Chief Officer: Principles and Practice includes Navigate Advantage Access Nov 10 2020 The National Fire Protection Association (NFPA) and the International Association of Fire Chiefs (IAFC) are pleased to present you with the third edition of Chief Officer: Principles and Practice. The Third Edition addresses both Fire Officer III and Fire Officer IV levels of the 2020 Edition of NFPA 1021: Standard for Fire Officer Professional Qualifications and is designed to help future chief officers as they transition from company officer and become problem-solving leaders for their organization. Good leadership is an essential element in the successful operational management of any organization. Today's chief officers must prepare themselves and the staff they lead to navigate powerful trends—including political, ethical, legal, and sociological—that are likely to shape the fire service, impacting department structures and roles in the community, and altering the demands placed not only on fire service

leaders but also on the personnel they lead. The Third Edition features exceptional content to prepare today's fire service leaders to develop the leadership skills necessary to excel in their position and motivate their department members to become an efficient, effective, and safe response force. New to the Third Edition: A section on media relations programs that addresses communication methods, policy development, and crisis management A discussion of department risk management, including the importance of creating a risk management plan, taking an inventory of potential risks faced by department employees, and implementing control measures to correct deficiencies A section on preparing to deal with an active shooter or hostile event situation A discussion of the ways generational differences may influence a department member's workplace expectations and preferences Expanded coverage of diversity policies and practices and consideration of LGBTQ rights to reflect the current workforce Information on long-range planning, including how to create a capital improvement plan and meet training needs The Third Edition features: A clear division of Fire Officer III and IV content After-Action Review sections that include detailed chapter summaries, key terms, and Chief Officer in Action case scenarios designed to reinforce chapter content New Deputy Chief and Fire Chief Activities that encourage students to take what they have learned about the Job Performance Requirements covered in the chapters and apply it to their own departments New case study continued from Fire Officer: Principles and Practice, Fourth Edition that addresses the progression of responsibility from Fire Officer I to Fire Officer IV

Indigenous Studies: Breakthroughs in Research and Practice Dec 24 2021 Global interest in indigenous studies has been rapidly growing as researchers realize the importance of understanding the impact indigenous communities can have on the economy, development, education, and more. As the use, acceptance, and popularity of indigenous knowledge increases, it is crucial to explore how this community-based knowledge provides deeper insights, understanding, and influence on such things as decision making and problem solving. Indigenous Studies: Breakthroughs in Research and Practice examines the politics, culture, language, history, socio-economic development, methodologies, and contemporary experiences of indigenous peoples from around the world, as well as how contemporary issues impact these indigenous communities on a local, national, and global scale. Highlighting a range of topics such as local narratives, intergenerational cultural transfer, and ethnicity and identity, this publication is an ideal reference source for sociologists, policymakers, anthropologists, instructors, researchers, academicians, and graduate-level students in a variety of fields.

Vinyl Jan 01 2020 Recent years have seen not just a revival, but a rebirth of the analogue record. More than merely a nostalgic craze, vinyl has become a cultural icon. As music consumption migrated to digital and online, this seemingly obsolete medium became the fastest-growing format in music sales. Whilst vinyl never ceased to be the favorite amongst many music lovers and DJs, from the late 1980s the recording industry regarded it as an outdated relic, consigned to dusty domestic corners and obscure record shops. So why is vinyl now experiencing a 'rebirth of its cool'? Dominik Bartmanski and Ian Woodward explore this question by combining a cultural sociological approach with insights from material culture studies. Presenting vinyl as a multifaceted cultural object, they investigate the reasons behind its persistence within our technologically accelerated culture. Informed by media analysis, urban ethnography and the authors' interviews with musicians, DJs, sound engineers, record store owners, collectors and cutting-edge label chiefs from a range of metropolitan centres renowned for thriving music scenes including London, New York, Tokyo, Melbourne, and especially Berlin, what emerges is a story of a modern icon.

Record-Making and Record-Keeping in Early Societies Jul 31 2022 *Record-Making and Record-Keeping in Early Societies* provides a concise and up-to-date survey of early record-making and record-keeping practices across the world. It investigates the ways in which human activities have been recorded in different settings using different methods and technologies. Based on an in-depth analysis of literature from a wide range of disciplines, including prehistory, archaeology, Assyriology, Egyptology, and Chinese and Mesoamerican studies, the book reflects the latest and most relevant historical scholarship. Drawing upon the author's experience as a practitioner and scholar of records and archives and his extensive knowledge of archival theory and practice, the book embeds its account of the beginnings of recording practices in a conceptual framework largely derived from archival science. Unique both in its breadth of coverage and in its distinctive perspective on early record-making and record-keeping, the book provides the only updated and synoptic overview of early recording practices available worldwide. *Record-Making and Record-Keeping in Early Societies* will be of interest to academics, researchers, and students engaged in the study of archival science, archival history, and the early history of human culture. The book will also appeal to practitioners of archives and records management interested in learning more about the origins of their profession.

