Your journey to a soul mate starts here! Practicing Western astrologer Agneta Borstein uses an East-West astrological approach to the lunar nodes, their role in synastry, and their importance in the process of the evolving soul. In addition, her familiarity with the Vedic system and its mythology brings a unique perspective to her interpretation of the nodes. This is a revised and expanded edition of *The Moon's Nodes. A Churning Process of the Soul* first published in 2004 expands on the nodes in synastry and their roles in our relationships. It presents the Hindu myths related to the nodes with an emphasis on the goddesses as consorts to the male deities and how their stories connect to the Lunar nodes. Borstein presents the fundamental facts about the Moon's Nodes and includes a discussion of the True and Mean Node and information on the nodal cycle in transit, natal signs and houses of the nodes and their meaning,

especially in how to move from the wounded soul, represented by the South Node, to higher consciousness, represented by the North Node. Includes a fascinating synastry study of Angelina, our modern day goddess, and her consort Brad Pitt with an interpretation of the ties that knot them together. Complete, concise, informative and highly intelligent. "North Node Astrology" reveals the "Soul's Code" contained in the North and South Nodes of your astrological chart--giving you unique insights into life direction and soul purpose. *Science of Astrology: X-rays of The Divine* has been written to provide readers with a general foundation in astrology and to address subject matter which is either absent or given insufficient coverage elsewhere; meanwhile explanations of rulership, exaltation and debility are excluded here, not least because the more elaborate parts of these systems seem to have been established rather arbitrarily. An understanding all of the technical explanations in this book is not required to have a good understanding of astrology; at the same time the mathematics used to illustrate physical laws here is not exhaustive. In *Science of Astrology: X-rays of The Divine*, the traditional system of horoscope construction is acknowledged and explained; however a new system of horoscope construction is introduced - one which represents the ecliptic in the form it takes independently of the Earth's daily motion, at the same time as accommodating the season and standpoint of the observation. According to the new system, a new system of house distribution has been devised and ascendant and descendant points are given to the Moon. The new system, expounded in the chapter *Mapping the Zodiac* is intended to exist alongside the traditional system; however for simplicity it is used independently throughout the book. Other original subject matter in this book includes the incorporation of childhood location changes into the horoscope and the role of orbital resonance in informing planetary aspects. *Science of Astrology: X-rays of The Divine* begins with an explanation of the basic physical laws of the solar system which is intended to help enthusiasts adopt a more scientific approach to the study of astrology; the research presented towards the end of the book is intended to impress upon sceptics the value of the horoscope as a signifier of natural phenomena. Although the ephemeral conditions of meteor and extreme weather events are notable for their singularity rather than for any features which can be specifically attributed to the phenomena they accompany, there are certain astrological features which are distinctly recognisable among recorded cases of earthquake activity and it is possible that astrology will eventually form a part of preventative strategies in this field. Research is also presented which concerns the relationship between IQ and the planet Mercury. Just as for disciples of psychology or genetics the ardent practitioner of astrology is prone to adopting a two-dimensional view of his or her subject; as the practitioner become

more calculating, they also become less amenable to other manifestations of truth. Clearly, to understand human nature and to render a true service to humanity, the practitioner must adopt a holistic view. The book is named *Science of Astrology: X-rays of The Divine* because just as how an x-ray reveals the skeleton of an organism, so astrology reveals the bare outline of God's design. And just as how too much exposure to x-rays imperils the health of the organism, so can too great a study of this outline make the practitioner oblivious to the manifestations of the living God - that which exists beyond the dead indices of the celestial bodies. Hermes Trismegistus recognised the relationship between terrestrial events and the configuration of celestial objects and sought to render certain influences more enduring by soliciting their investment in inanimate objects. These objects were then assumed to promulgate the conditions extant at their inception. Part of *Science of Astrology: X-rays of the Divine* is concerned with the establishment of rituals, or active prayers, designed to ameliorate or relieve constitutional weakness or tension. Illness often has its origin in bad habits so by staging a ritual for a moment which is fortuitous to the individual, the individual can be emboldened to enact the necessary abnegation. If a ritual, be it direct naturopathic intervention or abstention from unhealthy practices, is staged to coincide with ephemeral conditions which offer reinforcement or stability to weaker or unstable elements of the constitution - upon interaction with the nativity, the ritual becomes as a talisman and reinforces the assimilation of the lesson prefigured by the ritual. Of course, the moment will be special whether or not it is deliberately ascribed ritual significance, but by consciously assigning an appropriate ritual to a fortuitous moment, the exertions of the intellect can be aligned to the exertions of the will. Emphasizes balancing the Nodes. It is much easier to continue at the South Node than to come to the North Node. One pushes & struggles at the North Node area where the new growth must be worked for. Whenever anything goes wrong in life, a person wants to revert to the South Node position where he is safe & secure. A complete Nodal analysis with aspects, transits to the nodes & synastry between charts. One of eight volumes in the Hubers' well-known series of books on astrological psychology. Moon Node Astrology combines depth psychology, astrology and reincarnation to bring a new focus on the shadow personality and the evolutionary process of the individual. Explains the scientific background and the psychological approach used with the nodes and the moon node chart. Also covers the relationship with esotericism and the ideas of Alice Bailey, explaining how earlier lives are shown in the aspect structure and house positions of planets in the nodal chart. Examples are given of working with the 'three charts' - nodal, natal and house - in helping to understand where the client has come from, where they are now, and where they are

