The conclusion to critically acclaimed author Sara B. Larson haunting and romantic reimagining of Swan Lake, a YA duology packed with action, betrayal, romance, and twists. years ago, King Lorcan of the Dark Kingdom Dorjhalon defeated Queen Evelayn and cut her conduit stone from her. Since then, he has kept her trapped in her swan form. With loss of balance between Dark and Light, winter has descended and the Draíolon of Éadrolan lose more power every day. But once a year, Lorcan transforms her back to her Draíolon form and offers a truce. And every year Evelayn refuses—for he requires her to Bind herself to him for life. But now, with an Ancient power bearing down upon them, everything may

change. Evelayn will learn that the truths she once believed have shattered, and that she may need her enemies even more than her allies. Lorcan and Evelayn become partners in a desperate quest to return the balance of power to Lachalonn. How far will this partnership go? Can friendship—perhaps even love—bloom where hatred has taken root? Sara B. Larson delivers a thrillingly romantic and hauntingly satisfying end to this extraordinary duology. There are worse things than death. With the rise of Varia d'Malvane comes the fall of the Mist Continent. Cavanos is overrun by the brutal rampage of the valkerax, led by its former crown princess. Vetrin is gone. Helkyris is gone. As each mighty nation falls, the grip of the crown princess closes around the throat of the world. But Y'shennria isn't out yet. Alongside Malachite, Fione, Yorl, and her love Lucien, Zera seeks aid from the High Witches and the Black Archives, with the valkerax horde hot on their heels. Seemingly unstoppable, Varia can track Zera through her dreams, ensuring there is nowhere to run. Thankfully, an ancient book holds the key to stopping the incursion forever. But at what cost comes freedom? At what cost comes love? At what cost comes the end of the world, and the beginning of a new one? The Bring Me Their Hearts series is best enjoyed in order. Reading Order: Book #1 Bring Me Their Hearts Book #2 Find Me Their Bones Book #3 Send Me Their Souls My name is Willow. His name is Jason. He hated me. I hated him- while silently hiding how much all that hate hurt deep down inside me. But all that was before. Before everything changed. Before I woke up to gunshots and screaming and death. Now he still hates me, along with his Uncle Paulie and their club brother

But I don't hate him. I can't, not after he came for me. Not when he saved me. Not now that the ravaged are here. They come for you like you're nothing. With their feral snarls, and bloodshot eyes. Their decaying mouths salivating for a bite of you. They are hungry for life and we are their meal. I didn't want to believe it. I didn't want to accept it. But I can't ignore them because they're everywhere. Now that the threat of them haunts every waking moment. With Jason standing between them and me- I can't hate him anymore. I don't want to. Defy the Ravaged is a compilation of the four-part romantic dystopian series originally published separately as novellas. It includes Willow, Thrive, Hunted, and Defend. This story ends with an epilogue but is just the beginning of an epic dystopian series. Warning: For Readers 18 years and older. Contains explicit sexual situations, possible triggers, dark themes, language, violence. Reviews: "Zombies, blood, death, life, love and a psychopath all make for a really great read. love how the romance never takes a back seat but the act pretty much constant. So much love this series." -Amazon Reviewer "This book made me forget about time. I totally lost night reading this and not realizing its morning already. From the first page to the last . . . You will be drawn to it. The writing is so good and flawless you just flow with it. Non stop action must read. I can't wait for the next one." -Amazon Reviewer "This book hooks you from the beginning! I couldn't put it down once I started to read it. Can't wait for the next book." -Amazon Reviewer In *Warriors of Wing and Flame*, acclaimed author Sara B. Larson continues her enchanting YA fantasy duology with a timeless fairytale feel in an original voice. The doorway between the magical Visempirum and the human world has been reopened. Paladins are once more living in the citadel where Zuhra and Inara grew up completely isolated from the magical hedge that trapped them there. Amidst the brewing conflict between the Paladins and humans looms the threat of Barloc, who has stolen Inara's immense power and continues to elude the Paladins who are desperately searching for him. In this sequel to *Sisters of Shadow and Light*, Inara and Zuhra must navigate the treacherous paths of self-discovery, the search for each other, and for the boys who have captured their hearts. Together, they search for the strength within themselves to bridge the divide between the two worlds they inhabit, even as war threatens to destroy everything—and everyone—they love. The newest Oprah's Book Club 2.0 selection: this special eBook edition of *The Invention of Wings* by Sue Monk Kidd features exclusive

