*Writing the Land, Writing Humanity* Nov 19 2021 The Maya Literary Renaissance is a growing yet little-known literary phenomenon that can redefine our understanding of "literature" universally. By analyzing eight representative texts of this new and vibrant literary movement, the book argues that the texts present literature as a trans-species phenomenon that is not reducible only to human creativity. Based on detailed textual analysis of the literature in both Maya and Spanish as well as first-hand conversations with the writers themselves, the book develops the first conceptual map of how literature constantly emerges from wider creative patterns in nature. This process, defined as literary inhabitation, is explained by synthesizing core Maya cultural concepts with diverse philosophical, literary, anthropological and biological theories. In the context of the Yucatan Peninsula, where the texts come from, literary inhabitation is presented as an integral part of bioregional becoming, the evolution of the Peninsula as a constantly unfolding dialogue.

*THE ISLAND OF ENCHANTMENT - A Medieval Tale of Action and Adventure* Sep 29 2022 In the spring of 1355 evil were spreading abroad. Tidings which you cannot bury, nor hide. News had come secretly and fleetingly to Venice that Lewis (Louis) of Hungary, who had previously looted Venetian waters, was on his way to a second invasion, and had given over the Dalmatian towns to the Ban of Bosnia to ravage. Young Zuan Gradenigo, making his way on foot from the crowded Merceria into the Piazza di San Marco, ran upon his friend, the young German captain, whom men called Il Lupo—even though his name was Wölfart—and learned, what almost every other man in the city already knew about Lewis of Hungary. The two men were standing beside one of the gayly painted booths at the foot of the great Campanile, still eagerly discussing the matter and its probable outcome, half an hour later, when a servant in the livery of the doge touched young Zuan's arm and, in a low tone, gave him a message. Gradenigo turned back to the German. "My uncle wishes to see me at once in the palace," he said. At the head of the great stair two men were awaiting him, and they led him at once through a narrow passage with secret sliding-doors to the inner cabinet of the private apartments of the newly elected doge, his uncle, Giovanni Gradenigo. What was young Zuan tasked with? What happened next you may well ask and what adventures await young Zuan? Well you'll have to download this book and read for yourself what lies in store for young Zuan Gradenigo and the mission he was about to be sent on. Don't wait! Do it now! ----- KEYWORDS/TAGS: Island of Enchantment, isle, enchant, action, adventure, invasion, pillage, pillaging, Wolfart, Zuan Gradenigo, doge of

Written by a team of highly regarded historians, this textbook shows how grasping the uniqueness of the "American experiment" depends on understanding not only social, cultural, political, and economic factors but also the role that religion has played in shaping U. S. history. While most United States history textbooks in recent decades have expanded their coverage of social and cultural history, they still tend to shortchange the role of religious ideas, practices, and movements in the American past. Unto a Good Land restores the balance by giving religion its appropriate place in the story. This readable and teachable text also features a full complement of maps, historical illustrations, and "In Their Own Words" sidebars with excerpts from primary source documents.

**Bearing Witness** Dec 21 2021 The first edition of *Bearing Witness* brought together for the first time 176 slave narratives from the state of Arkansas. Now, this new edition adds ten previously undiscovered accounts. No one knew the truths of slavery better than the slaves themselves, but no one consulted them until the 1930s. Then, recognizing that this generation of unique witnesses would soon be lost to history, the Works Progress Administration's Federal Writers' Project acted to interview as many former slaves as possible. In a continuation of the project's interest in the life histories of ordinary people, writers interviewed over two thousand former slaves, more than a third of them in Arkansas. These oral histories were first published in the 1970s in a thirty-nine-volume series organized by state, and they transformed America's understanding of slavery. They have offered crucial evidence on a variety of other topics as well: the Civil War, Reconstruction, agricultural practices, everyday life, and oral history itself. But some former Arkansas slaves were interviewed in Texas, Oklahoma, and other states, so their narratives were published in those other collections. And more than half of the testimonies in the Arkansas volume were interviews with people who had moved to Arkansas after freedom. Folklorist George Lankford combed all of the state collections for the testimonies properly belonging to Arkansas and deleted from this state's collection the testimony of later

migrants

**What If the Earth Had Two Moons?** Mar 12 2021 "What if?" questions stimulate people to think in new ways, to refresh old ideas, and to make new discoveries. In *What If the Earth Had Two Moons*, Neil Comins leads us on a fascinating ten-world journey as we explore what our planet would be like under alternative astronomical conditions. In each case, the Earth would be different, often in surprising ways. The title chapter, for example, gives us a second moon orbiting closer to Earth than the one we have now. The night sky is a lot brighter, but that won't last forever. Eventually the moons collide, with one extra-massive moon emerging after a period during which Earth sports a Saturn-like ring. This and nine and other speculative essays provide us with insights into the Earth as it exists today, while shedding new light on the burgeoning search for life on planets orbiting other stars. Appealing to adult and young adult alike, this book is a fascinating journey through physics and astronomy, and follows on the author's previous bestseller, *What if*

the Moon Didn't Exist?, with completely new scenarios backed by the latest astronomical research.

**Timescape** Feb 20 2022 Timescape is a tale of an epic journey across Time and Space by a creature who has named himself Noom. Noom is an Eternal. He has been ripped from his home by a cataclysmic explosion which birthed Time, itself. His mission is to find a way to capture Time and stuff it back into the hole it came out of. He wishes to restore his home: Eternity.Noom's travels bring him to Earth. Actually, it is here that he finds his name. He finds it in the sound of a large wind instrument being blown by a small brown man on a large, arid, sparsely populated land mass.Noom has met many biological constructs before. He has been traveling for a very, very long Time. But he soon discovers that the sentient biological species on this planet is very different from peoples he has met before.What could be the cause of these peoples' lack of respect for their planet? How is it that their short history is filled to the brim with violence and butchery?Are these peoples inherently aberrant, or has someone been interfering with their natural development?Noom soon discovers the presence of another Eternal like himself who has been on this planet for over four thousand of the years as they are measured here. It is Bang. She, too, has named herself, but not from something found

here on this puny planet, but rather from the event which launched her on her own journey through Time and Space. Noom attempts to capture Bang. As they struggle in the thin air over a huge, icy land mass, Bang calves. Her calf, another female of their species is not an infant. They are Eternals. The calf has always been. It just had not chosen to be born yet. Until now. Now, this planet has a native-born Eternal to count among its peoples. But she is not pleased with what she finds here. The World itself is lovely. But its peoples are not. She has chosen her own name, and she has chosen it from one of this planet's ancient cultures. She is Kali. Not the goddess of Time and Change. The other one. The one of Death and Destruction. The fight for the future of the peoples of this planet begins. Kali is calling for the extermination of the unworthy peoples who litter her new home. Bang vacillates, caught between her own love of this planet and her feelings for her calf. Noom will defend these peoples. It is his destiny.
