*The Hunchback's Tailor* Apr 11 2020 Alongside Georges Clemenceau and David Lloyd George, Giovanni Giolitti (1842-1928) stands out as one of the major liberal reformers of late 19th- and early 20th-century Europe. In the first complete English-language study of Giolitti, De Grand examines the political life of Italy's most notable prime minister after Cavour. Giolitti emerges not as a transitional figure leading fledgling Italy into modern democracy, but as a staunch adherent of 19th-century elitist liberalism trying to navigate the new tide of mass politics. De Grand's careful research offers valuable insight into Giolitti as statesman and, through him, a vantage point on the development of Italy during a critical period. Giolitti's troubled relationship with mass politics defined his years in office. A life-long bureaucrat aloof from the electorate, Giolitti introduced near universal male suffrage—even while commenting that first teaching everyone to read and write would be a more reasonable route—and tolerated labor strikes. Rather than reform the state as a concession to populism, however, Giolitti sought to accommodate the politics of the piazza under the roof of liberal parliamentarianism, first in his pursuit of coalitions with Socialist and Catholic groups, and finally, at the end of his political life, in a failed courtship with Fascism.

**Poetry and its Contexts in Eleventh-century Byzantium** Jan 21 2021 Byzantine poetry of the eleventh century is fascinating, yet underexplored terrain. It presents a lively view on contemporary society, is often permeated with wit and elegance, and is concerned with a wide variety of subjects. Only now are we beginning to perceive the possibilities that this poetry offers for our knowledge of Byzantine culture in general, for the intellectual history of Byzantium, and for the evolution of poetry itself. It is, moreover, sometimes in the most neglected texts that the most fascinating discoveries can be made. This book, the first collaborative book-length study on the topic, takes an important step to fill this gap. It brings together specialists of the period who delve into this poetry with different but complementary objectives in mind, covering the links between art and text, linguistic evolutions, social functionality, contemporary reading attitudes, and the like. The authors aim to give the production of 11th-century verse a place in the Byzantine genre system and in the historic evolution of Byzantine poetry and metrics. As a result, this book will, to use the expression of two important poets of the period, "offer a small taste" of what can be gained from the serious study of this period.

**Giotto the Painter. Volume 1: Life** Mar 15 2023 Giotto (1334) is the first European artist about whom it is possible to write following the schema of "life and work". The situation of the sources, however, is complicated: On Giotto's life, there are - on the one hand - biographical accounts from the mid-fourteenth century onwards that responded to various ideological requirements (patriotism, humanism, Renaissance ideology, cult of the artist); on the other, there is extensive documentary material from Giotto's lifetime, which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder. The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre-modern artist.

[Music and Patronage in Sixteenth-Century Mantua: Volume 1](#) May 05 2022 Viewed traditionally, the history of sixteenth-century Mantuan music is almost a catalogue of some of the most distinguished composers of the age, from Tromboncino and Cara, via Jacquet of Mantua, to Wert, Palestrina, Marenzio, Pallavicino, Gastoldi, Rossi and Monteverdi. The remarkable achievements of composers under Gonzaga patronage, practically synonymous with Mantuan patronage during this period, are treated here in their social context. The arguments proceed not just from the music itself, but from detailed examination of archival sources, from which Dr Fenlon reconstructs employment patterns and describes the social structure and institutional life of the city. The aim of the book is to show how the patterns of patronage, and music and musicians, reflect and illuminate the temperaments and prime preoccupations of successive rulers. The book contains a substantial appendix of unpublished archival documents, a small proportion only of the scholarly and comparative sources on which the study is based.