going. First published in English in 1995. Explore the Moon through magical, transpersonal, and humanistic insights into the complex nature of personality. Paul provides us with indepth analyses of the Moon's natal houses, signs, and planetary aspects, illuminating the Moon's powerful influence on shaping the individual. This book enters the hidden depths within the astrological Moon and examines the reawakening of the Moon Goddess through the growing interest in ecology, human potential, and the initiatory descent into the magical underworld. A primer to the mysterious, often surprising world of astrology, this book explains in a light, informative style everything one needs to know in order to understand a personal astrological chart. Illustrations throughout. George White, founding member of the London Astrological Research Society, was a pioneer in the use and delineation of the Moon's Nodes, as well as the Nodes of the other planets. The Moon's Nodes, originally published in London in 1927, describes the Nodes and how they are related to physical stature, fame and success. The author also gives detailed information concerning the part the Nodes play in relation to the signs and houses, as well as aspects to the Nodes from other planets. He cites numerous examples. Included in this definitive work is a chapter on eclipses and their effect on natal horoscopes. In accordance with the reincarnation cycles, at the start of each life everyone brings along a life destination, a task or a commitment to learn. Each birth is connected with a script or a plan of life that spans several seven year cycles, as is described by the Moon nodes. The plan is predestined. What you do with it is not, because that is up to you. The northern Moon node is your life destination, the answer of the big 'why' of your life. This is the most complete book about the moon nodes. The book gives a clear explanation of the astrological system of Carteret, the combined actions of the Moon nodes, Pluto and the black Moon Lilith. Besides the deeper background of this system the roles of the Moon nodes in each house are explained in a very practical way so that everyone can read its own life destination and the phase he is in. By recalling many of his clients' regression sessions Bastiaan van Wingerden depicts the Moon nodes as being an echo of past lives and a destination for this life. Special attention is given to Mercury retrograde and the secret of reincarnation refusal. Once you start reading this book you cannot stop anymore, an eye-opener causing tears to flow freely. Even without an astrological background this book is easily readable. ----- This book about astrology and reincarnation uses a system of astrological interpretation propounded by a Mr Carteret (1906-1980). Tried, tested and put forward here by Bastiaan van Wingerden, Bastiaan states: The discovery of the ellipses with the aphelium and the perihelium all at once brought six points in the horoscope that had previously not existed. ... These six points constitute an enormous energy in both the spiritual as well as the material life ... The integral interpretation of these six points (the black sun, the Diamond, Lillith, Priapus, the northern Moon node and the southern Moon node) combined with the cosmic planets is the reading system of Carteret. Astrology as it always existed remains intact. Only six new points are added. ----- Mr Carteret's system of interpretation travelled mainly by word of

