The present volume mainly contains contributions on the classical language, Greek and Latin. In addition to the historical comparative linguistic aspects of these languages, philological and historical questions are dealt with as well. Consideration of Italic and Romance topics is also included. The volume is divided into 7 sections: I. Greek linguistics, II. Greek lexicology, III. Mycenology, IV. Greek philology, V. Italic and Latin philology, VI. Latin and Romance languages, VII. Roman history. High-school senior Gina Corcoran lived a fairly normal life with her mother, grandmother, and brother. Once, every year or so, she would even get to leave her home in San Antonio, Texas, and spend a few weeks in the summer with her great-aunt Anna, at a small farmhouse just outside of Binghamton, New York. There she would be told stories of her family, of how they came from the Italian island of Sicily to America--first to New York, and then, when her grandmother moved, to Texas--and of her life in San Antonio. Family stories like these often have a lasting effect upon a person. The stories that she wasn't told were older, deeper, darker, and would change her life forever. This is the story of Gina, the great-niece of Anna Del Forno, the wealthy owner and CEO of Del Forno Bottling, producers of Acqua D'Arcamo, a popular, bottled water made at a plant on the grounds of the Del Forno Villa, an estate in Arcamo, Sicily. How Anna came to be the head of such a profitable company and all the abundance that came with it, at first meant very little to Gina, until of course, the legacy took hold. What some would see as a family legacy, others might view as a curse. How could Gina have possibly known what turns her life would take, when with each passing day, each startling revelation brought her closer to danger, dancing with death. Have you ever been frightened? So afraid that you could barely control your own emotions? Imagine what it would feel like if your inner fears and angers got the better of you and came out. Think of it as letting out the inner beast. Imagine, over time, being able to allow those feelings to come out whenever you needed them. Oh, and imagine that when you do, you are no longer you, but rather a fully grown wolf--not a monster, not a science experiment, but a genuine, living wolf. You can think like a wolf thinks, see like a wolf sees, even hunt with the quiet tenacity in which a wolf hunts. And when you hunger, you will hunt. All this unfolds here, and more, as Gina becomes immersed in the Waters of Arcamo. The topic of this book is the theoretical foundations of a theory LSLT -- Lexical Semantic Language Theory - and its implementation in the system for text analysis and understanding called GETARUN, developed at the University of Venice, Laboratory of Computational Linguistics, Department of Language Sciences. LSLT encompasses a psycholinguistic theory of the way the language faculty works, a grammatical theory of the way in which sentences are analysed and generated -- for this we will be using Lexical-Functional Grammar -- a semantic theory of the way in which meaning is encoded and expressed in utterances -- for this we will be using Situation Semantics -, and a parsing theory of the way in which components of the theory interact in a common architecture to produce the needed language representation to be eventually spoken aloud or interpreted by the phonetic/acoustic language interface. LSLT will then be put to use to show how discourse relations are mapped automatically from text using the tools available in the 4 sub-theories, and in particular we will focus on Causal Relations showing how the various sub-theories contribute to address different types of causality. DANGEROUSLY GOOD. DISTINCTIVELY DEEVER. Forensic detective Lincoln Rhyme is back with his most harrowing case yet in this newest installment of Jeffrey Deaver's New York Times bestselling series. A businessman snatched from an Upper East Side street in broad daylight. A miniature hangman's noose left at the scene. A nine-year-old girl, the only witness to the crime. With a crime scene this puzzling, forensic expertise of the highest order is absolutely essential. Lincoln Rhyme and Amelia Sachs are called in to investigate. Soon the case takes a stranger turn: a recording surfaces of the victim being slowly hanged, his desperate gasps the backdrop to an eerie piece of music. The video is marked as the work of The Composer... Despite their best efforts, the suspect gets away. So when a similar kidnapping occurs on a dusty road outside Naples, Italy, Rhyme and Sachs don't hesitate to rejoin the hunt. But the search is now a complex case of international cooperation--and not all those involved may be who they seem. Sachs and Rhyme find themselves playing a dangerous game, with lives all across the globe hanging in the balance. YOSHUA