The Portraits of Bartolomeo Veneto Jan 31 2020 This is the first English language monograph on Bartolomeo Veneto (c. 1480-1531), who worked in Northern Italy in an area bounded by Venice and Milan. The art made in this region is characterized by an intensity and richness arising from the various artistic personalities that enlivened the period and the vitality of exchanges that linked artists from widely separated cultural areas. An analysis of Bartolomeo's works allows one to observe the vivid atmosphere of the period. Specializing in portraiture, he moved often to satisfy the demands of his clientele in the small and large courts in the Veneto, Emilia, and the Lombardy regions of the Po Valley. Over the course of his career, from his earliest dated painting in 1502 until his death, presumably in 1531, he produced a remarkable body

of work. Characteristic of Bartolomeo Veneto is an interest in a refined rendering of details, particularly of clothing, and the inclusion of symbolic elements. This symbolism-understandable by only a select few-refers to the moral, philosophical, or even political ideals of the person depicted and reflects the cultivated society of the clients for whom the artist worked. Of particular interest are his portraits and works that fall midway between conventional portraiture and representations of a symbolic, mythological, or religious nature. On the one hand, he was able to synthesize diverse stylistic tendencies. On the other, he was able to capture nuances of his subjects' personalities. Despite the remarkable quality of many of his paintings, he was not mentioned by historical sources, and he remains one of the least-studied and most mysterious of the 16-century Italian painters. He was rediscovered in the middle of the 19th century, when several of his signed and dated paintings were acquired by European museums.

Pauli Veneti Logica Magna Dec 04 2022

Narrating the Dragoman's Self in the Veneto-Ottoman Balkans, c. 1550–1650 Nov 22 2021 This microhistory of the Salvagos—an Istanbul family of Venetian interpreters and spies travelling the sixteenth- and seventeenth-century Mediterranean—is a remarkable feat of the historian's craft of storytelling. With his father having been killed by secret order of Venice and his nephew to be publicly assassinated by Ottoman authorities, Genesino Salvago and his brothers started writing self-narratives. When crossing the borders of words and worlds, the Salvagos' self-narratives helped navigate at times beneficial, other times unsettling entanglements of empire, family, and translation. The discovery of an autobiographical text with rich information on Southeastern Europe, edited here for the first time, is the starting point of this extraordinary microbiography of a family's intense struggle for manoeuvring a changing world disrupted by competition, betrayal, and colonialism. This volume recovers the Venetian life stories of Ottoman subjects and the crucial role of translation in negotiating a shared but fragile Mediterranean. Stefan Hanß examines an interpreter's translational practices of the self and recovers

the wider Mediterranean significance of the early modern Balkan contact zone. Offering a novel conversation between translation studies, Mediterranean studies, and the history of life-writing, this volume argues that dragomans' practices of translation, border-crossing, and mobility were key to their experiences and performances of the self. This book is an indispensable reading for the history of the early modern Mediterranean, self-narratives, Venice, the Ottoman Empire, and Southeastern Europe, as well as the history of translation. Hanß presents a truly fascinating narrative; a microhistory full of insights and rich perspectives.

Provincial Families of the Renaissance Nov 03 2022

Grubb's comprehensive analysis of his subjects' compelling, if inconspicuous, lives investigates every significant aspect of private experience during the Renaissance: marriage, birth, death, household relations, work, land, social status, and spirituality. Winner of the Society for Italian Historical Studies's Howard R. Marraro Prize Originally published in 1996. Historical writing on the Renaissance has usually focused on the social extremes that co-existed in the great metropolitan centers—on either elites or the underclass. As a result, the world of the middling families and provincial societies remains largely unexplored. Daily experiences in the lesser cities are, however, no less rich and revealing than those of Florence, Venice, and Milan. In addition, writes historian James Grubb, these experiences offer new perspectives from which to reassess familiar assumptions about domestic life in the fifteenth century. Based on memoirs and other records left by thirteen merchant families from the Veneto cities of Verona and Vincenza, *Provincial Families of the Renaissance* is an engrossing study of daily

lives that have until now been overlooked by scholars. Grubb examines the attitudes and experiences of families undistinguished in their modest means and local ambitions from the majority of their compatriots, uncovering a detailed historical landscape rich in social obligations, commercial activities, and religious beliefs. Grubb's comprehensive analysis of his subjects' compelling, if inconspicuous, lives investigates every significant aspect of private experience during the Renaissance: marriage, birth, death, household relations, work, land, social status, and spirituality. In reconstructing provincial life in the Veneto, Grubb discovers in his subjects an independence of mind that mediated their reception of metropolitan ideologies far more than the historiography of the Renaissance might suggest. These "unremarkable" provincials were agents of their own destiny, influenced in equal measures by prevailing attitudes, local customs, and personal convictions. "James Grubb is exploring new terrain in this book. Distinguished by its clarity and eloquence, this is a superior work of historical writing and analysis that merits comparison with the best monographs on the social history of Renaissance Italy."—Gene Brucker, University of California at Berkeley

