**Edouard Vuillard: The Poetry of the Everyday** Oct 17 2021 During the 1890s and early 1900s Édouard Vuillard (1868-1940) produced a body of work that combines intimate subject matter with abstract form through the simplification of pictorial elements and observation of decorative fabrics and wallpapers. Through these devices Vuillard developed an art that is unashamedly decorative and yet always replete with subtle suggestions of deeper meanings. In balancing form and content, psychological drama and abstraction, his pictures are about as close to poetry as any artist's, and all the more brilliant for their understatement and the near imperceptibility of their craft. Produced to accompany an exhibition at the Holburne Museum, this book offers a fresh look at the early career of this much-loved artist.00Exhibition: Holburne Museum, Bath, UK (24.05.-15.09.2019).

**The Arsenic Century** Mar 29 2020 Arsenic is rightly infamous as the poison of choice for Victorian murderers. Yet the great majority of fatalities from arsenic in the nineteenth century came not from intentional poisoning, but from accident. Kept in many homes for the purpose of poisoning rats, the white powder was easily mistaken for sugar or flour and often incorporated into the family dinner. It was also widely present in green dyes, used to tint everything from candles and candies to curtains, wallpaper, and clothing (it was arsenic in old lace that was the danger). Whether at home amidst arsenical curtains and wallpapers, at work manufacturing these products, or at play swirling about the papered, curtained ballroom in arsenical gowns and gloves, no one was beyond the poison's reach. Drawing on the medical, legal, and popular literature of the time, The Arsenic Century paints a vivid picture of its wide-ranging and insidious presence in Victorian daily life, weaving together the history of its emergence as a nearly inescapable household hazard with the sordid story of its frequent employment as a tool of murder and suicide. And ultimately, as the final chapter suggests, arsenic in Victorian Britain was very much the pilot episode for a series of environmental poisoning dramas that grew ever more common during the twentieth century and still has no end in sight.

**Rules for Visiting** Jan 26 2020 A beautifully observed and deeply funny novel of May Attaway, a university gardener who sets out on an odyssey to reconnect with four old friends over the course of a year. At forty, May Attaway is more at home with plants than people. Over the years, she's turned inward, finding pleasure in language, her work as a gardener, and keeping her neighbors at arm's length while keenly observing them. But when she is unexpectedly granted some leave from her job, May is inspired to reconnect with four once close friends. She knows they will never have a proper reunion, so she goes, one-by-one, to each of them. A student of the classics, May considers her journey a female Odyssey. What might the world have had if, instead of waiting, Penelope had set out on an adventure of her own? RULES FOR VISITING is a woman's exploration of friendship in the digital age. Deeply alert to the nobility and the ridiculousness of ordinary people, May savors the pleasures along the way--afternoon ice cream with a long-lost friend, surprise postcards from an unexpected crush, and a moving encounter with ancient beauty. Though she gets a taste of viral online fame, May chooses to bypass her friends' perfectly cultivated online lives to instead meet them in their messy analog ones. Ultimately, May learns that a best friend is someone who knows your story--and she inspires us all to master the art of visiting.

**Neisha Crosland** Sep 03 2020 Neisha Crosland sees pattern everywhere. Her extraordinary eye seeks out symmetry, order and structure wherever she goes: in artefacts, buildings, paintings and, above all, in nature. This book is a tribute to that talent: a visual feast of pattern, color, unexpected information and surprising personal stories. It is also an exploration of why pattern matters to every single one of us. Artists are often asked the origin of their ideas. This remarkably beautiful book is Neisha's answer to that question. She takes the reader from first spark of an idea to the finished product: exploring a myriad of cultural pathways and making unusual connections along the way. For in art, Neisha believes nothing is ever truly original. This book is a personal and revealing account of Neisha's own story as a designer, but it also draws on conversations about pattern she has had with musicians, mathematicians, psychotherapists as well as other designers. Beginning as an art student standing in the Basilica di San Marco in Venice, it travels through many continents and eras: from Mughal India to Moorish Spain, and from pilgrims on the route to Santiago de Compostela to Jacobean England. there are tales of mankind's earliest rituals, alongside explorations of 16th-century court dresses, Baroque wood carving, 17th-century shell-collecting and Russian Constructivist paintings. It ends in Japan over a delicious meal. There is fascinating technical detail, too, including wonderful examples of Neisha's early work using weaving and printing methods that have now vanished because of contemporary commercial pressures on mills and manufacturers. She also explores the ways a technique or color can completely reinvent a