È IL FIGLIO DI DIO, venuto in terra per portare il suo verbo tra gli uomini. Ha impressionato il popolo d'Israele con i suoi miracoli -- ha resuscitato un morto, sfamato un'intera folla moltiplicando pani e pesci -- e turbato la tranquillità dell'Impero romano. I suoi discepoli, nonostante qualche perplessità da parte delle mogli, sembrano seguirlo con fiducia cieca, finché Giuda non lo tradisce. Poi «trascorsero gli anni e i secoli. Le civiltà umane cambiarono di nome e di significato: l'Impero romano si dissolse, la croce di YOSHUA diventò il simbolo di una nuova civiltà, capace di trasformare la vita degli uomini e i loro stessi pensieri, gli Ebrei abbandonarono la Palestina e poi vi ritornarono. Essendo un diavolo, Giuda di Quéïrot non morì: o, per meglio dire, morirono i suoi corpi mentre lui vagava da un'epoca all'altra», fino a incarnarsi in Ali Agca, e attentare alla vita di Papa Giovanni Paolo II. La notte del lupo è la storia di tutte le storie, di come il bene non sia che un male rovesciato: è la storia di come le infantili follie umane finiscano per determinare ogni atrocità della storia. The book takes its lead from academic Annamaria Pagliaro's experience straddling Australia and Italy over a thirty-year period. As both former colleagues and collaborators of Pagliaro, we editors intend to open a kaleidoscope of perspectives on the international research landscape in the fields of Italian and Anglophone studies, starting from Pagliaro's own contribution to the creation of relations between the two cultures in the period that saw her work transnationally as Director of the Monash University Prato Centre (2005-2008). Millennium transcends boundaries -- between epochs and regions, and between disciplines. Like the Millennium-Jahrbuch, the journal Millennium-Studien pursues an international, interdisciplinary approach that cuts across historical eras. Composed of scholars from various disciplines, the editorial and advisory boards welcome submissions from a range of fields, including history, literary studies, art history, theology, and philosophy. Millennium-Studien also accepts manuscripts on Latin, Greek, and Oriental cultures. In addition to offering a forum for monographs and edited collections on diverse topics, Millennium-Studien publishes commentaries and editions. The journal primary accepts publications in German and English, but also considers submissions in French, Italian, and Spanish. If you want to submit a manuscript please send it to the editor from the most relevant discipline: Wolfram Brandes, Frankfurt (Byzantine Studies and Early Middle Ages): brandes@rg.mpg.de Peter von Möllendorff, Gießen (Greek language and literature): peter.v.moellendorff@klassphil.uni-giessen.de Dennis Pausch, Dresden (Latin language and literature): dennis.pausch@tu-dresden.de Rene Pfeilschifter, Würzburg (Ancient History): Rene.Pfeilschifter@uni-wuerzburg.de Karla Pollmann, Bristol (Early Christianity and Patristics): K.F.L.Pollmann@bristol.ac.uk All manuscript submissions will be reviewed by the editor and one outside specialist (single-blind peer review). Beginning students of Italian language and literature will welcome these selections of poetry, fiction, history, and philosophy by 14th- to 20th-century authors, including Dante, Boccaccio, Pirandello, and 52 others. The fifth volume in the Institute of Classical Archaeology's series on rural settlements in the countryside (chora) of Metaponto presents the excavation of a Greek farmhouse, illuminating the lifeways of fourth-century BC farmers of modest means. What links Italian neo-realism to Django Unchained, French comic books to Third-World insurgency, and Bollywood song-and-dance to Eastern Bloc film distribution? As this volume illustrates, the answers lie in the Spaghetti Western genre.As the reference points of American popular culture became ever more prominent in post-war Europe, the hundreds of films that make up the Italian (or 'Spaghetti') Western documented profound shifts in their home country's cultural outlook, while at the same time denying specifically national discourses. An object of fascination and great affection for fans, filmmakers and academics alike, the Western all'italiana arose from a diverse confluence of cultural strands, and would become a pivotal moment in cinematic history.Reappraising a diverse selection of films, from the internationally famed works of Sergio Leone to the cult cachet of Sergio Corbucci and the more obscure outputs of such directors as Giuseppe Colizzi and Ferdinando Baldi, this comprehensive study brings together leading international scholars in a variety of disciplines to both revisit the genre's cultural significance and consider its on-going influence on international film industries. A delicate illustrated story coming from the Piedmont tradition, (Italy), when wolves and foxes came