*Discount Pricing for a Family of Items Apr 03 2023 Consider a family of SKUs for which the supplier will offer a quantity discount, according to the aggregate purchases of the product group. Management of those items is based on the modified periodic policy. From the supplier's point of view, what are the optimal parameters (breakpoint and discount percentage)? For deterministic demand, we discuss the cases in which demand is both constant and price-sensitive. First as a noncooperative Stackelberg game, and then when the two parties make the discount and replenishment decisions jointly, we illustrate the impact of price-sensitivity and joint decision making on the supplier's discount policy.*

*Survival of the African American Family Aug 27 2022 Jewell critically examines the social policies that arose from the civil rights movement, and the shifting policies of federal administrations from the 1960s onward. In addition, she proposes new steps to economic independence for African American families. Arguing that social policies and their absence have affected the status of African American family structures, Jewell refutes the myths of significant African American progress that emanated from the civil rights era, including the belief in equity for minorities in societal institutions.*

*Weaving a Family Oct 29 2022 A man, a woman, and their biological children, all of the same race, the mythical "nuclear family" has been the bedrock of American cultural, religious, social, and economic life since the Revolutionary War, and even with all the changes we have absorbed in the last sixty years, it essentially remains so. Current trends in adoption, however, have begun to shift the dominant paradigm of the family in ways never before imagined. Professional estimates show that in the United States today, seven million families have been formed by adoption, and 700,000 of them are interracial. These still-growing numbers have begun to radically change the face of the traditional American family. Barbara Katz Rothman, a noted sociologist who has explored motherhood in four previous books and has more recently explored the social implications of the human genome project, now turns her eye toward race and family. Weaving together the sociological, the historical, and the personal, Barbara Katz Rothman looks at the contemporary American family through the lens of race, race through the lens of adoption, and all-family, race, and adoption-within the context of the changing meanings of motherhood. She asks urgent and provocative questions about children as commodities, about "trophy" children, about the impact of genetics, and about how these adopted children will find their racial, ethnic, or cultural identities Drawing on her own experience as the white mother of a black child, on historical research on white people raising black children from slavery to contemporary times, and pulling together work on race, adoption, and consumption, Rothman offers us new insights for understanding the way that race and family are shaped in America today. This book is compelling reading, not only for those interested in family and society, but for anyone grappling with the myriad issues that surround*

raising a child of a different race.

Routt National Forest (N.F.), Fish Creek Reservoir Expansion Mar 10 2021  
De León, a Tejano Family History Sep 03 2020 Winner, Presidio La Bahia Award, 2004 San Antonio Conservation Society Citation, 2005 La familia de León was one of the foundation stones on which Texas was built. Martín de León and his wife Patricia de la Garza left a comfortable life in Mexico for the hardships and uncertainties of the Texas frontier in 1801. Together, they established family ranches in South Texas and, in 1824, the town of Victoria and the de León colony on the Guadalupe River (along with Stephen F. Austin's colony, the only completely successful colonization effort in Texas). They and their descendents survived and prospered under four governments, as the society in which they lived evolved from autocratic to republican and the economy from which they drew their livelihood changed from one of mercantile control to one characterized by capitalistic investments. Combining the storytelling flair of a novelist with a scholar's concern for the facts, Ana Carolina Castillo Crimm here recounts the history of three generations of the de León family. She follows Martín and Patricia from their beginnings in Mexico through the establishment of the family ranches in Texas and the founding of the de León colony and the town of Victoria. Then she details how, after Martín's death in 1834, Patricia and her children endured the Texas Revolution, exile in New Orleans and Mexico, expropriation of their lands, and, after returning to Texas, years of legal battles to regain their property. Representative of the experiences of many Tejanos whose stories have yet to be written, the history of the de León family is the story of the Tejano settlers of Texas.