design, and how that design can alter its mood when placed in a different interior or when applied to a different medium or product. Working sketches illuminate her argument as well as visuals of her key sources of inspiration. Abundant photographs, too - showing Neisha's work in the interiors of fashionable restaurants, nightclubs, hotels and homes around the world - strikingly illustrate the text. The patterns themselves are stunningly animated by Anikst Design's specially commissioned photography: magazine files become skyscrapers, fine china glides across mirrors, rugs take to the air and fabrics appear like wild seas and rivers. The result is a kind of visual onomatopoeia as well as a thrillingly surreal visual experience for the reader. This book is a loving tribute to the power of pattern that will appeal to anyone who appreciates beauty and has ever wondered why their eye is so delighted.

**The Wallpaper Book** Oct 05 2020 A wealth of design inspiration for any home: wallpaper styles to suite every taste, from nostalgic floral prints to playful retro revivals. While it has long been an essential element of interior decor, wallpaper is currently experiencing a creative boom. This everyday material has always reflected social shifts as well as changing fashions, and now designers everywhere are rediscovering its versatility, using it to achieve a variety of imaginative effects. It can add texture, warmth, wit, or personality to any space, becoming a tranquil backdrop or a striking conversation piece. A room may be papered with a profusion of patterns, or a wallpaper mural can make a bold statement, even blurring the boundaries between design and art installation. This book explores the art of wallpaper from its historical beginnings to the present day. Beginning with the handcrafted papers and prints of the eighteenth century through the Arts and Crafts movement, modernism, and Pop art, it traces the influences behind today's popular motifs and showcases a dazzling selection of the very best in contemporary wallpaper. Some designers are reviving and reinventing traditional craft techniques while others embrace the latest in digital printing technology, even incorporating glow-in-the-dark effects or LED lights.

**Faith or Gullibility?** Jun 24 2022 "Faith or Gullibility?" was originally written in answer to the author's many friends who asked why he was no longer attending church but, as time passed and his studies revealed more and more anomalies in religious beliefs around the world, it became very obvious that religious deception was rampant in all doctrines. This was nowhere more obvious than in the political environments in which those doctrines were originally conceived where necessity demanded some sort of unified stance by different groups of people. Much more than today, where technology can provide answers, in past centuries, naturally gifted leaders needed convincing stories to persuade the masses to act in harmony to achieve the best outcomes and so those people were, in that environment, lauded as "prophets" and even credited with what became known as "divine inspiration" although, in actual fact, their leading was nothing more than intelligent use of their own intellects. Nowhere was this more evident than in cases where their prophecies directly contradicted the laws of physics under the name of "miracles." A principal problem with this was that, when those so-called prophets expounded their ideas, scientific knowledge was almost non-existent so that rank-and-file people readily accepted them and passed them down from generation to generation - often by word-of-mouth because illiteracy was far more prevalent than it is in modern developed countries. However, with increased knowledge, human wisdom (the sagacious application of knowledge) has increased exponentially beyond all reckoning amongst open-minded people of all religions to the point where it is no longer possible to justify those outdated beliefs when they are rationalised against the immutable laws of physics. This is particularly so when one considers that the entire universe (and, in fact, many universes) were all "made" without a single physical law being broken. As studies become more and more logical, it becomes more and more apparent that the main reason for religious beliefs (whatever they may be) is insecurity where human nature cannot accept that life is a finite thing. People cling tenaciously to any doctrine that promises any sort of immortality whether it makes any sense or not and so the purpose of this book increasingly became changed from a mere answer to personal questions to an in-depth study of religious mythology and deception.

