Medal of Honor portrays eleven recipients of the award, from each branch of the military, and examines what drove them to go so far above and beyond the call of duty. Among the stories are an account of the life of the

only woman ever to receive the medal, and of a soldier from the legendary WWII Japanese-American 442nd who went on to earn the medal in the Korean War. The book tells not only of astonishing military actions but also, significantly, of the recipients' lives before and after their wartime experiences. 60 Minutes reporter Mike Wallace also meditates on the meaning of courage and shows what we can all learn from these extraordinary individuals. Book jacket. This is a collection of fifteen love stories of war heroes. Each story depicts the greatest example of patriotism and bravery with its characters drawing strength from their women. The book is an experiment to prove that the biggest source of energy that makes daring war heroes is actually love. It is a testimony of the existence of the most sensitive minds inside tough bodies. Certain delicate issues are addressed and natural solutions offered. The stories are replete with profound emotions and the smooth flow of events that touch the hearts of the readers. Documents the stories of ten real-life war heroes who served in the Vietnam War, including a helicopter pilot who braves a daring rescue of dozens of severely wounded soldiers under attack by the enemy.

The Victoria Cross is the highest award for valour that can be won by an Australian; just 97 Australians have been awarded the VC in conflicts from the Boer War to the Afghanistan War. And only fourteen Australians have been awarded the George Cross, the ultimate medal for heroism away from active combat, since its inception in 1940. But what is it that makes these remarkable soldiers risk everything in defence of their country and their mates? Noted biographer Robert Macklin tells the inspirational story of fifteen Australian recipients of the Victoria and George Crosses, from Neville Howse in South Africa in 1900 to the heroes of the Great War such as Albert Jacka, 'Diver' Derrick in the Second World War, and Keith Payne in Vietnam in 1969. 'An excellent book on a subject that has understandably retained public interest over the years.' - Steve Gower, Director, Australian War Memorial Following on the success of Texas Aggie Medals of Honor, James R. Woodall now returns with a new book that focuses on the military service by graduates of Texas A&M University from World War I to Vietnam. Of the tens of thousands of Aggies who served in the nation's military, Woodall has selected

twelve individuals who stand out as singular examples of bravery and heroism. Twelve Texas Aggie War Heroes tells each serviceman's story in a concise, engaging manner. Some subjects, such as Earl Rudder and James Hollingsworth, will be familiar to readers. But Woodall also introduces us to less familiar but no less notable men as well, from A. D. Bruce's march from the trenches of France and the crossing of the Rhine in World War I to Bob Acklen's three tours in Vietnam. In addition to the twelve chapters focusing on these remarkable individuals, Woodall provides an extensive set of appendixes that include the relevant citations for each serviceman as well as larger lists of Aggies who were awarded the Distinguished Service Cross, Navy Cross, or Air Force Cross. "Terrific read. Stories of stolen valor you won't believe, and those who hunt them down and participated in writing legislation to restore dignity to all those who have truly served in combat." —Peter C. Lemon, recipient, Congressional Medal of Honor Stolen valor occurs when a person lies about receiving military decorations that he or she has in fact never earned. It has become a major societal problem that has been discussed numerous

times in the news; according to the New York Times, the Department of Veterans Affairs paid disability benefits to more than six hundred people falsely claiming to have been POWs in the Vietnam and Persian Gulf wars. The number of stolen valor cases reported to the FBI has tripled in the last decade. In fact, more imposters lie about earning high military declarations for battlefield bravery than the actual number of real-life hero recipients. These imposters trade on tales and the trappings of military valor to secure privileges such as career advancements and even unearned veterans' benefits. In *Restoring Valor*, Doug Sterner provides riveting case studies of the stolen valor imposters he's investigated and exposed and the serious crimes—including murder—they've committed. He chronicles the evolution of stolen valor from the inception of the republic to today. Sterner shows why the federal law he and his wife, Pam, helped to enact—the Stolen Valor Act—is necessary. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American

Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home. An unputdownable account of the courage and bravery under fire of our Australian soldiers on the frontline - from WWII to Afghanistan. From Gallipoli to Afghanistan, many Australians have been awarded military honours for acts of selfless courage. Others have missed out. Bestselling author Ian McPhedran uncovers new stories of extreme bravery in action from WWII to today, and hears from those on the front line about what courage really means. Some of these stories, including Medals for Gallantry awarded in the face of the enemy in East timor and Afghanistan, are quite extraordinary. this book also explores why some become national heroes and others are overlooked. A World War II Merchant Marine combat veteran does more than just rock the boat with this book. This grandpa opens up a can of worms that should cause some "squirming" in high places, past,

present, or future. 1. Kennedy's assassination, Oswald, the State Department, Congress, and big name personalities are all featured and highlighted in Grandpa's story within. 2. Accusations of a "criminal law" that was enacted by the wartime Congress, which removed every government benefit that the early volunteers for the Merchant Marine had and reclassified them as migrant workers. 3. Why was there acceptance of the never-ending scapegoating of these brave heroes, which was nothing but pure, self-serving lies and distortions by the press, broadcast media, politicians, and higher-ups in the military? 4. Read the absolute truth about the Merchant Marine that is related in this book. You can make up your own mind about the wartime Merchant Marine. Their wartime contribution to winning that war is incontrovertible. Why was the report to President Truman at the end of the war kept a war secret and not made available until 2009, sixty-five years later? 5. Read the author's take on the wartime start-up of his alma mater, the United States Merchant Marine Academy at Kings Point, New York, which is now considered the hidden treasure of our federal academies. 6. It is doubtful if any of our seamen, especially our African

American volunteers, understood what really happened in the wartime Congress. Those thousands of widows and children who lost all benefits should force a federal disclosure of the facts, and the hope of this book is to put them all on full alert. The disclaimer and speculation is clearly indicated in the early part of this book. Read President Obama's response. Accounts of World War II combat experiences of members of President Kennedy's administration. Julius Holthaus, a humble American farm boy, went to France to help fill the depleted ranks of the Allies in America's largest battle of World War I, the Meuse-Argonne Offensive. He had no idea what he was getting into. The fight would involve more than a million American doughboys, span forty-seven days, and result in the deaths of tens of thousands of people in one of the bloodiest battle in American military history. Countless books focus on great military leaders, war heroes, and battle tactics, but one must look at war on a human scale to truly understand its toll. That understanding comes through examining the life and diary of Holthaus. Author Clyde Cremer explores them in detail, supplementing the diary's information with

the insights he gleaned during six years of research. This history follows a single soldier from rural Idaho and Iowa through his enlistment, training, and final trauma in the dark, disenchanting forest of the Argonne. Filled with facts and historical anecdotes, this could be the story of many of the members of the American Expeditionary Forces sent overseas in World War I. Their names are not listed in the history books, but they all answered their country's call and should be remembered. A compendium of personal memories and records of Civil War soldiers who were the first to be awarded the Congressional Medal of Honor, this book recounts 293 war stories and heroic acts that occurred during 185 different battles and engagements of the war. 500 illustrations. Fifteen recipients of the Congressional Medal of Honor recount the deeds that brought them the prestigious award. When are people willing to sacrifice for the common good? What are the benefits of friendship? How do communities deal with betrayal? And what are the costs and benefits of being in a diverse community? Using the life histories of more than forty thousand Civil War soldiers, Dora Costa and Matthew Kahn answer these questions and