*Giotto the Painter. Volume 1-3* Feb 14 2023 Vol. 1: Life Giotto (1334) is the first European artist about whom it is possible to write following the schema of "life and work". The situation of the sources, however, is complicated: On Giotto's life, there are - on the one hand - biographical accounts from the mid-fourteenth century onwards that responded to various ideological requirements (patriotism, humanism, Renaissance ideology, cult of the artist); on the other, there is extensive documentary material from Giotto's lifetime, which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder. The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre-modern artist. Vol. 2: Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources. These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300: while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans, his artistic path began in Rome in the shadow of the Curia. The breakthrough to his own artistic concept came immediately before and during his work in Padua. In addition to prominent churchmen, ecclesiastical institutions, and the King of Naples, his clients were predominantly members of Italy's urban and financial elites. The adoption and further development of his inventions by other - especially Sieneese - painters pressured him in his later years to try new approaches again. Vol. 3: Survival Giotto is considered by many to be the founder of modern painting. This thesis is discussed and modified in the present volume on an empirical basis. What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature. Rather, his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences. The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological, narrative and allegorical content of great complexity outside the media of language and text, which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies.

*Forms of Conflict and Rivalries in Renaissance Europe* Feb 19 2021 Cultural and intellectual dynamism often stand in close relationship to the expression of viewpoints and positions that are in tension or even conflict with one another. This phenomenon has a particular relevance for Early Modern Europe, which was heavily marked by polemical discourse. The dimensions and manifestations of this *Streitkultur* are being explored by an International Network funded by the Leverhulme Trust (United Kingdom). The present volume contains the proceedings of the Network's first colloquium, which focused on the forms of Renaissance conflict and rivalries, from the perspectives of history, language and literature.

**Survival Among The Kurds** Jul 15 2020 First published in 1993. The Yezidis are a community of around 200,000 Kurds who possess their own religion, quite distinct from Islam, which most other Kurds profess, and from the Christian and Jewish faiths. The Yezidis live in the northern parts of Iraq and Syria, in eastern Turkey, in Germany and in the ex-Soviet republics of Armenia and Georgia. (In Armenia the Yezidis, long classified as Kurds, are now recognized as a separate minority group and the term 'Kurd' is applied only to Moslem Kurds.) This book stems from a conversation with the Yezidi priest of the village who remarked that now the children were learning to read and write they were asking him questions about the Yezidi scriptures and the history of the community. Lacking any written material, he could only repeat to them the oral traditions he had himself learned as a child.

**Taddeo and Federico Zuccaro** Jun 13 2020 One of the most important series of drawings in late-sixteenth-century Italian art--the twenty large sheets by Federico Zuccaro (ca. 1541-1609) showing the early life of his older brother, Taddeo (1529-1566)--was acquired by the J. Paul Getty Museum in 1999. Never fully published, the series shows Taddeo's trials and tribulations as a young artist trying to achieve success in Renaissance Rome, and his eventual triumph. The drawings contain charming details of the life of a struggling artist and reveal much about the younger brother, Federico, a successful artist in his own right. This volume--published to coincide with an exhibition at the J. Paul Getty Museum to be held from October 1, 2007, to January 6, 2008--presents Federico Zuccaro's twenty drawings and accompanying poems in their historical and artistic context and will be of interest to art historians and general readers alike. Of particular importance is its examination of the role of the copying of masterworks in the training of young Renaissance artists.

**Reforms of Christian Life in Sixteenth-Century Italy** Aug 16 2020 *Reforms of Christian Life* presents a new narrative of the role of the Barnabites and Angelics, the Ursulines and the Somascans (founded in Northern Italy in the 1530s by Battista da Crema, Angela Merici, and Girolamo Miani) within sixteenth-century Italian reform movements. While historiography has considered these companies under the category of 'Catholic Reformation,' this book argues that they promoted an 'unconventional' view of perfection and of the Church that was alternative to both Roman Catholicism and Lutheranism and through which they wanted to reform society, rather than the ecclesiastical institution. By highlighting the complex articulation of perceptions of 'Christian life,' and by exploring neglected connections among devout milieus, Mazzonis considers the sodalities in continuity with a fifteenth-century ascetic-mystical current and in relation to contemporary institutes such as the Jesuits and the Oratorians, irenic reforming circles like that of Juan de Valdés, and post-Tridentine ecclesiastical reformers including Charles Borromeo. This volume shows that reforming trends were more varied and fluid than previously thought and contributes to

cultural and gender analyses of the religious mentality of the period. *Reforms of Christian Life* is a useful tool for students and scholars of medieval and early modern religious and cultural history.