content, including Oprah's personal notes highlighted within the text, and a reading group guide. Writing at the height of her narrative and imaginative gifts, Sue Monk Kidd presents a masterpiece of hope, daring, the quest for freedom, and the desire to have a voice in the world. Hetty "Handful" Grimke, an urban slave in early nineteenth century Charleston, yearns for a life beyond the suffocating walls that enclose her within the wealthy Grimke household. The Grimke's daughter, Sarah, has known from an early age she is meant to do something large in the world, but she is hemmed in by the limits imposed on women. Kidd's sweeping novel is set in motion on Sarah's eleventh birthday, when she is given ownership of ten year old Handful, who is to be her handmaid. We follow their remarkable journeys over the next thirty five years, as both strive for a life of their own, dramatically shaping each other's destinies and forming a complex relationship marked by guilt, defiance, estrangement and the uneasy ways of love. As the stories build to a riveting climax, Handful will endure loss and sorrow, finding courage and a sense of self in the process. Sarah will experience crushed hopes, betrayal, unrequited love and ostracism before leaving Charleston to find her place alongside her fearless younger sister, Angelina, as one of the early pioneers in the abolition and women's rights movement. Inspired by the historical figure of Sarah Grimke, Kidd goes beyond the record to flesh out the rich interior lives of all the characters, both real and invented, including Handful's cunning mother, Charlotte, who courts danger in her search for something better. This exquisitely written novel is a triumph of storytelling that looks with unswerving eyes at a devastating

wound in American history, through women whose struggle for liberation, empowerment, and expression will leave no reader unmoved. This hilarious, poignant and true story of one teen's experience growing up in America as an undocumented immigrant from the Middle East is an increasingly necessary read in today's divisive world. Perfect for fans of Mindy Kalan and Trevor Noah's books. "Very funny but never flippant, Sara mixes '90s pop culture references, adolescent angst and Iranian history into an intimate, informative narrative." —The New York Times At thirteen, bright-eyed, straight-A student Sara Saedi uncovered a terrible family secret: she was breaking the law simply by living in the United States. Only two years old when her parents fled Iran, she didn't learn of her undocumented status until her older sister wanted to apply for an after-school job, but couldn't because she didn't have a Social Security number. Fear of deportation kept Sara up at night, but it didn't keep her from being a teenager. She desperately wanted a driver's card, along with clear skin, her own car, and a boyfriend. *Americanized* follows Sara's progress toward getting her green card, but that's only a portion of her experiences as an Iranian-"American" teenager. From discovering that her parents secretly divorced to facilitate her mother's green card application to learning how to tame her unibrow, Sara pivots gracefully from the terrifying prospect that she might be kicked out of the country at any time to the almost-as-terrifying

possibility that she might be the only one of her friends with a date to the prom. This moving, often hilarious story is for anyone who has ever shared either fear. Maguire, Michael Rosen, Sabrina Sanders, Rachel Sumekh Juliette and Warner's story continues in the thrilling fifth installment of Tahereh Mafi's New York Times bestselling Shatter Me series. Juliette Ferrars isn't who she thinks she is. Nothing in her world is what it seemed. She thought she'd finally defeated the Reestablishment. She thought she'd finally taken control of her life, her power, and her pain. But Juliette has only just begun to unravel a lifetime of lies, and she finds herself faced with a familiar choice: Be a weapon. Or be a warrior. This time, she's not alone. Stronger, braver, and more resilient than ever, Juliette will fight for life and love with her friends by her side—but first, she has to win the war being waged against her mind: She has to remember who she was. Narrated by Juliette, Warner, and Kenji Kishimoto, this gripping novel perfectly sets the stage for the highly anticipated forthcoming conclusion to the Shatter Me

