is an introduction to sports law, in particular International (worldwide) and European (EU) sports law. The chapters are all put in the perspective of the innovative sports law doctrine that is developed and presented in the opening chapter on what sports law is. After a general coverage of the core concept of "sport specificity" (that is whether private sporting rules and regulations can be justified notwithstanding they are not in conformity with public law), the book covers the following specific main themes of International and European Sports Law (*capita selecta*): comparative sports law; competition law and sport; the collective selling of TV rights; sports betting; Social Dialogue in sport; sport and nationality; professional football transfer rules; anti-doping law in sport; transnational football hooliganism in Europe; international sports boycotts. In this book association football ("soccer") is the sport that is by far most on the agenda. It is the largest sport in the world

and most popular all over the globe. The elite football in Europe is a day-to-day commercialized and professionalized industry, which makes it a perfect subject of study from an EU Law perspective. Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries. This volume provides both the student and practitioner of international law and relations with a comprehensive evaluation of important but hitherto neglected aspects of the work of the World Court. It concludes with practical suggestions on how to develop the Court's role. The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-

letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application.
