**Letters from the Hive** Dec 20 2020 They work hard, are devoted to family, love sex, and know the importance of a good piece of real estate. Honey bees, and the daily workings of their close-knit colonies, are one of nature's great miracles. And they produce one of nature's greatest edible bounties: honey. More than just a palate pleaser, honey was once an offering to the gods, a preservative, and a medicine whose sought-after curative powers were detailed in ancient texts . . . and are being rediscovered by modern medical science. In *Letters from the Hive*, Prof. Stephen Buchmann takes us into the hive--nursery, honey factory, queen's inner sanctum--and out to the world of backyard gardens, open fields, and deserts in full bloom, where the age-old sexual dance between flowers and bees makes life on earth as we know it possible. Hailed for their hard work, harmonious society, and, mistakenly, for their celibacy, bees have a link to our species that goes beyond biology. In *Letters from the Hive*, Buchmann explores the fascinating role of bees in human culture and mythology, following the "honey hunters" of native cultures in Malaysia, the Himalayas, and the Australian Outback as they risk life and limb to locate a treasure as valuable as any gold. To contemplate a world without bees is to imagine a desolate place, culturally and biologically, and Buchmann shows how with each acre of land sacrificed to plow, parking lot, or shopping mall, we inch closer to what could become a chilling reality. He also offers honey-based recipes, cooking tips, and home remedies--further evidence of the gifts these creatures have bestowed on us. Told with wit, wisdom, and affection, and rich with anecdote and science, *Letters from the Hive* is nature writing at its best. This is natural history to be treasured, a sweet tribute that buzzes with life.

**Letter 44 Vol. 1** Jan 13 2023 Newly-elected president Stephen Blades hoped to tackle the most critical issues facing the nation: war, the economy, and health care. But in a letter penned by the outgoing president, Blades learns the truth that redefines "critical": seven years ago, NASA discovered alien presence in the asteroid belt, and kept it a secret from the world. A stealth mission crewed by nine astronauts was sent to make contact, and they're getting close—assuming they survive the long journey to reach their destination. This deluxe edition collects the first 2 arcs of the critically-acclaimed and award-winning series in a new oversized format. Packed with extras, behind the scenes bonus material, sketches, concept art and more, this is one collection not to be missed.

**Escape Velocity** May 17 2023 Brings together Portis' writings other than his four novels, including journalism, travel stories, short fiction, memoir, and even a play.

**Escape Velocity** Jul 07 2022 Lou's dad has been addicted to painkillers since an accident left him unable to work. He's a good, loving dad, but kind of useless. Lou's mother, Zoe, a successful novelist, abandoned Lou at birth and showed no interest in her until three years ago, when Lou was twelve. Their relationship since then has been strained, but when Lou's dad has a stroke, there is nowhere else for her to go while he recovers. Lou struggles to find her bearings and figure out why her mom left her all those years ago. She is convinced the answers are in Zoe's fiction, but when Lou's grandmother, Heather, appears at a reading, Lou realizes she may have misjudged her mother.

**Flame Wars** Nov 30 2021 Essays on electronic communication, cyberpunk culture, and rants and flames in cyberspace consider subjects such as the magazine *Mondo 2000*, the typewriter, virtual reality, feminism, comics, and erotica for cybernauts. Includes blurry b&w photos and illustrations, and an interviews with science fictions writers Samuel R. Delaney, Greg Tate, and Tricia Rose. Paper edition (unseen), \$13.95. **Letter 44 #1** Dec 12 2022 There's something up there. As newly elected President Stephen Blades reads the letter left for him in the Oval Office by his predecessor, he learns this stunning secret: seven years earlier, NASA discovered an alien construction project in the asteroid belt. A crew of heroic astronauts was sent to investigate, and they're nearing the conclusion of their epic journey. Don't miss the first chapter in this thrilling tale of real-world space travel, intrigue, and secret histories!

