**The Fifth Assassin** Feb 22 2020 Archivist Beecher White, the hero of the #1 NYT bestselling Culper Ring series, discovers a killer in Washington, DC, who's meticulously re-creating history's four presidential assassinations. From John Wilkes Booth to Lee Harvey Oswald, there have been more than two dozen assassination attempts on the President of the United States. Four have been successful. Historians have branded them as four lone wolves. But what if they were wrong? Beecher is about to discover the truth: that during the course of a hundred years, all four assassins were secretly working together. What was their purpose? For whom do they really work? And why are they planning to kill the current President? Beecher's about to find out. And most terrifyingly, he's about to come face-to-face with the fifth assassin.

The Prodigy Aug 30 2020 William James Sidis (1898-1944) was born to a psychologist with some unorthodox ideas about child rearing, attended Harvard at an absurdly young age, burned out at 14, and spent most of the rest of his life working menial jobs and living in poverty. Dubbed a "failed prodigy" by the popular press, he lived out his years as an eccentric and a recluse. The truth is a lot more complex than this, and the "failure" a matter of perspective, as shown in this remarkable biography. Wallace's book, the only biography of this most enigmatic of prodigies, gives us a balanced look at Sidis' up-bringing and a somewhat revisionist

look at his later life. Sidis apparently was hard at work on manuscripts of various sorts even during his later years; this book is to my knowledge the only one that gives an account of that later work, which dealt with American Indians. New manuscripts by Sidis have surfaced since the writing of this book, including a book on traffic accident patterns.