series. When teenagers scuffle during a basketball game, they are typically benched. But when Will got into it on the court and his rival were sprayed in the face at close range by a chemical similar to Mace, denied a shower for twenty-four hours, and then locked in solitary confinement for a month. One in three American children will be arrested by the time they are twenty-three, and many will spend time locked inside horrific detention centers that defy everything we know about how to rehabilitate young offenders. In a clear-eyed indictment of the juvenile justice system run amok, award-winning journalist Nell Bernstein shows that there is no right way to raise a child. The very act of isolation denies delinquent children the thing that is most essential to their growth and rehabilitation: positive relationships with caring adults. Bernstein introduces us to youth across the nation who have suffered violence and psychological torture at the hands of the state. She presents these youths all as fully realized people, not victims. As they describe in their own voices their fight to maintain their humanity and protect their individuality in environments that would deny both, these young people offer a hopeful alternative to the doomed effort to reform a system that should only be dismantled. *Burning Down the House* is a clarion call to shut down our nation's brutal and counterproductive juvenile prisons and bring our children home. In *Leadership Unchained*, Sara Canaday offers a unique perspective that helps modern leaders break free from the chains of conventional wisdom and blaze new trails toward greater success. You'll learn when to apply classic principles and when to boldly defy them. The gripping first installment

New York Times bestselling author Tahereh Mafi's Shatter Me series. One touch is all it takes. One touch, and Juliette Ferrars can leave a fully grown man gasping for air. One touch, and she can kill. No one knows why Juliette has such incredible power. It feels like a curse, a burden that one person alone could never bear. But The Reestablishment sees it as a gift, her as an opportunity. An opportunity for a deadly weapon. Juliette has never fought for herself before. But when she's reunited with the one person who ever cared about her, she finds a strength she never knew she had. And don't miss *D* Me, the shocking fifth book in the Shatter Me series! From New York Times bestselling author of *Parable of the Sower*, MacArthur "Genius" Grant, Nebula, and Hugo award winner. The visionary time-travel classic whose Black female hero is pulled through time to face the horrors of American slavery explores the impacts of racism, sexism, and white supremacy then and now. "I lost an arm on my last trip home. My left arm." Dana's torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner's plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure the survival of her Black ancestor so that she may one day be free. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead's *The Underground Railroad* and Ta-Nehisi Coates's *The Water Dancer*, Butler takes one of speculative fiction's oldest tropes and infuses it with lasting

depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. "Where stories about American slavery are often gratuitous, reducing its horrors to explicit violence and brutality, *Kindred* is controlled and precise" (New York Times). "Reading Octavia Butler taught me to dream big, and I think it's absolutely necessary that everybody have that freedom and that willingness to dream big." —N. K. Jemisin

Developed for television by writer/executive producer Branden Jacobs-Jenkins (*Watchmen*), executive producers also include Joe Weisberg and Joel Fields (*The Americans*, *The Patient*), and Darren Aronofsky (*The Whale*). **THIS IS AN INVITATION TO DROWNING.** These are the stories of things out of water--of sea bed deserts choked with ghosts; of the lonely, roving children of the fen. Here your garden grows belowground. You will be born into a cradle of your own bones, shadows will fall from your eyes, and your mouth will fill with thorns. Storms will twist inside you, and the ghosts of your past will follow you to chart your future. Here, things are out of place--ectopic and unviable--and you will mourn the unborn, those underwater things out of water.

