Buddhism, In its Connexion With Brahmanism and Hinduism, and In Its Contrast with Christianity Jan 01 2023 Example in this ebook The 'Duff Lectures' for 1888 were delivered by me at Edinburgh in the month of March. In introducing my subject, I spoke to the following effect:— 'I wish to express my deep sense of the responsibility which the writing of these Lectures has laid upon me, and my earnest desire that they may, by their usefulness, prove in some degree worthy of the great missionary whose name they bear. 'Dr. Duff was a man of power, who left his own foot-print so deeply impressed on the soil of Bengal, that its traces are never likely to be effaced, and still serve to encourage less ardent spirits, who are striving to imitate his example in the same field of labour. 'But not only is the impress of his vigorous personality still fresh in Bengal. He has earned an enduring reputation throughout India and the United Kingdom, as the prince of educational missionaries. He was in all that he undertook an enthusiastic and indefatigable workman, of whom, if of any human being, it might be truly said, that, when called upon to quit the sphere of his labours, "he needed not to be ashamed." No one can have travelled much in India vi without having observed how wonderfully the results of his indomitable energy and fervid eloquence in the cause of Truth wait on the memory of his work everywhere. Monuments may be erected and lectureships founded to perpetuate his name and testify to his victories over difficulties which few other men could have overcome, but better than these will be the living testimony of successive generations of Hind? men and women, whose growth and progress in true enlightenment will be due to the seed which he planted, and to which God has given the increase.' I said a few more words expressive of my hope that the 'Life of Dr. Duff' would be read and pondered by every student destined for work of any kind in our Indian empire, and to that biography I refer all who are unacquainted with the particulars of the labours of a man to whom Scotland has assigned a place in the foremost rank of her most eminent Evangelists. I now proceed to explain the process by which these Lectures have gradually outgrown the limits required by the Duff Trustees. When I addressed myself to the carrying out of their wishes—communicated to me by Mr. W. Pirie Duff—I had no intention of undertaking more than a concise account of a subject which I had been studying for many years. I conceived it possible to compress into vii six Lectures a scholarly sketch of what may be called true Buddhism,—that is, the Buddhism of the Pi?akas or P?li texts which are now being edited by the P?li Text Society, and some of which have been translated in the 'Sacred Books of the East.' It soon, however, became apparent to me that to write

an account of Buddhism which would be worthy of the great Indian missionary, I ought to exhibit it in its connexion with Brahmanism and Hinduism and even with Jainism, and in its contrast with Christianity. Then, as I proceeded, I began to feel that to do justice to my subject I should be compelled to enlarge the range of my researches, so as to embrace some of the later phases and modern developments of Buddhism. This led me to undertake a more careful study of Koeppen's Lamaismus than I had before thought necessary. Furthermore, I felt it my duty to study attentively numerous treatises on Northern Buddhism, which I had before read in a cursory manner. I even thought it incumbent on me to look a little into the Tibetan language, of which I was before wholly ignorant. To be continue in this ebook

Discerning The Buddha: A Study Of Buddhism And Of The Brahmanical Hindu Attitude To It Jun 25 2022 Description: Modern enlightened Hindus wedded to the Vaidika/Sanatana Dharma tradition hold that the Buddha was a Hindu reformer, Buddhism a Hindu sect; that original Buddhist teaching was Vedantic or Hinduistic, and that the Buddhists have misunderstood the fulfilment of the Hindu religion and distorted the original teachings of the Great Master! On the other hand, stalwarts like Swami Vivekananda and Sarvapalli Dr Radhakrishnan also say that the Buddha is one of the makers of Hinduism. The former even said that the Buddha was the greatest Hindu seer, philosopher, Vedantin, Karmayogin, and the only God who walked on the earth. Satkari Mookerjee has declared that every Hindu is a Buddhist. The Puranas inform us that the son of Suddhodana, born among the non-Aryan tribe of Kikatas, was no other than the Supreme Lord Visnu who had assumed a false avatara for the sole purpose of misleading demons! This Incarnation of God had criticised the Vedas, opposed the sacred Vedic ceremonies, and questioned the supremacy of the Brahmanas. The present book attempts an analysis and a systematic study of the traditional Brahmanical now called Hindu attitude to Buddhism in India. The bulk of the volume, however, is devoted to an exposition of the fundamental doctrines of Buddhism in the Indian context. The evolution of Hinduism, the differences between Buddhism and Brahmanism/Hinduism, the differences between the ancient and medieval representatives and modern representatives of the Brahmanical tradition to Buddhism, Buddhist responses to this modern Hindu attitude, and a review of Buddhist contributions to Indianism, are some of the subjects discussed in this book. One of the most important parts of the book deals with what the author has called God's Alternative in Buddhism. An outline of Buddhology as a systematic study of the idea of Buddhahood, is one of the new themes discussed here.

Buddhism in the Shadow of Brahmanism Feb 02 2023 This book deals with the confrontation of Buddhism and Brahmanism in India. Both depended on support from the royal court, but Buddhism had less to offer in return than Brahmanism. Buddhism developed in a manner to make up for this.

