Its focus is conflict among groups, communities, classes, ideologies and institutions, which has shaped the country's political dynamics. Mohammad Waseem critically examines the theory surrounding the millennium-long conflict between Hindus and Muslims as separate nations who practiced mingled faiths, and the Hindu, Muslim and Sikh renaissances that created a twentieth-century clash of communities and led to partition. Political Conflict in Pakistan addresses multiple clashes: between the high culture as a mission to transform society, and the low culture of the land and the people; between those committed to the establishment's institutional constitutional framework and those seeking to dismantle the "colonial" state; between the corrupt and those seeking to hold them to account; between the political class and the middle class; and between civil and military power. The author exposes how the ruling elite centralised power through the militarisation and judicialization of politics, rendering the federalist arrangement an empty shell and thus grossly alienating the provinces. He sets all this within the contexts of education and media as breeders of conflict, the difficulties of establishing an anti-terrorist regime, and the state's pragmatic attempts at conflict resolution by seeking to keep the outsiders inside. This is a wide-ranging account of a country of contestations. **SOMETIMES THE SMALLEST MISTAKES ARE THE DEADLIEST.** A People Magazine "Book of the Week." "Jessica Treadway draws her characters into an impossible knot and then expertly teases apart...kept me up half the night." -- Ann Patchett, New York Times bestselling author of Commonwealth Fans of Reconstructing Amelia will love this pulse-pounding novel of mystery, betrayal, and a small town's dark secrets. On a cold December day, the body of high school senior Joy Enright is discovered in the woods at the edge of a frozen pond. Her death looks like a tragic drowning accident at first, but an autopsy reveals something sinister -- the teenager's body shows unmistakable signs of strangulation. The discovery upends an otherwise uneventful small town, as police grapple with a rare homicide case and those closest to Joy wonder how she could have been taken from them -- and by whom. Susanne, Joy's mother, tries to reconcile past betrayals with their wrenching consequences. Martin, an African-American graduate student, faces ostracism when blame is cast on him. Tom, a rescue diver and son-in-law of the town's police chief, doubts both the police's methods and his own perceptions. And Harper, Joy's best friend, tries to figure out why she disappeared from Harper's life months before she actually went missing. In a close-knit community where everyone knows someone else's secret, it's only a matter of time before the truth is exposed. How Farsi language broke its two centuries of silence. This book is the translation of Do Gharn Sokoot, into English by an Iranian scientist and scholar. *Two Centuries of silence* is the saga of 200 years of struggle by Iranians in order to free themselves from the yoke of Muslim Arabs- elegantly and passionately told by Abdolhossein Zarinkoob. The book elucidates the key reasons for the success of Muslim Arabs in their assault on Iran- a fact that was not written in the stars, nor was it an act of God. For its readers, this translation hopes to shed light on what forms the foundation of today's Iran and help bring some understanding of Iranians and their culture. The fall of Nahavand in 642 CE marked the end of a glorious fourteenth-century history of Iran- a fascinating and dynamic history spanning the years from 700 BCE to 700 CE. For two centuries thereafter, a brutally long, chilling silence cast its shadow over the history and language of Iran. Professor Zarinkoob explores the reason behind the Sasanian downfall and how the uncouth Bedouins triumphed over an immense and glorious civilization such as that? During these two centuries- about which our recent historians have remained silent- why did Farsi become a "lost" language, obscure and traceless? In the time when Iranian swordsmen revolted against the Arabs under any pretext, fighting the Arabs and Muslims, how did Zoroastrian priests argue and debate in the light of knowledge and wisdom against the Muslim faith? Finally, why a book that tells the tale of a most turbulent period of Iran's history is titled *Two Centuries of Silence* and not *Two Centuries of Chaos and Uproar*? Prof. Zarinkoob's colorful narrative unravels these mysteries through Iranian eyes and is delivered here only as they may.