uncover the vivid stories, social influences, and crucial networks that influenced soldiers' lives both during and after the war. Drawing information from government documents, soldiers' journals, and one of the most extensive research projects about Union Army soldiers ever undertaken, *Heroes and Cowards* demonstrates the role that social capital plays in people's decisions. The makeup of various companies--whether soldiers were of the same ethnicity, age, and occupation--influenced whether soldiers remained loyal or whether they deserted. Costa and Kahn discuss how the soldiers benefited from friendships, what social factors allowed some to survive the POW camps while others died, and how punishments meted out for breaking codes of conduct affected men after the war. The book also examines the experience of African-American soldiers and makes important observations about how their comrades shaped their lives. *Heroes and Cowards* highlights the inherent tensions between the costs and benefits of community diversity, shedding light on how groups and societies behave and providing valuable lessons for the present day. \*Weaves the lives and careers of the generals into one entertaining and

educational narrative. \*Includes some of the generals' most colorful and inspiring quotes, including Patton's Speech to the Third Army and MacArthur's Farewell Address to Congress. \*Includes pictures of the generals and other important people, places, and events. \*Discusses the relationships between the three generals. \*Explains the generals' roles in the Atlantic and Pacific Theaters. \*Includes a Bibliography for further reading. During the middle of the 20th century, the United States completed its transformation into one of the world's superpowers, and few were as instrumental in this development as Dwight D. Eisenhower (1890-1969). A career military man, Ike was too young to serve in combat during World War I, but he began a long and productive career collaborating with future military legends George Patton and Douglas MacArthur while serving some of the nation's other famous generals, including George Marshall and John J. Pershing. Amazingly, he had never served in anything but administrative positions before World War II. By 1942, Eisenhower was given the role of appointed Supreme Commander Allied (Expeditionary) Force in North Africa, and after his success there, Eisenhower oversaw the invasion of

Sicily in 1943, which at the time had been the largest amphibious invasion in history. In both campaigns he had the fortune of commanding George Patton. With those successes, President Roosevelt picked Eisenhower to be the Supreme Allied Commander of the Allied Expeditionary Force, leaving him in charge of Operation Overlord and the defining moment of his military career, D-Day. By the time he died in 1969, President Nixon aptly described Eisenhower as "the world's most admired and respected man, truly the first citizen of the world." Rommel, Guderian, Liddell-Hart and JFC Fuller were all early exponents and practitioners of armored warfare, tactics that were to break the stalemate that had characterized World War I. Advocates of the tank and above all speed, it was their ideas which decimated Saddam Hussein's forces in the 1990 Gulf War. But among the proponents and practitioners of armored warfare, the brash, bold, arrogant and eccentric George S. Patton remains the world's greatest armored commander by the one yardstick that really counts: the battlefield. In 1944-45, Patton's Third Army raced across northern Europe, covering more ground and destroying more enemy resources than any other

equivalent force in history. Patton is one of America's most celebrated generals and one of the most famous generals of the 20th century, but his story has its origins in the form of a shy, dyslexic boy who could cry uncontrollably and who viewed his own emotional intelligence as unmanly. Patton was a fascinating, complicated and controversial man whose life story ranges between genius, folly and tragedy, with absolute determination the one constant theme. Of all the military men America produced during the 19th and 20th centuries, it's hard to find one as important, successful and controversial as General Douglas MacArthur. The son of a Civil War veteran, MacArthur rose to become the most instrumental commander in the Pacific Theater during World War II. His legendary return to the Philippines in 1944 made good on one of the war's most famous vows, and it was MacArthur who fittingly oversaw the occupation and reconstruction of Japan following the war. Given his long and celebrated career, MacArthur was the obvious choice to lead the newly created United Nations' troops during the Korean War, but his arguments over war strategy and policy eventually led to his controversial firing

by President Harry Truman in 1951. After that, in his own words, he "faded away," living out his remaining days on the top floor of the Waldorf Hotel until his death in 1964. Peter grew up in a strict Protestant family in a Catholic village. Gradually, he discovered that his father played a dubious role during the war. Why did he send Nel, his neighbor, to a NSB colony in Czechoslovakia? As a gift for his final exams, Peter took Nel back to the Czech Republic. There they met David, who survived the concentration camps and the end of the war on the grounds of SS Heydrich. David appeared to be an old friend of Nel and his father. When Peter came home, he read a letter from father with dramatic consequences. War Heroes is a wonderful historically accurate novel about a boy who struggled with his origins - touching, compelling and familiar. 'Heroes' is the story of an extraordinary generation of young men, mostly British, who came of age in the Second World War. These young men -- and women -- found themselves facing life-threatening danger and the kind of responsibility few would be prepared to shoulder today. For Dutton Caliber's American War Heroes series, the gripping and