**Product** Jun 18 2023 The second volume of the two-volume set *The Fruits of Empirical Linguistics* focuses on the linguistic outcomes of empirical linguistics. The contributions present some of the insights that linguists can gain by applying the new methods: progress within language study is accelerated by the new evidence since language systems are more precisely captured. Readers will enjoy the fresh perspective on linguistic questions made possible by the evidence-based approach.

**Radical Marble** Jun 25 2021 *Marble* is one of the great veins through the architectural tradition and fundamental building block of the Mediterranean world, from the Parthenon of mid-fifth century Athens, which was constructed of pentelic marble, to Justinian's Hagia Sophia in Constantinople and the Renaissance and Baroque basilica of St. Peter's in the Vatican. Scholarship has done much in recent years to reveal the ways and means of marble. The use of colored marbles in Roman imperial architecture has recently been the subject of a major exhibition and the medieval traditions of marble working have been studied in the context of family genealogies and social networks. In addition, architectural historians have revealed the meanings evoked by marble revetted and paved surfaces, from Heavenly Jerusalem to frozen water. The present volume builds upon the body of recent and emerging research - from antiquity to the present day - to embrace a global focus and address the more unusual (or at least unexpected) uses, meanings, and aesthetic appeal of marble. It presents instances where the use of marble has revolutionized architectural practice, suggested new meaning for the built environment, or defined a new aesthetic - moments where this well-known material has been put to radical use.

**A Census of Greek Medical Manuscripts** Jul 07 2022 Manuscripts containing Greek medical texts were inventoried by author and work at the beginning of the 20th century by a group of philologists under the direction of Hermann Diels. Useful as it was - and will continue to be - Diels' catalogue omitted authors and works, misidentified manuscripts, and overlooked codices. Furthermore, since the publication of the catalogue, some libraries have adopted a new system of classification, manuscripts have been destroyed, items have changed location, and new ones have come to light. The present Census is a checklist of the Greek medical manuscripts currently known in collections worldwide. It is both an amended and updated index of Diels' catalogue, and a list of the items missed or overlooked in Diels, or located since. Although it does not supersede Diels' catalogue, it is the indispensable instrument for a New Diels, and will be the reference for years to come for any new critical edition and medico-historical research based on manuscripts, besides providing the basis for a broad range of other historical inquiries, from codicology to the history of medicine and science, including Byzantine intellectual history, Renaissance studies and humanism, history of the book and early printing, and the history of medical philology and learning.

**Don Camillo Stories of Giovannino Guareschi** Mar 23 2021 Giovannino Guareschi (1908-1968) was an Italian journalist, humorist, and cartoonist best known for his short stories based on the fictional Catholic priest Don Camillo. In this study, Alan R. Perry explores the Don Camillo stories from the perspective of Christian hermeneutics, a unique approach and the best critical key to unlocking the richness of both the author and his tales. The stories of Don Camillo, the cantankerous but beloved priest, and his sidekick, Communist mayor Peppone, continue to entertain viewers and readers. Their Cold War adventures, mishaps, arguments, and reconciliations have a timeless quality, and their actions reflect endearing values that prevail even today. The stories delight, to be sure, but the best of them also force us to stop and think about how Guareschi so powerfully conveyed the Christian message of faith, hope, and love. To appreciate the true genius of Guareschi, Perry argues that we must delve deeper into the latent spiritual meaning that many of his stories contain. In reflecting popular understandings of the faith, the Don Camillo tales allow us to appreciate a sacred awareness of the world, an understanding communicated through objects, gestures, expressions, and actual religious rites. The first full-length scholarly examination of the Don Camillo stories to appear, this book offers a solid appreciation of Italian cultural values and discusses the ways in which those values were contested in the first decades of the Cold War.

**Travelling Heroes** Sep 16 2020 The myths of the ancient Greeks have inspired us for thousands of years. Where did the famous stories of the battles of their gods develop and spread across the world? The celebrated classicist Robin Lane Fox draws on a lifetime's knowledge of the ancient world, and on his own travels, answering this question by pursuing it through the age of Homer. His acclaimed history explores how the intrepid seafarers of eighth-century Greece sailed around the Mediterranean, encountering strange new sights—volcanic mountains, vaporous springs, huge prehistoric bones—and weaving them into the myths of gods, monsters and heroes that would become the cornerstone of Western civilization.

