The first edition of this book helped define the body of knowledge for an emerging profession. Two editions later, this groundbreaking text—now in full color—provides adventure leaders with the tools and evidence they need to show that their outdoor programs are effective and have a lasting impact on their participants. Internationally renowned authors Simon Priest and Michael Gass have significantly updated the content, based on the latest research, issues, and trends in the field of adventure education and leadership. They have reorganized chapters to conform to their new model of building core competencies. In addition, this third edition includes the following features:

- Material on technology, social justice, cultural adaptation, sustainability, and facilitation techniques

*Effective Leadership in Adventure Programming* details both the art and science of adventure leadership, helping a new generation of outdoor leaders develop their skills. The text extends the focus on evidence-based models, theories, and best practices, showing that science and

research are as important to the profession as the natural beauty of the environment. The book describes the core competencies of outdoor leadership, providing a framework that helps leaders connect with participants in meaningful ways, based on mutual goals. The focus on the science side is invaluable to new leaders and less-experienced leaders, and it is a great refresher for leaders with more experience. This new edition offers a more detailed look at diversity and cultural competencies, preparing leaders to effectively manage diverse populations of participants. In addition, the content is in line with the updated accreditation standards from the Association for Experiential Education. The opening chapters of *Effective Leadership in Adventure Programming* supply a solid foundation in the research, philosophy, ethics, and history of outdoor leadership. Numerous chapters explore the skills leaders need, with topics that include technical activity, safety and risk management, environment, organization, instruction, and facilitation. The authors also examine leadership styles and conditional leadership issues, communication, sound judgment, decision making, problem solving, and the trends and issues in adventure programming. *Effective Leadership in Adventure Programming* will help readers understand the four adventure program areas—recreation, education, development, and therapy—and how they influence the delivery of outdoor leadership. The book is a valuable resource for the training and education of future outdoor leaders. It will help readers know why they should work in the profession and understand how they can make a difference by being an effective outdoor leader.

leadership studies, *The Nature of Leadership* provides compelling answers to the most vexing questions surrounding leadership: Is leadership measurable? Are there traits that reliably distinguish leaders from nonleaders? Does the situation matter? Are there differences in women's and men's leadership styles? Is ethical leadership effective leadership? Are elements of leadership culturally bounded whereas other elements are universal? Does vision really matter? Can leadership be developed? The new volume includes 16 chapters divided into five parts: Introduction, Leadership: Science, Nature, and Nurture; The Major Schools of Leadership; Special Topics in Leadership; and Conclusion. Topical coverage within these parts include research methods, leader and leadership development, evolutionary and biological perspectives of leadership, individual differences, situational and contingency theories, transformational, charismatic, and shared leadership, followership, gender, identity, culture, and ethics. Reassess your leadership style, discover how to connect with people, and become a leader who can make things happen in the real world. Built on a unique four-year experiment working alongside real leaders in real businesses, *Living Leadership* explodes the myth of the charismatic, transformational leader, to show that real progress comes from the dramatically ordinary aspects of leadership. From building relationships, to working with the grain of the organisation rather than against it, and to knowing our limitations as much as pushing every boundary, the new edition of this book will challenge you to push your leadership skills to a new level. "Living Leadership shows how, when you take away the myths and misconceptions, leading can genuinely be made easier." Hans Straberg, CEO, Electrolux "A 'how to' book that redefines leadership in terms of the realities and choices facing people in organisations today." Professor Michael Osbaldeston, Director of Cranfield School of Management
