The British Isles Jan 08 2021 Hugh Kearney's classic account of the history of the British Isles from pre-Roman times to the present is distinguished by its treatment of English history as part of a wider 'history of four nations'. Not only focusing on England, it attempts to deal with the histories of Wales, Ireland and Scotland in their own terms, whilst recognising that they too have political, religious and cultural divides. This new edition endeavours to recognise and examine contemporary multi-ethnic Britain and its implications for 'four-nations' history, making it an invaluable case study for European nationhood of the past and present. Thoroughly updated throughout to take into account recent social, political and cultural changes within Britain and examine the rise of multi-ethnic Britain, this revised edition also contains a completely new set of illustrations, including sixteen maps.

The Lost World of British Communism Dec 27 2019 A vivid account of the Communist Party of Great Britain. The Lost World of British Communism is a vivid account of the Communist Party of Great Britain. Raphael Samuel, one of post-war Britain's most notable historians, draws on novels of the period and childhood recollections of London's East End, as well as memoirs and Party archives, to evoke the world of British Communism in the 1940s. Samuel conjures up the era when the movement was at the height of its political and theoretical power, brilliantly bringing to life an age in which the Communist Party enjoyed huge prestige as a bulwark for the struggles against fascism and colonialism.

Lifestyle revolution Jan 26 2020 In postwar Britain, journalists and politicians predicted that the class system would not survive a consumer culture where everyone had TVs and washing machines, and where more and more people owned their own homes. They were to be proved hopelessly wrong. Lifestyle revolution charts how class culture, rather than being destroyed by mass consumption, was remade from flat-pack furniture, Mediterranean cuisine and lifestyle magazines. Novelists, cartoonists and playwrights satirised the tastes of the emerging middle classes, while sociologists claimed that an entire population was suffering from 'status anxiety', but underneath it all, a new order was being constructed out of duvets, quiches and mayonnaise, easy chairs from Habitat, white

emulsion paint and ubiquitous pine kitchen tables. More than just a world of symbolic goods, this was an intimate environment alive with new feelings and attitudes.

Archipelagic Modernism Sep 27 2022 Archipelagic Modernism examines the anglophone literatures of the archipelago from 1890 to 1970 for what they tell us about changing identities, geographies, and ecologies.

Class, Leisure and National Identity in British Children's Literature, 1918-1950 Jul 14 2021 This book places children's literature at the forefront of early twentieth-century debates about national identity and class relations that were expressed through the pursuit of leisure. Focusing on stories about hiking, camping and sailing, this book offers a fresh insight into a popular period of modern British cultural and political history.

British Literature and Culture in Second World Wartime May 24 2022 British Literature and Culture in Second World Wartime excavates British late modernism's relationship to war in terms of chronophobia: a joint fear of the past and future. As a wartime between, but distinct from, those of the First World War and the Cold War, Second World wartime involves an anxiety that is both repetition and imaginary: both a dread of past violence unleashed anew, and that of a future violence still ungraspable. Identifying a constellation of temporalities and affects under three tropes—time capsules, time zones, and ruins—this volume contends that Second World wartime is a pivotal moment when wartime surpassed the boundaries of a specific state of emergency, becoming first routine and then open-ended. It offers a synoptic, wide-ranging look at writers on the home front, including Henry Green, Elizabeth Bowen, Virginia Woolf, and Rose Macaulay, through a variety of genres, such as life-writing, the novel, and the short story. It also considers an array of cultural and archival material from photographers such as Cecil Beaton, filmmakers such as Charles Crichton, and artists such as John Minton. It shows how figures harnessed or exploited their media's temporal properties to formally register the distinctiveness of this wartime through a complex feedback between anticipation and retrospection, oftentimes fashioning the war as a memory, even while it was taking place. While offering a strong foundation for new readers of the mid-century, the book's overall theoretical focus on chronophobia will be an important intervention for those already working in the field.

