***Boom*** Oct 23 2022 Welcome to the surreal world of *Boom*, where civil servants wake the dead, corpses are terrified of cremation, old women are besieged in their homes, and Ah Bengs still dream of being Superman. *Boom* tells the story of an elderly woman and her property agent son in Singapore, who are struggling over the potential en bloc sale of their home. Their destinies become interwoven with that of an idealistic civil servant, Jeremiah, who is facing the greatest challenge of his career—persuading a reluctant corpse to yield its memories. *Boom* is a quirky yet poignant tale about the relocation of both dead and living, and how personal stories get left behind in the inexorable march of progress. Written by economist-turned-playwright Jean Tay, *Boom* was conceptualised at the Royal Court Theatre in London in 2007, and developed and staged by the Singapore Repertory Theatre in September 2008. It was nominated for Best Original Script for The Straits Times' Life! Theatre Awards in 2009 and is now an 'O'- and 'N'-Level Literature text in Singapore schools.

*Playwriting for Puppet Theatre* Feb 27 2023 *Playwriting for Puppet Theatre* provides a foundation for those puppeteers, teachers and librarians who want to develop suitable scripts for puppet theatre. Mattson explores the difference between traditional theatre and puppet theatre and notes the special characteristics of the various puppets. The important aspects of script writing are then addressed. She considers the many general questions which must be answered by the playwright: the type of puppet to be used, the audience, and availability of resources and facilities. Suggestions are then given for dramatizing original ideas and for adapting well-known stories. The chapter on plot development emphasizes the importance of perspective, transitional material and the need for action. One chapter proposes various ways to develop a character through dialogue, names, and behavior. Another chapter demonstrates how the use of rhyme can add interest and humor to a puppet play. Teachers will find suggestions on how to develop a play on a specific theme or about a specific character. Some attention is also given to the mechanics of writing a play. Includes a group of puppet plays which have been successfully performed by Seattle Puppetry Theatre. Among them are Rumpelstiltskin, The Princess and the Pea, The Bad-Tempered Wife, The Golden Axe, The Swineherd, and The Fisherman and His Wife. Production notes follow each script. Several samples of manipulation charts are included which may be used as an aid in blocking the puppets and the puppeteers for the various hand puppet productions.

Aldus Manutius and the Development of Greek Script & Type in the Fifteenth Century Feb 21 2020 This much-acclaimed work was first published in 1985 in an extremely limited edition of something under 200 copies. This new edition meets that need. This second edition is a substantially new work. It has been completely revised throughout, in the light both of the author's subsequent research and discoveries and of the reviewers' observations. It contains much additional new matter. The new illustrations reproduce setting copy, in the autograph of Marcus Musurus, of the Address to the Reader in the 1498 Aristophanes

**Proust Screenplay, The** Apr 24 2020 In the early 1970s Harold Pinter joined forces with director Joseph Losey and Proust scholar Barbara Bray to develop a screenplay of Proust's masterpiece, Remembrance of Things Past. Pinter took more than a year to conceive and write the screenplay and called the experience the best working year of my life. Although never produced, Harold Pinter's The Proust Screenplay is considered one of the greatest adaptations for the cinema ever written. With fidelity to Proust's text, the screenplay is an extraordinary re-creation by one of the leading playwrights of our time. It is, in its way, a unique collaboration between two extraordinary writers united across more than half a century and two different cultures by a special concern for time and memory.

**The New Elements of Standard Screenplay Format** Dec 25 2022 **The New Elements of Standard Screenplay Format** is a simplified guide to the rules and uses of standard screenplay format in the computer age. After years of

complaints from script readers about the abysmal format of screenplays and hundreds of conflicting books, websites, and articles of what format is, here, finally, is a definitive work on the reason why format exists and how it can be used to improve both the screenplay and the connection between writer and production. While screenplay format has not changed much since the 1930'S, the word processor and digital production breakdown software have created new challenges for the 21st century screenwriter. Format should make the script mesh seamlessly into digital production software, which only looks for correct format. Without correct format, script readers, producers, and film crews may not believe the script is professional or producible or that the writer is someone to bring onto the set. Screenplay format was developed by the film industry to better insure the work of a screenwriter would be accurately and effectively translated to film. This book simplifies these rules for the writer and explains their purpose and uses. It also weeds out those format elements which annoy readers and hinder the work of A.D.s and P.M.s prepping a script for production.
