The APEX (African American Panoramic Experience) Museum in Atlanta, GA is celebrating its 40th anniversary. Includes line drawings, detailed descriptions, coloured photographs and locational maps. Vols. for 19 - include abstracts. Non-gilled hymenomyces: Key to genera. Descriptions of genera and species, with keys. Gasteromyces: key to genera, descriptions of genera and species, with keys. In this incisive, concise overview of this booming field, the editors -- two of the leading figures in the field with a proven track record -- combine their expertise to provide an invaluable reference on the topic. Following a treatment of transcriptome analysis, the book goes on to discuss replacement and mutation analysis, gene silencing and computational analysis. The whole is rounded off with a look at emerging technologies. Each chapter is accompanied by a concise overview, helping readers to quickly identify topics of interest, while important, carefully selected words and concepts are explained in a handy glossary. Equally accessible to both experienced scientists and newcomers to the field.