Islands and the British Empire in the Age of Sail Nov 29 2022 Islands are not just geographical units or physical facts; their importance and significance arise from the human activities associated with them. The maritime routes of sailing ships, the victualling requirements of their sailors, and the strategic demands of seaborne empires in the age of sail - as well as their intrinsic value as sources of rare commodities - meant that islands across the globe played prominent parts in imperial consolidation and expansion. This volume examines the various ways in which islands (and groups of islands) contributed to the establishment, extension, and maintenance of the British Empire in the age of sail. Thematically related chapters explore the geographical, topographical, economic, and social diversity of the islands that comprised a large component of the British Empire in an era of rapid and significant expansion. Although many of these islands were isolated rocky outcrops, they acted as crucial nodal points, providing critical assistance for ships and men embarked on the long-distance voyages that characterised British overseas activities in the period. Intercontinental maritime trade, colonial settlement, and scientific exploration and experimentation would have been impossible without these oceanic islands. They also acted as sites of strategic competition, contestation, and conflict for rival European powers keen to outstrip each other in developing and maintaining overseas markets, plantations, and settlements. The importance of islands outstripped their physical size, the populations they sustained, or their individual economic contribution to the imperial balance sheet. Standing at the centre of maritime routes of global connectivity, islands offer historians of the British Empire fresh perspectives on the intercontinental communication, commercial connections, and territorial expansion that characterised that empire.

Global Migrants, Local Culture Aug 03 2020 Employing the first analysis of the entire population of any British town, this book examines how overseas

migrants affected society and culture in South Shields near Newcastle-upon-Tyne. Resituating Britain within global processes of migration and cultural change, it recasts British society pre-1940 as culturally and racially dynamic and diverse.

Untied Kingdom Nov 05 2020 How did Britain cease to be global? In *Untied Kingdom*, Stuart Ward tells the panoramic history of the end of Britain, tracing the ways in which Britishness has been imagined, experienced, disputed and ultimately discarded across the globe since the end of the Second World War. From Indian independence, West Indian immigration and African decolonization to the Suez Crisis and the Falklands War, he uncovers the demise of Britishness as a global civic idea and its impact on communities across the globe. He also shows the consequences of this diminished 'global reach' in Britain itself, from the Troubles in Northern Ireland to resurgent Englishness and the startling success of separatist political agendas in Scotland and Wales. *Untied Kingdom* puts the contemporary travails of the Union for the first time in their full global perspective as part of the much larger story of the progressive rollback of Britain's imaginative frontiers.

Fado and the Place of Longing Oct 29 2022 Fado, often described as 'urban folk music', emerged from the streets of Lisbon in the mid-nineteenth century and went on to become Portugal's 'national' music during the twentieth. It is known for its strong emphasis on loss, memory and nostalgia within its song texts, which often refer to absent people and places. One of the main lyrical themes of fado is the city itself. Fado music has played a significant role in the interlacing of mythology, history, memory and regionalism in Portugal in the second half of the twentieth century. Richard Elliott considers the ways in which fado songs bear witness to the city of Lisbon, in relation to the construction and maintenance of the local. Elliott explores the ways in which fado acts as a cultural product reaffirming local identity via recourse to social memory and an imagined community, while also providing a distinctive cultural export for the dissemination of a 'remembered Portugal' on the global stage.

Back to the Present: Forward to the Past, Volume II May 31 2020 The island of Ireland, north and south, has produced a great diversity of writing in both English and Irish for hundreds of years, often using the memories embodied in its competing views of history as a fruitful source of literary inspiration. Placing Irish literature in an international context, these two volumes explore the connection between Irish history and literature, in particular the Rebellion of 1798, in a more comprehensive, diverse and multi-faceted way than has often been the case in the past. The fifty-three authors bring their national and personal viewpoints as well as their critical judgements to bear on Irish literature in these stimulating articles. The contributions also deal with topics such as Gothic literature, ideology, and identity, as well as gender issues, connections with the other arts, regional Irish literature, in particular that of the city of Limerick, translations, the works of Joyce, and comparisons with the literature of other nations. The contributors are all members of IASIL (International Association for the Study of Irish Literatures). *Back to the Present: Forward to the Past. Irish Writing and History since 1798* will be of interest to both literary scholars and professional historians, but also to the general student of Irish writing and Irish culture.