action-packed combat story of America's most celebrated tank commander, Staff Sergeant Lafayette "War Daddy" Pool. Lafayette Pool provided inspiration for Brad Pitt's character "War Daddy" Collier in the movie *Fury*, but his true story is less known. Here, acclaimed author Stephen L. Moore writes the first full-length narrative to honor the valiant Texan tanker. A champion Golden Gloves boxer turned U.S. Army legend, Pool was known as the "ace of tankers" for destroying more than five enemy tanks in head-to-head combat. Sporting a pair of cowboy boots and a confident smile, Pool and his tank, *In the Mood*, fearlessly led the charge into at least twenty-one different engagements across France, Belgium, and Germany in World War II. His 3rd Armored superiors credit Pool's crew with destroying at least 275 enemy vehicles, capturing 250 or more enemy soldiers, and killing or wounding more than a thousand opponents. In one three-day period alone, they knocked out four German tanks, three anti-tank guns, and fifty armored vehicles, creating an overwhelming number of enemy casualties. Drawing on official military documents, the memoirs of Pool's crewmen, and personal interviews with the family of Pool and his

comrades, Blood and Fury is full of heated battles, suspenseful near-death experiences, and indomitable bravery. At the heart of it all is an undeniable American hero: Lafayette Pool. In the short life of Pottawatomie County, Oklahoma (county seat - Shawnee), since 1892, there have been thousands of men and women who have served this country in the military from the Spanish-American War to the current conflicts in the Middle East. Many have died. This is an effort to recognize and honor those citizens by telling as many stories as we can find. Hopefully all those from Pott County who gave their lives will be found in these pages as well as many others who served months or years while helping to preserve peace around the world. There are also stories of some of the wars themselves, battles and what was happening back home. Lists of draft registrants in World War I are included as are the names of draftees and volunteers for both world wars. In this extraordinary book, 15 recipients of the Congressional Medal of Honor tell the stories of the actions for which they received their awards. The stories themselves present true examples of valor, courage, and sacrifice. More than stories,

however, they recount moments of significance in the life of our country. The Congressional Medal of Honor is the highest award given to American servicemen for valor in battle. Only slightly more than 200 recipients of the Medal of Honor are alive today. In this extraordinary book, 15 recipients tell the stories of the actions for which they received their awards. Heroes from the Marines, the Army, the Navy, and the Air Force recount their stories of action in World War II, Korea, and Vietnam. Together, their stories present a definition of heroism in battle. Individually, they are fifteen profiles of the Hero. The stories, based on interviews with the recipients and written by Kent DeLong, the attending physician of the Congressional Medal of Honor Society, are well-told and exciting. They present true examples of valor, courage, and sacrifice. But they are more than just stories. They are the oral history of significant moments in the life of our country. Throughout American history, succeeding in the military has demanded unflagging courage, strength of character, and a patriotic spirit. For an African American man or woman, serving in the military has also meant battling oppression

and struggling against deep-seated prejudice. Those who persevered were not only warriors, nurses, or leaders—they were heroes and heroines. In this action-packed collection, you will meet thirty brave and determined African American military heroes, from the eighteenth century up to the present. You'll discover little-known facts about their families and careers, as well as the remarkable odds each of them overcame. Ranging from the Revolutionary War to Vietnam and the Persian Gulf War, these exciting stories show you how: Private Peter Salem, born into slavery, led the charge against the British redcoats at the Battle of Bunker Hill and turned the tide in America's fight for independence. Harriet Tubman, famous for her daring in the Underground Railroad, worked as a spy and nurse for the Union army during the Civil War. Private Henry Johnson, a member of the first black combat battalion in World War I, single-handedly withstood a German ambush and received the Croix de Guerre, France's highest honor for bravery in action. Brigadier General Hazel W. Johnson, chief of the Army Nursing Corps, blazed a trail in the struggle for racial integration in the armed forces during World War II, becoming

