The Dragoman Renaissance Aug 22 2022 In  
*The Dragoman Renaissance*, E. Natalie  
Rothman traces how Istanbul-based  
diplomatic translator-interpreters, known  
as the dragomans, systematically engaged  
Ottoman elites in the study of the Ottoman  
Empire—eventually coalescing in the  
discipline of Orientalism—throughout the  
sixteenth and seventeenth centuries.  
Rothman challenges Eurocentric assumptions  
still pervasive in Renaissance studies by  
showing the centrality of Ottoman imperial  
culture to the articulation of European  
knowledge about the Ottomans. To do so,  
she draws on a dazzling array of new  
material from a variety of archives. By  
studying the sustained interactions  
between dragomans and Ottoman courtiers in  
this period, Rothman disrupts common ideas  
about a singular moment of "cultural  
encounter," as well as about a "docile"  
and "static" Orient, simply acted upon by  
extraneous imperial powers. *The Dragoman  
Renaissance* creatively uncovers how  
dragomans mediated Ottoman ethno-

linguistic, political, and religious categories to European diplomats and scholars. Further, it shows how dragomans did not simply circulate fixed knowledge. Rather, their engagement of Ottoman imperial modes of inquiry and social reproduction shaped the discipline of Orientalism for centuries to come. Thanks to generous funding from the Andrew W. Mellon Foundation, through The Sustainable History Monograph Pilot, the ebook editions of this book are available as Open Access volumes from Cornell Open ([cornellopen.org](http://cornellopen.org)) and other repositories.

Historical Seismology Jan 15 2022 Modern seismology has faced new challenges in the study of earthquakes and their physical characteristics. This volume is dedicated to the use of new approaches and presents a state-of-the-art in historical seismology. Selected historical and recent earthquakes are chosen to document and constrain related seismic parameters using updated methodologies in the macroseismic analysis, field observations of damage distribution and tectonic effects, and modelling of seismic waveforms.

*On Diary* Apr 18 2022 *On Diary* is the second collection in English of the groundbreaking and profoundly influential work of one of the best-known and provocative theorists of autobiography and diary. Ranging from the diary's historical origins to its pervasive presence on the Internet, from the spiritual journey of the sixteenth century to the diary of Anne Frank, and from the materials and methods of diary writing to the question of how diaries end, these essays display Philippe Lejeune's expertise, eloquence, passion, and humor as a commentator on the functions, practices, and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay, "The Autobiographical Pact," has shaped life writing studies for more than

thirty years, and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, "Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. . . . His style is very personal, lively. It grabs the reader as scholarship rarely does. Lejeune's erudition and methodology are impeccable." Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies, and cultural studies.
