*The I Hate to Read Book Aug 17 2021 Reading is not for everybody, but everybody has to read. This is a light-hearted look at reading dislikes and difficulties. *The Hate U Give Apr 24 2022 Read the book that inspired the movie! Sixteen-year-old Starr lives in two worlds: the poor neighbourhood where she was born and raised and her posh high school in the suburbs. The uneasy balance between them is shattered when Starr is the only witness to the fatal shooting of her unarmed best friend, Khalil, by a police officer. Now what Starr says could destroy her community. It could also get her killed. Inspired by the Black Lives Matter movement, this is a powerful and gripping novel about one girl's struggle for justice.*

*United in Hate Oct 31 2022 United in Hate analyzes the Left's contemporary romance with militant Islam as a continuation of the Left's love affair with communist totalitarianism in the twentieth century. Just as the Left was drawn to the communist killing machines of Lenin, Stalin, Mao, Pol Pot and Castro, so too it is now attracted to radical Islam. Both the radical Left and radical Islam possess a profound hatred for Western culture, for a capitalist economic structure that recognizes individual achievement and for the Judeo-Christian heritage of the United States. Both seek to establish a new world order: leftists in the form of a classless communist society and Islamists in the form of a caliphate ruled by Sharia law. To achieve these goals, both are willing to wipe the slate clean by means of limitless carnage, with the ultimate goal of erecting their utopia upon the ruins of the system they have destroyed.*

*I Hate the Lake District Jan 10 2021 An alternative view of the North West of England that delves into its stranger past. I Hate the Lake District offers a different vision of the rural environment from those found in much contemporary nature writing. Based on the author's trips around North West England, the book engages with nuclear power and nuclear war, slavery, imperialism, ghosts, love, God, cockroaches, and the sheer violence and contingency of "nature" itself—of which the human presence is merely a part. Each chapter starts with an account of a visit to a place in this remote part of England, the deep north, but digresses and wanders through multifarious themes and subjects. Among the sites Gere visits are the defunct nuclear power station at Sellafield, home of all British nuclear waste; Lake Coniston, where Donald Campbell died trying to break the water speed record; Hadrian's Wall, furthestmost reach of the Roman Empire; the mysterious and deathly Morecambe Bay; sites of slavery in the North West; places where UFOs have been sighted, avant-garde artists created work, and Islamic terrorists trained; shantytowns where the navvies who built the railways lived with their families; and even the remains of Blobbyland in Morecambe. In I Hate the Lake District, Gere challenges the bourgeois pastoralism of popular nature writing and reveals the landscape of North West England as profoundly unnatural and strange.*

*I Hate Everything Feb 20 2022 I hate that I'm going bald. I hate that I still make fun of bald*

*people. I hate karma. Amateur haters, step aside. Time to learn what it really means to be miserable. Because this guy hates everything. From hating the little irks that happen now and then (like the water that squirts out of the mustard bottle) to hating the unfortunate realities of today's world (like that superheroes don't exist...but villains do), Matthew DiBenedetti tells readers how he really feels. With such a variety of miserable musings, you'll find something to laugh at—and someone to loathe with—in this book.*

*Hate in the Homeland Mar 04 2023 "Hate in the Homeland" shows how tomorrow's far-right nationalists are being recruited in surprising places. Cynthia Miller-Idriss shows how far-right groups are swelling their ranks and developing their cultural, intellectual, and financial capacities in a variety of mainstream settings, from college campuses to YouTube cooking channels. Essential for understanding the tactics and underlying ideas of modern far-right extremism, this eye-opening book takes readers into the mainstream spaces where today's far right is engaging and ensnaring young people, and reveals innovative strategies we can use to combat extremist radicalization. -- From publisher's description.*

