Benny the Dog is having a nice quiet day in his backyard until his friend Earl the Squirrel shows up and cries out, "This is the worst thing that could happen to the squirrels in this town!" As Earl explains, squirrels have always buried nuts in the ground in the summer so they'll have something to eat in the winter. In the past they just tried to remember where they'd hidden the nuts. But a few years ago they got themselves a laptop. Now, anytime a squirrel buries a nut, he or she enters into their laptop the location where it was buried. But last night, according to Earl, somebody stole the laptop. He pleads, "Will you help us? If we don't get that laptop back, there's a lot of squirrels in this town who aren't going to make it through the winter." And so Benny and Earl start out on an adventure to solve this crime. They have three main suspects: Ratty the Rat, Casey the Cat, and Billy the Bat. But which of them did this terrible deed? And where is the laptop now? They need to find all this out as soon as possible. Delightfully illustrated by Becky Cowley with the text by

The story of Olive and Mabel, Labrador retrievers who rose to internet fame as the subjects of Andrew Cotter's BBC sports parodies. When sporting events were put on hold in March 2020, commentator Andrew Cotter shifted to working from home. The one-on-one competitors? His two Labrador retrievers, Olive and Mabel. In the hilarious videos that ensued, the dogs engage in various contests, from bone-snatching and breakfast-eating to crushing it on the dog walk, while Cotter narrates to hilarious effect. The scene of Mabel, simply standing still in a fetid pond was one of the most popular. Why? Because this is how dogs live, and Cotter captured it with humor and joy. It's why the series has been viewed more than 50 million times, entertaining dog owners, sports fans and celebrities around the world. Olive and Mabel are more than online celebrities, however, as revealed in this charming narrative. Filled with stories about how Cotter fell in love with his dogs, his passion for hiking with them through the glens and over the peaks of his native Scotland, and the ongoing relationship between Olive and Mabel (particularly the "competitive fire" lit during these days of quarantine), the memoir is by turns side-splittingly funny and thoughtfully tender. It's sure to resonate with all dog lovers. "Dog lovers and neuroscientists should both read this important book." --Dr. Temple Grandin

What is it like to be a dog? A bat? Or a dolphin? To find out, neuroscientist and bestselling author Gregory Berns and his team did something nobody had ever attempted: they trained dogs to go into an MRI scanner--completely awake--so they could figure out what they think and feel. And dogs were just the beginning. In *What It's Like to Be a Dog*, Berns takes us into the minds of wild animals: sea lions who can learn to dance, dolphins who can see with sound, and even the now extinct Tasmanian tiger. Berns's latest scientific breakthroughs prove definitively that animals have feelings very much like we do--a revelation that forces us to reconsider how we think about and treat animals. Written with insight, empathy, and humor, *What It's Like to Be a Dog* is the new manifesto for animal liberation of the twenty-first century. There is a mystery afoot at the Museum of Fine Arts in Boston. A hole appears here, a tiny bite there. Someone has been eating the art! Too: Large print by Alfred Elwes As we were very poor, we were forced to live in a wretched kennel in the dampest part of the town, among dogs no better off than ourselves. The place we occupied overhung the water, and one day when the old doggess was punishing me for something I had done, the corner in which I was crouched being rotten, gave way, and I fell plump into the river. I had never been in the water before, and I was very frightened, for the stream was so rapid that it carried me off and past the kennels I knew, in an instant. I opened my mouth to call out for help; but as I was almost choked with the water that got into it, I shut it again, and made an effort to reach the land.
