Soka Gakkai in America May 04 2023 This is the first in-depth study of the Soka Gakkai Buddhists in the United States. Drawing on unprecedented access to the organization through surveys and interviews, it provides a definitive and revealing picture of one of the fastest-growing religions in the world. The authors shed light on contemporary American society and show how many members of this sect are drawn from a growing "transmodern" subculture in America. In addition, the book traces the development of the organization in the US, examining how it adapted to the peculiar circumstances of America's cultural life showing how it has now become a very American phenomenon.

Globalization and Development Volume III Jan 08 2021 Globalization and Development is a "cross-national study" on the "interstate dispersion" of the impacts (on growth, inequality and poverty) that international economic integration provides to the economies of the developing countries. In order to present the "Leading Issues in Development with Globalization" in a balanced manner, to identify differences and commonalities among "Country Experiences" in development with globalization, and to introduce diversified development paradigms with forward-looking discussions "In Search of a New Development Paradigm" for the post-MDGs era, this publication consists of three volumes and four main parts. Volume III (Part IV) presents the diversified development paradigms such as the GNH (Bhutan), the sufficiency economy (Thailand), the reform and opening up paradigm (China), the African and Latin American paradigms, and the Islamic development paradigm. The Concluding Chapter presents the evolution of development paradigms in the global development cooperation community after World War II, and then offers a glimpse into new development paradigms for the post-MDG era. This book intends to serve as a unique and comprehensive guide for those in the international development community on the subjects of diversified development paradigms/paths under globalization and other challenges in the post-MDG era.

Choose Peace Jul 14 2021 Johan Galtung and Daisaku Ikeda are two major figures in international peace studies. Ikeda is a leading Buddhist, author and educator and is deeply rooted in the Mahayana Buddhism of Nichiren. Galtung is the founder of the Institute for Peace Research in Oslo and has developed a more general Buddhist orientation. Together, through dialogue, they search for ways of interfacing Buddhism and peace. Presented as a dialogue between the two men, Choose Peace explores practical solutions to many of the global problems afflicting the world today. Galtung and Ikeda identify sources of violence and unrest and consider the role of Buddhism in formulating peaceful solutions to violence. The implications of political forces such as nationalism and socialism are considered and the role of human rights, grassroots power and the United Nations in peacekeeping initiatives are explored.

The Flower of Chinese Buddhism Apr 10 2021 The story of the introduction of Buddhism to China is a fascinating account of the meeting of the two great civilizations of Asia: India, the land of the Buddha's birth and the homeland of the religion; and China, where Buddhism was transformed into a world religion. Daisaku Ikeda begins with the introduction of Buddhism into China by traders and monks traveling over the Silk Route through Central Asia. After discussion the early translations of the Buddhist scriptures made by monks from Parthia and Sogdiana, the subject turns to the career and achievements of the great Kumarajiva, famed for his excellent renditions of the sutras and philosophical treatises that form the core of East Asian Buddhist literature -- among them the "Lotus Sutra". Study aids such as lists of technical terms, Buddhist texts, and proper names in Chinese, English, and Japanese make the book a useful tool for the student of Buddhism. An illuminating and well-told account of one of the most interesting chapters of world religious history, "The Flower of Chinese Buddhism" is a valuable contribution to the field. -- From publisher's description.

Nichiren Oct 17 2021 In 13th-century Japan, disease, famine, violence, and natural disasters plague society. Samurai lords, blinded by power, shirk any responsibility to protect the citizenry. Religious leaders care more about currying favor with the powerful than helping common people find hope and a positive way to deal with their suffering. But one unknown Buddhist monk dares to speak the truth to power: Nichiren remonstrates with the authorities. He insists that all human life is precious and that the government needs to change its ways and become of service to the people. He criticizes the established religions as being merely pawns of the state, who teach ideas that only further the people's sense of powerlessness. The true purpose of Buddhism, he asserts, is to teach people a way to empower themselves, challenge their destiny, and experience happiness in this life. Based on actual events, this exciting comic touches on major milestones in Nichiren's life interwoven with basic Buddhist principles. This real-life adventure story will captivate readers as it illustrates the life of one courageous human being who stopped at nothing to bring happiness to the people and peace to the land.