down from the mountains to enrich the folk tales of the elders and to enchant, then as now, children able to dream.Una delicata favola illustrata che riemerge dalla tradizione orale del Piemonte nord-occidentale, quando lupi e volpi scendevano dalle montagne per popolare i coloriti racconti dei vecchi e affascinare, allora come oggi, bambini capaci di sognare. In a world where habitats are constantly changing and the impact of anthropization on the environment is increasingly intense, interactions between human and wildlife are becoming more and more complex. Some species pose problems for human activities while many others need to be helped in order to continue to exist. This book follows the first volume called 'Problematic Wildlife', edited by F.M. Angelici and published by Springer in 2016, which has had considerable success with readers and critics. The volume includes 21 chapters divided into 7 parts devoted specific topics which are approached in a multidisciplinary way. There are both review chapters and specific cases, always bearing in mind the interest for an international audience. The book is useful both for scientists, wildlife specialists, conservationists, zoologists, ecologists, university students, nature managers, and for those who live in contact with wildlife and its problems, such as farmers, shepherds, hunters, urban planners, and staff of parks and nature reserves. Its ultimate goal is to offer scientific and pragmatic approaches to manage each categories of problematic species. Vols. for 1921-1969 include annual bibliography, called 1921-1955, American bibliography; 1956-1963, Annual bibliography; 1964-1968, MLA international bibliography. Le tradizioni popolari legate al tarantolismo hanno generato culti e riti che hanno dato vita ad alcune delle più vitali musiche e danze popolari: tammurriate, tarantelle e pizziche, il cui rinnovato interesse tra i giovani sta suscitando un forte richiamo internazionale. L'autore analizza l'evoluzione di tali tradizioni, includendo i luoghi di ritrovo e le feste, le sagre e gli appuntamenti legati al culto della Taranta. La prefazione è un'intervista a Teresa De Sio, grande protagonista e studiosa di musica popolare. This book investigates the position of young children's self-determination within a range of social contexts, such as education, social care, mass-media, health, politics, law and the family. It brings to the fore the voices of the children in the present, with their interests, agendas and rights. Based on original primary research, the chapters tackle hegemonic discourses on children's self-determination as well as current policies and practices. They address a broad range of topics, from the planning of role-play to national policies, from the use of digital technologies for pedagogy to children's health and well-being, and from democratic practices in the classroom to the preservation of traditional family values. The book presents case studies to unravel how childhood and young children's self-determination are constructed at the intersection with intergenerational relationships. Coming from different disciplines and using a diverse range of methodological traditions, the contributions in the volume eventually converge to generate a rich, complex and multi-layered analysis of contemporary cultures of childhood and young children's rights. This major reference work fills a need long recognized in neurolinguistics: a source for analyzable speech transcripts from agrammatic aphasic patients that provides detailed grammatical descriptions and distributional analyses. This 3-volume set is unique in that it presents narrative speech from carefully selected clinically comparable patients, speakers of 14 languages, and parallel narratives by normal speakers. For each of the 14 languages there is a case presentation chapter analyzing and discussing the language of agrammatic patients, followed by primary data, which are organized as follows: running text of speech by two patients; interlinear morphemic translations of those texts; running text of speech elicited from two normal control subjects (plus interlinear translations); tables and figures analyzing distributional properties of the patients' speech; results of comprehension tests of the patients; transcriptions of patients' oral reading and writing samples. Neurological information is included with the case presentations, and a short grammatical sketch of each language is added to make the work on all languages accessible even to those who only read English. Language findings are presented for English, Dutch, German, Icelandic, Swedish, French, Italian, Polish, Serbo-Croatian, Hindi, Finnish, Hebrew, Chinese and Japanese.The book is an indispensable reference work for all linguists, psycholinguists and neurolinguists who wish to test their theories against a massive body of data.