*The 1960s Home* Feb 27 2020 The 1960s witnessed a sustained period of economic growth, consumer spending and stable employment. This hitherto unknown prosperity enabled a market growth in levels of owner occupation and a subsequent boom in the sale of household furnishings and luxury goods. The 1960s Home looks at the styles and fashions in domestic housing and interiors between 1960 and 1970. Although this period has received increasing attention in recent years, much of it has been concentrated on progressive and exclusive design rather than on the furniture and furnishing of the 'average' home.

*The Yellow Wallpaper Illustrated* Nov 29 2022 ""The Yellow Wallpaper"" is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in *The New England Magazine*. [1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can

recuperate from what he calls a "'temporary nervous depression - a slight hysterical tendency'", a diagnosis common to women during that period"

**The Yellow Wallpaper Illustrated** Aug 15 2021 The story details the descent of a young woman into madness. Her supportive, though misunderstanding husband, John, believes it is in her best interests to go on a rest cure after experiencing symptoms of "temporary nervous depression". The family spends the summer at a colonial mansion that has, in the narrator's words, "something queer about it". She and her husband move into an upstairs room that she assumes was once a nursery. Her husband chooses for them to sleep there due to its multitude of windows, which provide the air so needed in her recovery. In addition to the couple, John's sister Jennie is present; she serves as their housekeeper. Like most nurseries at the time the windows are barred, the wallpaper has been torn, and the floor is scratched. The narrator attributes all these to children, as most of the damage is isolated to their reach. Ultimately, though, readers are left unsure as to the source of the room's state, leading them to see the ambiguities in the unreliability of the narrator. The narrator devotes many journal entries to describing the wallpaper in the room - its "yellow" smell, its "breakneck" pattern, the missing patches, and the way it leaves yellow smears on the skin and clothing of anyone who touches it. She describes how the longer one stays in the bedroom, the more the wallpaper appears to mutate, especially in the moonlight. With no stimulus other than the wallpaper, the pattern and designs become increasingly intriguing to the narrator. She soon begins to see a figure in the design, and eventually comes to believe that a woman is creeping on all fours behind the pattern. Believing she must try to free the woman in the wallpaper, the woman begins to strip the remaining paper off the wall. After many moments of tension between John and his sister, the story climaxes with the final day in the house. On the last day of summer, she locks herself in her room to strip the remains of the wallpaper. When John arrives home, she refuses to unlock the door. When he returns with the key, he finds her creeping around the room, circling the walls and touching the wallpaper. She excitedly exclaims, "I've got out at last... in spite of you and Jane", causing her husband to faint as she continues to circle the room, creeping over his inert body each time she passes it, believing herself to have become the personification of the woman trapped behind the yellow wallpaper.

**The Yellow Wallpaper & Herland** Aug 03 2020 Charlotte Perkins Gilman's progressive views on feminism and mental health are powerfully showcased in her two most famous stories. *The Yellow Wallpaper* skillfully charts one woman's struggle with depression whilst *Herland* is an entertaining imagining of an all female utopia. Part of the Macmillan Collector's Library; a series of stunning, clothbound, pocket-sized classics with gold foiled edges and ribbon markers. These beautiful books make perfect gifts or a treat for any book lover. This edition is introduced by journalist and author Lucy Mangan. Confined to her attic bedroom and isolated from her newborn baby, the nameless narrator of *The Yellow Wallpaper* keeps a secret diary in which she records the sprawling and shifting patterns of the room's lurid yellow wallpaper as she slowly sinks into madness. This chilling story is based on the author's own experience of depression. In *Herland*, a trio of men set out to

discover an all-female community rumoured to be hidden deep in the jungle. What they find surprises them all; they're captured by women who, for two thousand years, have lived in a peaceful and prosperous utopia without men.