mouth from Paris to the Netherlands, where Bastiaan van Wingerden came into contact with it in February 1993. Bastiaan recorded a course of eight sessions that were given by J. Bartelsman, in Wassenaar. Having listened repeatedly to the tapes, he applied the information to clients' horoscopes and concludes that the interpretations have deepened his consultations. ----- This book focuses on the Moon's nodes and Bastiaan's interpretations of his clients' horoscopes. It consists of three main parts. The first part is an informative section on the spiritual points, the spiritual process of the soul, the Moon's nodes, Lilith, the Black Sun and cracking Pluto, the progressive new and full Moon, the late progressive new Moon, retrograde Mercury and reincarnation refusal, forms of incarnation, life's course and horoscope and the message from beyond (the script of life). The second section details the Moon North Node in the houses, and the third part details aspects of the Moon's nodes. ----- This is the first book in a series of three. The other two books are about Lilith and Pluto, which together with the Moon's North Node make up Carteret's astrological system. This book, a transcript of the second term of Clare Martin's introductory course in astrology given for the Centre for Psychological Astrology, continues her clear, insightful and innovative presentation of the basics of astrological study. Exploring the planetary aspects and the houses of the horoscope, the ten lessons focus on the horoscope as a dynamic interweaving of polarities: not only the angles, the houses, and their related zodiacal signs are examined from the perspective of complementarity, but also the enigmatic Moon's Nodes, which are interpreted from a fresh and exciting perspective. Major and minor aspects are illuminated by examples and discussion from the group, and the importance of a missing element or aspect is discussed with originality and depth. Volume 2 of Mapping the Psyche is a superb successor to Clare's first volume on the planets and the zodiacal signs, and will provide solid groundwork for students taking their first steps in astrology, as well as

deepening the understanding of experienced practitioners who can benefit from Clare's beautifully structured, elegant and comprehensive approach. The most complete textbook on the Lunar Nodes in print includes transcribed, rare lecture material and leaves no stone unturned. The aim of this book is to introduce students of astrology to an approach that will make horoscopy's conventional techniques useful to those who come to astrology looking for spiritual guidance. This is not about learning a new astrological language, but rather how to give a different application to the familiar techniques of Western horoscopy. Understanding the natal chart is recommended to complete beginners, those wishing to structure patchy knowledge, and those already competent in horoscopy who are in search of a more esoteric approach to see the way forward. This in-depth work describes the system of Carteret, how you receive a life purpose, the northern Moon node, from the celestial guides before you get on the earthly plane, and how this message works throughout your life in a sequence of 7 year cycles. Your life purpose is a result of your past life experiences, the southern Moon node. In your youth you get disappointed in your life purpose and abandon it. For two 7 year cycles you trust on your southern Moon node qualities to keep your head up. After that and after you cracked Pluto you start to live up to your original life purpose again. Together with your divine intuition, the black Moon Lilith, everyone is able to reach completeness for eternity. The Moon's nodes are explained in a very practical way -in the houses and in conjunction aspect- so that everyone can discern their own life destination and the phase they are in. This book is full of information you cannot find from other sources, and will be of interest to beginners and practicing astrologers alike. It was written after 15 years of investigation and experience. Sebastian van Wingerden describes a lot of past life session and angels experiences in his rich practice of hypnotherapist to illustrate the working of the Moon nodes. The Moon's north node in the horoscope is a powerful indicator of our life purpose. This book provides a fascinating background story for the life path in the natal chart. The north node in each of the 12 houses is described in detail with case histories from reincarnation sessions with actual clients. More than 200 pages are devoted to the northern Moon node in the houses. The next nearly 100 pages give interpretations for the planets Mercury through Pluto and the luminaries (the Sun and Moon) when in conjunction with the northern Moon node. Conjunctions are the most powerful aspects in any chart and are the simplest aspects for a beginner to identify. The introductory chapters of this book are an added bonus. The chart reading system of French philosopher Jean Carteret is described in detail. Carteret proposed the use of six spiritual points which together help to delineate the soul's purpose on Earth. Carteret is not known to have written down any of his ideas. The Moon's nodes and the Black Moon Lilith are included among Carteret's six spiritual points. Through hypnotic regression of clients, Wingerden gained great insight into the soul's journey between lives and how each lifetime is arranged to obtain specific benefits. The first 100 pages of this book are devoted to describing how reincarnation works. Wingerden goes into the timeline calculations for the entire

lifespan as defined by the progressive new and full moons. The concept of cracking Pluto is also mentioned as part of Carteret's system of interpretation. This portion of the book will be of greater interest to the professional astrologer as it uses more technically-advanced methods. One of the most fascinating features of this book is the detailed stories of past lives which Wingerden has uncovered during client sessions using hypnotic regression techniques. Possibly the most controversial idea presented by Wingerden concerns retrograde Mercury and reincarnation refusal. This portion of the book highlights the long-term effects that severe abuse and trauma can have on the evolving soul. This book about the northern Moon node is the foundation of Wingerden's trilogy, which also includes a book about cracking Pluto and another about the Black Moon Lilith. Together these three books expose Carteret's astrological system in a way that is not easily found elsewhere. Wingerden's trilogy provides a solid foundation for an in-depth psychological reading of any birth chart. In the year 2017 he has published his book *Cracking Pluto* and in the year 2018 his book about the black Moon Lilith will shine its light to complete his trilogy about the system of Carteret. Sasha covers the Moon in astrology, including the way it acts natively and predictively, by Sign and by House. Tables of eclipse dates and North Node ingresses, along with many illustrations, enhance the value of this book to the beginner as well as the more experienced

