The Value of Hawai'i Jun 17 2022 How did we get here? Three-and-a-half-day school weeks. Prisoners farmed out to the mainland. Tent camps for the migratory homeless. A blinkered dependence on tourism and the military for virtually all economic activity. The steady degradation of already degraded land. Contempt for anyone employed in education, health, and social service. An almost theological belief in the evil of taxes. At a time when new leaders will be elected, and new solutions need to be found, the contributors to The Value of Hawai'i outline the causes of our current state and offer points of departure for a Hawai'i-wide debate on our future. The brief essays address a wide range of topics—education, the environment, Hawaiian issues, media, tourism, political culture, law, labor, economic planning, government, transportation, poverty—but the contributors share a belief that taking stock of where we are right now, what we need to change, and what we need to remember is a challenge that all of us must meet. Written for a general audience, The Value of Hawai'i provides a cluster of starting points for a larger community discussion of Hawai'i that should extend beyond the choices of the ballot box this year. Contributors: Carlos Andrade, Chad Blair, Kat Brady, Susan M. Chandler, Meda Chesney-Lind, Lowell Chun-Hoon, Tom Coffman, Sara L. Collins, Marilyn Cristofori, Henry Curtis, Kathy E. Start with Why May 04 2021 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Grow Your Value Oct 21 2022 A woman who wants to be successful must make sacrifices, but how can she determine which ones she'll be happy with five, ten, twenty years from now? Mika Brzezinski, Morning Joe co-host and New York Times best-selling author of Knowing Your Value, has built a career on inspiring women to assess and then obtain their true value in the workplace. In her books and in her conferences, Mika gives women the tools necessary to advocate for themselves and their financial futures. But that is only the first step; once you know your value, you need to grow it—both professionally and personally. Drawing on deeply revealing conversations with powerful and dynamic women, input from researchers and relationship experts, and her own wealth of experience, Mika helps women pinpoint their individual definition of success. She advises her readers to define the "professional value" that encompasses their worth in the workplace, and the "inner value" made up of their core beliefs and goals. Women can stop feeling overwhelmed, overscheduled, frantic, and forever guilty—but only if they choose their objectives confidently and unapologetically, and focus their efforts accordingly. Mika encourages women to stop seeking the unobtainable "work-life balance," and instead pursue a life of honesty and authenticity, where career and home life combine rather than collide.

Knowing Your Worth Aug 19 2022 As a psychotherapist for 21 years, I've noticed one thing that many of my clients of all ages have in common. It is that they don't know their own value as a human being. The three areas this most often plays out is in how they see themselves, how they present themselves at work, and how they interact with others in their lives. This book looks at different aspects of all three areas. In addition to helping readers to recognize their worth, this book lists ideas in each section teaching how to know your worth and exercises to practice at the end of each section. When finished with this book, readers will know both how to recognize their own worth and make sure that others recognize it as well.

Giving Voice to Values May 16 2022 How can you effectively stand up for your values when pressured by your boss, customers, or shareholders to do the opposite? Drawing on actual business experiences as well as on social science research, Babson College business educator and consultant Mary Gentile challenges the assumptions about business ethics at companies and business schools. She gives business leaders, managers, and students the tools not just to recognize what is right, but also to ensure that the right things happen. The book is inspired by a program Gentile launched at the Aspen Institute with Yale School of Management, and now housed at Babson College, with pilot programs in over one hundred schools and organizations, including INSEAD and MIT Sloan School of Management. She explains why past attempts at preparing business leaders to act ethically too often failed, arguing that the issue isn't distinguishing what is right or wrong, but knowing how to act on your values despite opposing pressure. Through research-based advice, practical exercises, and scripts for handling a wide range of ethical dilemmas, Gentile empowers business leaders with the skills to voice and act on their values, and align their professional path with their principles. Giving Voice to Values is an engaging, innovative, and useful guide that is essential reading for anyone in business.

Priceless Mar 22 2020 As clinical as it sounds to express the value of human lives, health, or the environment in cold dollars and cents, cost-benefit analysis requires it. More disturbingly, this approach is being embraced by a growing number of politicians and conservative pundits as the most reasonable way to make many policy decisions regarding public health and the environment. By systematically refuting the economic algorithms and illogical assumptions that cost-benefit analysts flaunt as fact, *Priceless* tells a "gripping story about how solid science has been shoved to the backburner by bean counters with ideological blinders" (*In These Times*). Ackerman and Heinzerling argue that decisions about health and safety should be made "to reflect not economists' numbers, but democratic values, chosen on moral grounds. This is a vividly written book, punctuated by striking analogies, a good deal of outrage, and a nice dose of humor" (Cass Sunstein, *The New Republic*). Essential reading for anyone concerned with the future of human health and environmental protection, *Priceless* "shines a bright light on obstacles that stand in the way of good government decisions".

Know Your Price Nov 29 2020 Changing perceptions about the worth of African Americans and their communities *Know Your Price* establishes new means of determining value of Black communities. The deliberate devaluation of Blacks and their communities, stemming from America's centuries-old history of slavery, racism, and other state-sanctioned policies like redlining have tangible, far-reaching, and negative economic and social impacts. Rejecting policies shaped by flawed perspectives, the book gives fresh insights on these impacts and provides a new value paradigm to limit them. In the book, noted educator, journalist, and scholar Andre Perry takes readers on a guided tour of five Black-majority cities whose assets and strengths are undervalued. Perry begins the tour in his hometown of Wilksburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Perry gives an overview of Black-majority cities and spotlights four where he has a deep connection to--Detroit, New Orleans, Birmingham and Washington, D.C.--providing an intimate look at the assets residents should demand greater value from. *Know Your Price* demonstrates through rigorous research and thorough analysis the worth of Black people's intrinsic strengths, real property, and traditional institutions. All of these assets are means of empowerment, as Perry argues for shifting away from simplified notions of equality and moving towards maximizing equity.

Dare to Lead Jan 12 2022 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What

can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, “One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It’s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It’s why we’re here.” Whether you’ve read *Daring Greatly* and *Rising Strong* or you’re new to Brené Brown’s work, this book is for anyone who wants to step up and into brave leadership.

Think Again Jun 05 2021 #1 New York Times Bestseller “THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I’ve never felt so hopeful about what I don’t know.” —Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead* The bestselling author of *Give and Take* and *Originals* examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

The 48 Laws of Power Dec 11 2021 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