the military's highest-ranking African American woman. General Colin L. Powell, recipient of the Purple Heart in Vietnam, steadily rose through army ranks to become the first African American chairman of the Joint Chiefs of Staff, overseeing the U.S. invasion of Panama and Operation Desert Storm. This extraordinary collection highlights these and dozens of other absorbing stories of dedicated defenders of America. BLACK STARS Meet the courageous black stars who defended our liberty with uncommon valor—from the early years to modern times: Vernon J. Baker Guion S. Bluford Jr. Sherian Cadoria William H. Young An authoritative resource by a military historian profiles approximately 400 men and

women who fought and gave their lives to preserve American freedom, in a volume representing top citation recipients in all military branches. The Encyclopedia of American War Heroes is a comprehensive compilation of those who have distinguished themselves on the fields of battle, from Paul Revere to General H. Norman Schwarzkopf. Written by a military historian with combat experience and access to records from all branches of the American military, this single-volume resource features nearly 400 entries profiling the brave men and women who fought and, in most cases, died to preserve our freedom. Many of the people selected for inclusion in this volume received one or more citations for their heroic achievements: the Medal of Honor, the Navy Cross, the Distinguished Service Cross, the Silver Star, the Bronze Star, or other award. These entries include the individual's name, rank, branch of service, and the circumstances resulting in their citations. All branches of the military, the Army, Navy, Marines, and Air Force, are represented, as are all ranks of service, from buck privates to four-star generals. This reference is also culturally inclusive, making special note of the heroic

contributions of African Americans, Hispanic Americans, Native Americans, and Asian Americans. Entries include J. Armstrong, Revolutionary War; P.G. Beauregard, Confederate States of America (CSA), Civil War; Black Hawk, Black Hawk War; George Armstrong Custer, U.S. Army, Civil War, Indian Wars; John McCain, Jr., U.S. Navy, Vietnam War; and C. Nimitz, U.S. Navy, World War II. The "Encyclopedia of American War Heroes?" is a comprehensive compilation of those who have distinguished themselves on the fields of battle. Tells the story of America's "forgotten war" from the perspective of the recipients of the Medal of Honor Detailed profiles bring stories of African American heroism in the U.S. armed forces to life, from the American Revolution through the conflict in Afghanistan. African American war heroes remain largely unsung, their courage and valor relegated to the less traveled corners of history. This work seeks out those heroes—soldiers, sailors, flyers, and marines—who earned their nation's highest medals in defense of freedom and equality. Some of these men and women died on the battlefield. Others returned to civilian life in a segregated country. What they share across time and

circumstance is devotion to duty and to the country they defended, even in the face of personal and racial prejudice. Entries profile decorated African Americans from all of the U.S. conflicts since the Revolutionary War. In addition to providing basic biographical data, each profile offers a detailed account of the individual's heroic actions. The book also offers sidebars on events and topics relevant to African Americans in the U.S. armed forces, such as histories of the 54th Massachusetts and the Tuskegee Airmen. Contains ten narratives of real-life war heroes from Iraq! Still a schoolboy when World War II broke out, Tommy MacPherson quickly matured into a legendary commando. Twice captured, he escaped both times, marching through hundreds of miles of German-held territory to get home. This is the astonishing story of how an ordinary boy came to achieve extraordinary feats when war came calling. How do you define a hero? In war, the terms may be irreconcilably different than in everyday life. Situations arise where taking certain lives is imperative to saving others and often giving your own life for a cause makes you a hero. Following orders from superiors could result in your death but

