757 Jul 30 2020 Dialo and Pancho Mercias are brothers from Portsmouth, Virginia. Their father taught them the family business-drug-dealing-but they've taken it further than he ever imagined. The operation started small, just in their hometown, but soon it grew to include all the seven cities of the Tidewater area of Virginia. It became almost too much for them to handle. The boys do things they don't always like. For instance, they kill people in cold blood, all in the name of money. Dialo starts getting involved with some legit businesses in the hopes of someday leaving the drug trade behind. Meanwhile, his little brother looks forward to getting Dialo out of the way and maybe one day becoming a kingpin. Just as Dialo is ready to step aside, Pancho gets in big trouble with a rival drug-dealer, and things turn nasty. Blood covers the streets, and a full-blown war is underway. Dialo may have to give up on his dreams of being an honest businessman to save his brother. Old habits die hard as they enter the brawl, and someone may end up dead.

What do they find?

Dead at Daybreak Dec 23 2019 A headspinning thriller from crime writer Deon Meyer: the story of an ex-cop who has seven days to solve a seemingly unsolvable crime -- the answer to which lies in his own dark past. When Johannes Jacobus Smit, an antiques dealer, is found burned with a blowtorch and killed execution-style with a single shot to the back of the head, former cop Zatopek "Zed" van Heerden is called in to investigate the unusual circumstances of the murder. Zed is still obsessed with the betrayals of his own past but must fill in the blanks of this victim's life. Who tortured and killed Smit, and who was Smit in the first place? Not the man whose papers he carries, that much is certain. Zed can never be sure of the loyalties of the people with whom he is dealing -- his own past reputation ensures that -- and he soon finds himself uncovering secrets that the security services of many countries would like left alone. "Exciting....A terrific ride on almost every level."-Chicago Tribune

Sentimental Economy Apr 26 2020 In a warm, perceptive essay that touches on economics, fashion, literature, and politics, the Strega Prize-winning author of *Story of My People* reflects on the seismic shifts of 2020 and the diverse ways we're adapting. Attempting to make sense of the incredible upheaval of 2020—from the devastating impact of COVID-19 to the sudden loss of his father—Edoardo Nesi considers the changing global economy and its effect on our lives. He shares the stories of Alberto Magelli, a small textile entrepreneur; Livia Firth, a prominent advocate for sustainability; Elisa Martelli, a young Sangiovese winemaker; Enrico Giovannini, a leading economist and statistician; Rino Pratesi, a proud butcher from the heart of Tuscany; and more. From the overworked to the unemployed, we're all grappling with difficult questions about our current disorienting world: Will we ever feel healthy again, and what will it take to regain "normality?" What does progress mean today? Have science and technology let us down? What will the increased prevalence of remote working mean for our cities, and for our lifestyles generally? Deftly weaving together the personal and the economic, Nesi takes us on a fascinating journey to understanding.

Dying in America Mar 18 2022 For patients and their loved ones, no care decisions are more profound than those made near the end of life. Unfortunately, the experience of dying in the United States is often characterized by fragmented care, inadequate treatment of distressing symptoms, frequent transitions among care settings, and enormous care responsibilities for families. According to this report, the current health care system of rendering more intensive services than are necessary and desired by patients, and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families. Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life. Death is not a strictly medical event. Ideally, health care for those nearing the end of life harmonizes with social, psychological, and spiritual support. All people with advanced illnesses who may be approaching the end of life are entitled to access to high-quality, compassionate, evidence-based care, consistent with their wishes. Dying in America evaluates strategies to integrate care into a person- and family-centered, team-based framework, and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families. The findings and recommendations of this report will address the needs of patients and their families and assist policy makers, clinicians and their educational and credentialing bodies, leaders of health care delivery and financing organizations, researchers, public and private funders, religious and community leaders, advocates of better care, journalists, and the public to provide the best care possible for people nearing the end of life.