The international bestselling author of *Where the Light Enters* presents a remarkable epic about two female doctors in nineteenth-century New York. The year is 1883, and in New York City, Anna Savard and her cousin Sophie—both graduates of the Woman's Medical School—travel to the city's most vulnerable, even if doing so puts everything

they've strived for in jeopardy... Anna's work has placed her on the path of four children who have lost everything, just as she herself once had. Faced with their helplessness, Anna must make an unexpected choice between holding on to the pain of her past and letting love into her life. For Sophie, an obstetrician and the orphaned daughter of free people of color, helping a desperate young mother forces her to grapple with the oath she took as a doctor—and thrusts her and Anna into the orbit of anti-vice crusader Anthony Comstock, a dangerous man who considers himself the enemy of everything indecent and anyone who dares to defy him. With its vivid depictions of New York and its enormously appealing characters, *The Gilded Hour* is a captivating novel by an author at the height of her powers. \*Finalist for the National Book Award\* \*Finalist for the Kirkus Prize\* \*Instant New York Times Bestseller\* \*Named a Best Book of the Year by NPR, New York Post, BuzzFeed, Shelf Awareness, Bustle, and Publishers Weekly\* An essential read for our times: an eye-opening memoir of working-class poverty in America that will deepen our understanding of the ways in which class shapes our country and "a deeply human memoir that crackles with clarifying insight".\* Sarah Smarsh was born a fifth generation Kansas wheat farmer on her paternal side, and the product of generations of teen mothers on her maternal side. Through her experiences growing up on a farm thirty miles west of Wichita, we are given a unique and essential look into the lives of poor and working class Americans living in the heartland. During Sarah's turbulent childhood in Kansas in the 1980s and 1990s, she enjoyed the freedom of a country childhood, but observed the painful

challenges of the poverty around her; untreated medical conditions for lack of insurance or consistent care, unsafe conditions, abusive relationships, and limited resources and information that would provide for the upward mobility that is the American Dream. By telling the story of her life and the lives of the people she loves with clarity and precision but without judgement, Smarsh challenges us to look more closely at the class divide in our country. Beautifully written, in a distinctive voice, *Heartland* combines personal narrative with powerful analysis and cultural commentary, challenging the myths about people thought to be less because they earn less.

"*Heartland* is one of a growing number of important works—including Matthew Desmond's *Evicted* and Amy Goldstein's *Janesville*—that together merit their own sections in nonfiction aisles across the country: America's postindustrial decline...Smarsh shows how the false promise of the 'American dream' was used to subjugate the poor. The two become friends--and then, startlingly, more than friends. What do you do when you think you're attracted to guys, and then you meet a girl who steals your heart? While her late twin watches from the afterlife, Emma assumes Sutton's identity to solve the mystery of the latter's murder investigation that repeatedly implicates the handsome and mysterious Thayer. "The true story of an audacious resistance campaign undertaken by an unlikely pair: two French women Lucy Schwob and Suzanne Malherbe -- who drew on their skills as Parisian avant-garde artists to write and distribute wick insults against Hitler and calls to desert, a PSYOPs tactic known as "paper bullets," designed to demoralize Nazi troops occupying their adopted home of Jersey in the British Channel Islands"-- Imprisonment. Betrayal. Lost love. Murder. What more must a princess endure? Elizabeth Tudor's teenage and young adult years during the turbulent reigns of Edward and then Mary Tudor are hardly those of a fairy-tale princess. Her mother has been beheaded by Elizabeth's own father, Henry VIII; her jealous half sister, Mary, has her locked away in the Tower of London; and her only love interest betrays her in her own quest for the throne. Told in the voice of the young Elizabeth and ending when she is crowned queen, this second novel in the exciting series explores the relationship between two sisters who became mortal enemies. Carolyn Meyer has written an intriguing historical tale that reveals the deep-s rivalry between a determined girl who became one of England's most powerful monarchs and the sister who tried everything to stop her. A brilliant, lost feminist classic that is equal parts domestic drama and international intrigue. Shirley and Coenraad's affair has been going on for decades, but her

longing for him is as desperate as ever. She is a Toronto housewife; he works for an international organization known only as the Agency. Their rendezvous take place in Tangier, Hong Kong, in Rome and are arranged by an intricate code based on notes slipped into issues of National Geographic. She recognizes her by her costume: a respectable black dress and a string of pearls; his appearance, however, is changeable. But something has happened, the code has been discovered, and Coenraad sends Shirley (who prefers to be known as "Lola Montez") to Toronto, the last place she wants to go. There the trail leads her through the sites of her impoverished immigrant childhood and sends her, finally, to her own house, where she discards her pearls and trades in her basic black for a dress of vibrant multicolored silk.

