Handbook of Approach and Avoidance Motivation Dec 21 2021 Of the many conceptual distinctions present in psychology today, the approach-avoidance distinction stands out as one of, if not the, most fundamental and basic. The distinction between approach and avoidance motivation has a venerable history, not only within but beyond scientific psychology, and the deep utility of this distinction is clearly evident across theoretical traditions, disciplines, and content areas. This volume is designed to illustrate and highlight the central importance of this distinction, to serve as a one-stop resource for scholars working in this area, and to facilitate integration among researchers and theorists with an explicit or implicit interest in approach and avoidance motivation. The main body of this volume is organized according to seven broad sections that represent core areas of interest in the study of approach and avoidance motivation, including neurophysiology and neurobiology, and evaluative processes. Each section contains a minimum of four chapters that cover a specific aspect of approach and avoidance motivation. The broad applicability of the approach-avoidance distinction makes this Handbook an essential resource for researchers, theorists, and students of social psychology and related disciplines.

Singing and Suffering with the Servant Jan 22 2022 The Old Testament is transformed from problem to ally when preachers attend to power at work in ancient and modern contexts by mirroring Second Isaiah's proclamation, listening to contemporary servant Israel, and learning from African American preaching in context of domination. This book analyses the impact of domination on Old Testament proclamation and thus leads to several unique contributions. Firstly, it reads Second Isaiah as a homiletic model for proclaiming older (pre-exilic) texts in response to exilic domination. Secondly, it treats the Old Testament as a rich resource for confronting racism and anti-Semitism through teaching and it introduces contemporary Christian-Jewish dialogue in Germany as a model for the Church. Lastly, it highlights preaching traditions within the African American Church as instructive for formulating an effective Old Testament preaching strategy.