Venetian Republic Sep 08 2020 CHARTING THE CULINARY HISTORY AND TRADITIONS OF THE LANDS THAT ONCE BELONGED TO THE VENETIAN REPUBLIC PART CULINARY JOURNEY, PART COOKBOOK THIS GORGEOUS COOKBOOK IS INFORMED BY THE CULTURAL HERITAGE OF ITALIAN CHEF NINO ZOCCALI AND HIS GREEK WIFE. The food of the Venetian Republic is diverse: prosecco & snapper risotto, Croatian roast lamb shoulder with olive oil potatoes, the sweet & sour red mullet of Crete, zabaglione from Corfu, or Dubrovnik's ricotta & rose liqueur crepes. These are recipes steeped in history; dishes from the days when Venice was a world power. How did this small city state rule the waters of the Mediterranean, enjoying unrivaled wealth and prestige? How could this serene, safe-haven city of canals come to play a defining role in shaping the cuisine, culture, and architecture of her Mediterranean neighbors? Yet, for a thousand years, the ships and merchants of the Republic dominated salt, silk, and spice trade routes. To tell this story, respected writer and restaurateur Nino Zoccali focuses on the four key regions that geographically encapsulate the Venetian Republic, each

of which has its own distinct cuisine: Venice and its lagoon islands; the Veneto, of which Venice is the capital; the Croatian coast and the Greek Islands formerly under Venetian rule. The 80 dishes he has selected all have strong traditional Venetian roots or influence, celebrating ingredients and techniques that show how, to this day, food in this magnificent region continues to be influenced by neighboring cultures. Stunning food and location photography from around Venice, the Dalmatian Coast, and Greek Islands make this cookbook a must-have for foodies and lovers of Mediterranean cuisine.

The Peoples of Ancient Italy Apr 08 2023 Although there are many studies of certain individual ancient Italic groups (e.g. the Etruscans, Gauls and Latins), there is no work that takes a comprehensive view of each of them—the famous and the less well-known—that existed in Iron Age and Roman Italy. Moreover, many previous studies have focused only on the material evidence for these groups or on what the literary sources have to say about them. This handbook is conceived of as a resource for archaeologists, historians, philologists and other scholars interested in finding out more about Italic groups from the earliest period they are detectable (early Iron Age, in most instances), down to the time when they begin to assimilate into the Roman state (in the late Republican or early Imperial period). As such, it will endeavor to include both archaeological and historical perspectives on each group, with contributions from the best-known or up-and-coming archaeologists and historians for these peoples and topics. The language of the volume is English, but scholars from around the world have contributed to it. This volume

covers the ancient peoples of Italy more comprehensively in individual chapters, and it is also distinct because it has a thematic section.

The Gardens of Venice and the Veneto Jun 05 2020 The Gardens of Venice and the Veneto takes in a varied selection of gardens old and new, large and small, public and private. It ranges from tiny monastery gardens tucked away within the walls of Venice to grand palatial landscapes in the former marshes of the hinterland. The book is divided into five sections as well as a lively introduction which captures the rich history of this region. The first section will show the extraordinary gardens still to be found locked behind high walls in the city itself. Then Jenny Condie and Alex Ramsay wander through the more modest parts of the city where ordinary Venetians manage to grow flowers, fruit and vegetables in the most unlikely spots. Then it is out into the lagoon and wild gardens on marshy islands before turning inland to the grand Palladian villas and the Baroque splendours of villas like the Villa Barbarigo and the Villa Allegri Arvedi among many fine country residences of ancient families. All the gardens in the book can be reached within a day's expedition from Venice and practical information about access and advice on the best time of year to visit is included for all those open to the public.

