In *The Order of Books*, Chartier examines the different systems required to regulate the world of writing through the centuries, from the registration of titles to the classification of works. Bringing together prominent Africanist scholars from a variety of disciplines, this book offers a comprehensive treatment of the social, cultural and political impact of Pentecostal-Charismatic Christianity in postcolonial sub-Saharan Africa. "The key to health is on your face and in your hands" This book presents a self-care method unique in its genre, which offers extraordinary, sometimes amazing and often immediate results for all kinds of disharmony in the body. The method began life in 1980s Vietnam - like many important discoveries, a result of war and necessity - independent of resource availability. It was developed by a group of acupuncturists to put healing in the hands of the masses by replacing needles with equally effective blunt rounded tools. It is the most recent reflexology on the planet and has nothing to do with other oriental techniques related to the face. Today 'Dien Chan' is a popular and accepted method of healthcare in its home country and part of their official system. However, it is the work of two self-declared Italian 'free-sprits', over the past twenty years, which has suitably translated the technique and advanced it to meet the needs of modern Westerners. No longer a painful stimulation of pre-defined points; it has evolved to a relaxing massage of zones and individual, personalised points. 'Dien Chan Zone' incorporates simplified principles and teachings of Traditional Chinese Medicine, protocols for allergies and intolerances, a unique Facial-Cranial reflexology and a beauty treatment to tone muscle and regulate skin function. It is the authors' overriding intention to facilitate learning and to make this method accessible to everyone. In this book they share full instructions for self-treatment which they know present a great frontier of freedom, and the medicine of the future. Contains 95 full colour maps Beatrice Moricoli, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is the first female teacher of Dien Chan (Zone) in Italy, but for many years has practiced also as a therapist and teacher of Reiki, Shiatsu, Tui Na, Chinese Medicine and 'The Blowing Technique'. Vittorio Bergagnini, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is a teacher of Dien Chan Zone as well as Tai Chi Chuan, Reiki, Foot Reflexology and Wung Chun. This book surveys the use of mind-altering plants in eleven societies in the Americas, Asia, Australia and New Guinea, ranging from the hunter-gatherers to complex ancient civilizations such as the Inca, the Moche, and the Maya. Those interested in rituals and religions of traditional societies and folk medicine will find a great deal of information in this concise, illustrated volume. Several themes emerge from de Rios's cross-cultural examination of sacred plants. She argues convincingly that plant hallucinogens, which have been used from time immemorial, influenced human evolution. She discusses religious beliefs, including those of shamanism, which may have been influenced by the mind-altering properties of particular plants. She also focuses on the ways in which hallucinogens have influenced ethical and moral systems. The postgenomic condition: an introduction -- The information of life or the life of information? -- Inclusion: can genomics be antiracist? -- Who represents the human genome? What is the human genome? -- Genomics for the people or the rise of the machines? -- Genomics for the 98 percent? -- The genomic open 2.0: the public v. the public -- Life on Third: knowledge and justice after the genome -- Epilogue La transe, che durante il XIX secolo era collegata a esperimenti medianici e ipnotici, è diventata oggetto di ricerche etnologiche. Oggi in Occidente essa non riguarda più solo pochi specialisti e affiora nella nostra società. Tuttavia, l'attuale movimento della transe manca di basi teoriche: può cominciare a costruirle, sostiene Lapassade, se inizia a interessarsi realmente a ciò che accade in altre culture, ritrovando dispositivi, procedure iniziatiche e tecniche nella prospettiva di una ripresa creativa e consapevole delle proprie risorse vitali. La prima parte del libro descrive la genealogia delle varie figure di transe, dalle società primitive fino alle nuove forme di transe metropolitane, passando attraverso il culto di Dioniso, il vodu, il sabba del Medioevo. Nella seconda parte, la transe investe la psicosociologia dei gruppi e la psicoterapia rituale. Infine, la terza e ultima parte presenta gli aspetti principali di un'antropologia della transe e dell'esperienza di una coscienza "modificata" o "esplosiva", affrontando inoltre il problema dell'eventuale "simulazione" di questo stato "secondo" del corpo e della coscienza. Con uno scritto di Tobia D'Onofrio With this handy Necronomicon for kids, and its easy to follow how-to steps, summoning demons has never been so much fun! "Explores history and development of Umbanda from its beginnings in Rio de Janeiro during 1920s to late 1970s. Describes changes in ritual forms, geographic distribution, and increase in followers as Umbanda was transformed from marginal to a widely accepted religion"--Handbook of Latin American Studies, v. 57. A collection of beautifully illustrated letters, brilliantly produced, that were written from a father, forced to join the army in WWII, to his half-Jewish daughter who spent the war in Amsterdam in the house next door