The Family and the Nation Jul 26 2022 The French Revolution transformed the nation's--and eventually the world's--thinking about citizenship, nationality, and gender roles. At the same time, it created fundamental contradictions between citizenship and family as women acquired new rights and duties but remained dependents within the household. In *The Family and the Nation*, Jennifer Ngaiire Heuer examines the meaning of citizenship during and after the revolution and the relationship between citizenship and gender as these ideas and practices were reworked in the late 1790s and early nineteenth century. Heuer argues that tensions between family and nation shaped men's and women's legal and social identities from the Revolution and Terror through the Restoration. She shows the critical importance of relating nationality to political citizenship and of examining the application, not just the creation, of new categories of membership in the nation. Heuer draws on diverse historical sources--from political treatises to police records, immigration reports to court cases--to demonstrate the extent of revolutionary concern over national citizenship. This book casts into relief France's evolving attitudes toward patriotism, immigration, and emigration, and the frequently opposing demands of family ties and citizenship.

Beeton's Ready reckoner, a business and family arithmetic Nov 29 2022  
Mapping the Farm Mar 22 2022 In a book that is "both a personal testament and an absorbing chronicle of agrarian history" (New York Times Book Review), Hildebrand relates the story of four generations of farming O'Neills in Minnesota--a quintessentially American tale of land and labor, memory and loss. of photos. "From the Trade Paperback edition.

*The Noise of Infinite Longing* Jan 26 2020 Traces the evolution and eventual disintegration of the author's family in Puerto Rico, describing their career endeavors as well as her witness to the overthrow of Marcos in the Philippines and the beginning of the Aquino revolution.

*Studying Families* Apr 10 2021 When studying families, how do researchers decide which family members should be included in their study? What if the family consists of nonmarried parents, or homosexual partners? Or what if a couple does not have any children? Are they considered a family? This book examines the inherent problems researchers face when studying this social group.

*Five-Finger Discount* May 04 2023 Now a PBS documentary, this astonishing memoir of growing up in rough-and-tumble Jersey City "will steal your heart" (People) With deadpan humor and obvious affection, *Five-Finger Discount* recounts the story of an unforgettable New Jersey family of swindlers, bookies, embezzlers, and mobster-wannabes. In the memoir Mary Karr calls "a page-turner," Helene Stapinski ingeniously weaves the checkered history of her hometown of Jersey City—a place known for its political corruption and industrial blight—with the tales that have swirled around her relatives for decades. Navigating a childhood of toxic waste and tough love, Stapinski tells an extraordinary tale at once heartbreaking and hysterically funny. Praise for *Five-Finger Discount* "By turns hilarious and alarming, [Helene Stapinski's] book reads on the surface like something by Damon Runyon and Elmore Leonard, with a dark undertow of real-life pain and disillusion."—Michiko Kakutani, *The New York Times* "It's a brilliant book, a darling book. It is the blessedly modest chronicle of a magical consciousness that seems to have been born pulling diamonds out of the muck, hearing angels' voices in the fiercest thunder. . . . I adored every word of this wondrous book. Get it. Read it."—Michael Pakenham, *The Baltimore Sun* "In the tradition of . . . Rita Mae Brown and Amy Tan, Ms. Stapinski is an exciting writer, unabashedly candid, and at the same time unashamedly self-contained. *Five-Finger Discount* is a must-read."—Victoria Gotti, *The New York Observer* "What [Frank] McCourt did for Limerick, Ireland, Helene Stapinski does for Jersey City."—*The Star-Ledger* "Hugely entertaining."—*The Sunday Times* (London)