*The Book of Love and Hate Jan 02 2023 The author of the Lambda Literary Award winner Kamikaze Lust delivers “a thrilling tale of espionage, family ties, sex, love, and betrayal” (The Advocate). Jennifer Baron is a failed Olympic speed skater now running her family’s foundation and trying to stay sober, when her billionaire father disappears. She travels to Israel in search of him, becoming recklessly entangled in his illegal dealings and with his enigmatic lover, Gila, a former Mossad agent gone bad. Along the way, she is drawn into the shadow worlds of the Promised Land, where career-jockeying government agents, fake Orthodox Jews, queer Palestinians on the run, and other displaced wanderers scramble to find home amid the endless cycles of war, occupation, and heartbreak. The Book of Love and Hate is an unraveling of white-collar crime and its motivations. It’s a testament to the magnificent oblivion of love and a shattering of inherited trauma, both personal and historical. “A thriller of literary pedigree, unbound by convention . . . If you’re seeking a cathartic resolution in the final pages, you might be disappointed—but you shouldn’t be surprised. Not when you’re talking about Israel and corrupt fortunes, and madness, obsession, and abuse . . . Just don’t expect to find a safe, comforting space in the pages of Lauren Sanders’s discomfiting and terrific book.” —The Village Voice “Sanders knows how to craft a story. The storyline is riveting, and the personal development of the characters kept me engaged on a deeper level than even her thrilling plot could. Her prose is beautiful and brings you to an ending that is sure to have you reeling.” —Windy City Times*

*The Harm in Hate Speech Apr 12 2021 Every liberal democracy has laws or codes against hate speech, except the United States. For constitutionalists, regulation of hate speech violates the First Amendment and damages a free society. Against this absolutist view, the author argues that hate speech should be regulated as part of our commitment to human dignity and to inclusion and respect for members of vulnerable minorities. Causing offense, by depicting a religious leader as a terrorist in a newspaper cartoon, for example, is not the same as launching a libelous attack on a group's dignity, according to the author, and it lies outside the reach of law. But defamation of a minority group, through hate speech, undermines a public good that can and should be protected: the basic assurance of inclusion in society for all*

*members. A social environment polluted by anti-gay leaflets, Nazi banners, and burning crosses sends an implicit message to the targets of such hatred: your security is uncertain and you can expect to face humiliation and discrimination when you leave your home. Free-speech advocates boast of despising what racists say but defending to the death their right to say it. The author finds this emphasis on intellectual resilience misguided and points instead to the threat hate speech poses to the lives, dignity, and reputations of minority members. Finding support for his view among philosophers of the Enlightenment, he asks us to move beyond knee-jerk American exceptionalism in our debates over the serious consequences of hateful speech.*

*History and Hate Dec 09 2020 The persistence of anti-Semitism is a phenomenon that challenges Jewish historians to make ethical judgments a part of historical analysis. This comprehensive collection meets that challenge as its authors provide fresh insight into the complexities of anti-Semitism. The eight essays included in this volume are by noted scholars, each an expert in a specific historical period--from the ancient world to the twentieth century.*

*Breaking Bread with the Dead May 14 2021 "At a time when many Americans . . . are engaged in deep reflection about the meaning of the nation's history [this] is an exceptionally useful companion for those who want to do so with honesty and integrity." —Shelf Awareness From the author of How to Think and The Pleasures of Reading in an Age of Distraction, a literary guide to engaging with the voices of the past to stay sane in the present W. H. Auden once wrote that "art is our chief means of breaking bread with the dead." In his brilliant and compulsively readable new treatise, Breaking Bread with the Dead, Alan Jacobs shows us that engaging with the strange and wonderful writings of the past might help us live less anxiously in the present—and increase what Thomas Pynchon once called our "personal density." Today we are battling too much information in a society changing at lightning speed, with algorithms aimed at shaping our every thought—plus a sense that history offers no resources, only impediments to overcome or ignore. The modern solution to our problems is to surround*

