And if you work 9 hours a day and have 2 child waiting for you at home, that can't work for more than a week. That's why she found her solution in the Optavia Diet. It focuses on three transformational processes that have determined the city-state's financial sector development and governance — globalisation, financialisation, and centralisation — and their impacts across three areas: the economy, governance, and technology. More importantly, this book takes a multidimensional approach by considering the inter-related and interdependent nature of these three transformational processes. Just like the 3-in-1 coffee mix that is such an ubiquitous feature of everyday life in Singapore, the individual ingredients of Singapore's success as a global financial centre do not act alone, but as an integrated whole that manifests itself in one final product: the global financial centre.