Helen Weinzweig published her first novel when she was fifty-eight. *Basic Black with Pearls*, her second, won the Toronto Book Award and has since come to be recognized as a feminist landmark. Here Weinzweig imbues the formal inventiveness of the *nouveau roman* with psychological poignancy and surprising humor to tell a story of simultaneous dissolution and discovery.

From the acclaimed author of *Deception* and *Sisters of Shadow and Light* is a timeless and fantastical tale of sisterly love and powerful magic. The night Zuhra was born, the stars died and were reborn in her eyes. Zuhra and Inara have grown up in the Citadel of the Paladins, an abandoned fortress where legendary, magical warriors once lived before disappearing from the world—including their Paladin father the night Inara was born. On that same night a massive, magical hedge grew and imprisoned them within the citadel. Inara inherited their father's Paladin power; her eyes

glow blue and she is able to make plants grow at unbelievable rates, but she has been trapped in her own mind because of a "roar" that drowns everything else out—leaving Zuhra virtually alone with their emotionally broken human mother. For fifteen years they have lived, trapped in the citadel, with little contact from the outside world...until the day a stranger passes through the hedge, and everything changes. Scores of talented and dedicated people serve the forensic science community, performing very important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable b

practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys and forensic science educators. Larson sets the stage for her reimagining of Swan Lake -- a lush romance packed with betrayal, intrigue, magic, and adventure.

"The years since the financial crisis have been marked by a remarkable stability in national government which hides the impact of a new kind of issue based politics which has arisen with parties such as Podemos in Spain, Syriza in Greece, The National Front in France and UKiP in the UK, all of whom have had a significant influence in shaping the political agenda in their own countries even if they have not actually secured formal power. This is the first book to present a rigorous yet accessible analysis of this phenomenon, grounded in the theories and methods of quantitative political science but drawing on empirical insights and theory from political psychology and sociology as well to try to understand the similarities and differences in the circumstances that have led to these parties springing up and shaping political discourse even policy to an extent that has challenged the very existence of the traditional party system"-- A stunning blend of action packed science fiction and love against the odds. Research shows that enriching learning experiences such as  
learning communities, service-learning, undergraduate  
research, internships, and senior culminating experiences -  
collectively known as High-Impact Practices (HIPs) - are  
positively associated with student engagement; deep, and  
integrated learning; and personal and educational gains for  
students - particularly for historically underserved students  
including first-generation students and racially minoritized  
populations. While HIPs' potential benefits for student learning  
retention, and graduation are recognized and are being  
increasingly integrated across higher education programs,  
much of that potential remains unrealized; and their  
implementation frequently uneven. Colleges are eager to use  
HIP nomenclature for recruitment, promoting equity for  
traditionally underserved student populations, and preparing

lifelong learners and successful professionals. However, HIPs defy easy categorization or standardized implementation. They rely on fidelity, quality, and consistency - being "done well" to achieve their learning outcomes; and, above all, require attention to access and equity if they are to fulfill their promise of benefitting all student populations equally. The goal of *Delivering on the Promise of High-Impact Practices* is to provide examples from around the country of the ways educators are advancing equity, promoting fidelity, achieving scale, and strengthening assessment of their own local high-impact practices. Its chapters bring together the best current scholarship, methodologies, and evidence-based practices within the HIPs field, illustrating new approaches to faculty professional development, culture and coalition building, research and assessment, and continuous improvement that help institutions understand and extend practices with a demonstrated high impact. For proponents and practitioners, this book offers perspectives, data and critiques to interrogate and improve practice. For administrators it provides an understanding of what's needed to deliver the necessary support. The nineteenth century was, we have been told, the "century of the poisoner," when Britain and the United States trembled under an onslaught of unruly women who poisoned husbands with gleeful abandon. That story, however, is only half true. While British authorities did indeed round up and execute a number of impoverished women with minimal evidence and fomented media hysteria, American juries refused to convict suspected women and newspapers laughed at men who feared them. This difference in outcome doesn't mean

