Kitchen & Bath Products and Materials Aug 01 2020 Objective guidance on kitchen and bath fitting choice to suit any client and any space *Kitchen and Bath Products and Materials* describes the typical materials, equipment, and surfaces used in all facets of residential kitchen and bath design. Part of the National Kitchen and Bath Association's Professional Resource Library, this comprehensive reference is fully updated and expanded to include new technologies, materials, and finishes, with considerations of sustainability throughout. Full color illustrations and a revised design help visual learners better absorb the information, and the companion website provides an image bank and instructor's guide for classroom use. Each chapter includes a summary and review questions, allowing readers to test their grasp of the material at every step. Kitchen and bath design is the most popular and lucrative area within residential interior design. As such, the enormous amount of options available for surfaces, fixtures, and materials is far too vast to be navigated by taste and aesthetics alone. *Kitchen and Bath Products and Materials* provides the background designers need to choose what's best for the client and the space, based on a number of objective factors and technical details. This complete handbook allows readers to: Explore material options for storage systems, fixtures, fittings, and surfaces Become familiar with sizing systems, efficiency ratings, and certifications Consider factors like manufacturing processes, engineering, and configuration Learn the terms and nomenclature used to describe materials, fixtures, and appliances Design is about more than just aesthetics – whether the project is a remodel or new construction, there are codes, standards, and functional requirements that must be met. *Kitchen and Bath Products and Materials* is a practical reference, providing the information designers need to make informed decisions.

Anyone Can Build a Tub-Style Mechanical Chicken Plucker Sep 25 2022 This book tells small-farm and backyard poultry producers how to easily build an inexpensive professional-style "Whizbang" tub plucker. The Whizbang plucker will strip feathers (pinfeathers too) off scalded chickens, turkeys, ducks, and geese with the simple flip of a switch. It takes about 15 seconds to completely pluck the birds. The reader need not be a welder, engineer or machinist to build a Whizbang plucker--basic carpentry skills are all that's needed. A Resources chapter at the end of the book tells the reader where to find needed parts.