**Seasonal Works with Letters on Fire** Nov 18 2020 Winner of the Griffin Poetry Trust's International Poetry Prize (2014) Runner-up for the Northern California Book Reviewers Northern California Book Award (2014) *Fire*—its physical, symbolic, political, and spiritual forms—is the fourth and final subject in Brenda Hillman's masterful series on the elements. Her previous volumes—*Cascadia*, *Pieces of Air in the Epic*, *Practical Water*—have addressed earth, air, and water. Here, Hillman evokes fire as metaphor and as event to chart subtle changes of seasons during financial breakdown, environmental crisis, and street movements for social justice; she gathers factual data, earthly rhythms, chants to the dead, journal entries, and lyric fragments in the service of a radical animism. In the polyphony of *Seasonal Works with Letters on Fire*, the poet fuses the visionary, the political, and the personal to summon music and fire at once, calling the reader to be alive to the senses and to re-imagine a common life. This is major work by one of our most important writers. Check for the online reader's companion at [brendahillman.site.wesleyan.edu](http://brendahillman.site.wesleyan.edu).

**Letters, Postcards, Email** Jul 27 2021 Moves between close readings of letters, postcards and emails, and investigations of the material, technological infrastructures of these forms, to answer the question: How does presence function as an aesthetic and rhetorical strategy within networked communication practices?

**Visions, Ventures, Escape Velocities** Oct 30 2021 Why should we go to space? To learn more about the universe and our place in it? To extract resources and conduct commerce? To demonstrate national primacy and technological prowess? To live and thrive in radically different kinds of human communities? *Visions, Ventures, Escape Velocities* takes on the challenge of imagining new stories at the intersection of public and private--narratives that use the economic and social history of exploration, as well as current technical and scientific research, to inform scenarios for the future of the "new space" era. *Visions, Ventures, Escape Velocities* provides fresh insights into human activity in Low Earth Orbit, journeys to Mars, capturing and mining asteroids, and exploring strange and uncharted exoplanets. Its stories and essays imagine human expansion into space as a kind of domestication--not in the sense of taming nature but in the sense of creating a space for dwelling, a venue for human life and curiosity to unfurl in all their weirdness and complexity.

**The Darwin Elevator** Aug 28 2021 NEW YORK TIMES BESTSELLER Jason M. Hough's pulse-pounding debut combines the drama, swagger, and vivid characters of Joss Whedon's *Firefly* with the talent of sci-fi author John Scalzi. In the mid-23rd century, Darwin, Australia, stands as the last human city on Earth. The world has succumbed to an alien plague, with most of the population transformed into mindless, savage creatures. The planet's refugees flock to Darwin, where a space elevator—created by the architects of this apocalypse, the Builders—emits a plague-suppressing aura. Skyler Luiken has a rare immunity to the plague. Backed by an international crew of fellow “immunes,” he leads missions into the dangerous wasteland beyond the aura's edge to find the resources Darwin needs to stave off collapse. But when the Elevator starts to malfunction, Skyler is tapped—along with the brilliant scientist, Dr. Tania Sharma—to solve the mystery of the failing alien technology and save the ragged remnants of humanity. Praise for *The Darwin Elevator* “A hell of a fun book.”—James S. A. Corey, New York Times bestselling author of *Abaddon's Gate* “[Jason M.] Hough's first novel combines the rapid-fire action and memorable characters associated with Joss Whedon's short-lived *Firefly* TV series with the accessibility and scientific acumen of [James S. A.] Corey's ‘*Expanse*’ series.”—*Library Journal* (starred review) “The best part about alien stories is their mystery, and Jason Hough understands that like no other. Full of compelling characters and thick with tension, *The Darwin Elevator* delivers both despair and hope along with a gigantic dose of wonder. It's a brilliant debut, and Hough can take my money whenever he writes anything from now on.”—Kevin Hearne, New York Times bestselling author of *The Iron Druid Chronicles* “Newcomer Hough displays a talent for imaginative plotting and realistic dialogue, and the brisk pacing and cliffhanger ending will keep readers enthralled and eagerly awaiting the next installment.”—*Publishers Weekly* “Jason M. Hough does a great job with this huge story. The world of Darwin and the Elevator is deliciously complex and satisfying. Skyler, Tania, and all the other characters are delightfully drawn and fun to spend time with. . . . The story unfolds with just the right balance of high adventure, espionage, humor, and emotional truth. . . . As soon as you finish, you'll want more.”—*Analog* “A debut novel unlike any other . . . This is something special. Something iconic. *The Darwin Elevator* is full of majesty and wonder, mystery and mayhem, colorful characters and insidious schemes.”—*SF Signal* “Fun, action-packed and entertaining . . . a sure contender for science fiction debut of the year!”—*Pat's Fantasy Hotlist* “Claustrophobic, intense, and satisfying . . . I couldn't put this book down. *The Darwin Elevator* depicts a terrifying world, suspends it from a delicate thread, and forces you to read with held breath as you anticipate the inevitable fall.”—Hugh Howey, New York Times bestselling author of *Wool*