doing it anyway. Acting out of loyalty and dedication instead of self-serving means, above all, is probably a prerequisite. To act in spite of being afraid, instead of being void of fear. THIS IS A COLLECTION OF AMERICAN SOLDIER MILITARY HEROICS JOHN BASILONE War brings out the best and the worst in people. With the United States participating in countless wars over the years, there have been quite a few exceptional soldiers who have been able to shine during combat, having done their due diligence to protect their country and fellow troop members. Giovanni "John" Basilone was a war hero whose actions in the Guadalcanal and Iwo Jima campaigns of WWII earned him two medals; the Congressional Medal of Honor and the Navy Cross...This is his story. CHUCK MAWHINNEY Charles "Chuck" Mawhinney holds the record for the most confirmed kills by a United States Marine Corps sniper. He recorded 103 confirmed kills and 216 "probable kills" during his 16-month service in the Vietnam War. The 216 are listed as "probably" because it was too risky to search for the bodies to retrieve weapons and documents...If you take into account that the 216 may be a low estimate and add it to his 103 confirmed kills,

Mawhinney may be the most prolific sniper in the history of combat. MELVIN MORRIS Staff Sergeant Melvin Morris is an honored veteran of the Vietnam War. He served almost 30 years in the United States Army and was even part of a Special Forces Group. Brave and excelling at his career in the military, Morris would do two tours of duty in Vietnam before retiring in 1985. Founded by Churchill, Special Operations Executive (SOE) was the forerunner of the SAS, and during WWII they sent many hundreds of specially-trained agents deep undercover in Nazi-occupied Europe. Here Marcus Binney explores the extraordinary stories and daring exploits of some of the male agents who made up these little-known war heroes, and who helped change the course of the twentieth century with their bravery and sacrifice. The author has undertaken groundbreaking research in previously classified Foreign Office files in order to write this book. A unique celebration of the important role animals play in war, and an insightful look at the taking of Vimy Ridge from the perspective of 3 men in a Canadian platoon. Never before have the stories of animal war heroes been collected in such a special way. This book consists of eight connected

fictional stories about a Canadian platoon in WW1. The Storming Normans have help from some very memorable animals: we meet a dog who warns soldiers in the trench of a gas attack, a donkey whose stubbornness saves the day, a cat who saves soldiers from rat bites, and many more. Each story is followed by nonfiction sections that tell the true story of these animals from around the world and of the Canadian soldiers who took Vimy Ridge. Through the friendship that grows between three of these soldiers in particular, we get a close-up look at life in the trenches, the taking of Vimy Ridge, the bonds between soldiers and their animals and what it meant to be Canadian in WW1. Ten true stories of real-life war heroes from Iraq! First published in 2000. Routledge is an imprint of Taylor & Francis, an informa company. In this beautifully produced compilation are the biographies of fifty famed commanders from both the Union and the Confederacy, accompanied by lifelike portraits and more than seventy full-color and duotone full-page battle scenes, including images from Currier & Ives and the treasured Kurz and Allison series. This highly anticipated commemorative edition brings a classic American history book back

in stock for the 150th anniversary of the start of the Civil War on April 12, 1861. The biographies and captions in this indispensable collector's item are derived from nineteenth-century publications written for a popular audience when many Civil War heroes were still alive, and they contain fascinating first-person narratives and anecdotes that might not otherwise have survived. The heroes' two thousand-word histories are supplemented with separate lists of their important battles, independent commands, and dates of rank, to aid the reader in following a general's career. Each exciting battle picture is presented in proper chronological order, identified by the names both sides used, and shows its correct date. The essential maps indicate the sites of all important engagements, and carefully selected illustrations from official atlases and ordnance manuals help the reader identify the major sidearms and field weapons pictured, as well as uniforms and insignia. Colorful vignettes and patriotic drawings taken from troops' writing paper and envelopes complete this enriching volume—a must-have for history buffs on both sides of the Mason-Dixon Line.