poisonous women didn't preoccupy Americans. In the decade following Andrew Jackson's first presidential bid, Americans buzzed over women who used poison to kill men. They produced and devoured reams of ephemeral newsprint, cheap trial transcripts, and sensational "true" pamphlets, as well as novels, plays, and poems. Female poisoners served as crucial elements in the literary manifestos of writers from Nathaniel Hawthorne and Edgar Allan Poe to George Lippard and the cheap pamphleteer E. E. Barclay, but these characters were given a strangely positive spin, appearing as innocent victims, avenging heroes, or engaging humbugs. The reason for this poison predilection lies in the political logic of metaphor. Nineteenth-century Britain strove to rein in democratic and populist movements by labeling popular print "poison" and its providers "poisoners," drawing on centuries of established metaphor that negatively associated poison, women, and popular speech with writing. Jacksonian America, by contrast, was ideologically committed to the popular—although what and who counted as such was up for serious debate. The literary gadfly John Neal called on his fellow Jacksonian writers to defy British critical standards, saying, "Let us have poison." *Poisonous Muse* investigates how they answered, how they deployed the figure of the female poisoner to theorize popular authorship, to validate or undermine it, and to fight over its limits, particularly its political, gendered, and racial boundaries. *Poisonous Muse* tracks the progress of this debate from approximately 1820 to 1845. Uncovering forgotten writers and restoring forgotten context to well-remembered authors, it seeks to understand Jacksonian print culture from the inside out, through its own

poisonous language. As a mermaid versus human war looms on the horizon, Luce falls in love with her sworn enemy Dorian and assumes her rightful role as queen of the mermaids. A "masterful and meticulous"\* feat of reportage that explains some of the central mysteries of the Trump era: the unholy marriage of Trump and the evangelicals, as officiated by the alt-right.

\*Jane Mayer, author of *Dark Money* Why did so many evangelicals turn out to vote for Donald Trump, a serial philanderer with questionable conservative credentials who seems to defy Christian values with his every utterance? To a reporter like Sarah Posner, who has been covering the religious right for decades, the answer turns out to be far more intricate than one might think. In this taut inquiry, Posner digs deep into the radical history of the religious right to reveal how issues of race and xenophobia have always been at the movement's core and how religion often cloaked anxieties about perceived threats to a white, Christian America. Fueled by an antidemocratic impulse, and united by this narrative of reverse victimization, the religious right and the alt-right support a common agenda and are actively using the erosion of democratic norms to block civil rights advances, stock the judiciary with hard-right judges, defang and deregulate federal agencies, and undermine the credibility of the free press. Increasingly, this formidable bloc is also forging ties with European far right groups, giving momentum to a truly global movement. Revelatory and engrossing, *Unholy* offers a deeper understanding of the ideological underpinnings and forces influencing the course of Republican politics. This is a book that must be read by anyone who cares about the future of American democracy. Alexa

Not everyone is thrilled with Holland's new fame, but there's one person who fiercely supports her, and it's the last person she expects: her boss's team co-captain, Wes. A Junior Library Guild Selection "A fun romp of a teen romance via an exciting hockey season, this book has the right ingredients—a spunky, multifaceted main character, a love interest who turns out to be a decent individual, and plenty of internal and external conflict. . . . A teenage love story strong enough to melt the ice in the rink." —Kirkus Reviews "A fun read that simultaneously puts the reader into the hockey world as an insider and an outsider. . . .