**Letter 44** Jun 18 2023 On his first day in office, newly-elected President Stephen Blades was expecting to dive into the various critical issues facing the nation: war, looming economic collapse, and a failing health care system - a typical Presidency, in other words. But by the end of that first day, Blades has learned a single truth that redefines "critical": seven years prior, NASA discovered a potentially aggressive alien presence in the asteroid belt, and his predecessor Commander-in-Chief decided to keep it a secret from the world. A mission crewed by nine heroic astronauts was sent to discover what's actually up there, and they're getting close to learning the truth - assuming their increasingly damaged and frail ship, the *Clarke*, can hold itself together long enough to reach their destination. Stephen Blades has just become the most powerful man on the planet. This planet.

**Hard Love** Mar 15 2023 With keen insight into teenage life, Ellen Wittlinger delivers a story of adolescence that is fierce and funny -- and ultimately transforming -- even as it explores the pain of growing up. Since his parents' divorce, John's mother hasn't touched him, her new fiancé wants them to move away, and his father would rather be anywhere than at Friday night dinner with his son. It's no wonder John writes articles like "Interview with the Stepfather" and "Memoirs from Hell." The only release he finds is in homemade zines like the amazing *Escape Velocity* by Marisol, a self-proclaimed "Puerto Rican Cuban Yankee Lesbian." Haning around the Boston Tower Records for the new issue of *Escape Velocity*, John meets Marisol and a hard love is born. While at first their friendship is based on zines, dysfunctional families, and dreams of escape, soon both John and Marisol begin to shed their protective shells. Unfortunately, John mistakes this growing intimacy for love, and a disastrous date to his junior prom leaves that friendship in ruins. Desperately hoping to fix things, John convinces Marisol to come with him to a zine conference on Cape Cod. On the sandy beaches by the Bluefish Wharf Inn, John realizes just how hard love can be.

*Escape Velocity* Apr 16 2023 When her painkiller-addicted father suffers a stroke, fifteen-year old Lou goes to stay with her mother and takes advantage of the newly established relationship to figure out why her mother abandoned her at birth.

*Letters* Jun 25 2021 Basically, [Barth] takes several people from his early novels and has them all starting to write to each other, and to him, their letters and experiences directing the plot. And what starts out as what could be a too-cute literary trick winds up being extremely revealing, as the characters pour themselves into the letters, regardless of whom they're writing to, as the plot skips and slips through time. On one level it acts as a sequel to those early novels, continuing their stories and although it's not really required to read those books, I'm not going to pretend it doesn't help. The best thing to do would be to read those old novels in one block and then move onto this . . . I read them some years ago so I was a little fuzzy on the finer points. But I picked it up. But Barth captures the voices of his old characters well and even if you didn't know who was writing what letter, you could tell. And thus they tell the recipient, and us, about their hopes and fears, they mingle together, they lie, they come unglued, and by the end you sort of get a tapestry of their thoughts. There's a plot weaving through here but sometimes it becomes hard to connect it with six different people discussing different angles of it with you, but I just went with it and enjoyed the writing for what it was. --Michael Battaglia at Amazon.com.

*The Dog of the South* Jun 06 2022 His wife, Norma, has run off with her ex-husband, taking Ray's cards, shotgun and car. But from the receipts, Ray can track where they've gone. He takes off after them, as does an irritatingly tenacious bail bondsman, both following the romantic couple's spending as far as Mexico. There Ray meets Dr Reo Symes, the seemingly down-on-his-luck and rather eccentric owner of a beaten up and broken down bus, who needs a ride to Belize. The further they drive, in a car held together by coat-hangers and excesses of oil, the wilder their journey gets. But they're not going to give up easily.

