**Just My Type** Apr 01 2023 A hugely entertaining and revealing guide to the history of type that asks, What does your favorite font say about you? Fonts surround us every day, on street signs and buildings, on movie posters and books, and on just about every product we buy. But where do fonts come from, and why do we need so many? Who is responsible for the staid practicality of Times New Roman, the cool anonymity of Arial, or the irritating levity of Comic Sans (and the movement to ban it)? Typefaces are now 560 years old, but we barely knew their names until about twenty years ago when the pull-down font menus on our first computers made us all the gods of type. Beginning in the early days of Gutenberg and ending with the most adventurous digital fonts, Simon Garfield explores the rich history and subtle powers of type. He goes on to investigate a range of modern mysteries, including how Helvetica took over the world, what inspires the seeming ubiquitous use of Trajan on bad movie posters, and exactly why the all-type cover of Men are from Mars, Women are from Venus was so effective. It also examines why the "T" in the Beatles logo is longer than the other letters and how Gotham helped Barack Obama into the White House. A must-have book for the design conscious, Just My Type's cheeky irreverence will also charm everyone who loved Eats, Shoots & Leaves and Schott's Original Miscellany.

**How to Write About Africa** Dec 25 2019 From one of Africa's most influential and eloquent essayists, a posthumous collection that highlights his biting satire and subversive wisdom on topics from travel to cultural identity to sexuality "A fierce literary talent . . . [Wainaina] shines a light on his continent without cliché."—The Guardian "Africa is the only continent you can love—take advantage of this. . . . Africa is to be pitied, worshipped, or dominated. Whichever angle you take, be sure to leave the strong impression that without your intervention and your important book, Africa is doomed." Binyavanga Wainaina was a pioneering voice in African literature, an award-winning memoirist and essayist, and a gatherer of literary communities. Before his tragic death in 2019 at the age of forty-seven, he won the Caine Prize for African Writing and was named one of Time's 100 Most Influential People. His wildly popular essay "How to Write About Africa," an incisive and unapologetic piece exposing the harmful and racist ways Western media depicts Africa with implicit bias and subjective clichés, changed the game for African writers and helped set the stage for a new generation of authors, from Chimamanda Ngozi Adichie to Yaa Gyasi. When Wainaina published a "lost chapter" of his 2011 memoir as an essay called "I Am a Homosexual, Mum," which imagines coming out to his mother, he became a voice for the queer African community as well, adding a new layer to how African sexuality is perceived. How to Write About Africa collects these powerful pieces in a lively and imaginative set of essays about sexuality, art, history, and contemporary Africa. Wainaina's writing is playful, robust, generous, and full-bodied. He describes the modern world with sensual, emotional, and psychological detail, giving us a full-color view of a country and continent. These works present a portrait of a giant in African literature who left a tremendous legacy.

The contrasts possible with type are treated in detail, along with their applications to the typography of books, advertising, magazines, and information data. The various contending schools of typography are discussed, copiously illustrated with the author's selection of over 150 examples of imaginative typography from many parts of the world. Design with Type differs from all other books on typography in that it discusses type as a design material as well as a means of communication: the premise is that if type is understood in terms of design, the user of type will be better able to work with it to achieve maximum legibility and effectiveness, as well as aesthetic pleasure. Everyone who uses type, everyone who enjoys the appearance of the printed word, will find Design with Type informative and fascinating. It provides, too, an outstanding example of the effectiveness of imaginative and tasteful typographic design.

**Start with Why** May 10 2021 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and

organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

**In Cold Blood** Dec 05 2020 Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are Breakfast at Tiffany's and Other Voices, Other Rooms (in one volume), Portraits and Observations, and The Complete Stories Truman Capote's masterpiece, In Cold Blood, created a sensation when it was first published, serially, in The New Yorker in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.
