Magnifico is a vividly colorful portrait of Lorenzo de' Medici, the uncrowned ruler of Florence during its golden age. A true "Renaissance man," Lorenzo dazzled contemporaries with his prodigious talents and magnetic personality. Known to history as Il Magnifico (the Magnificent), Lorenzo was not only the foremost patron of his day but also a renowned poet, equally adept at composing philosophical verses and obscene rhymes to be sung at Carnival. He befriended the greatest artists and writers of the time -- Leonardo, Botticelli, Poliziano, and, especially, Michelangelo, whom he discovered as a young boy and invited to live at his palace -- turning Florence into the cultural capital of Europe. He was the leading statesman of the age, the fulcrum of Italy, but also a cunning and ruthless political operative. Miles Unger's biography of this complex figure draws on primary research in Italian sources and on his intimate knowledge of Florence, where he lived for several years. Lorenzo's grandfather Cosimo had converted the vast wealth of the family bank into political power, but from his earliest days Lorenzo's position was precarious. Bitter rivalries among the leading Florentine families and competition among the squabbling Italian states meant that Lorenzo's life was under constant threat. Those who plotted his death included a pope, a king, and a duke, but Lorenzo used his legendary charm and diplomatic skill -- as well as occasional acts of violence -- to navigate the murderous labyrinth of Italian politics. Against all odds he managed not only to survive but to preside over one of the great moments in the history of civilization. Florence in the age of Lorenzo was a city of contrasts, of unparalleled artistic brilliance and unimaginable squalor in the city's crowded tenements; of both pagan excess and the fire-and-brimstone sermons of the Dominican preacher Savonarola. Florence gave birth to both the otherworldly perfection of Botticelli's Primavera and the gritty realism of Machiavelli's The Prince. Nowhere was this world of contrasts more perfectly embodied than in the life and character of the man who ruled this most fascinating city. In this magisterial two-volume book, Pier Luigi Tucci offers a comprehensive examination of one of the key complexes of Ancient Rome, the Temple of Peace. Based on archival research and an architectural survey, his research sheds new light on the medieval, Renaissance, and Baroque transformations of the basilica, and the later restorations of the complex. Volume 1 focuses on the foundation of the complex under Vespasian until its restoration under Septimius Severus and challenges the accepted views about the ancient building. Volume 2 begins with the remodelling of the library hall and the construction of the rotunda complex, and examines the dedication of the Christian Basilica of SS Cosmas and Damian. Of interest to scholars in a range of topics, The Temple of Peace in Rome crosses the boundaries between classics, archaeology, history of architecture, and art history, through Late Antiquity, the Middle Ages, and the early modern period. A discussion of the two-year campaign in Northern Italy (1813-14) within the larger context of the Napoleonic Wars. Outnumbered by three to one, the French commander, Eugene Beauharnais fought an outstanding campaign, covering all of Napoleon's southern front. The book is a true knowledge-enhancing project, dealing with the forms of rationality at work in social life, which are so many, varied and complex. Published already in Spanish and Italian, it analyses the role played by rationality through the lens of social theories in order to propose a problematic

interpretation of human action. Since there is nothing more practical than a good theory when seeking to understand our society, the book reflects on the theoretical approaches that provide useful categories by means of which to understand and interpret individual, organizational, and institutional action. It proposes an analysis of a wide variety of classics by eminent European and Anglo-American thinkers, such as Dahrendorf, Mannheim, Marx, Popper, Weber, Habermas, Luhmann, Machiavelli, Pareto, Ardigò, Cesareo, Parsons, Schütz, Alexander, Bauman, Beck, Sennett, Antiseri, Boudon, Sen, Simon, to shed light on the relationship between rationality, difficulties in thinking and extra-rationality. Finally, the reasons for unexpected action are investigated as well as the strategic role played by ethics, rationality and skills in postmodern societies on the basis of the contributions of Nussbaum and Piketty.

On reel with Barbi, M. Dante nel cinquecento. This book collects the contributions to a two-day conference which illustrate a digital project developed at the Archaeological and Technological Park of Poggibonsi (Siena, Tuscany), where Virtual Reality and an educational video game are being used to enhance the archaeological content deriving from the excavation of the medieval site. Central to this book is a discussion of the notion of freedom in Marx and Engel's work. The book argues that the libertarian foundations of political economy were present in Marx's and Engel's work and utilizes contemporary theories of freedom to reinterpret and analyse their original work. Even many Renaissance specialists believe that little secular painting survives before the late fifteenth century, and its appearance becomes a further argument for the secularizing of art. This book asks how history changes when a longer record of secular art is explored. It is the first study in any language of the decoration of Italian palaces and homes between 1300 and the mid-Quattrocento, and it argues that early secular painting was crucial to the development of modern ideas of art. Of the cycles discussed, some have been studied and published, but most are essentially unknown. A first aim is to enrich our understanding of the early Renaissance by introducing a whole corpus of secular painting that has been too long overlooked. Yet "Painted palaces" is not a study of iconography. In examining the prehistory of painted rooms like Mantegna's Camera Picta, the larger goal is to rethink the history of early Renaissance art. Confined by behavioural norms and professional restrictions, women in Renaissance Italy found a welcome escape in an alternative world of play. This book examines the role of games of wit in the social and cultural experience of patrician women from the early sixteenth to the early eighteenth century. Beneath the frivolous exterior of such games as occasions for idle banter, flirtation, and seduction, there often lay a lively contest for power and agency, and the opportunity for conventional women to demonstrate their intellect, to achieve a public identity, and even to model new behaviour and institutions in the non-ludic world. By tapping into the records and cultural artifacts of these games, George McClure recovers a realm of female fame that has largely escaped the notice of modern historians, and in so doing, reveals a cohort of spirited, intellectual women outside of the courts. Reappraisal of the pioneering humanist scholar Biondo Flavio