*Escape Velocity* Aug 16 2020 From the moment of a marriage's heated inception to its period of luminous crowding and onward into distance and darkness, Bonnie Arning's *Escape Velocity* asks if it's possible to exist outside the only universe we've ever known. In modes both lyric and narrative, we are given a peephole into the height and decline of a marriage that begins beneath the moving lights of Las Vegas, Nevada, and traverses the devastating terrain of gambling, miscarriage, infidelity, and violence. Arning gives voice to divergent aspects of love and violence through her use of math problems, erasures, dictionary entries, structured stanzas, and sprawling free verse. This multiplicity of forms comes together to explore everything from pop culture references of domestic violence to cultural notions of victims and victimhood. However dark, collectively these poems tell a love story—an acceptance of our capability to love those who hurt us, but also the love-of-self required to slowly and steadily reach "the velocity to be everleaving." In the tradition of Eavan Boland and Louise Glück, Arning wrestles down and examines the terrible without flinching. We journey with her, engrossed by each difficult truth: a precipice near which we are both terrified to stand and transfixed by its unnerving insistence on beauty.

*The Forever Letter* May 25 2021 A forever letter is a gift that will be read over and over again Inspired by the centuries-old Jewish tradition of the ethical will, a forever letter is a perfect way to share your most precious possessions: your values, wisdom, and love with the people who matter to you most. And you don't have to do it alone. Through empowering stories, sample letters, and writing tips, author Elana Zaiman serves as your companion on this journey of self discovery and deepening relationships. Praise: "I love this little book because it's about writing real letters, a lost art in our time. Even more important, it's about writing letters that matter to people who matter to us. What could be better than putting words to paper to tell people who we are and what we are becoming, and what it is that we cherish and value—thanking them for the way they helped point us toward our own North Star?"—Parker J. Palmer, author of *Let Your Life Speak* and *A Hidden Wholeness* "Elana Zaiman has a mission: She loves connection, deep and personal, and wants others to experience the sweet joy she has lived of shared truth-telling. Her forever letter embodies the passing on of wisdom, humbling experience, dreams, and love from one person to another. It is a beautiful concept that all of us should embrace."—Julie Schwartz Gottman, PhD, co-founder of the Gottman Institute and author of *Ten Principles for Doing Effective Couples Therapy*

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

*Escape Velocity* Feb 14 2023 Democracy is crumbling in the Interstellar Dominion Electorates and the LORDS party are preparing a coup. If Dar and Samantha can't get their message to Terra in time, a dictatorship is inevitable. What's more, every police ship in space has just been alerted that Dar and Samantha are dangerous telepaths to be shot on sight. Along the way, they meet up with a colorful cast of characters who join their quest: a tech-savvy monk, a wandering poet, and a wealthy medieval reenactor, to name just a few. Suspense and adventure abound as Dar and friends are chased through the galaxy as they race to save the world from itself.

*Gravity, Quasi Black Holes, And Cosmic Relativity* Sep 16 2020 Prior to 20th century physics it was believed an ethereal medium pervaded all space. It was believed the ether is necessary to explain light as waves propagating through a medium. Physicists failed to confirm the ether really exists. Only indirect inference to wave properties can be made with regard to its possible existence. Otherwise it is invisible to our world. Ethereal physics has been abandoned. It has been replaced with a methodology whereby only what can be observed is considered real. All observable effects are mathematically related in the form of a functional theory. Much of theory is postulated, not explained. There is, for instance, no attempt to explain the probability nature of quantum mechanics. Only the results are considered pertinent to scientific investigation. However, with the historical foundation from which modern theory evolves, physicists are becoming confused. They believe, for instance, general relativity predicts black holes. There are no black holes. They are myths created from inconsistent interpretation of theory. This book goes beyond physics to explain the physics of gravity, the atomic structure and cosmology. It provides a historical perspective for understanding physics in a more consistent manner.

**Orbital Mechanics for Engineering Students** May 05 2022 *Orbital Mechanics for Engineering Students*, Second Edition, provides an introduction to the basic concepts of space mechanics. These include vector kinematics in three dimensions; Newton's laws of motion and gravitation; relative motion; the vector-based solution of the classical two-body problem; derivation of Kepler's equations; orbits in three dimensions; preliminary orbit determination; and orbital maneuvers. The book also covers relative motion and the two-impulse rendezvous problem; interplanetary mission design using patched conics; rigid-body dynamics used to characterize the attitude of a space vehicle; satellite attitude dynamics; and the characteristics and design of multi-stage launch vehicles. Each chapter

begins with an outline of key concepts and concludes with problems that are based on the material covered. This text is written for undergraduates who are studying orbital mechanics for the first time and have completed courses in physics, dynamics, and mathematics, including differential equations and applied linear algebra. Graduate students, researchers, and experienced practitioners will also find useful review materials in the book. NEW: Reorganized and improved discussions of coordinate systems, new discussion on perturbations and quaternions NEW: Increased coverage of attitude dynamics, including new Matlab algorithms and examples in chapter 10 New examples and homework problems

