Complementing Dibb and Simkin's established reputation in their field, this text presents a punchy overview of the leading 50 themes of marketing, each concisely summarized for revision purposes or quick-learning. While appealing primarily to students undertaking marketing exams, many practitioners will also find this 'glossary of current marketing' hard to resist. The title builds on the earlier works of Dibb and Simkin, whose Houghton Mifflin text, 'Marketing: Concepts and Strategies', is the current business school market leading text in the United Kingdom, while their Thomson Learning text, 'The Marketing Casebook: Cases and Concepts', has just been revised and is the most widely used marketing casebook. From understanding customers, branding and positioning, relationship marketing, social responsibility through to value-based marketing and one-to-one marketing, this book covers all the issues the modern marketer must address. The text itself is organized into short structured chapters, the Briefs, each including: * Core definitions * A bulleted key point overview * Thorough yet concise explanation of the concept and primary issues * Illustrative examples * A selection of examination style case, essay and applied questions * Recommended further reading and sources. Together these offer a rounded, concise and topical appreciation of each theme within a clear and accessible framework designed to aid revision. Also included are revision tips and 'golden rules' for tackling examinations, specimen examination papers with answer schemes, and a full glossary of key marketing terms. These two revision and study guides have been packaged together to offer you great value when you're looking to get the most out of your revision. Criminal Law Concentrate is the essential revision and study guide for law students looking to consolidate knowledge and achieve the best possible marks. Providing clear, succinct coverage of all the key topics, it enables you to quickly grasp the fundamental principles of this area of law and excel in your

exams and coursework. Concentrate Q&A Criminal Law contains model exam questions and answers, with expert advice on recognising what examiners are looking for, structuring a first class answer, avoiding common exam mistakes and making your answer stand out from the crowd. Accurate and reliable, Concentrate guides go above and beyond, not only consolidating your learning but focusing your revision and maximising your potential. Some students just seem to absorb information, effortlessly gliding through revision and exams without the slightest difficulty. The rest of us find revision dull and unproductive. However, surely the info-sponges aren't superhuman? Surely there's no such thing as a revision-friendly gene? So, do they know something that the rest of us don't? Yes - they know The Rules of Revision. This guide reveals the secrets to both fruitful exam preparation and successful exam technique. It offers a set of rules that will ensure you maximise your potential by making your revision more focused and productive than it has ever been before. Written by ten students at the universities of Oxford and Cambridge, Liam and his team offer what no teacher can. Their proven knowledge of exactly how to succeed in both the revision process and the exam room makes this book a must-have for all students. In this revised edition of How to Learn: The 10 principles of effective revision & practice, examples and exercises from science, mathematics, history, foreign languages, and skill learning, are used to show exactly how to apply the 10 principles of effective practice and revision. Few students know how to revise effectively, which is why they waste so much time going over and over material, as they try to hammer it into their heads. But you don't need to spend all that time, and you don't need to endure such boredom. What you need to do is understand how to review your learning in the most effective way. Using examples and exercises from science, math, history, foreign languages, and skill learning, that is what this book aims to teach you. This workbook will tell you —what you should practice or revise —how you should revise —how often you should revise —how far apart you should schedule your sessions —different strategies you can use in your practice / revision —how skill learning differs from 'fact' learning and more. This workbook is for students who are serious about being successful in study, and teachers who want to know how best to help their students learn.
