***Student Language Scale (Sls) User's Manual Jan 29 2023 For use on its own or with the Test of Integrated Language and Literacy Skills(TM) (TILLS™), the Student Language Scale reliably screens students from ages 6-18 years for language and literacy disorders, including dyslexia. Filled out by parents, teachers, and students in just three minutes or less, the 12-question screener is a quick, cost-effective way to see how students are performing on academic tasks as compared to their same-age peers. This concise User's Manual shows you how to effectively use the SLS to: Screen for language/literacy disorders by gathering teachers' and parents' ratings of students. When teachers or parents rate more than two areas on items 1-8 less than 5, SLS results indicate the student is at risk and needs further assessment Gather input about a struggling student's strengths and needs from multiple sources--a key requirement of IDEA Enhance home-school communication by gaining new insight into the student's performance and the teacher's, parents', and student's perspectives on it, whether or not everyone agrees and whether or not there are concerns You'll get reader-friendly guidance on how to administer the SLS with teachers, parents, and students; a complete guide to the technical data supporting the SLS; and three examples that show how the SLS can help you make sound decisions about followup for students who need it. Whether used with an entire classroom or with individual students, the SLS is the***

***tool you need to quickly gather valuable information about strengths and needs--and plan next steps for students at risk for disorders. Ideal for use with TILLS Give the SLS to a whole class--and when results indicate the student is at risk, follow up with TILLS assessment. Strong sensitivity and specificity Sensitivity of the SLS to risk of language/literacy disorder is .90 for teachers and .85 for parents, and specificity (correct identification of typical learners) is .90 for teachers and .83 for parents. ***Using Self-Efficacy for Improving Retention and Success of Diverse Student Populations Dec 24 2019 Despite the many strides that have been made in diversity, equity, and inclusion, many educational systems across the world continue to struggle with equality in education for all students regardless of race, gender, or socioeconomic status. This struggle within education inevitably negatively impacts society, as only select groups are given the opportunity to excel. It is essential for school systems to be proactive when dealing with student learning outcomes and student retention for all student populations. Using Self-Efficacy for Improving Retention and Success of Diverse Student Populations discusses the best practices in supporting students during their educational journey and examines the current efforts to improve student retention. Covering topics such as computing education, academic counseling, and student success prediction, this premier reference source is an excellent resource for faculty and administrators of both K-12 and higher education, pre-service teachers, teacher educators, school counselors, sociologists, librarians, researchers, and academicians.***

***Evaluating Large-Scale Training Simulations. Volume 2. User's Manual Jun 29 2020 This is Volume II of a two-volume manual. Volume I (Reference Manual) is published under separate cover as TR 99-05. Volume II (User's Manual) presents an introduction to training evaluation and a roadmap to the more in-depth content of Volume I. Objectives of the manual are to (1) provide guidance to help analysts design meaningful training effectiveness evaluations, (2) describe procedures for alternative methods of conducting training effectiveness evaluations, and (3) provide examples***