**H.I.V.E.** May 13 2020 HIGHER INSTITUTE OF VILLAINOUS EDUCATION Otto Malpense may only be thirteen years old, but so far he has managed to run the orphanage where he lives, and he has come up with a plan clever enough to trick the most powerful man in the country. He is the perfect candidate to become the world's next supervillain. That is why he ends up at H.I.V.E., handpicked to become a member of the incoming class. The students have been kidnapped and brought to a secluded island inside a seemingly active volcano, where the school has resided for decades. All the kids are elite; they are the most athletic, the most technically advanced, and the smartest in the country. Inside the cavernous marble rooms, floodlit hangars, and steel doors, the students are enrolled in Villainy Studies and Stealth and Evasion 101. But what Otto soon comes to realize is that this is a six-year program, and leaving is not an option. With the help of his new friends: an athletic martial-arts expert; a world-famous, beautiful diamond thief; and a spunky computer genius -- the only other people who seem to want to leave -- can Otto achieve what has never been done before and break out of H.I.V.E.?

*Letters from Tove* Mar 03 2022 A virtual memoir in letters by the beloved creator of the Moomins Tove Jansson's works, even her famed Moomin books, fairly teem with letters of one kind or another, from messages bobbing in bottles to whole epistolary novels. Fortunately for her countless readers, her life was no different, unfolding as it did in the letters to family, friends, and lovers that make up this volume, a veritable autobiography over the course of six decades—and the only one Jansson ever wrote. And just as letters carry a weight of significance in Jansson's writing, those she wrote throughout her life reflect the gravity of her circumstances, the depth of her thoughts and feelings, and the critical moments of humor, sadness, and grace that mark an artist's days. These letters, penned with characteristic insight and wit, provide an almost seamless commentary on Jansson's life within Helsinki's bohemian circles and on her island home. Shifting between hope and despair, yearning and happiness, they describe her immersion in art studies and her ascension to fame with the Moomins. They speak frankly of friendship and love, loneliness and solidarity, and also of politics, art, literature, and society. They summon a particular place and time reflected through a mind finely attuned to her culture, her world, and her own nature—all clearly put into biographical and historical context by the volume's editors, both longtime friends of Tove Jansson—and, in the end, draw a complex, intimate self-portrait of one of the world's most beloved authors.

*The Letters of Sir Joseph Banks* Feb 02 2022 Sir Joseph Banks was a great Georgian figure. He circumnavigated the world with Captain James Cook on the H.M.S. Endeavor (1768-1771). He took with him a team of naturalists, illustrators and assistants at a personal cost of pounds 10,000. They made unprecedented collections of flora and fauna in most of the places the H.M.S. Endeavor visited. Banks also led the first British scientific expedition to Iceland, in 1772. Later, he settled in London and assembled an enormous herbarium-cum-library. This was remarkable for its size and for the unique material gathered from the Pacific. Banks was elected President of the Royal Society in 1778, a position he held for 41 years -- the longest anyone has served in that capacity. He was also the Director of the Royal Botanical Gardens at Kew, which flourished under his control and became greater than any other. He was also an influential privy councilor and advisor to George III and the government. Banks was therefore at the scientific and social centre of Georgian life for more than five decades of rapid change. Once established in this position, he developed an enormous, global network of correspondence, using letters to shape events, to further knowledge, and to build an empire. There was almost no aspect too insignificant for his attention: and on matters of importance, his opinion was frequently sought. He has been called the "Fathers of Australia" for his role in establishing and then actively supporting colonies on the continent he visited with Cook. On matters of trade or agriculture, botany or horticulture, exploration or navigation, coinage, drainage and science, his views could hardly be avoided. Yet, he was a warm, authoritativewriter, with a "roiling" prose style. His letters make interesting reading for their variety as well as their insight into both his public and private life. This selection is from the over 5,000 letters which he wrote, and will in
