Text and photographs introduce the work done at a California ranch, Gentle Jungle, in raising and training wild animals for movie and television work, focusing on sixteen-year-old Tana Helfer, daughter of the owners, who has worked with the animals all her life. As a prelude to the post-war concept of a single "main battle tank" design, vehicles during World War II tended to be categorized as light, medium, and heavy, depending on their use. In this last category, tanks had grown in size, weight, and firepower to counter ever-improving anti-tank weapon systems. This resulted in changes in tactics and doctrine to better integrate heavy armor into a combined arms system. This was especially true on the Eastern Front, where the open terrain promoted armor action and a rapid cycle of improvements. The Soviets were quick to develop vehicles that were able to fight the Tiger I on an equal footing by late 1943, such as the up-gunned T-34/85 and the self-propelled ISU-152s. Because the American T-26/M-26 Pershing arrived late in the war, and the British Centurion not at all, only the Soviet IS-2 serves as an example of a heavy design that was fielded in large battlefield numbers. The Soviet drive to cut off enemy forces in East Prussia during Operation Solstice (February 1945) is a prime example of this conflict. The Germans, had limited resources, and were strategically on the defensive, but enjoyed ever-shorter logistic distances as they retreated, and fought in an environment and terrain that played to the strengths of the technically-superior King Tiger. The IS-2 was lighter, more maneuverable, and far more numerous, and used these assets to its advantage. This battle, fought in the closing months of the war, depicts the classic late-war contrast between the military doctrines of Germany and the Soviet Union. Today ten times more tigers live in captivity than survive in the wild. For over five decades, K. Ullas Karanth has been engaged in the struggle to bring wild tigers back from the brink in India, their last remaining wild stronghold. He tells the story of the tiger itself—its incredible biology, its critical role in shaping natural ecosystems of Asia, and the unique place it holds in our collective imagination. Among Tigers is the story of how we wound up with fewer than 5,000 wild tigers, and how, with focused efforts we can grow that population ten times or more in a few decades. In doing so, we would bring not only the world's largest and most beloved feline back from the brink, but also save countless other species that share the tigers habitats from the freezing forests of Siberia to the tropics of India. Karanth shares the adventurous real-life story of his quest to save a species and, along the way, the hopeful realization that tiger conservation is a battle that can be won. Ultimately, the book is a roadmap showing us how to not only to save the greatest of great cats, but to bring it roaring back at numbers never before seen in our lifetimes. "The Tiger Mystic captures the true essence of beautiful story telling in this tale of spiritual guidance and beating the odds. The reader follows the life story of a young boy called Azzam who starts out sickly and very vulnerable. Through a chance meeting with a spiritual guru, Azzam's life starts to change for the better. As the story unfolds, Azzam grows stronger and more powerful. As time moves on, we learn that the 'chance' meeting was no coincidence. It was all meant to be and Azzam's place in this world was decided long before he knew anything about it. He falls in love with a princess from his school, but both families are against the idea of their union so not only is Azzam fighting for his spiritual well-being but he is also made to fight for his love"--Back cover.. A story of a life saving courageous fight with a wild and dangerous tiger without using any defensive equipment, but only by using the presence of mind and a fundamental basic method. Legend awakened... Reno has known there was more to him since he awoke in the hospital, alive when he should have died. Only one thought consumed him. Find Tah. Watch over him. Protect him. Then everything changed. A tempted tiger... A mission gone wrong brings him face to face with a woman who tempts his tiger from hiding. He wants her with a fierce hunger that consumes him and shocks him with the possessive nature she awakens. Mine... Amia belongs nowhere. Not with the Blane family of hunters she was born into, and not with the dominant man who kidnaps her and turns her world upside down. She runs. She fights. And when the time comes, she pays the price. Running isn't an option, and there's no fighting a man who turns her inside out with unquenchable lust. Maybe, just maybe, she's found where she belongs. Many people think wild tigers are on the road to recovery, but they are in greater danger than ever—from a menace few experts saw coming. There may be only three thousand wild tigers left in the entire world. More shocking is the fact that twice that many—some six thousand—have been bred on farms, not for traditional medicine but to supply a luxury-goods industry that secretly sells tiger-bone wine, tiger-skin décor, and exotic cuisine enjoyed by China's elite. Two decades ago, international wildlife investigator J. A. Mills went undercover to expose bear farming in China and discovered the plot to turn tigers into nothing more than livestock. Thus begins the story of a personal crusade in which Mills mobilizes international forces to awaken the world to a conspiracy so pervasive that it threatens every last tiger in the wild. In this memoir of triumph, heartbreak, and geopolitical intrigue, Mills and a host of heroic comrades try to thwart a Chinese cadre's plan to launch billion-dollar industries banking on the extinction of not just wild tigers but also elephants and rhinos. Her journey takes her across Asia, into the jungles of India and Nepal, to Russia and Africa, traveling by means from elephant back to presidential motorcade, in the company of man-eaters, movie stars, and world leaders. She also journeys to the US where we meet people like Carole Baskin of Big Cat Rescue, who work tirelessly to end cub petting and ban private ownership