*ourselves only with what we know and what brings us instant comfort. Jacobs's answer is the opposite: to be in conversation with, and challenged by, those from the past who can tell us what we never thought we needed to know. What can Homer teach us about force? How does Frederick Douglass deal with the massive blind spots of America's Founding Fathers? And what can we learn from modern authors who engage passionately and profoundly with the past? How can Ursula K. Le Guin show us truths about Virgil's female characters that Virgil himself could never have seen? In *Breaking Bread with the Dead*, a gifted scholar draws us into close and sympathetic engagement with texts from across the ages, including the work of Anita Desai, Henrik Ibsen, Jean Rhys, Simone Weil, Edith Wharton, Amitav Ghosh, Claude Lévi-Strauss, Italo Calvino, and many more. By hearing the voices of the past, we can expand our consciousness, our sympathies, and our wisdom far beyond what our present moment can offer.*

*Putting Faith in Hate Apr 05 2023 To allow or restrict hate speech is a hotly debated issue in many societies. While the right to freedom of speech is fundamental to liberal democracies, most countries have accepted that hate speech causes significant harm and ought to be regulated. Richard Moon examines the application of hate speech laws when religion is either the source or target of such speech. Moon describes the various legal restrictions on hate speech, religious insult, and blasphemy in Canada, Europe and elsewhere, and uses cases from different jurisdictions to illustrate the particular challenges raised by religious hate speech. The issues addressed are highly topical: speech that attacks religious communities, specifically anti-Muslim rhetoric, and hateful speech that is based on religious doctrine or scripture, such as anti-gay speech. The book draws on a rich understanding of freedom of expression, the*

*Hate, Politics, Law Feb 08 2021 Hate, Politics, Law: Critical Perspectives on Combating of Hate offers a critical exploration and assessment of the basic assumptions, ideals, and agendas behind the modern fight against hate. The essays in this volumes explore these issues and provide a range of explanatory and normative perspectives on the awkward relationship between hate and liberal democracy.*

*Love to Hate Dec 29 2019 Why? is the simple, impulsive question we ask when confronted by horrible acts of hatred and violence. Why do students shoot fellow students or employees their coworkers? Why do mothers drown their children or husbands stalk and kill their wives? Love to Hate challenges us to turn this question upon ourselves at a deeper level. Why, as a culture, are we so fascinated by these acts? Why do we bestow celebrity on the perpetrators, while allowing the victims to fade into a second death of obscurity? Are we, as Pope John Paul II famously accused, "a culture of death"? And if so, how can we break free of this unacknowledged aspect of the cycle of violence? Unlike those who point solely to media imagery, splintered families, or lax gun control laws in search of the roots of America's endemic violence, Jody M. Roy suggests that we all must be held responsible. She argues that we reveal our love affair with hatred and violence in the ways we think and speak in our daily lives and in our popular culture. The very words we use function as building blocks of callousness and contempt, betraying our immersion in subtexts of violence and hatred. These subtexts are further revealed in our complex attitudes toward street gangs, school shooters, serial killers, and hate groups and the paroxysms of violence they unleash. As spectators, driven by our impulse to watch, we become an integral part of the equation of violence. In the book's final section, "Freeing Ourselves of Our Obsession with Hatred and Violence," Roy offers practical steps we can take—as parents, consumers, and voters—to free ourselves from*

*The Book of Hate May 06 2023 It's an age-old problem, being misunderstood. Conservatives think Liberals are deaf, dumb, and blind, and Liberals think Conservatives are CRAZY. Neither is exactly correct, but... somebody does have it mostly right, and someone has it mostly WRONG. Illegal immigration, LGBTQ issues, Islam, Global warming, Capitalism, Wealth redistribution, Democrats, Republicans, etc., why do we so misunderstand each other? The perfect book for the conservative, for your liberal friends and family who don't understand you. For the liberal, well, do you 'want' to understand that conservative friend or family member? If so... here we go.*

