This highly detailed study provides a clear account of how the British Army was organised, who commanded it, and how it functioned in the field during the Peninsular War. Focusing principally on infantry, cavalry and artillery, including foreign units in British pay, it provides a detailed and comprehensive order of battle. Doctrine, training, tactics and equipment are discussed in depth, and medical services and engineers are also covered. Concise biographical details of key commanders, over 60 unit tree diagrams, organisational tables, plus numerous illustrations make this an essential reference work for students of this period. News flash: Your body already knows how to detox; you just need to turn on the right cues to make it happen. Here's how, with a 14-day plan that will change your life forever. Time to detox and cleanse? Don't go with a fad diet that makes promises you can't keep (all juice, all the time—sound familiar?). Instead, turn to Samantha Heller for a program that really works. Cleanses, detoxes, and other purifying practices have been around for hundreds of years, from fasting to juicing and everything in between. Not all of them are tried-and-true, and most aren't scientifically sound. But finally, here it is: the only cleanse you'll ever need. The Only Cleanse is uniquely designed to fully integrate, elevate, and reestablish the body's biochemical balance. Heller uses a five-pronged approach that covers diet, stress, emotions, exercise, and sleep. She also reviews existing detox plans and explains the pros and cons, further emphasizing why her plan is the only one you need. Abstract: The authors use comparable micro level panel data for 14 countries and a set of

identically specified empirical models to investigate the relationship between exports and productivity. The overall results are in line with the big picture that is by now familiar from the literature: Exporters are more productive than non-exporters when observed and unobserved heterogeneity are controlled for, and these exporter productivity premia tend to increase with the share of exports in total sales; there is strong evidence in favour of self-selection of more productive firms into export markets, but nearly no evidence in favour of the learning-by-exporting hypothesis. The authors document that the exporter premia differ considerably across countries in identically specified empirical models. In a meta-analysis of their results the authors find that countries that are more open and have more effective government report higher productivity premia. However, the level of development per se does not appear to be an explanation for the observed cross-country differences.

An esteemed journalist delivers a compelling on-the-ground account of the construction of President Trump's border wall in San Diego—and the impact on the lives of local residents. In August of 2019, Donald Trump finished building his border wall—at least a portion of it. In San Diego, the Army Corps of engineers completed two years of construction on a 14-mile steel beamed barrier that extends eighteen-feet high and cost a staggering \$147 million. As one border patrol agent told reporters visiting the site, “It was funded and approved and it was built under his administration. It is Trump's wall.” 14 Miles is a definitive account of all the dramatic construction, showing readers what it feels like to stand on both sides of the border looking up at the imposing and controversial barrier. After the Department of Homeland Security announced an open call for wall prototypes in 2017, DW Gibson, an award-winning journalist and Southern California native, began visiting the construction site and watching as the prototype samples were erected. Gibson spent those two years closely observing the work and interviewing local residents to understand how it was impacting them. These include April McKee, a border patrol agent leading a recruiting program that trains teenagers to work as agents; Jeff Schwilk, a retired Marine who organizes pro-wall rallies as head of the group San Diegans for Secure Borders; Roque De La Fuente, an eccentric millionaire developer who uses the construction as a promotional opportunity; and Civile Ephedouard, a Haitian refugee who spent two years migrating through Central America to the United States and anxiously awaits the results of his asylum case. Fascinating, propulsive, and incredibly timely, 14 Miles is an important work that

explains not only how the wall has reshaped our landscape and countless lives but also how its shadow looms over our very identity as a nation. When a group of kids trapped together in a chain superstore build a refuge for themselves inside, outside, a series of disasters from a monster hailstorm to a chemical weapons spill, seems to be tearing the world apart. A birthday bash sets the scene for a frightening reunion with a killer from Eve Dallas's past in this novel in the #1 New York Times bestselling In Death series. At exactly 7:30 p.m., Walter Pettibone arrived home to over a hundred friends and family shouting, "surprise!" It was his birthday. Although he had known about the planned event for weeks, the real surprise was yet to come. At 8:45 p.m., a woman with emerald eyes and red hair handed him a glass of champagne. One sip of birthday bubbly, and he was dead. No one at the party knew who she was, but Detective Eve Dallas remembers her all too well. Eve was personally responsible for Julianna Dunne's incarceration nearly ten years ago. And now, let out on good behavior, she still has nothing but bad intentions. It appears she wants to meet Dallas again—in a reunion neither will forget... File No. 736 As interest in the whole science and technology of adhesion and adhesives grows, so do the meetings concerned with it proliferate. In the light of this, it is gratifying that this, the oldest regular meeting in the field, maintains its position by attracting both speakers and audience of such high standard from across the world year after year; further, that we are enabled to reach a wider audience through the publication of the papers presented at the conference in this series of volumes. This present volume, Number 14, differs from its predecessors by the addition of two extra items. Firstly, 1989 marked the twenty-fifth anniversary of the Adhesion Society of Japan. As part of the celebrations, the Society arranged a mission to Europe which culminated in a Special Anglo-Japanese Symposium on 21 April at The City University, London. We are fortunate in being able to include two of the papers presented by our Japanese visitors. Secondly, on Christmas Day, just as the final work on this volume was being completed, William C. ('Bill') Wake sadly died. We have included an appreciation of his contribution both to these conferences and to the world of adhesion generally. Finally, may I once again express my thanks to all those who have made possible the production of this volume. They are far too numerous to mention individually, including the authors, their secretaries, various members of the staff of the University, and our publishers; to them all, 'Thank you very much'. This book, emphasizing Genesis 14 and Psalm 110, contributes to the history of composition of the patriarchal narratives in the book of Genesis and to the history of theology of the Second Temple period. Genesis 14 was added on a late stage and in two steps: first, Genesis 14\* and later, the so-called Melchizedek episode (ME, vv. 18-20). Genesis 14 is the result of inner-biblical exegesis: both Genesis 14\* and the later ME originated from scribal activity in which several earlier biblical texts have served as templates/literary building blocks. As for Genesis 14\*, in particular three text groups were important: the Table of Nations, the wilderness wandering narratives and annals from the Deuteronomistic History. As for the ME, it is an example of haggadic exegesis presupposing and without any prehistory independent of its narrative framework. ME is the result of an assimilation between two texts, Genesis 14\* and Psalm 110, which assumedly at one point were read as a narrative and a poetic version respectively of Abraham's war with the kings. Genesis 14 has no value as a source to the history of the patriarchal era and to the religion of pre-Israelite Jerusalem. In contrast, it shows how post-exilic scribes' painstaking study of biblical texts resulted in the creation of new biblical texts.