*Pagan Christmas* Mar 03 2022 This authoritative work sheds light on the religious world of the Kalasha people of the Birir valley in the Chitral district of Pakistan, focusing on their winter feasts, which culminate every year in a great winter solstice festival. The Kalasha are not only the last example of a pre-Islamic culture in the Hindu Kush and Karakorum mountains but also practice the last observable example anywhere in the world of an archaic Indo-European religion. In this book, Augusto S. Cacopardo takes readers inside the world of the Kalasha people. Cacopardo outlines the history and culture of this ancient but still extant people. Exploring an array of relevant literature, he enriches our understanding of their practices and beliefs through illuminating comparisons with both the Indian religious world and the religious folklore of Europe. Bringing together several disciplinary approaches and drawing on extensive ethnographic fieldwork, this book offers the first extended study of this little-known but fascinating Kalasha community. It will take its place as a standard international reference source on the anthropology, ethnography, and history of religions in Pakistan and Central South Asia.

*Forged in the Shadow of Mars* Nov 18 2020 In *Forged in the Shadow of Mars*, Peter W. Sposato traces chivalry's powerful influence on the mentalità and behavior of a sizeable segment of the elite in late medieval Florence. He finds that the strenuous knights and men-at-arms of the Florentine chivalric elite—a cultural community comprised of men from both traditional and newly emerged elite lineages—embraced a chivalric ideology that was fundamentally martial and violent. Chivalry helped to shape a common identity among these men based on the profession of arms and the ready use of violence against both their peers and those they perceived to be their social inferiors. This violence, often

transgressive in nature, was not only crucial to asserting and defending personal, familial, and corporate honor, but was also inherently praiseworthy. In this way, Sposato highlights the sharp differences between chivalry and the more familiar civic ideology of the popolo grasso, the Florentine mercantile and banking elite who came to dominate Florence politically and economically during the thirteenth and fourteenth centuries. As a result, in *Forged in the Shadow of Mars*, Sposato challenges the traditional scholarly view of chivalry as foreign to the social and cultural landscape of Florence and contests its reputation as a civilizing force. By reexamining the connection between chivalric literature and actual practice and identity formation among historical knights and men-at-arms, he likewise provides an important corrective to assumptions about the nature of elite violence and identity in medieval Italian cities.

**Ancora: Volume 1** Aug 20 2023 Lucia Maniani is one of six daughters born to Italian immigrants in the 1960s. Her history and her own mother's account are translated through the memories of stories told to her daughter. The past, the present, and the future have similar voices filled with faith, fear, and humor. Strength combats betrayal, imagination rescues from depression, and love does battle with apathy. Three generations of Manianis present their faces to the world, and discovering who one woman is can not be done without learning who she has come from and who she is leaving behind. The anchor in this swirling storm of personhood is memory. Ancora makes a case for the importance of telling stories and of remembering them.

**Forgotten Italians** Jul 27 2021 Scholarship on Italian emigration has generally omitted the Julian-Dalmatians, a group of Italians from Istria and Dalmatia, two regions that, in the wake of World War Two, were ceded by Italy to Yugoslavia as part of its war reparations to that country. Though Italians by language culture, and traditions, it seems that this group has been conveniently excised from history. And yet, Julian-Dalmatians constitute an important element in twentieth-century Italian history and represent a unique aspect of both Italian culture and emigration. This ground-breaking collection of articles from an international team of scholars opens the discussion on these "forgotten Italians" by briefly reviewing the history of their diaspora and then by examining the literary and artistic works they produced as immigrants to Canada. *Forgotten Italians* offers new insights into such celebrated authors as Diego Bastianutti, Mario Duliani, Caterina Edwards, and Gianni Angelo Grohovaz, as well as visual artists such as Vittorio Fiorucci and Silvia Pecota. Profoundly marked by the experience of being uprooted and forced into exile, by life in refugee camps, and by the encounter with a new culture, first-generation Julian-Dalmatians in Canada used art and writing to come to terms with their anguished situation and to rediscover their cultural roots.