*A Band with Built-In Hate Aug 05 2020 "The best book on The Who. Stanfield understands that they were built entirely around opposition—they didn't want to be The Beatles or The Stones; they didn't even want to be The Who most of the time. He smartly states the case for peak Who as transgressive . . . the closest thing to Pop art British music has ever produced."—Bob Stanley, author of Yeah Yeah Yeah: The Story of Modern Pop "With impressive eloquence, A Band with Built-In Hate situates '60s Britain's most volatile and incendiary group at the heart of pop's wild vortex. . . . Stanfield digs brilliantly into The Who's transgressions, their up-ending of pop music into art-rock and proto-punk. He can see for miles."—Barney Hoskyns, author of Major Dudes: A Steely Dan Companion and creator of Rock's Backpages "Ours is music with built-in hatred."—Pete Townshend, cofounder of the Who This book is a biography of the Who unlike any other. From their inception as the Detours in the mid-sixties, to the late seventies, post-Quadrophenia, the Who are pictured through the prism of pop art and the radical leveling of high and low culture that it brought about—a drama that was consciously and aggressively performed by the band. Peter Stanfield lays down a path through the British pop revolution, its attitude and style, as it was uniquely embodied by the band: first, under the mentorship of arch-mod Peter Meaden, as they learned their trade in the pubs and halls of suburban London; and then with Kit Lambert and Chris Stamp, two aspiring filmmakers, at the very center of things in Soho. Guided by the concerns of contemporary commentators—among them George Melly, Lawrence Alloway, and, most conspicuously, Nik Cohn—Stanfield tells the story of a band driven by fury, and of what happened when Pete Townshend, Roger Daltrey, Keith Moon, and John Entwistle moved from backroom stages to international arenas, from explosive 45s to expansive concept albums. Above all, he tells of how the Who confronted their lost youth as it was echoed in punk.*

We're stuck together for three months, after all. And I'm well aware I'm lucky to be here. But it's proved impossible. He's far too rude and dismissive a guy to get along with. *The Cure for Hate Feb 29 2020 How does an affluent, middle-class, private-school-attending son of a doctor end up at the Aryan Nations compound in Idaho, falling in with and then recruiting for some of the most notorious neo-Nazi groups in Canada and the United States? The Cure for Hate paints a very human picture of a young man who craved attention, acceptance, and approval and the dark place he would go to get it. Tony McAleer found an outlet for his teenage rage in the street violence of the skinhead scene. He then grew deeply involved in the White Aryan Resistance (WAR), rising through the ranks to become a leader, and embraced technology and the budding internet to bring white nationalist propaganda into the digital age. After fifteen years in the movement, it was the outpouring of love he felt at the birth of his children that inspired him to start questioning his hateful beliefs. Thus began the spiritual journey of personal transformation that enabled him to disengage from the highest levels of the white power movement. This incisive book breaks commonly held stereotypes and delivers valuable insights into how regular people are drawn to violent extremism, how the ideology takes hold, and the best ways to help someone leave hate behind. In his candid and introspective memoir, Tony shares his perspective gleaned from over a thousand hours of therapy, group work, and facilitating change in others that reveals the deeper psychological causes behind racism. At a period in history when instances of racial violence are on the upswing, The Cure for Hate demonstrates that in a society frighteningly divided by hate and in need of healing, perhaps atonement, forgiveness, and most importantly, radical compassion is*

***Digital Hate*** Feb 03 2023 -- *The editors of this volume are mid- to senior-level scholars who each have significant publications on digital hate and extreme speech. The collection arises out of a conference which received EU funding to study the rise and spread of extreme speech in the digital age. -- Any good work on digital extreme speech would be useful in an era of right-wing nationalism, rampant racism, and online calls for violence. What makes this collection particularly significant, though, is its focus on expanding the conversation to encompass a more global outlook. In doing so, it encourages readers to have a fuller and more nuanced understanding of the ways in which the Internet operates across the world. -- Methodologically and theoretically, it combines the lens of media anthropology and communication studies. This makes it a unique contribution to anthropology and communication studies, advancing as well growing scholarly interests in digital politics and online communication among sociologists, political scientists, international studies and development studies experts. -- The audience for the work is upper level undergraduates, graduate students, and scholars working in global communications, new media studies, international studies, anthropology and sociology as it relates to media and the Internet, and political science. The work would also appeal to media activists, NGOs engaged in hate speech interventions and peacebuilding, and governmental and media organizations.*

