Level: KS2 Subject: Maths An engaging Multiplication and Division activity book to really help boost your child's progress at every stage of their learning! Including helpful questions and answers, this Maths book provides reassurance whilst supporting your child's learning at home. Is it even possible to make multiplication and division easy for young children? Yes, of course! And all that takes is the right choice of learning tools like this workbook. The cool thing about actually doing multiplication and division exercises is that your child is applying theories. He/she is not just following books but he/she is already following knowledge already acquired. Get a copy today! This Progress with Oxford Multiplication, Division and Fractions Age 7-8 workbook will help your child to progress with these core maths skills while having fun, moving onto the new skills expected at Key Stage 2. Each Progress with Oxford book is focused on the skills your child will need to master at each stage of the school curriculum. The books are precisely matched to your child's age to make sure they are aligned with school expectations for their year, helping children to fully achieve their potential. The series has been created to help every child develop essential skills at home, with minimal help and support. Picture clues are used to show very young children how to complete activities, whilst reminder boxes, tips and advice support older children to become self-sufficient learners. A lively character accompanies your child through all the colourful and engaging activities, and fun stickers are included to reward their work. A handy progress chart at the end of each book captures their

achievements, so you both know what to do next. Find further support on the Oxford Owl at Home website, which provides specific advice on helping your child develop their maths skills, and fun activities to extend their skills. PLEASE NOTE - this is a replica of the print book and you will need a pen and paper to complete the exercises. Each ebook in this unique Maths Mastery series developed by experts covers all the essential skills for children in the first stages of their maths journey. Every topic is supported by clear examples and helpful hints to encourage proficiency. Aimed at children aged 7-8, this full-colour ebook will help your child to learn times tables and to multiply and divide two-digit numbers, using a range of different methods. It's attractively illustrated and led by appealing characters who offer useful tips to children (and parents) that make learning accessible and interesting. Every child can learn Maths with Maths Mastery. © 2022 Maths - No Problem! All rights reserved. Visual MathSmart is a four-title series that employs a wide variety of visuals to present math concepts and help children build strong math foundations. The series covers the four basic mathematical operations: addition, subtraction, multiplication, and division. Visual representations, including pictures, colours, and diagrams, are widely employed to let children visualize the essential math concepts and gain a better understanding of them. Each unit begins by introducing several visual strategies to develop skills in each operation, followed by interesting and systematic practice to build the necessary math skills, and problem-solving questions to reinforce and consolidate the concepts learned. At the end of each book are stickers and cut-out manipulatives to enrich children's learning experience. Through Visual MathSmart, children will discover the fun and value of learning math, and ride on their solid math foundations for future success! Level: KS2 Subject: Maths Engaging fractions and decimals activities to help boost your child's progress at every stage of their learning! Including helpful tips and answers, this maths book provides reassurance whilst supporting your child's learning at home.