*Marital and Family Therapy* Feb 18 2022

*Social Change and the Family in Taiwan* Apr 22 2022 Until the 1940s, social life in Taiwan was generally organized through the family—marriages were arranged by parents, for example, and senior males held authority. In the following years, as Taiwan evolved rapidly from an agrarian to an industrialized society, individual decisions became less dependent on the family and more influenced by outside forces. *Social Change and the Family in Taiwan* provides an in-depth analysis of the complex changes in family relations in a society undergoing revolutionary social and economic transformation. This interdisciplinary study explores the patterns and causes of change in education, work, income, leisure time, marriage, living arrangements, and interactions among extended kin. Theoretical chapters enunciate a theory of family and social change centered on the life course and modes of social organization. Other chapters look at the shift from

arranged marriages toward love matches, as well as changes in dating practices, premarital sex, fertility, and divorce. Contributions to the book are made by Jui-Shan Chang, Ming-Cheng Chang, Deborah S. Freedman, Ronald Freedman, Thomas E. Fricke, Albert Hermalin, Mei-Lin Lee, Paul K. C. Liu, Hui-Sheng Lin, Te-Hsiung Sun, Arland Thornton, Maxine Weinstein, and Li-Shou Yang.

*Understanding Family Process* Dec 19 2021 Family process or family systems theory is the basic theoretical model underlying most contemporary family therapy. In *Understanding family process*, the author outlines the basic propositions of family systems, and links it both to other family theory literature and to clinical practice. Among the topics covered are relational space, family boundaries, family stratification, and child socialization. Family meanings and such shared realities as family folklore, stories, myths, and memorabilia are discussed ; and family rituals such as traditions, rites of passage, and celebrations are explored. Perfectly suited for use in courses on family systems and family theory.

*True Sisterhood* Jul 14 2021 "Home and family," for a woman of the nineteenth century, represented a sphere much broader than the term implies today. A woman's duties as sister and daughter continued, basically unchanged, even after she had assumed the roles of wife and mother. This created a female-centered kin network which went far beyond the fragile nuclear family, and which insured lifelong security in what men and women viewed as an essentially hostile world. The female family is vividly portrayed in *True Sisterhood*, where Marilyn Ferris Motz examines the lives of white Protestant native-born American women living in Michigan between 1820 and 1920 and the kinship networks to which they belonged--networks that often extended east to New England and the Middle Atlantic states and westward as far as California. The University of Michigan's Bentley Library collections of the correspondence, diaries, photographs, and other documents of numerous family groups have provided the primary resources for this study of thirty extended families. Focusing on personal interaction within the family, Motz shows women playing an active role that is not suggested by observation of residence patterns, household composition, or legal distribution of authority. The book reveals women's use of language to maintain personal relationships, to persuade and manipulate, and to obtain support. Thus the power base of the woman, her informal networks based on personal interaction, persuasion, and sense of obligation, become visible. *True Sisterhood* shows that women's influence was not merely a fabrication of the literature of what has come to be termed the "cult of domesticity" but was a reality within many nineteenth-century homes.

*Pearl's Secret* Jun 24 2022 A Washington Post reporter shares details of his search for his white relatives--a quest that took him to Louisiana and into the heart of slavery on a deeply personal quest that reflects on such issues as racism and interracial relationships.

*Oxygen* Apr 30 2020 A tangled malpractice suit in the wake of a devastating operating room disaster shatters the career and carefully constructed identity of anesthesiologist Marie Heaton, who also struggles with her recently blind father's increasing dependence. 75,000 first printing.

*The Kennedy Curse* May 31 2020 Death was merciful to Jacqueline Kennedy Onassis, for it spared her a parent's worst nightmare: the loss of a child.

But if Jackie had lived to see her son, JFK Jr., perish in a plane crash on his way to his cousin's wedding, she would have been doubly horrified by the familiar pattern in the tragedy. Once again, on a day that should have been full of joy and celebration, America's first family was struck by the Kennedy Curse. In this probing expose, renowned Kennedy biographer Edward Klein—a bestselling author and journalist personally acquainted with many members of the Kennedy family—unravels one of the great mysteries of our time and explains why the Kennedys have been subjected to such a mind-boggling chain of calamities. Drawing upon scores of interviews with people who have never spoken out before, troves of private documents, archives in Ireland and America, and private conversations with Jackie, Klein explores the underlying pattern that governs the Kennedy Curse. The reader is treated to penetrating portraits of the Irish immigrant Patrick Kennedy; Rose Kennedy's father, "Honey Fitz"; the dynasty's founding father Joe Kennedy and his ill-fated daughter Kathleen, President Kennedy, accused rapist William Kennedy Smith, and the star-crossed lovers, JFK Jr. and Carolyn Bessette. Each of the seven profiles demonstrates the basic premise of this book: The Kennedy Curse is the result of the destructive collision between the Kennedy's fantasy of omnipotence—an unremitting desire to get away with things that others cannot—and the cold, hard realities of life.