Wanderlust Mar 07 2023 From the time he was a young boy, Marco Veneti had a desire to explore the world. He buys his first wheels, a 1941 Harley, in high school, a purchase that marks the beginning of his lifelong adventures on the seat of a motorcycle. Marco loves the feel of the wind in his face while exploring the countryside, always curious

about what lays over the next hill or around the next curve in the road. Now, twenty-five years old, in the middle of a rainstorm in Nowhere, New Mexico, Marco looks back on his life as a vagabond, journeying on a motorcycle that takes its course over majestic mountains and sparse desert scrub. He reminisces about his encounters with people who become a major part of his life; he finds himself involved with rogue police officers who almost kill him; and he meets some rough folks along with many friendly ones—adding another chapter in life's course. A work of fiction, *Wanderlust* shares one man's love of biking as he experiences all the world offers from the seat of a motorcycle.

From Paesani to Global Italians Apr 03 2020 From Paesani to Global Italians is a study of the migration history and experiences of migrants from the Veneto region in the northeast of Italy. Veneto, which includes the province of Venice, is today one of the most affluent regions in Italy. Migration from the Veneto to Australia began in the late 1800s, although the bulk of the migrants arrived immediately after the Second World War. Most northern Italian migrants to Australia come from this region. The authors explore the contribution made by this group of migrants to their new

homeland, their settlement experiences, and their continuing connections with their ancestral homes. The authors also touch on the future of ethnic groups and the crisis in aged care for people of non-English speaking backgrounds. The text is enlivened by life histories, character portraits, and quotations.

Vicenza is an essential stop on the itineraries of architecture lovers and PalladioOCOs followers, but is unfortunately bypassed by many tourists traveling through the Veneto region who donOCOt realize what it has to offer. This well-kept secret has made remarkable cultural and economical contributions to the region and merits a visit, if only for a few hours. Vicenza is

an important Renaissance city with an impressive number of buildings dating back to the 1500s, many of them attributed to Andrea Palladio. It was during this period that Andrea di Pietro della Gondola came to Vicenza as a 16 year-old stone mason and through a combination of his own talent and a fine network of mentors, grew to be the great architect who dramatically transformed Vicenza's urban image. Palladio was commissioned to build palazzi for the city's wealthy residents, redesign several buildings which had been badly damaged by the League of Cambrai and to make the city better reflect the influence of the Republic of Venice. His finest works in the city include the Teatro Olimpico, the Basilica Palladiana and the Palazzo Chiericati. Italy's largest lake and one of its most visited vacation spots, Lake Garda is between the Alps and the Pianura Padana (Padana plains) with the Trentino region bordering it to the north, the Lombardy region to its west and the Veneto region to the east. As one of the most prosperous cities in northern Italy and the second-most visited in the Veneto, Verona's streets exhibit an interesting mélange of Roman, medieval, Renaissance and Venetian influences. And with unmistakably firm roots in classical tradition, the city that underwent significant urban development following World War II has a cosmopolitan identity that its high-fashion stores and impeccably dressed businessmen reflect. At the crossroads of two important Roman roads, Verona served as a critical strategic and commercial center for many centuries. It began as a colony of the Roman Empire in the first century BC and was joined with the Empire in 49 BC. The arena, one of the world's best-preserved Roman amphitheaters, was

built to accommodate upwards of 20,000 spectators and, along with the Roman theater and the city's gates, Verona maintains its Roman identity today. These useful guides are highly recommended... Piezoelectric Aeroelastic Energy Harvesting Dec 12 2020

Piezoelectric Aeroelastic Energy Harvesting explains the design and implementation of piezoelectric energy harvesting devices based on fluid-structure interaction. There is currently an increase in demand for low power electronic instruments in a range of settings, and recent advances have driven their energy consumption downwards. As a result, the possibility to extract energy from an operational environment is of growing significance to industry and academic research

globally. This book solves problems related to the integration of smart structures with the aeroelastic system, addresses the importance of the aerodynamic model on accurate prediction of the performance of the energy harvester, describes the overall effect of the piezoelectric patch on the dynamics of the system, and explains different mechanisms for harvesting energy via fluid-structure interaction. This wealth of innovative technical information is supported by introductory chapters on piezoelectric materials, energy harvesting and circuits, and fluid structure interaction, opening this interdisciplinary topic up for readers with a range of backgrounds. Provides new designs of piezoelectric energy harvesters for fluid-structure interaction Explains how to correctly model aerodynamics for effective aeroelastic energy harvesting Numerical examples allow the reader to practice the design, modeling and implementation of piezoelectric energy harvesting devices
