Kitty & Dino Sep 29 2022 When a little boy brings home a dinosaur egg, the cat of the house isn't too keen on the tiny creature that pops out. But after a few weeks of showing the new baby the ropes, a bond forms between kitty and dino that transcends species. Featuring stunning and fluid line work from artist Sara Richard, Kitty & Dino will win the hearts of children everywhere.

3ds Max Basics for Modeling Video Game Assets Jan 22 2022 As a textbook for learning the fundamentals of modeling, rigging and animating 3D-modeled characters for use in video games, this step-by-step lesson book builds on the reader's modeling skills acquired from reading Volume I. The reader will model characters for the Castle Environment created in Volume I, which will be rigged using the Character Animation Toolkit (CAT) in 3ds Max and animated with game moves. The Skin Modifier is used for associating the meshes to the rigs and the characters are then exported to the Unity game engine and integrated into the Castle Scene with a Third Person Character camera. As the text introduces new modeling skills, it additionally calls on the reader to perform repetitive tasks, reinforcing skills learned in the process. The content is presented as if the reader is in a working video game studio, being responsible for researching asset design and providing the team with placeholder assets and final model assets that are unwrapped and custom textured using both box mapping and the 3ds Max Quick Peel tool. Although the text uses Autodesk 3ds Max for the modeling program, the principles are transferable to other major modeling programs. Key Features: The goal of this book is to teach the fundamentals of 3D modeling video game characters in a simplified, logical progression optimized for learning at a beginner level. Rigging principles (Linking, Inverse Kinematics [IK], Forward Kinematics [FK], Skin Deformation, Weighting Vertices and more) are introduced in a gradual progression to allow maximum comprehension and retention. This series of modeling exercises is the result of having successfully taught over 1000 video game students the fundamentals of 3D modeling. This complete, clearly written and concise text is written for self-paced learning, helping those instructors who might not be fully trained in 3D modeling and those interested in self-teaching. Includes instructions and project files for exporting the finished project environment into the 3D game engine, Unity. A companion site (www.3dsMaxBasics.com) includes working 3ds Max project files for chapters, notes and corrections, a 3ds Max user interface, 3ds Max shortcut keys and more.

Stuff You Should Know May 06 2023 From the duo behind the massively successful and award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).

Treatment for Children with Selective Mutism Aug 17 2021 Treatment for Children with Selective Mutism outlines the sequence and essential elements to guide clinicians through a comprehensive, integrated program for young children who display symptoms of SM.

Labor Relations Reference Manual Dec 01 2022

Star Wars: Rebel Starfighters Nov 19 2021 After the Clone Wars, the Galactic Empire spared no expense to build a massive fleet of warships to enforce Imperial rule, intimidate defenseless worlds, and destroy all opposition. However, the Imperial Navy underestimated Rebel Alliance fighter pilots, who flew X-wing, Y-wing, A-wing, U-wing and B-wing starfighters, and whatever else they could obtain to fight their Imperial

enemies. Decades later, Resistance pilots would fly next-generation versions of Rebel starfighters against the First Order. The Rebel Starfighters Owners' Workshop Manual presents a thorough history of the starfighters that served the Rebel Alliance and the Resistance. The history includes design origins, production, and modifications for each Rebel starfighter, and is fully illustrated with numerous photographs, schematics, exploded diagrams, and computer-generated artwork by Star Wars vehicle experts Chris Reiff and Chris Trevas. Text is by Ryder Windham, author and co-author of more than 70 Star Wars books. This Haynes Manual is the most thorough technical guide to Rebel starfighters available, and is fully authorized and approved by Lucasfilm.

Create to Learn Apr 24 2022 Want to learn something well? Make media to advance knowledge and gain new ideas. You don't have to be a communication professional to create to learn. Today, with free and low-cost digital tools, everyone can compose videos, blogs and websites, remixes, podcasts, screencasts, infographics, animation, remixes and more. By creating to learn, people internalize ideas and express information creatively in ways that may inspire others. Create to Learn is a ground-breaking book that helps learners create multimedia texts as they develop both critical thinking and communication skills. Written by Renee Hobbs, one of the foremost experts in media literacy, this book introduces a wide range of conceptual principles at the heart of multimedia composition and digital pedagogy. Its approach is useful for anyone who sees the profound educational value of creating multimedia projects in an increasingly digital and connected world. Students will become skilled multimedia communicators by learning how to gather information, generate ideas, and develop media projects using contemporary digital tools and platforms. Illustrative examples from a variety of student-produced multimedia projects along with helpful online materials offer support and boost confidence. Create to Learn will help anyone make informed and strategic communication decisions as they create media for any academic, personal or professional project.

Cat's Out the Bag Apr 05 2023 In 2014 she said: 'I'm NEVER doing Breakfast Radio ever again.' Now she's back. So, what made journalist, presenter, playwright and all-round lovable rascal Cat Harvey rejoin the broadcasting enigma that is Ewen Cameron? Was it the pandemic? The closure of theatres? Or was it the simple fact that she needed a laugh? In CAT'S OUT THE BAG, Cat answers all these questions and more! She spills the beans on the behind-the-scenes antics on one of Scotland's favourite radio shows. There's dancing on the kitchen table with a global superstar at 3 a.m., Ewen's traffic-stopping prank and THAT rumour of a night of passion with a Rolling Stone. It's a world where hilarity is mandatory, nonsense is encouraged, and everyone is welcome. Side-splittingly funny, insightful, poignant and ultimately uplifting in a world of gloom, this is the banter we all need. 'I think it's quite sweet she's spent years trying to find my house.' - Marti Pellow 'I first met them when I was 17. Cat said I'd be a superstar. Ewen said I'd never make it. Cat has always been my favourite.' - Amy MacDonald
