Through the Eye of the Deer Apr 06 2023 Poetry. Fiction. Native American Studies. By bringing together the voices of Native American women writers across time, regions, and tribes, this collection makes visible a dynamic tradition of women's wisdom and storytelling. From early legends to present-day fiction and poetry, this tradition emphasizes women's spiritual connection to the natural world and their contributions to tribal and familial community. Central to women's strength is the role of animal figures--Coyote, Owl, Beaver and Bear--who act as guides, helpers, and personal totems, appearing unexpectedly in the modern urban landscape as well as being a constant presence in nature. The work of more than forty authors appears in this volume, representing tribes and regions extending over most of the U.S. and parts of Canada. Among the authors included are Louise Erdrich, Joy Harjo, Leslie Marmon Silko, Paula Gunn Allen, Linda Hogan and Beth Brant, along with writers whose work appears here for the first time. THROUGH THE EYE OF THE DEER is far more than a wonderful book to read: it is a guidebook to life in the multiple world we really live in. It tells us of the many places the path of the sacred takes us, how to act when we get there, the dangers we will encounter, and how to get home.-- Paula Gunn Allen

Daughters of the Deer Mar 05 2023 NATIONAL BESTSELLER In this haunting and groundbreaking historical novel, Danielle Daniel imagines the lives of women in the Algonquin territories of the 1600s, a story inspired by her family's ancestral link to a young girl who was murdered by French settlers. 1657. Marie, a gifted healer of the Deer Clan, does not want to marry the green-eyed soldier from France who has asked for her hand. But her people are threatened by disease and starvation and need help against the Iroquois and their English allies if they are to survive. When her chief begs her to accept the white man's proposal, she cannot refuse him, and sheds her deerskin tunic for a borrowed blue wedding dress to become Pierre's bride. 1675. Jeanne, Marie's oldest child, is seventeen, neither white nor Algonquin, caught between worlds. Caught by her own desires, too. Her heart belongs to a girl named Josephine, but soon her father will have to find her a husband or be forced to pay a hefty fine to the French crown. Among her mother's people, Jeanne would have been considered blessed, her two-spirited nature a sign of special wisdom. To the settlers of New France, and even to her own father, Jeanne is unnatural, sinful—a woman to be shunned, beaten, and much worse. With the poignant, unforgettable story of Marie and Jeanne, Danielle Daniel reaches back through the centuries to touch the very origin of the long history of violence against Indigenous women and the deliberate, equally violent disruption of First Nations cultures.

GIFT OF DEER Jan 03 2023 In the farthest wilds of northeastern Minnesota, back in the Gunflint Range, the author of this book and her artist-husband have a two-room cabin home in the bush country. Beginning one Christmas Day when they first watched the starving deer they later named Peter, the Hoovers had many opportunities, a passionate inclination, and the nature skills to observe this whitetail buck—joined later by his mate, and finally by several of their offspring—through the changing seasons of four years. Close as their relationship was to the generations of beautiful animals, the Hoovers did not consider them pets but fellow inhabitants of that wild country. Their observations reveal the rewards of living close to wild creatures; but more than that, they add valuable information to our knowledge of the cycle of life of the deer and other creatures native to the same world. For although the deer are the chief characters of this book, they are by no means the only wild creatures Mrs. Hoover writes of. Her naturalist's eye is just as sharp and her affection just as great for the antics of a curious chickadee or a flying squirrel. Mrs. Hoover's identification with nature knows no favoritism. The Hoovers' world—the bush country of the United States-Canadian border—is farther removed from civilization than "Mr. Emerson's woodlot," but the close relationship of *The Gift of the Deer* to *Walden* is evident for all to enjoy. Adrian Hoover's drawings are from life, and they add another level of understanding to his wife's vivid prose.

Where the Deer and the Antelope Play Feb 04 2023 A humorous and rousing set of literal and figurative sojourns as well as a mission statement about comprehending, protecting, and truly experiencing the outdoors, fueled by three journeys undertaken by actor, humorist, and New York Times bestselling author Nick Offerman. Nick Offerman has always felt a particular affection for the Land of the Free—not just for the people and their purported ideals but to the actual land itself: the bedrock, the topsoil, and everything in between that generates the health of your local watershed. In his new book, Nick takes a humorous, inspiring, and elucidating trip to America's trails, farms, and frontier to examine the people who inhabit the land, what that has meant to them and us, and to the land itself, both historically and currently. In 2018, Wendell Berry posed a question to Nick, a query that planted the seed of this book, sending Nick on two memorable journeys with pals—a hiking trip to Glacier National Park with his friends Jeff Tweedy and George Saunders, as well as an extended visit to his friend James Rebanks, the author of *The Shepherd's Life* and *English Pastoral*. He followed that up with an excursion that could only have come about in 2020—Nick and his wife, Megan Mullally, bought an Airstream trailer to drive across (several of) the United States. These three quests inspired some "deep-ish" thinking from Nick, about the history and philosophy of our relationship with nature in our national parks, in our farming, and in our backyards; what we mean when we talk about conservation; and the importance of outdoor recreation, all subjects very close to Nick's heart. With witty, heartwarming stories and a keen insight into the human problems we all confront, this is both a ramble through and celebration of the land we all love.

People of the Deer May 07 2023 In 1886, the Ihalmiut of northern Canada numbered 7,000 souls; by 1946, when 25-year-old Farley Mowat travelled to the Arctic, their population had dwindled to only 40. Living among them, he observed the millennia-old migration of the caribou and endured the bleak winters, food shortages and continual, devastating intrusions of interlopers bent on exploiting the Arctic. In this seminal book, Mowat details a genocide wrought by misunderstanding and neglect. Debated long after its publication, this powerful story of the Ihalmiut continues to haunt the Canadian conscience.

Deer and People May 15 2021 Deer have been central to human cultures throughout time and space: whether as staples to hunter-gatherers, icons of Empire, or the focus of sport. Their social and economic importance has seen some species transported across continents, transforming landscape as they went with the establishment of menageries and park. The fortunes of other species have been less auspicious, some becoming extirpated, or being in threat of extinction, due to pressures of over-hunting and/or human-instigated environmental change. In spite of their diverse, deep-rooted and long standing relations with human societies, no multi-disciplinary volume of research on cervids has until now been produced. This volume draws together research on deer from wide-ranging disciplines and in so doing substantially advances our broader understanding of human-deer relationships in the past and the present. Themes include species dispersal, exploitation patterns, symbolic significance, material culture and art, effects on the landscape and management. The temporal span of research ranges from the Pleistocene to the modern day and covers Europe, North America and Asia. Papers derived from international conferences held at the University of Lincoln and in Paris.