A History of Buddhist Philosophy Mar 30 2020 David J. Kalupahana's *Buddhist Philosophy: A Historical Analysis* has, since its original publication in 1976, offered an unequalled introduction to the philosophical principles and historical development of Buddhism. Now, representing the culmination of Dr. Kalupahana's thirty years of scholarly research and reflection, *A History of Buddhist Philosophy* builds upon and surpasses that earlier work, providing a completely reconstructed, detailed analysis of both early and later Buddhism.

Buddhism Dec 08 2020 This book derives from a series of lectures given in 1888 by Monier Monier-Williams, who was Professor of Sanskrit at Oxford for over 30 years and whose work broke new ground in the Western understanding of Buddhism and other South Asian religions. This substantial historical survey of Buddhism begins with an account of the Buddha and his earliest teaching, as well as a brief description of the origin and composition of the scriptures containing the Buddha's law (Dharma). Monier-Williams explains the early constitution of the Buddha's order of monks (Sangha), and outlines the philosophical doctrines of Buddhism together with its code of morality and theory of perfection, culminating in Nirvana. He also describes formal and popular rituals and practices, and sacred places and objects. The book is an example of Victorian Orientalist scholarship which remains of interest to historians of religious studies, Orientalism, and the British Empire.

Buddhism in India Feb 19 2022 This book is an historical survey of Buddhism in India and shows how over a period of 2500 years, Buddhism has been engaged in a struggle against caste-hierarchy. It has challenged Brahmanism, the main exploitative system of traditional Indian society, and instead endeavoured to build religious egalitarianism. The book focuses on the question of what is the 'core' element in Buddhist Dhamma, on what role it has played in the development of Indian civilization, and the changed perspective of Buddhism in a modern industrial age. The author starts with the rise of Buddhism in the middle of the second millenium BC amidst crucial cultural and social developments. The teachings of Buddha and the different forms of Buddhism have been discussed. Here the contrast between Buddhism and Brahmanism with regard to the caste system, the origin and role of state, the approach to various social groups and the position of women is well defined. The author examines the civilizational impact of Buddhism, its connections with ancient India's leading role in trade, its spread and popularity in South and Southeast Asia, its role in fostering a dynamic and open society as against the hierarchical, village-bound, caste-defined Brahmanical social system. Then came the defeat of Buddhism in India and the reassertion of Brahmanism. For centuries Buddhism retreated to what some term as its 'underground survival'. Its relationship with the syncretist Bhakti movement has been another important aspect of the book. Finally the revival of Buddhism in the nineteenth century, the dalit-based success of the religion under Ambedkar and its future in India have been studied. The author argues that Ambedkarian Buddhism can serve as a powerful force for reconstructing society in a new and challenging millenium.

The Symbiosis of Buddhism with Brahmanism/Hinduism in South Asia and of Buddhism with "local Cults" in Tibet and the Himalayan Region May 13 2021 This book is concerned with the complex and indeed difficult question of the relationship between Buddhism and Brahmanism/Hinduism (Vedism, Shivaism, Vishnuism, etc.) in India, and between Buddhism and local religious cults in Tibet and certain other parts of the Buddhist world including Japan. Although they are clearly not identical twins brought forth by the Indian religious soil, Buddhism and Brahmanism/Hinduism are closely related siblings. Thus, questions arise concerning the function and significance of the so-called "Hindu" gods and godlings as they appear in substantial parts of the Buddhist tradition, as well as the

traditional "local" divinities in other Buddhist lands. In this connection, borrowing and syncretism have often been referred to by writers on the subject. But in fact these religious interrelationships appear to be considerably more complicated and interesting than this: in much of Buddhist thought they possess both salvific (soteriological) and gnoseological implications. The concept of symbiosis seems relevant here as it expresses these special interrelationships more adequately. In addition, other concepts, both etic and emic, are considered in this context. In Buddhist thought, the structurally opposed yet complementary emic concepts of the "mundane" (or "worldly") and the "supramundane"(or "transmundane") have often defined the religious relationship under discussion. Therefore, in this volume this pair of categories is explored - the laukika and the lokotrara, or the 'jig rten pa and the 'jig rten las 'das pas, as they are respectively referred to in the traditions of India and Tibet - drawing on a number of Indian and Tibetan sources. Archaeology of Religion in South Asia Sep 16 2021 In the religious landscape of early medieval (c. AD 600-1200) Bihar and Bengal, poly-religiosity was generally the norm than an exception, which entailed the evolution of complex patterns of inter-religious equations. Buddhism, Brahmanism and Jainism not only coexisted but also competed for social patronage, forcing them to enter into complex interactions with social institutions and processes. Through an analysis of the published archaeological data, this work explores some aspects of the social history of Buddhist, Brahmanical and Jaina temples and shrines, and Buddhist stūpas and monasteries in early medieval Bihar and Bengal. This archaeological history of religions questions many 'established' textual reconstructions, and enriches our understanding of the complex issue of the decline of Buddhism in this area.