Computer Modelling of Structural Transformations of Nanopores in Fcc Metals Jul 22 2022 The book focuses on the effects of shock waves on vacancies and their clusters in fcc crystals. It is shown that high-speed cooperative atomic displacements represent a powerful tool for the purposeful modification of defect structures in crystalline bodies. The results are important for radiation material science, nano-engineering, the study of shock wave effects and the ultrasonic treatment of materials. Keywords: Computer Modelling of Nanopores, Molecular Dynamics, Fcc Metals, Defect Structures in Crystals, Radiation Material Science, Nano-Engineering of Materials, Ultrasonic Treatment of Materials, Radiation Induced Defects, Vacancy Clusters, Shock Wave Effects, Radiation-Resistant Materials, Thermomechanical Processing, Energy Transfer Mechanism, Nanopore Nucleation, Nanopore Based Filters, Nanopore Based Detectors, Cooling Elements in Nano-Electronics.

Selected Health Conditions and Likelihood of Improvement with Treatment Jan 16 2022 The Social Security Administration (SSA) administers two programs that provide disability benefits: the Social Security Disability Insurance (SSDI) program and the Supplemental Security Income (SSI) program. SSDI provides disability benefits to people (under the full retirement age) who are no longer able to work because of a disabling medical condition. SSI provides income assistance for disabled, blind, and aged people who have limited income and resources regardless of their prior participation in the labor force. Both programs share a common disability determination process administered by SSA and state agencies as well as a common definition of disability for adults: "the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months." Disabled workers might receive either SSDI benefits or SSI payments, or both, depending on their recent work history and current income and assets. Disabled workers might also receive benefits from other public programs such as workers' compensation, which insures against work-related illness or injuries occurring on the job, but those other programs have their own definitions and eligibility criteria. Selected Health Conditions and Likelihood of Improvement with Treatment identifies and defines the professionally accepted, standard measurements of outcomes improvement for medical conditions. This report also identifies specific, long-lasting medical conditions for adults in the categories of mental health disorders, cancers, and musculoskeletal disorders. Specifically, these conditions are disabling for a length of time, but typically don't result in permanently disabling limitations; are responsive to treatment; and after a specific length of time of treatment, improve to the point at which the conditions are no longer disabling.

High and Mighty Mar 25 2020 SUVs have taken over America's roads. Ad campaigns promote

them as safer and "greener" than ordinary cars and easy to handle in bad weather. But very little about the SUV's image is accurate. They poorly protect occupants and inflict horrific damage in crashes, they guzzle gasoline, and they are hard to control. Keith Bradsher has been at the forefront in reporting the calamitous safety and environmental record of SUVs, including the notorious Ford-Firestone rollover controversy. In *High and Mighty*, he traces the checkered history of SUVs, showing how they came to be classified not as passenger cars but as light trucks, which are subject to less strict regulations on safety, gas mileage, and air pollution. He makes a powerful case that these vehicles are even worse than we suspect--for their occupants, for other motorists, for pedestrians and for the planet itself. In the tradition of *Unsafe at Any Speed* and *Fast Food Nation*, Bradsher's book is a damning exposé of an industry that puts us all at risk, whether we recognize it or not.

Supernatural Leadership Sep 23 2022 Leadership is my passion and it has become lifestyle. I have dedicated over twenty years of my life in leadership, and have imparted in others what God has given me. I have inspired all types of people to rise up and do something in life. My intention is to make the difference in loving God, sharing that love of God, and loving my neighbor how God has commanded. I just want to be a vessel in the hands of the Lord and say to you that being happy is not difficult. Let me share something with you, I would rather be practical and communicate something from God, then to be eloquent and confuse you and lead you into error. I will make it simple, and fun, just how I am, a young pastor that rejoices in life and believes in the calling that God has given him. Dear reader, with just a few words, that is my intention. At this moment in life, exists a great necessity in this world, I am speaking of the great need for model leaders. Model leaders that our generation is willing to follow or be inspired by

them, so that the potential of every individual may be projected until achieving the purpose of why God has brought us into this world for.
