Working with Co-Parents is a practical manual for therapists and social workers who work with divorced and/or separated parents of children. Unique among other books that focus on therapy with the parents individually, the author's model brings the divorced couple together to help them understand their child's experience and to assist them in developing a road to constructive co-parenting. This manual also includes illustrative case vignettes, session outlines and handouts, and homework reflection questions. Therapists and counselors will learn tools and interventions that they can apply immediately and effectively to their work

with divorced couples. This is a hard-hitting look at the many controversial issues that surround the subject of gay and lesbian parenting. Compiled under the editorship of Jess Wells, herself a lesbian parent, it delves below the shiny surface of perfect health and happy families and tackles some of the truths that are not always easy to face. An important work dealing with one of the most controversial issues of the present day. The dramatic failure of the potato crop in mid-19th century Europe caused widespread hunger and distress. In Ireland the impact was probably the greatest, where a million people died and many more emigrated. In this book, Austin Bourke seeks to explain how, from being welcomed originally as a protection against hunger, the potato became the very emblem of famine. The text brings together the author's papers, essays and research spanning a 30-year period. It places the onset of potato blight in its European and American context and reconsiders the role of English ministers and their attempt to stem the disaster. A powerful expose and a call to action for abused and neglected children by one of the nation's leading experts on family law. The Crosses are the oldest and proudest black family in Tims Creek, NC, a town still governed by the rhythms and rituals of farming and tobacco. But sixteen year old Horace seeks love and fulfillment where no other Cross has been. What emerges is the complex and sustaining truths of four generations of a black family's life in the South. Arkansas Children and Family Laws Annotated contains a broad range of statutes selected from the Arkansas Code of 1987 Annotated, updated through the end of the most recent Regular Session of the General Assembly. You will find at your fingertips the full text of Title 9 plus hundreds of select provisions--including guardianship, adoption, domestic violence, public health and welfare, family, child welfare and child support, and many other miscellaneous annotated statutes relating to domestic relations law. Packed with an index and annotations for easy cross-referencing, this title sets the standard for quick reference. Features At-A-Glance: • Completely annotated • Table of Sections Affected By Recent Legislation • Extensive Index and Table of Contents • Updated After Each Regular Session of the General Assembly Family Law in a Changing America is a new casebook that highlights law and family patterns as they are now, not as they were decades ago. By focusing on key changes in family life, the casebook attends to rising equality and inequality within and among families. The law, formally at least, accords more equality and autonomy than ever before, having repudiated hierarchies based on race, gender, and sexuality. Yet, as our society has grown more economically unequal, so too have family patterns diverged—with marriage and marital child-rearing becoming a mark of privilege. A number of developments—mass incarceration, the privatization of care, and reproductive technologies—have also contributed to disparities based on race, class, and gender. The casebook reflects the law's

continuing emphasis on marriage, but also treats nonmarital families as central. Rather than privilege the marital heterosexual family, the casebook organizes the presentation of the law around 1) adult relationships and 2) parent-child relationships. Professors and students will benefit from: Text that includes dramatic changes in family patterns in contemporary society, including: declining marriage rates, with differential rates based on race and class; increasing rates of nonmarital cohabitation and nonmarital parenting; the use of assisted reproduction and its challenge to biological understandings of parentage; tensions between women's increasing education and employment and the perseverance of the gendered division of labor in families; the inclusion of same-sex couples in marriage and parenthood An approach that decenters the marital heterosexual family and instead is structured around the general topics of adult relationships and parent-child relationships Focus on the scope of family law, including extensive coverage of crucial sites of family regulation, such as the child welfare system, that are traditionally neglected Emphasis on multiple modes of legal interpretation (common law, constitutional, statutory) and multiple actors in the legal system (judges, legislators, lawyers, experts, social workers) Practical problems and exercises, often based on actual cases or events, that illuminate the gaps, tensions, and implications of existing doctrine; some of the problems include postscripts explaining how the issue was resolved by a court or legislature An approach that draws on more recent cases and cutting-edge issues and that includes extensive coverage of assisted reproduction (including IVF, surrogacy, and gamete donation), parentage (including intentional parenthood, functional parenthood, and multi-parent arrangements), adoption, child welfare, and family support On May 5, 1993, second-graders Christopher Byers, Stevie Branch, and Michael Moore disappeared from their West Memphis, Arkansas, homes. The following afternoon, their nude, beaten, and bound bodies were discovered in a drainage ditch less than a mile away. After a troublesome confession, three local teenagers, later dubbed the "West Memphis Three," were arrested, tried, and convicted in early 1994. Jason Baldwin and Jessie Misskelley received life sentences, while ringleader Damien Echols went to death row. Three years later, the documentary film "Paradise Lost" premiered on HBO, and the effect on viewers was dramatic. Many became skeptical of the verdicts and also felt one of the fathers of the victims was a better suspect—John Mark Byers. In *Untying the Knot*, author Greg Day tells the true story of John Mark Byers and the about-face he made to free the men convicted of the crime. Day exposes the propaganda campaign used to convince a gullible public that Byers was complicit in the deaths of his wife and son. Based on court transcripts and hours of personal interviews, *Untying the Knot* explores all the case evidence while interweaving dialogues and statements. It traces the life of