Iain Sinclair Oct 05 2020 A clearly written, comprehensive critical introduction to one of the most original contemporary British writers, providing an overview of all of Sinclair's major works and an analysis of his vision of modern London. This book places Sinclair in a range of contexts, including: the late 1960s counter-culture and the 'British Poetry Revival'; London's underground histories; the rise and fall of Thatcherism, and Sinclair's writing about Britain under New Labour; Sinclair's connection to other writers and artists, such as J.G. Ballard, Michael Moorcock and Marc Atkins. This book makes a significant contribution to the growing scholarship surrounding Sinclair's work, offering the first critical text that covers in detail all of Sinclair's work: his poetry, fiction, non-fiction (including his book on John Clare, *Edge of the Orison*), and his film work.

Listening to British Nature Mar 29 2020 *Listening to British Nature: Wartime, Radio, and Modern Life, 1914-1945* traces the impact of sounds and rhythm of the natural world and how they were listened, interpreted, and used amid the pressures of modern life in early twentieth-century Britain. Author Michael Guida argues that despite and sometimes because of the chaos of wartime and the struggle to recover, nature's voices were drawn close to provide everyday security, sustenance and a sense of the future. Nature's sonic presences were not obliterated by the noise of war, the advent of radio broadcasting and the rush of the everyday, rather they came to complement and provide alternatives to modern modes of living. *Listening to British Nature* examines how trench warfare

demanded the creation of new listening cultures in order to understand danger and to imagine survival. It tells of the therapeutic communities who used quiet and rural rhythms to restore shell-shocked soldiers and of ramblers who sought to immerse themselves in the sensualities of the outdoors, revealing how home-front listening in the Blitz was punctuated by birdsong broadcast by the BBC. In focusing on the sensing of sounds and rhythms, this study demonstrates how nature retained its emotional potency as the pace and unpredictabilities of life seemed to increase and new man-made sounds and sonic media appeared all around. To listen to nature during this time was to cultivate an intimate connection with its vibrations and to sense an enduring order and beauty that could be taken into the future.

The Memory of Colonialism in Britain and France Aug 27 2022 This book explores national attitudes to remembering colonialism in Britain and France. By comparing these two former colonial powers, the author tells two distinct stories about coming to terms with the legacies of colonialism, the role of silence and the breaking thereof. Examining memory through the stories of people who incited public conversation on colonialism: activists; politicians; journalists; and professional historians, this book argues that these actors mobilised the colonial past to make sense of national identity, race and belonging in the present. In focusing on memory as an ongoing, politicised public debate, the book examines the afterlife of colonial history as an element of political and social discourse that depends on actors' goals and priorities. A thought-provoking and powerful read that explores the divisive legacies of colonialism through oral history, this book will appeal to those researching imperialism, collective memory and cultural identity.

National Identities and Travel in Victorian Britain Apr 30 2020 This book explores components of national identity in Victorian Britain by analyzing travel literature. It draws on published and unpublished travel journals by middle-class men and women from England, Scotland, and Wales who toured the Continent and/or Britain. The main aim is to illustrate both the contexts that inspired the various collective identities of Britishness, Englishness, Scotsness, and Welshness, as well as the qualities Victorian men and women had in mind when they used such terms to identify and imagine themselves collectively.

Restaging the Past Oct 17 2021 *Restaging the Past* is the first edited collection devoted to the study of historical pageants in Britain, ranging from their Edwardian origins to the present day. Across Britain in the twentieth century, people succumbed to 'pageant fever'. Thousands dressed up in historical costumes and performed scenes from the history of the places where they lived, and hundreds of thousands more watched them. These pageants were one of the most significant aspects of popular engagement with the past between the 1900s and the 1970s: they took place in large cities, small towns and tiny villages, and engaged a whole range of different organised groups, including Women's Institutes, political parties, schools, churches and youth organisations. Pageants were community events, bringing large numbers of people together in a shared celebration and performance of the past; they also involved many prominent novelists, professional historians and other writers, as well as featuring repeatedly in popular and highbrow literature. Although the pageant tradition has largely died out, it deserves to be acknowledged as a key aspect of community history during a period of great social and political change. Indeed, as this book shows, some traces of 'pageant fever' remain in evidence today.