*Doing Time on the Outside* Dec 31 2022 Publisher Description

Divided to the Vein Aug 15 2021 Minerbrook describes his life as a biracial child in the 50's and 60's and his efforts to claim the white relatives in rural Missouri who had refused to recognize his existence.

Discrete Dynamic Programming with Sensitive Discount Optimality Criteria Nov 05 2020 Stationary, discrete and continuous time parameter, finite state and action Markovian decision processes with substochastic transition matrices are studied where the future rewards are discounted. The methods of successive approximations and policy improvement are shown to converge to the maximal expected discounted reward when the interest rate is negative provided the expected discounted time until the process stops is finite under every stationary policy. A family of discount optimality criteria of varying degrees of sensitivity is introduced. The family includes and unifies the discount criteria studied by Blackwell. The existence of stationary optimal policies is established constructively and the class of such policies is characterized. The algorithms are essentially specializations and refinements of a policy improvement method recently devised by Miller and the author for finding stationary policies having maximal expected discounted reward for all small enough positive interest rates. The results exploit the fact that the Laurent expansion in  $\rho$  (the interest rate) about the origin of the discounted return under a stationary policy has a simple form. (Author).

"[Accampo's] analysis and interpretations of quantitative material are sophisticated and convincing. Students of social history, labor history, modern France, and women's history will welcome this book."--Lenard R. Berlanstein, University of Virginia "One of the most original and exciting studies in nineteenth-century French working-class history that I have read in years. Accampo's scholarship is breathtaking, and her grasp, incorporation, and criticism of relevant secondary literature is

faultless."--Christopher Johnson, Wayne State University "[Accampo's] analysis and interpretations of quantitative material are sophisticated and convincing. Students of social history, labor history, modern France, and women's history will welcome this book."--Lenard R. Berlanstein, University of Virginia

*Class Struggle Or Family Struggle?* Jul 02 2020 This study complements the burgeoning literature on South Korean economic development by considering it from the perspective of young female factory workers. In approaching development from this position, Kim explores the opportunity and exploitation that development has presented to female workers and humanizes the notion of the 'Korean economic miracle' by examining its impact on their lives. Kim looks at the conflicts and ambivalences of young women as they participate in the industrial work force and simultaneously grapple with defining their roles in respect to marriage and motherhood within conventional family structures. The book explores the women's individual and collective struggles to improve their positions and examines their links with other political forces within the labor movement. She analyses how female workers envision their place in society, how they cope with economic and social marginalisation in their daily lives, and how they develop strategies for a better future.

Reexamining Family Stress Sep 15 2021 The authors reexamine the theoretical literature in search of a better way of understanding stress and its management in families setting aside traditional positivist notions in favor of a family systems paradigm that allows them to view stress as a multifaceted phenomenon with multiple causes and coping strategies. Using a series of qualitative an.

*Work and Family in America* Mar 02 2023 Surveying current research findings, social trends, and public controversies, *Work and Family in America* examines the changing cultures of the workplace, family, and home. \* Covers the initial research on work-family from the 1970s and 1980s to the recent research showing that men are experiencing significant amounts of work-family stress as they become more involved with family life while the culture of the workplace remains largely unresponsive \* Includes an overview of legislation and cases that have impacted the field with particular emphasis on employment laws affecting women—a key component of the study of work-family