The Art of Record Production Feb 06 2023 The playback of recordings is the primary means of experiencing music in contemporary society, and in recent years 'classical' musicologists and popular music theorists have begun to examine the ways in which the production of recordings affects not just the sound of the final product but also musical aesthetics more generally. Record production can, indeed, be treated as part of the creative process of composition. At the same time, training in the use of these forms of technology has moved from an apprentice-based system into university education. Musical education and music research are thus intersecting to produce a new academic field: the history and analysis of the production of recorded music. This book is designed as a general introductory reader, a text book for undergraduate degree courses studying the creative processes involved in the production of recorded music. The aim is to introduce students to the variety of approaches and

methodologies that are currently being employed by scholars in this field. The book is divided into three sections covering historical approaches, theoretical approaches and case studies and practice. There are also three interludes of commentary on the academic contributions from leading record producers and other industry professionals. This collection gives students and scholars a broad overview of the way in which academics from the analytical and practice-based areas of the university system can be brought together with industry professionals to explore the ways in which this new academic field should progress.

Chief Officer: Principles and Practice Jan 25 2022 The Complete Fire Officer III and IV Training Solution! Chief officers need to know how to make the transition from company officer to chief officer. Chief Officer: Principles and Practice is designed to help make the transition from company officer to chief officer a smooth evolution. Covering the entire scope of Levels III and IV from the 2009 Edition of NFPA 1021, Standard for Fire Officer Professional Qualifications, Chief Officer combines current content with dynamic features and interactive technology to better support instructors and to help prepare future chief officers to become problem-solving leaders for their organizations. Chief Officer: Principles and Practice has a clear focus on instilling fire fighter safety throughout an organization's culture. Reducing fire fighter injuries and deaths requires the dedicated efforts of every fire fighter, fire officer, and fire department. The entire fire community must work together to achieve one common goal: to ensure that everyone goes home. Chief officers therefore set the tone for safety in their organization, and this textbook embraces that philosophy. It is with this goal in mind that the 16 Firefighter Life Safety Initiatives, developed by the National Fallen Firefighters Foundation, are integrated throughout the text. The features in this textbook will help students take that extra step toward becoming outstanding chief officers. These features include: • Scenario-Based Learning. You Are the Chief Officer and Chief Officer in Action are found in each chapter to encourage and foster critical thinking skills. • Practical Tips for the Chief Officer. Chief Officer Tips and Voices of Experience essays are integrated into each chapter to provide helpful advice from experienced chief officers. • Level IV Job Performance Requirements. Fire Officer Level IV content is highlighted to discern Level III JPRs from Level IV. • Walk the Talk. Additional activities encourage students to take what they have learned in the chapter and apply it to their own department.

Literacy in Teacher Preparation and Practice Aug 20 2021 Today, the meaning of literacy, what it means to be literate, has shifted dramatically. Literacy involves more than a set of conventions to be learned, either through print or technological formats. Rather, literacy enables people to negotiate meaning. The past decade has witnessed increased attention on multiple literacies and modalities of learning associated with teacher preparation and practice. Research recognizes both the increasing cultural and linguistic diversity in the new globalized society and the new variety of text forms from multiple communicative technologies. There is also the need for new skills to operate successfully in the changing literate and increasingly diversified social environment. Linguists, anthropologists, educators, and social theorists no longer believe that literacy can be defined as a concrete list of skills that people merely manipulate and use. Rather, they argue that becoming literate is about what people do with literacy—the values people place on various acts and their associated ideologies. In other words, literacy is more than linguistic; it is political and social practice that limits or creates possibilities for who people become as literate beings. Such understandings of literacy have informed and continue to inform our work with teachers who take a sociological or critical

perspective toward literacy instruction. Importantly, as research indicates, the disciplines pose specialized and unique literacy demands. Disciplinary literacy refers to the idea that we should teach the specialized ways of reading, understanding, and thinking used in each academic discipline, such as science, mathematics, engineering, history, or literature. Each field has its own ways of using text to create and communicate meaning. Accordingly, as children advance through school, literacy instruction should shift from general literacy strategies to the more specific or specialized ones from each discipline. Teacher preparation programs emphasizing different disciplinary literacies acknowledge that old approaches to literacy are no longer sufficient. *Literacy in Teacher Preparation and Practice: Enabling Individuals to Negotiate Meaning* introduces the reader to a collection of thoughtful, research-based works by authors that represent current thinking about literacy across disciplines and the preparation of teachers to enter classrooms. Each chapter focuses on teaching guided by literacies across disciplines and the preparation of teachers who will enter classrooms to instruct the next generation of students.