Visual Culture and Decolonisation in Britain Mar 10 2021 First published in 2006, this volume provides the first in-depth analysis of the place of visual

representations within the process of decolonisation during the period 1945 to 1970. The chapters trace the way in which different visual genres – art, film, advertising, photography, news reports and ephemera – represented and contributed to the political and social struggles over Empire and decolonisation during the mid-Twentieth century. The book examines both the direct visual representation of imperial retreat after 1945 as well as the reworkings of imperial and ‘racial’ ideologies within the context of a transformed imperialism. While the book engages with the dominant archive of artists, exhibitions, newsreels and films, it also explores the private images of the family album as well as examining the visual culture of anti-colonial resistance.

The Histories of Raphael Samuel Jan 20 2022 In the first integrated biographical study of his work, this book situates British historian Raphael Samuel (1934–1996) in relation to his distinctive form of activist politics as they developed from youthful Cold War communism to the first British New Left, 1960s radicalism to the 1980s history wars. As the catalyst behind the History Workshop movement, Samuel championed the democratisation of history-making and practised an eclectic form of people’s history in his own work. His unique approach was controversial, drawing impassioned responses from across the ideological spectrum, the most sustained critique often coming from his left-wing contemporaries. It is argued here that this compelling figure has been unjustly neglected and that he continues to offer important insights into the politics of history-making in a post-Marxist world.

Island Stories Jun 24 2022 This history of Britain set in a global context for our times offers a new perspective on how the rise and fall of an empire shaped modern European politics. When the British voted to leave the European Union in 2016, the country's future was thrown into doubt. So, too, was its past. The story of British history is no longer a triumphalist narrative of expanding global empire, nor one of ever-closer integration with Europe. What is it now? In *Island Stories*, historian David Reynolds offers a multi-faceted new account of the last millennium to make sense of Britain's turbulent present. With sharp analysis and vivid human detail, he examines how fears of decline have shaped national identity, probes Britain's changing relations with Europe, considers the creation and erosion of the "United Kingdom," and reassesses the rise and fall of the British Empire. *Island Stories* is essential reading for anyone interested in global history and politics in the era of Brexit.

The Making of English National Identity Feb 27 2020 Why is English national identity so enigmatic and so elusive? Why, unlike the Scots, Welsh, Irish and most of continental Europe, do the English find it so difficult to say who they are? *The Making of English National Identity*, first published in 2003, is a fascinating exploration of Englishness and what it means to be English. Drawing on historical, sociological and literary theory, Krishan Kumar examines the rise of English nationalism and issues of race and ethnicity from earliest times to the present day. He argues that the long history of the English as an imperial people has, as with other imperial people like the Russians and the Austrians, developed a sense of missionary nationalism which in the interests of unity and empire has necessitated the repression of ordinary expressions of nationalism. Professor Kumar's lively and provocative approach challenges readers to reconsider their pre-conceptions about national identity and who the English really are.

The Great British Dream Factory May 12 2021 SPECTATOR BOOKS OF THE YEAR 2015 Britain's empire has gone. Our manufacturing base is a shadow of its former self; the Royal Navy has been reduced to a skeleton. In military, diplomatic and economic terms, we no longer matter as we once did. And yet there is still one area in which we can legitimately claim superpower status: our popular culture. It is extraordinary to think that one British writer, J. K. Rowling, has sold more than 400 million books; that Doctor Who is watched in almost every developed country in the world; that James Bond has been the central character in the longest-running film series in history; that *The Lord of the Rings* is the second best-selling novel ever written (behind only *A Tale of Two Cities*); that the Beatles are still the best-selling musical group of all time; and that only Shakespeare and the Bible have sold more books than Agatha Christie. To put it simply, no country on earth, relative to its size, has contributed more to the modern imagination. This is a book about the success and the meaning of Britain's modern popular culture, from Bond and the Beatles to heavy metal and Coronation Street, from the Angry Young Men to Harry Potter, from Damien Hirst to *The X Factor*.

