Two Wheels Good Aug 09 2022 A panoramic revisionist portrait of the nineteenth-century invention that is transforming the twenty-first-century world “Excellent . . . calls to mind Bill Bryson, John McPhee, Rebecca Solnit.”—The New York Times Book Review (Editors’ Choice) ONE OF THE BEST BOOKS OF THE YEAR: The New Yorker The bicycle is a vestige of the Victorian era, seemingly at odds with our age of smartphones and ride-sharing apps and driverless cars. Yet we live on a bicycle planet. Across the world, more people travel by bicycle than any other form of transportation. Almost anyone can learn to ride a bike—and nearly everyone does. In *Two Wheels Good*, journalist and critic Jody Rosen reshapes our understanding of this ubiquitous machine, an ever-present force in humanity’s life and dream life—and a flash point in culture wars—for more than two hundred years. Combining history, reportage, travelogue, and memoir, Rosen’s book sweeps across centuries and around the globe, unfolding the bicycle’s saga from its invention in 1817 to its present-day

renaissance as a “green machine,” an emblem of sustainability in a world afflicted by pandemic and climate change. Readers meet unforgettable characters: feminist rebels who steered bikes to the barricades in the 1890s, a prospector who pedaled across the frozen Yukon to join the Klondike gold rush, a Bhutanese king who races mountain bikes in the Himalayas, a cycle-rickshaw driver who navigates the seething streets of the world’s fastest-growing megacity, astronauts who ride a floating bicycle in zero gravity aboard the International Space Station. *Two Wheels Good* examines the bicycle’s past and peers into its future, challenging myths and clichés while uncovering cycling’s connection to colonial conquest and the gentrification of cities. But the book is also a love letter: a reflection on the sensual and spiritual pleasures of bike riding and an ode to an engineering marvel—a wondrous vehicle whose passenger is also its engine.

*Sweatshops on Wheels* May 06 2022 Long hours, low wages, and unsafe workplaces characterized sweatshops a hundred years ago. These same conditions plague American trucking today.

*Sweatshops on Wheels: Winners and Losers in Trucking Deregulation* exposes the dark side of government deregulation in America's interstate trucking industry. In the years since deregulation in 1980, median earnings have dropped 30% and most long-haul truckers earn less than half of pre-regulation wages. Work weeks average more than sixty hours. Today, America's long-haul truckers are working harder and earning less than at any time during the last four decades. Written by a former long-haul trucker who now teaches industrial relations at Wayne State University,

*Sweatshops on Wheels* raises crucial questions about the legacy of trucking deregulation in America and casts provocative new light on the issue of government deregulation in general.

**Ford MacHarley, Master Wheelsmith** Oct 19 2020 Ford MacHarley, Master Wheelsmith Cars, trucks, bicycles, tricycles, wagons, scooters...what do they have in common? They all have wheels! And Ford MacHarley is our Master Wheelsmith. So whether Santa needs a remote control car for Jacob or a new bicycle for Emma, he can count on Ford to get what he needs. Come meet the elf that grants so many wishes for children. Ford loves to make children smile by granting their wishes on

Christmas day. And Santa relies on Ford for many of the toys that fill his bag. Particularly if they have wheels! Be sure to read Santa's personal message at the back of this book, so you know how to stay on his Nice List! Collect all the Santa's Elf Series© books to discover all the wonderful elves and magic that takes place at the North Pole. About Santa's Elf Series© by the author, Joe Moore: Even as I was writing the first novel in the Santa Claus Trilogy, I envisioned an entire world at the top of the globe. I knew the most die-hard believer in Santa Claus would realize that this magical gift-giver would need assistance in achieving his task at Christmas. So I began to think about who these helpers were, and what their responsibilities to Santa might be. Then I started writing. And to my surprise, as I wrote, the stories came out of me in rhyme! The cadence and beat of the verses were lyrical. As I spoke to others, including a good many teachers and librarians, they told me this was the easiest way for children to learn and that I should keep the verses coming. As Santa, I also heard from parents about their frustrations trying to instruct their children in the primary lessons of life; such as picking up after themselves, being polite, sharing, brushing their teeth, and so on. So I put a special message from Santa Claus at the end of each story about each of these lessons. Even complex problems like bullying, showing gratitude, and listening to elders get addressed in these books. It never hurts to learn these lessons throughout the year. I wrote nearly 20 books in this series, each focusing on a particular elf and their role to Santa. My wife and illustrator, Mary, is doing her best to get these magical tales drawn and into your child's hands. Since she works so hard fully illustrating every page and includes elements like shapes, colors, and even geography, it takes her a little while to complete each book. We have a half dozen released and more "in the works." I have already heard about new traditions started during Christmas with my Santa Claus Trilogy and families. I am hoping that these will also become part of your celebrations. Make Santa's Elf Series©

a new tradition for your family and collect the entire series. The following is a list of the currently published books in the series: Santa's World, Introducing Santa's Elf Series Jamie Hardrock, Chief Mining Elf Shelley Wrapitup, Master Design Elf Keeney Eagleye, Naughty/Nice List Manager Sarah Buttons, Master Dollmaker Ford MacHarley, Master Wheelsmith