During his lifetime the historian and antiquarian Biondo Flavio (1392 – 1463) struggled to obtain recognition as a major contributor to the humanistic movement of the fifteenth century. Throughout the Renaissance, fellow Italian scholars far too often condemned rather than endorsed his

scholarly works. His troublesome career and mixed reputation among his peers stand in stark contrast with the highly innovative character of his learning, which proved to be ground-breaking for the further development of various strands of historical and antiquarian research in the Early Modern Age. The authors of this volume aim to contribute to a reappraisal of this pioneering humanist scholar by a fresh assessment of his major writings in the fields of historical linguistics, historiography, Roman topography, and historical geography. Contributors Angelo Mazzocco (Mount Holyoke College), Marc Laureys (Universität Bonn), Giuseppe Marcellino (Scuola Normale Superiore di Pisa), Fulvio Delle Donne (Università della Basilicata), Fabio Della Schiava (Universität Bonn), Paolo Pontari (Università di Pisa), Catherine Castner (University of South Carolina), Jeffrey White (St. Bonaventure University), Frances Muecke (University of Sydney) This work is intended to offer to anyone still intending to devote himself to the Socratic problem a reliable means of approach by providing, first of all, a complete history of the problem itself, from its first appearance during Socrates' lifetime up to the present day. The book provides not only the history of the problem, but also the essential documents, accompanied by brief explanatory and bibliographical contextual notes, to be read in counterpoint with the chapters of its history. These documents consist of 61 extracts from 54 authors, from Fréret onwards, in other words, from the beginning of the history of the problem of the Socratic sources, which arose in the Age of Enlightenment, down to the present day. These extracts are not intended to form a collection of the various representations, interpretations or images of Socrates which succeeded each other in the history of Socratic historiography; instead, the aim is to present, in a logically and chronologically consistent order, the various ways in which the problem of the sources of Socratism was presented and resolved in the course of two hundred years of study and research on the 'case' of Socrates. Mai forse Paul Ricoeur aveva affrontato un campo così vasto come in quest'opera. Non solo perché sulla stessa problematica al primo volume ne segue un altro e poi un terzo, ma per ciò che egli stesso definisce come " il carattere temporale dell'esperienza umana ". Così Ricoeur ne parla in una intervista rilasciata a " Le Nouvel Observateur " : " Esiste tra l'attività di raccontare una storia e il carattere temporale dell'esperienza umana una correlazione necessaria e universale. In altri termini il tempo diviene 'tempo umano' nella misura in cui è articolato in un racconto; e d'altro canto, il racconto raggiunge il suo pieno significato quando diviene una condizione dell'esperienza temporale. Il tempo è un aspetto dei movimenti dell'universo. Se non ci fosse nessuno per contare gli intervalli non ci sarebbe tempo. L'attività del racconto consiste nel costruire degli insiemi temporali: configurare il tempo " In questo saggio storico gli autori tentano di ricostruire scientificamente un'accurata biografia del "Gesù della storia". Nerbo della tesi esposta nel libro è la classificazione di Gesù come un discendente della famiglia dei "Boethi", cui sarebbero appartenuti numerosi altri personaggi evangelici. Tra questi sono annoverati Nicodemo, Marta e Maria di Betania, Lazzaro, nonché la madre di Gesù, Maria I Boethus, una delle mogli di Erode il Grande, che nel 5 a.C. sarebbe fuggita in Egitto con Giuseppe in seguito a una congiura ordita contro il re. Il libro mostra come Gesù potrebbe essere sopravvissuto alla sua condanna a morte, tanto che le fonti dell'epoca ci narrano la storia di un personaggio, Gesù bar Gamala, che sembrerebbe corrispondere al Gesù dei vangeli. La famiglia dei Boethi

sembrerebbe inoltre legarsi alla dinastia oniade, cui appartenevano una classe di personaggi definiti "Giusti" e "portatori di pioggia", come Onia V Giusto e i suoi discendenti: Abba Hilkiyah, Giovanni Battista, Nicodemo Boethus, Giacomo il Giusto e altri esponenti della famiglia di Gesù. Nel saggio si approfondisce l'analisi su numerosi altri argomenti, come le questioni relative all'illegittimità di Gesù e al suo stato maritale. In September, 1219, as the armies of the Fifth Crusade besieged the Egyptian city of Damietta, Francis of Assisi went to Egypt to preach to Sultan al-Malik al-Kamil. Although we in fact know very little about this event, this has not prevented artists and writers from the thirteenth century to the twentieth, unencumbered by mere facts, from portraying Francis alternatively as a new apostle preaching to the infidels, a scholastic theologian proving the truth of Christianity, a champion of the crusading ideal, a naive and quixotic wanderer, a crazed religious fanatic, or a medieval Gandhi preaching peace, love, and understanding. Al-Kamil, on the other hand, is variously presented as an enlightened pagan monarch hungry for evangelical teaching, a cruel oriental despot, or a worldly libertine. Saint Francis and the Sultan takes a detailed look at these richly varied artistic responses to this brief but highly symbolic meeting. Throwing into relief the changing fears and hopes that Muslim-Christian encounters have inspired in European artists and writers in the centuries since, it gives a uniquely broad but precise vision of the evolution of Western attitudes towards Islam and the Arab world over the last eight hundred years.