Unravelling Civilisation Apr 22 2022 This volume is a collection of contributions about the history and practice of travel and travel writing from a variety of academic disciplines including anthropology, history, linguistics and literary criticism. It brings together scholars from over ten different countries and reflects

on what travel is and how travel writings function. It traces the history of travel and travel writing and the notion or idea of a European civilisation that permeates performances and perceptions. The notion of Europe appears as a set of quality standards as well as guidelines for experiences against which civilisations are measured. This set of standards and guidelines, however, is far from stable. It is a floating foundation carrying different versions of Europe throughout time. The authors tackle the problem from different angles: travels from Europe across the seven oceans transported the idea of European civilisation just as travels to Europe or within Europe. The volume explores the different meanings attached to the term 'Europe' and 'civilisation' throughout history and shows how different political or cultural contexts affect the notion of what Europe is or should be.

The BBC and national identity in Britain, 1922–53 Sep 15 2021 Examining the ways in which the BBC constructed and disseminated British national identity during the second quarter of the twentieth century, this book is the first study that focuses in a comprehensive way on how the BBC, through its radio programs, tried to represent what it meant to be British. The BBC and national identity in Britain offers a revision of histories of regional broadcasting in Britain that interpret it as a form of cultural imperialism. The regional organization of the BBC, and the news and creative programming designed specifically for regional listeners, reinforced the cultural and historical distinctiveness of Scotland, Wales, and Northern Ireland. The BBC anticipated, and perhaps encouraged, the development of the hybrid “dual identities” characteristic of contemporary Britain. This book will be of interest to scholars and students of nationalism and national identity, British imperialism, mass media and media history, and the “four nations” approach to British history.

Teaching History and the Changing Nation State Feb 06 2021 Capitalizing on the current movement in history education to nurture a set of shared methodologies and perspectives, this text looks to break down some of the obstacles to transnational understanding in history, focusing on pedagogy to embed democratic principles of inclusion, inquiry, multiple interpretations and freedom of expression. Four themes which are influencing the broadening of history education to a globalized community of practice run throughout *Teaching History and the Changing Nation State*: · pedagogy, democracy and dialogue · the nation – politics and transnational dimensions · landmarks with questions · shared histories, shared commemorations and re-evaluating past denials The contributors use the same pedagogical language in a global debate about history teaching and learning to break down barriers to search for shared histories and mutual understanding. They explore contemporary topics, including The Gallipoli Campaign in World War I, transformative approaches to a school history curriculum and the nature of federation.

Very British Rebels? Apr 10 2021 Challenging traditional narrow views, this unique work proposes to rethink and reinterpret Ulster loyalism from the beginning of the "Troubles" to the present day, by tracing its religious, paramilitary, political, and community influences. The work examines the core values of loyalist communities, the roots of violence, and the shift toward peaceful coexistence with former enemies. Also discussed are the DUP's claims that it represents loyalism's "true voice" along with the complex and varying degrees of commitment to the Crown, the Protestant Faith, and the British governance of Northern Ireland. Lastly, it looks at how cultural expressions of loyalist identity, such as poetry or cartoons, are being used in the (re)construction of a loyalist memory. Written by a leading expert on Ulster loyalism, the work is based on extensive interviews with loyalists and loyalist literature to provide an inside account of the processes of loyalist identity formation and transformation. Drawing on political science, sociology and cultural studies, it will appeal to anyone

interested in Irish politics as well as conflict and peace processes.

Heritage, Nostalgia and Modern British Theatre Mar 22 2022 The stage portrayal of the Victorians in recent times is a key reference point in understanding notions of Britishness, and the profound politicisation of that debate over the last four decades. This book throws new light on works by canonical playwrights like Bond, Edgar, and Churchill, linking theatre to the wider culture at large.

The Discovery of Islands Feb 18 2022 *The Discovery of Islands* consists of a series of linked essays in British history, written by one of the world's leading historians of political thought and published over the past three decades. Its purpose is to present British history as that of several nations interacting with - and sometimes seceding from - an imperial state. The commentary presents this history as that of an archipelago, expanding across oceans to the Antipodes. Both New Zealand history and the author's New Zealand heritage inform this vision, presenting British history as oceanic and global, complementing (and occasionally criticising) the presentation of that history as European. Professor Pocock's interpretation of British history has been hugely influential in recent years, making *The Discovery of Islands* a resource of immense value for historians of Britain and the world.