***Sisters in Hate*** Jun 14 2021 ***WITH A NEW FOREWARD*** *Journalist Seyward Darby's "masterfully reported and incisive" (Nell Irvin Painter) exposé pulls back the curtain on modern racial and political extremism in America telling the "eye-opening and unforgettable" (Ibram X. Kendi) account of three women immersed in the white nationalist movement. After the election of Donald J. Trump, journalist Seyward Darby went looking for the women of the so-called "alt-right" -- really just white nationalism with a new label. The mainstream media depicted the alt-right as a bastion of angry white men, but was it? As women headlined resistance to the Trump administration's bigotry and sexism, most notably at the Women's Marches, Darby wanted to know why others were joining a movement espousing racism and anti-feminism. Who were these women, and what did their activism reveal about America's past, present, and future? Darby researched dozens of women across the country before settling on three -- Corinna Olsen, Ayla Stewart, and Lana Lokteff. Each was born in 1979, and became a white nationalist in the post-9/11 era. Their respective stories of radicalization upend much of what we assume about women, politics, and political extremism. Corinna, a professional embalmer who was once a body builder, found community in white nationalism before it was the alt-right, while she was grieving the death of her brother and the end of her marriage. For Corinna, hate was more than just personal animus -- it could also bring people together. Eventually, she decided to leave the movement and served as an informant for the FBI. Ayla, a devoutly Christian mother of six, underwent a personal transformation from self-professed feminist to far-right online personality. Her identification with the burgeoning*

*"tradwife" movement reveals how white nationalism traffics in society's preferred, retrograde ways of seeing women. Lana, who runs a right-wing media company with her husband, enjoys greater fame and notoriety than many of her sisters in hate. Her work disseminating and monetizing far-right dogma is a testament to the power of disinformation. With acute psychological insight and eye-opening reporting, Darby steps inside the contemporary hate movement and draws connections to precursors like the Ku Klux Klan. Far more than mere helpmeets, women like Corinna, Ayla, and Lana have been sustaining features of white nationalism. Sisters in Hate shows how the work women do to normalize and propagate racist extremism has consequences well beyond the hate movement.*

*The Opposite of Hate Nov 19 2021 "A stunning debut by a truly gifted writer—an eye-opening read for both liberals and conservatives—and it could not come at a better time."—Adam Grant, New York Times bestselling author of Option B, with Sheryl Sandberg What is the opposite of hate? As a progressive commentator on Fox News and now CNN, Sally Kohn has made a career out of bridging intractable political differences and learning how to talk respectfully with people whose views she disagrees with passionately. Her viral TED Talk on the need to practice emotional—rather than political—correctness sparked a new way of considering how often we amplify our differences and diminish our connections. But these days even famously "nice" Kohn finds herself wanting to breathe fire at her enemies. It was time, she decided, to look into the epidemic of hate all around us and learn how we can stop it. In The Opposite of Hate, Kohn talks to leading scientists and researchers and investigates the evolutionary and cultural roots of hate and how incivility can be a gateway to much worse. She travels to Rwanda, the Middle East, and across the United States, introducing us to former terrorists and white supremacists, and even some of her own Twitter trolls, drawing surprising lessons from dramatic and inspiring stories of those who left hate behind. As Kohn confronts her own shameful moments, whether it was back when she bullied a classmate or today when she harbors deep partisan resentment, she discovers, "The opposite of hate is the beautiful and powerful reality of how we are all fundamentally linked and equal as human beings. The opposite of hate is connection." Sally Kohn's engaging, fascinating, and often funny book will open your eyes and your heart.*

