave me the hot, sort of dirty feeling that my body was public property. "I saw Dr. Andrews just a year or two ago." He looked down at the chart in slight puzzlement. "It says here that Dr. Andrews is a General Practitioner." "That's right," I nodded, not sure what the problem was. "Well, I was asking when was the last time you were seen by a gynecologist." It took a moment to register what he had just said. I stared at him, my mouth opening slightly as I realized what he was saying. "Oh," I stammered trying to hide my confusion, "I'm sorry, I did get them confused. Let me think." I made a face like I was trying to reach back into my memory for the answer to his question, but on the inside my head was spinning. Gynecologist? Was that what he was? Was that what this appointment was? Did that mean ... I found myself blushing furiously.

*Doctor's Demands: The Complete Series (First Time Gay Medical Exam and Aphrodisiac Menage)* Mar 09 2021 Medical student Josh Daniels never imagined that an internship in in Dr. Lowe's lab would put him at the center of the famous researcher's medical experiments. But when the doctor needs a young straight man for his intense pleasure therapy and sexual behavior modification testing, Josh is soon ready to do anything to fulfill the doctor's expectations. Reader Advisory: This story is for mature audiences only and features intensely erotic situations, first time gay experiences, the use of a potent aphrodisiac, multiple partners and rough group sex, a highly erotic medical examination, anal sex, a dominant older man and the increasingly submissive, receptive young subject of his experiments. Doctor's Demands: The Complete Series follows Josh's transformation into a willing sex toy over the course of the three part series: The Doctor's Demands, The Doctor's Boytoy, and The Doctor's Horny Experiment, now combined in a single volume. Excerpt: I frowned at the tabletop. Behavior modification? The idea seemed so invasive and frightening, and what exactly was I being modified to become? He had mentioned a sexual aspect of things. What could these two men do that would give me a better sex life? "I'm straight," I blurted. But immediately I flushed again. Why had I said that? It seemed like I needed to say it, but he hadn't implied anything. Dr. Lowe smiled a little in amusement. "That's good, Josh. That was among our criteria. It was clear to me in the elevator that you fit the profile we're looking for." I looked at him, not understanding his words. I wanted to object. I wanted to be put off by this sudden and unexpected request. But looking at him I couldn't help but feel the warm

glow of relevance and security. He could do anything, accomplish anything, and here he was trying to make me a part of it. And if I said no, what was left for me? That would be it. I'd never be here again, and more than anything I couldn't stand the thought of being sent away from this place where my future seemed attainable instead of some distant dream. "Obviously it'll be an intense and demanding experience for you," he said, reading my unspoken reluctance. "No one will stop you if you try to walk out that door." I looked up at him, into his eyes, trying to read him. There was a slight intensity I hadn't seen there before, and for a moment I doubted what he had said. He would try to stop me, I thought. He wants me to be a part of this. He thinks I'd be good for it, or he wouldn't have gone to the trouble he already has. And maybe it was that more than anything that put me over the edge. I only knew him by what I read about him and heard about him from a distance, but I had already almost forgotten already. It felt like he was a presence I had always known and wanted to make happy, a distant figure of natural authority and competence that alters and moves the world without really trying to. After only a few words I already felt a compulsion, a need even, to make him happy with me. I should have asked more questions, learned more about what he was asking, but without even meaning too I had already made a decision, so what was the point? All it would do was imply that I was doing it for me and not for him. At least, that's in the precautionary information." I felt at my face, and the obvious started to sink in. "You – you –" "Turned you into a woman, yes," she gloated. "Who knew it would be so easy? And here I was resigned to just another boring Monday." She closed the door behind her and stepped into the room. "And what a body, too," she said. "You said you liked nice tits, right? Well now you've got quite a pair yourself. Maybe that'll help you stop obsessing about mine and every other poor girl who's just trying to earn a living without having to deal with assholes like you." "I –" "Are you starting to feel the other side effects?" she asked. "The – ah – excitability? They say it makes you pretty excitable." "Excitable?" I closed my eyes and shook my head again. "Horny. It makes you a horny little slut, just waiting to be passed around." My eyes flew open at her words. "I –" "Don't worry, I've got you scheduled for a pelvic exam with one of our best doctors. He can get a little rough, I hear, but something tells me you won't object." She gave me a wicked smile. I steadied myself with a hand and tried to stand up, but I fell back against the exam table. She laughed cruelly. "Maybe you'll learn something from all of this. Maybe not. I don't have high hopes for you, but at the very least maybe you'll think twice before running your mouth in my waiting room again." And with that she stepped out and let the door fall closed behind her.