student of astrology. Sasha also explains the importance of the Moon's Nodes, in the natal chart and in predictive work. Eclipses bring events to a head; they can foretell the end of a cycle and the start of a new one. An occultation occurs when the Moon hides another celestial object, and this event can be difficult to cope with, if it lands on a sensitive area in your chart. The "In Focus" books in this series encourage you to delve into a variety of subjects, helping you to decide which of them you wish to take to the next level. Ancient myths describe an eclipse as the Sun or Moon being swallowed by a dragon. Since an eclipse could only occur near the lunar nodes, these became the head and tail of the dragon. Older references and eastern astrology still call the Moon's North Node the Dragon's Head and the South Node the Dragon's Tail. The Node Book goes beyond detailed information about the Moon's Nodes in signs and houses. Also included are chapters focused on the planetary nodes of Mercury, Venus, Mars, Jupiter, Saturn, Uranus, and Pluto, and the nodes of the four main asteroids: Ceres, Vesta, Juno, and Pallas. Extensive tables and directions for their use make it easy to find the nodes for the planets and asteroids. A guide for students to astrology which contains over 200 illustrations, plus numerous real life examples to help readers understand and apply the principles of this ancient study. It shows how to interpret your astrology chart, the blueprint of your life, and using the Moon's node chart, how to understand the life lessons of those around you. For the first time ever, a famous spiritual astrologer shares the secrets, previously known only to professionals, that hold the key to your future. Astrologer Jan Spiller shows you the key to discovering your hidden talents, your deepest desires, and the ways you can avoid negative influences that may distract you from achieving your true life purpose, as revealed in your chart by the position of the North Node of the Moon. With insight and depth impossible to gain from the commonly known sun-sign profiles, the enlightening self-portrait offered by the Nodes of the Moon can explain the life lessons you came here to learn and how to achieve the fulfillment and peace you desire. Jan Spiller shows you how to locate the all-important North Node of the Moon in your astrological chart and provides a detailed interpretation of its influence and exclusive exercises to help you learn about:

- The SPECIAL TALENT that is waiting for you, a unique gift that could easily be turned into professional success
- The SELF-DEFEATING TENDENCIES in your personality that can hold you back and sabotage relationships
- The LOVE PARTNER who can be your soul mate—and the partner whose hold over you can lead to heartbreak
- The TRAP or temptation from a past life that can lead to disaster if you are not forewarned

Few understand the power of Transiting Lunar Nodes - yet all of us experience the impact of these transits in our lives. Planets transiting through the Zodiac form aspects to our personal charts, and happenings occur. How or why you feel a certain way about a situation is indicated by the transits of the Lunar Nodes. Author Diane Ronngren introduces you to this unique study and helps you explore the energy of the transiting Lunar Nodes in your life. We all know how amazingly accurate astrology can be about reading personalities and predicting action based on the position of the stars in relation to our own signs. But what about the most intimate (and elusive) aspect of our lives: our sexual selves. How can we be sure our partner will be compatible with our energy and needs? Can the stars help us really know? In *The Complete Idiot's Guide to Sextrology*, Megan Skinner, astrologist extraordinaire, tells us how to use the stars to find the perfect sexual mate. She profiles the sexual traits of each of the 12 signs, then shows us every combination of them and what to expect in bed. Funny, insightful, and practical, this helpful handbook will ensure success to anyone looking for the perfect partner. Most people are familiar with their sun sign—the sign determined by your birthday. According to astrologer Cal Garrison, however, it's actually your moon sign that is the true key to your horoscope. The *Lunar Gospel* is a comprehensive guide to moon sign astrology, covering the significant role the moon plays in the horoscope. Cal explores the role of the moon as it manifests in the different signs and houses, as well as its relationship to the other planets in the chart. The *Lunar Gospel* clearly and insightfully gives you all the tools you need to understand your own moon sign—and the

moon sign of other people. Astrology for Dummies, 2E, demystifies astrological charts and uses plain English to show you how you can take advantage of the wisdom of the stars.