*Exploring Hate Jul 04 2020 Charlottesville. Pittsburgh. New Zealand. The threat of real-world violence from hateful extremism is growing. In the wake of these and other attacks, there is an increasing public outcry for governments, tech companies, and others to address the deadly effects of hate-inspired violence. As extremists and hate groups become savvier at mobilizing through social media, there will be ever more intense calls for stronger, swifter responses. Yet these responses must be based on research and data, rather than fear and intuition. In order to formulate the right responses, there are still many unanswered questions that must be addressed. What are the actual constellations and contours of hate groups in the United States? What types of hateful content are being promulgated by these groups, and how?*

*Beyond specific groups, how should we think about broader networks of hate? What are the dynamics of connection between online activities and real-world violence? When and where are hateful activities most pernicious and threatening? What impact do major incidents of hate have on individuals and communities? And what can be done to provide more support to impacted individuals and communities? In an attempt to answer these vexing questions, Joshua Geltzer, Dipayan Ghosh, and Robert McKenzie have curated a diverse set of essays from scholars, public intellectuals, community leaders, policymakers, religious clerics, tech industry officials, and victims themselves. Taken together, these essays not only explore the different manifestations and consequences of hate today but also offer concrete and actionable solutions. *Exploring Hate: An Anthology* is uniquely positioned to shape and drive a vital public conversation on the issue of hate. As the global public grapples with emergent and evolving forms of hate, this volume will provide a guide for understanding that hate—and the options for addressing it.*

*Perspectives on Hate Sep 17 2021 With hate crimes on the rise, it is more important than ever to understand how hate originates, develops, manifests, and spreads--and how it can be counteracted. In this book, renowned psychologist Robert J. Sternberg assembles a diverse group of experts to examine these central issues from the perspectives of multiple disciplines. The book is anchored by Sternberg's FLOTSAM theory, which identifies key conditions that enable the development and transmission of hate, including fear, license, obedience to authority, trust, sense of belonging to a valued group, amplification of arousal, and modeling. Chapters work through various manifestations of hate: hate as a thought, a feeling, or an action; forms of hate that are rooted in group bias, or that stem from a single relationship; and hate that varies in intensity, from the mundane to the extreme. Authors also explore the various cognitive and emotional processes at work, as well as the political motivations that can spark violent acts of hate. The book also considers the role of hate crime legislation and the relationships among hate speech, free speech, and group violence.*

*I Hate the Internet Oct 19 2021 In New York in the middle of the twentieth century, comic book companies figured out how to make millions from comics without paying their creators anything. In San Francisco at the start of the twenty-first century, tech companies figured out how to make millions from online abuse without paying its creators anything. In the 1990s, Adeline drew a successful comic book series that ended up making her kind-of famous. In 2013, Adeline aired some unfashionable opinions that made their way onto the Internet. The*

*reaction of the Internet, being a tool for making millions in advertising revenue from online abuse, was predictable. The reaction of the Internet, being part of a culture that hates women, was to send Adeline messages like 'Drp slut ... hope u get gang rape.' Set in a San Francisco hollowed out by tech money, greed and rampant gentrification, I Hate the Internet is a savage indictment of the intolerable bullshit of unregulated capitalism and an uproarious, hilarious but above all furious satire of our Internet Age.*

*Tough on Hate? Aug 29 2022 Why do we know every gory crime scene detail about such victims as Matthew Shepard and James Byrd Jr. and yet almost nothing about the vast majority of other hate crime victims? Now that federal anti-hate-crimes laws have been passed, why has the number of these crimes not declined significantly? To answer such questions, Clara S. Lewis challenges us to reconsider our understanding of hate crimes. In doing so, she raises startling issues about the trajectory of civil and minority rights. Tough on Hate is the first book to examine the cultural politics of hate crimes both within and beyond the law. Drawing on a wide range of sources—including personal interviews, unarchived documents, television news broadcasts, legislative debates, and presidential speeches—the book calls attention to a disturbing irony: the sympathetic attention paid to certain shocking hate crime murders further legitimizes an already pervasive unwillingness to act on the urgent civil rights issues of our time. Worse still, it reveals the widespread acceptance of ideas about difference, tolerance, and crime that work against future progress on behalf of historically marginalized communities.*