and breeding of tigers and other big cats. She finds reason for hope in the increasing number of Chinese who do not want the blood of the last wild tigers to stain their beloved culture and motherland. Set against the backdrop of China's ascendance to world dominance, *Blood of the Tiger* tells of a global fight to rein in the forces of greed on behalf of one of the world's most treasured and endangered animals. It's fight time for the lion and the tiger! One animal is The King of Beasts, and the other animal is The Stealthy Slayer. Both fighters show bursts of speed. But which one will be crowned champion of the Big Cat Brawl? Tiger always has been protected from nightmares by her friend, the monster under her bed, but some nightmares are so big they require teamwork. Find out what would happen if a lion and a tiger got in a fight and who would win. Aligned to Common Core Standards and correlated to state standards. Beginning Readers is an imprint of Spotlight, a division of ABDO. This book is about Larry's life before cancer and his life during cancer. Larry started working at the age of twelve years old. Emerging from an environment devoid of substantive traditions in boxing, he would overcome a litany of obstacles before becoming a two-time undisputed world middleweight titlist and an undisputed light heavyweight champion. ?The Life and Times of a Boxing Immortal, ? the first comprehensive biography of Dick Tiger, puts the man in the context of his times. A migrant fighter to Liverpool, the repository of West African born fighters who kept the British game alive during the industry wide recession of the 1950s, Tiger later moved to America where he established a marquee value seldom attained by non-American fighters and where he played a prominent role as an ?in-house? fighter at the ?Mecca of Boxing, ? New York City's Madison Square Garden. His life also personified the hopes, aspirations and the tragedy of the Igbo ethnic group. An avowed apostle of Biafran secession from Nigeria, Tiger's support would cost him dearly. Here is Dick Tiger as never before explained: The ?blue collar? fighter, ageless ringman, commercial venturer, Nigerian patriot and Biafran rebel. From empty bottle trader to wealthy realtor, from Nigerian boxing booths to Madison Square Garden, from journeyman fighter to world championship fighter; ?The Life and Times of a Boxing Immortal? is a compelling study of human dignity in triumph and in tragedy. [This book has 21 images in spectacular colors.] Battle Hymn of the Tiger Mother is a story about a mother, two daughters, and two dogs. It was supposed to be a story of how Chinese parents are better at raising kids than Western ones. But instead, it's about a bitter clash of cultures, a fleeting taste of glory, and how you can be humbled by a thirteen-year-old. Witty, entertaining and provocative, this is a unique and important book that will transform your perspective of parenting forever. The focus of Chinese literary studies has long been on the written word even though Chinese fiction and drama have strong oral roots and have been shaped by an interplay between oral and written traditions. The culmination of decades working on this issue—and using as its lens the story about how the legendary hero Wu Song killed a tiger with his bare hands—this volume explores Chinese oral professional storytelling and its relations with literary culture in the past and present. A nobleman from an infamous family, Ben Stiger finds himself freshly assigned to Third Legion, Seventh Company as a lowly lieutenant in the opening stages of war between the Empire and the Kingdom of the Rivan. Third Legion has been tasked with pursuing a retreating Rivan army back to the border where the Empire can take the fight into enemy territory. However, a major obstacle stands in Third Legion's path: the river Hana. The crossing is sure to be contested and dangerous. Should Third Legion fail to force a crossing, the entire campaign could grind to a disastrous halt. In this adventure, Cat-Boy is forced to save the President of the United States from an assassination attempt, and in the process also saves his arch enemy, Dog-Boy! Obligated to be loyal by the Dogs Code, he ends up an unwilling ally as Cat-Boy is driven to join forces with Team-Dog and the Mafia Knights to fight against Team-Cat, which was taken over by the rogue superhero Tiger-Man. Fortunately for Cat-Boy, the power of the press is on his side for once! From the courtroom to the jail cell, chaos erupts everywhere, as Cat-Boy tries to set straight a world turned upside down! Dubbed the Indiana Jones of wildlife science by The New York Times, Alan Rabinowitz has devoted—and risked—his life to protect nature's great endangered mammals. He has journeyed to the remote corners of the earth in search of wild things, weathering treacherous terrain, plane crashes, and hostile governments. Life in the Valley of Death recounts his most ambitious and dangerous adventure yet: the creation of the world's largest tiger preserve. The tale is set in the lush Hukaung Valley of Myanmar, formerly known as Burma. An escape route for refugees fleeing the Japanese army during World War II, this rugged stretch of land claimed the lives of thousands of children, women, and soldiers. Today it is home to one of the largest tiger populations outside of India—a population threatened by rampant poaching and the recent encroachment of gold prospectors. To save the remaining tigers, Rabinowitz must navigate not only an unforgiving landscape, but the tangled web of politics

in Myanmar. Faced with a military dictatorship, an insurgent army, tribes once infamous for taking the heads of their enemies, and villagers living on less than one U.S. dollar per day, the scientist and adventurer most comfortable with animals is thrust into a diplomatic minefield. As he works to balance the interests of disparate factions and endangered wildlife, his own life is threatened by an incurable disease. The resulting story is one of destruction and loss, but also renewal. In forests reviled as the valley of death, Rabinowitz finds new life for himself, for communities haunted by poverty and violence, and for the tigers he vowed to protect.