Byers from his roots in rural Arkansas, to his son's murder and the death of his wife, to his ultimate imprisonment in 1999. It reveals a man redeemed by prison and whose change of heart changed his life. "Day has captured the essence of a towering personality engulfed by an impossible situation. John Mark Byers is an immensely complex character, and *Untying the Knot* pulls no punches in revealing the man in all his seeming contradictions." —John Douglas, *Mindhunter* From foster care to adoption to visitation rights and beyond, Guggenheim offers an analysis of the most significant debates in the children's rights movement. He argues that "children's rights" can serve as a screen for the interests of adults, who may have more to gain than the children for whom they claim to speak. This title is heavily annotated with over 3,000 case citations and dozens of practice tips and provides techniques, laws, and forms to improve your effectiveness and efficiency in everything from client preparation through entry of evidence to closing argument, Based on the Children of Divorce Project, a landmark study of sixty families during the first five years after divorce, this enlightening and humane modern classic altered the conventional wisdom on the short- and long-term effects of family dissolution. The way in which relationships are renegotiated in the aftermath of divorce is critical to the future well-being of family members. When estranged parents are able to redefine boundaries in their own relationship, it allows their children to maintain a healthy relationship with both, and paves the way for a more intact and functional family system. Toward this end, the author presents a state-of-the-art overview of divorce, child custody, and mediation within the context of the latest psychological research and contemporary divorce law. Providing specific techniques and detailed case histories, he outlines an approach for estranged couples to renegotiate their relationship, defining new boundaries of intimacy and power between the various members of the family. The book illustrates how mediation can keep a large percentage of families out of court, increase parents' satisfaction with the process, encourage the involvement of both parents with the children, and break out of the "win-lose" mentality of the law and negotiate "win-win" settlements instead. *Renegotiating Family Relationships* opens with an examination of how gender bears on the attitudes both parents and children maintain toward divorce. It describes specific steps for separating marital and parental roles, as well as for dealing with cycles of love, anger, and sadness that characterize grief in divorce. The role of children in a divorced family system is explored, and strategies are provided for setting up visitation schedules, disciplinary tactics, joint physical custody, and other parenting arrangements. Ways to balance loyalties and alliances in the parent-child-parent triad are also discussed. Divorce and custody law and the implications they have for mediation are examined, with sections discussing such issues as financial settlements, property division, alimony, child

support, taxes, remarriage, and post-divorce economics for single mothers. Theories of custody dispute resolution and tactics for bargaining and settling disputes are also presented, as are methods for negotiating agreements, including ways to determine settlement policies, and conduct mediation sessions with parents. Offering strategies for working with attorneys and judges, the book describes how to define problems; set up caucuses; focus on issues instead of emotions; and review areas of agreement and disagreement. Later chapters focus on custody mediation research and psychological research on children, parents, and divorce with an examination of precedent-setting mediation cases, issues of compliance, demographics of divorce, and how both children and parents adjust to the divorce process in light of changes in the family structure. Finally, the future of custody mediation is also discussed. Comprehensive in scope, this volume will interest a wide range of mental health professionals—psychologists, psychiatrists, social workers, and family counselors. It will inform legal professionals working with couples trying to renegotiate their relationship. It also serves as a text for graduate courses or advanced undergraduate courses related to either mental health or the law. *Family Law, Sixth Edition* is a modern and teachable casebook, offering comprehensive coverage and a mix of interdisciplinary materials. It compares innovative developments in some states with the reaffirmation of traditional principles in others, and does so in the context of a wider focus on family and the state, the role of mediating institutions, and the efficacy of law and particular methods of enforcing the law. The casebook deals with the complexity of family law both in the organization of the chapters—separate units on family contracts, jurisdiction, and practice, for example, can be shortened, skipped, or taught in almost any order—and the diversity of material within each chapter. Each unit combines primary cases with comprehensive notes, supplemented with academic and policy analyses that provide a foundation for evaluation. Detailed problems extend the coverage or apply the commentary to real world examples. Key Features: A streamlined and updated chapter on the legal significance of being married, including an updated section on reproductive rights to reflect the potential influence of *Whole Woman's Health v. Hellersted* Major revisions to the chapters on marriage and informal domestic partnerships to reflect the impact of *Obergefell v. Hodges* A complete update of the parentage cases to incorporate the latest developments on same-sex partners, three parent recognition, third party visitation, adoption, and assisted reproduction Revised sections on the role of settlement agreements and out-of-court processes in divorce and the dissolution of relationships Coverage of cross-disciplinary topics, including financial principles, genetics/statistics, clinical psychology, social history, policy discussions, counseling, negotiation, ADR, and ethics