*Hate That Cat Nov 07 2020 Return to Miss Stretchberry's class with Jack, the reluctant poet, who over the course of a year encounters new and challenging things like metaphors, alliterations, onomatopoeia, and one mean fat black cat! The Newbery Medal-winning author of Walk Two Moons, Sharon Creech, introduced Jack in Love That Dog, a New York Times bestseller. Both Love That Dog and Hate That Cat are approachable, funny, warm-hearted introductions to poetry told from the point of view of a very real kid wrestling with school assignments. These books are fast reads that will be welcomed by middle graders as they too wonder how poetry and schoolwork connect with their interests and how to uncover their true voices. In Hate That Cat, Jack is only trying to save that fat black cat stuck in the tree by his bus stop—but the cat scratches him instead! At school Miss Stretchberry begins teaching new poems, everything from William Carlos Williams to Valerie Worth to T.S. Eliot. As the year progresses, Jack gradually learns to love that cat and finds new ways to express himself.*

*Why We Hate Sep 05 2020 ... an excellent and timely analysis of the roots of hatred, bigotry, and violence among nations and within societies. It draws skillfully from recent conflicts and offers valuable insights in dealing more effectively with the terrorist threats we face today. - United States Senator Edward M. Kennedy Hate is something that has always been with us. The difference today is that we recognize it and are attempting to understand it. What this book is primarily about, however, is hope - the hope that we can learn from the remarkable work of individuals and communities that have confronted hate and done something about it. -Michael Dukakis, Former Governor of Massachusetts, and Former Presidential Candidate Provocative and well-written, this book is recommended for all public and academic libraries. -Library Journal Levin and Rabrenovic have put together a well-written, well-researched and disturbing study of the violence in human nature. Rarely have I seen research that assembles so many*

*recent examples of atrocities and religious, cultural and ethnic animosity in one book. As a student of the sociological foundation of violence and the burgeoning world of terrorism and nation-based hatred, I found the book a compelling read and research tool. As a member of the human species, I was glad to see examples of communities who have risen above the violence. The book lends a reader the possibility of hope. -Gary Fields, Wall Street Journal crime, terrorism and homeland security reporter*

*Expressions of hate are an almost daily feature of the evening news, from the mayhem unleashed by suicide bombers in Israel to the unimaginable destruction of the Twin Towers. And since September 11, Americans have repeatedly asked themselves, Why do they hate us? In this in-depth look at the most troubling aspect of human nature, a prominent, nationally recognized criminologist, who is a leader in his field, and a respected sociologist seek to explain why hate exists and offer practical methods for creating a more peaceable society. Are we born with a propensity to hate, or is it something we learn? Does educating people necessarily reduce hate? Looking at biological, psychological, and cultural factors, Drs. Levin and Rabrenovic investigate the evidence for hate as an inborn trait, as learned behavior, and as a reaction to envy, frustration, or the need for belonging, control, and authority. These highly regarded authors will reveal their new original findings on hate among Americans as well as the media's role in contributing to hate. They will also consider the phenomena of anti-Americanism and anti-Semitism before and after September 11, in addition to anti-Muslim sentiments in the wake of the Twin Towers attack. Also discussed are domestic terrorism and organized hate in the form of white supremacist and civilian militia groups. Finally, in surveying the many trouble spots around the world where hate is manifest, they describe a series of inspiring situations that show surprising cooperation between ethnic groups who have transcended hate, and the authors explain how they achieved it. Both enlightening and insightful, this momentous and timely work offers hope that civilized human beings can come to grips with an age-old problem.*