*Six Tires, No Plan* Feb 01 2023 Most Unlikely to Succeed No one who charted Bruce Halle's early years would predict that the poor kid from New Hampshire might achieve greatness as an adult. Challenged in school and growing up in a struggling family, Halle looked like every other kid who would leave high school in the 1940s and disappear into a factory. Instead, Halle created one

of America's most respected companies, rose to join the Forbes magazine list of the four hundred richest Americans and serve as the role model for the ordinary Joes who seek out success at Discount Tire Company. Six Tires, No Plan maps Halle's journey out of poverty and failure and reveals the deceptively simple values that drive success for him, his company and thousands of employees. Key among those principles is Halle's commitment to passing on his good fortune to the thousands of employees who serve his customers every day. This is Halle's true passion, and paying it forward to the ordinary guy is a cornerstone of Discount Tire's ongoing success. Avoiding the spotlight, crediting his employees for the success of the company, Halle demonstrates the incredible power of perseverance and fundamental values to create long-term success. His journey offers a roadmap worth following in both career and life.

Putting America's House in Order Oct 05 2020 Putting America's House In Order: The Nation as a Family is a call to action for the leaders of this generation to endow their heirs with the kinds of values, prospects, and prosperity that has sustained the American family, personally and nationally, for two hundred years. The authors' proposals are specific. They range from ways to reach a zero deficit budget to substituting a tax code that favors savings, investment, and growth. They also delineate the elements of leadership--local, state, and national--that are necessary to meet America's greatest challenge since the winning of the Cold War. There is a feeling among the electorate that something is terribly wrong with America and its leadership. This perception defines one of those rare moments when sustained change is possible at the local, state, and national levels. But change demands bold action. Taking their cue from the courageous Strengthening of America Commission, chaired by Senators Sam Nunn and Pete Domenici, the authors lay down a comprehensive blueprint including: a 7-year write-down to a zero deficit budget; strict caps on the growth of non-Social Security entitlements; and the substitution of a tax code that favors savings, investment, and growth. The authors also call for a process of deregulation that develops innovative market approaches through careful and inclusive dialogue. Abshire and Brower call for the experiments underway in our states and localities, to summon the creativity of the American business revolution. They put forth a cogent analysis of the leadership problem in our public life and the need for character, strategic direction, and vision. And ultimately, it is the idea of the American family, personally and nationally, to which the authors turn for the ideas that animate these changes and to define those who will be the enduring beneficiaries. In short, they urge a reemphasis on the *E pluribus unum*.

Sex and the Family in Colonial India Feb 06 2021 Study of conjugal relationships between Indian women and British men in colonial India.

The Changing Scale of American Agriculture Dec 27 2019 Few Americans know much about contemporary farming, which has evolved dramatically over the past few decades. In The Changing Scale of American Agriculture, the award-winning geographer and landscape historian John Fraser Hart describes the transformation of farming from the mid-twentieth century, when small family farms were still viable, to the present, when a farm must sell at least \$250,000 of farm products each year to provide an acceptable level of living

for a family. The increased scale of agriculture has outmoded the Jeffersonian ideal of small, self-sufficient farms. In the past farmers kept a variety of livestock and grew several crops, but modern family farms have become highly specialized in producing a single type of livestock or one or two crops. As farms have become larger and more specialized, their number has declined. Hart contends that modern family farms need to become integrated into tightly orchestrated food-supply chains in order to thrive, and these complex new organizations of large-scale production require managerial skills of the highest order. According to Hart, this trend is not only inevitable, but it is beneficial, because it produces the food American consumers want to buy at prices they can afford. Although Hart provides the statistics and clear analysis such a study requires, his book focuses on interviews with farmers: those who have shifted from mixed crop-and-livestock farming to cash-grain farming in the Midwest agricultural heartland; beef, dairy, chicken, egg, turkey, and hog producers around the periphery of the heartland; and specialty crop producers on the East and West Coasts. These invaluable case studies bring the reader into direct personal contact with the entrepreneurs who are changing American agriculture. Hart believes that modern large-scale farmers have been criticized unfairly, and *The Changing Scale of American Agriculture*, the result of decades of research, is his attempt to tell their side of the story.
