This start to The Undertaken trilogy is a "thought-provoking gothic fantasy" and a "genuinely eerie tale" (Publishers Weekly). When Silas Umber's father, Amos, doesn't come home from work one night, Silas discovers that his father was no mere mortician, but an Undertaker who worked to bring The Peace to lost and wandering souls. With Amos gone, Silas and his mother move back to Lichport, the crumbling seaside town where he was born, and Silas seizes the opportunity to investigate his father's disappearance. When his search leads him to his father's old office, he comes across a powerful artifact: the Death Watch, a tool that allows the owner to see the dead. Death Watch in hand, Silas begins to unearth Lichport's secret history—and discovers that he has taken on his father's mantle as Lichport's Undertaker. Now, Silas must embark on a dangerous path into the Shadowlands to embrace his destiny and discover the truth about his father—even if it kills him. Critically acclaimed folklorist Ari Berk explores the worlds of the living and the dead, and the relationships between parents and children in a novel steeped in lore, mystery, and magic. Jane Delaney does things her paying customers can't do, don't want to do, don't want to be seen doing, can't bring themselves to do, and/or don't want it to be known they'd paid someone to do. To dead people. Life gets complicated for Jane and her Death Diva business when she's hired to liberate a gaudy mermaid brooch from the corpse during a wake—on behalf of the rightful owner, supposedly. Well, a girl's got to make a living, and this assignment pays better than scattering ashes, placing flowers on graves, or bawling her eyes out as a hired mourner. Unfortunately for Jane, someone else is just as eager to get his hands on that brooch, and he's even sneakier than she is, not to mention dangerously sexy. Just when she thinks her biggest problem is grand theft mermaid, things take a murderous turn. But hey, when you've teamed up with a neurotic seven-pound poodle named Sexy Beast, how can you go wrong? Codenames were a vital feature of World War II, serving as mental shorthand for those in the know, and obscuring the issues for those who were not. Codenames were used from the highest level, in the planning of grand strategic moves affecting the conduct of the whole war, to the lowest command divisions, in the conduct of small-scale tactical operations. If you ever wished for an adult romance that felt like Howl's Moving Castle, THIS IS THAT BOOK." —Helen Hoang, author of The Kiss Quotient Hart is a marshal, tasked with patrolling the strange and magical wilds of Tanria. It's an unforgiving job, and Hart's got nothing but time to ponder his loneliness. Mercy never has a moment to herself. She's been single-handedly keeping Birdsall & Son Undertakers afloat in defiance of sullen jerks like Hart, who seems to have a gift for showing up right when her patience is thinnest. After yet another exasperating run-in with Mercy, Hart finds himself penning a letter addressed simply to "A Friend". Much to his surprise, an anonymous letter comes back in return, and a tentative friendship is born. If only Hart knew he's been baring his soul to the person who infuriates him most—Mercy. As the dangers from Tanria grow closer, so do the unlikely correspondents. But can their blossoming romance survive the fated discovery that their pen pals are their worst nightmares—each other? Set in a world full of magic and demigods, donuts and small-town drama, this enchantingly quirky, utterly unique fantasy is perfect for readers of The House in the Cerulean Sea and The Invisible Library. "Truly outstanding romantic fantasy." —India Holton "An unabashedly offbeat adventure." —Freya Marske "I cried twice and smiled plenty." —Olivia Atwater "A little sweet, a little spicy, a little sharp and entirely moreish!" —Davina Evans "I showed up for the fantastic, fun fantasy setting but it was Hart and Mercy that kept me reading." —Ruby Dixon "Comprising all the decisions of the Supreme Courts of California, Kansas, Oregon, Washington, Colorado, Montana, Arizona, Nevada, Idaho, Wyoming, Utah, New Mexico, Oklahoma, District Courts of Appeal and Appellate Department of the Superior Court of California and Criminal Court of Appeals of Oklahoma." (varies) This issue of Clinics in Perinatology will carry the reader through the perinatal period and examine pain management throughout that continuum. Beginning with the genetics of obstetrical pain and opioid use in pregnancy, the discussion moves to the provision of anesthesia to the mother and fetus during fetal surgery - an area of intense concern and interest in many centers. There is an extensive discussion of both pharmacologic and non-pharmacologic management of pain during delivery. A discussion of regional anesthetic techniques is increasingly relevant in light of increasing evidence of adverse neurodevelopmental consequences of fetal exposure to general anesthetics and sedatives. Pain, its implications and management, are extensively covered including discussions of how to assess neonatal pain and how best to provide sedation and non-pharmacologic pain management, systemic pharmacologic, or regional techniques. Of particular interest are the reviews of the potential neurodevelopmental impact of both the treatment and the failure to adequately treat pain in the newborn. This topic is receiving an enormous amount of attention from all those who care for children as well as government and the media. The TPS Frequency Dictionary of Mandarin Chinese is not just another character frequency based dictionary. It has been designed to provide students with a guide for learning new characters, words, and phrases gradually, building upon characters already familiar. The entries have been arranged according to a Triple Progression System in which words are grouped first by character frequency, then by word frequency, and filtered so that new words and phrases appear only after all of their component characters have been introduced. Includes decisions of the Supreme Court and various intermediate and lower courts of record; May/Aug. 1888-Sept./Dec. 1895, Superior Court of New York City; Mar./Apr. 1926-Dec. 1937/Jan. 1938, Court of Appeals. If you're seeking a practical approach to building a safe and profitable business loan portfolio, you already know it's easy to get overwhelmed. The environment doesn't make the task easier: Economies continue to undergo structural adjustments, and markets are getting increasingly competitive and volatile. Kenny Tay, a veteran merchant banker and licensed securities dealer, provides a framework that allows new entrants into the corporate lending world succeed. Drawing on his decades of experience, he delivers lessons so you or your lending team can: understand the financing structure of a typical business corporation; determine the rationale for borrowing and lending; assess a company's credit risk profile; and evaluate loans until they are fully repaid. Many unforeseen events can happen along the way that can turn a good loan into a bad one, which is why you need to fully understand the process. Make a complete commitment to building a business loan portfolio that will stand the test of time with Corporate and Business Lending.