to Anne Frank. Presents a view of war that combines a profound sense of loss with a promise for a happier and better future. Translated by Joel Agee. A Denmark best-seller features a real-life human experience of God in history as Brother Jacob flees to Mexico in search of his own Utopia, establishes hospitals, and champions the rights of the Amerindians before his faith is put to a final test. Published on the 100th anniversary of the science of ethnobotany, this volume provides a comprehensive summary of the history and current state of the field. The 36 articles present a truly global perspective on the theory and practice of today's ethnobotany. This book is only available through print on demand. All interior art is black and white. Spesso liquidati come manifestazioni patologiche, gli stati modificati di coscienza sono diventati nel tempo, oggetto di rigorosi studi scientifici. Georges Lapassade fu tra i primi, negli anni Settanta, a porne le basi teoriche, proprio con questo saggio, introducendo la transe come oggetto specifico di ricerche etnologiche. Uno studio, quello di Lapassade, quanto mai attuale ora che la transe emerge anche nella nostra civiltà, di solito in esperienze liminari di uscita "fuori" di sé, o "al fondo" di se stessi, con il moltiplicarsi di tentativi di parte-cipazione diretta con il "sacro", di meditazione, di comunicazione con l'universale tramite le droghe psichedeliche, la musica, le tecniche corporee orientali e, talvolta, immersioni nell'irrazionale. Per analizzare e capire la transe, sostiene Lapassade, bisogna interessarsi realmente a ciò che accade in altre culture, ritrovando dispositivi, procedure iniziatiche e tecniche nella prospettiva di una ripresa creativa e consapevole delle proprie risorse vitali. La prima parte del libro descrive la genealogia delle varie figure della transe, dalle società primitive fino alle nuove forme di transe metropolitane, passando attraverso i culti di Dioniso, il vodu, il sabba del Medioevo. Nella seconda parte, la transe investe la psicosociologia dei gruppi e la psicoterapia rituale. Infine, la terza parte presenta gli aspetti principali di un'antropologia della transe.. Jacopo Carrucci (1494-1557), named Pontormo after his birthplace, was the main representative of Florentine Mannerism, the seventy-five-year period that links the High Renaissance and early Baroque eras. Following the success of Abrams' Pontormo Drawings, Pontormo Paintings and Frescoes presents in large format an overview of the artist's important works, most of which have been newly photographed for this volume. Influenced by Raphael's late works, Durer's graphics, and Michelangelo's monumental figural style, Pontormo's quest for new forms of expression resulted in some of his most spectacular and brilliantly executed paintings. His highly individual paintings are visions rather than representations of reality; his compositions often include exaggerated forms and unnatural colors. Salvatore S. Nigro, Professor of Italian Literature at the University of Catania, Sicily, has selected over seventy examples of Pontormo's paintings and frescoes. The book includes such masterpieces

as the portrait of Cosimo I de Medici, the fresco cycle in the Santissima Annunziata, and the Deposition in Santa Felicita. Each work is presented in a full-page color reproduction, some with details, and is accompanied by a brief commentary. The introduction by Professor Nigro places Pontormo's work within the context of developments in art and literature, and is followed by biographical and bibliographical notes. This volume is particularly important to scholars and connoisseurs of sixteenth-century Italian art; together, the illustrations and text offer a fresh look at this Florentine master and will serve as a record for many years to come.

Critical Medical Anthropology presents inspiring work from scholars doing and engaging with ethnographic research in or from Latin America, addressing themes that are central to contemporary Critical Medical Anthropology (CMA). This includes issues of inequality, embodiment of history, indigeneity, non-communicable diseases, gendered violence, migration, substance abuse, reproductive politics and judicialisation, as these relate to health. The collection of ethnographically informed research, including original theoretical contributions, reconsiders the broader relevance of CMA perspectives for addressing current global healthcare challenges from and of Latin America. It includes work spanning four countries in Latin America (Mexico, Brazil, Guatemala and Peru) as well as the trans-migratory contexts they connect and are defined by. By drawing on diverse social practices, it addresses challenges of central relevance to medical anthropology and global health, including reproduction and maternal health, sex work, rare and chronic diseases, the pharmaceutical industry and questions of agency, political economy, identity, ethnicity, and human rights. This edited book explores the impact of globalisation on the relationship between religion and politics, religion and nation, religion and nationalism, and the impact that transnationalism has on religious groups. In a post-Westphalian and transnational world, with increased international communication and transportation, a plethora of new religious recompositions religions now take part in a network society that cuts across borders. This collection, through its analysis of historical and contemporary case studies, explores the growth of both national and transnational religious movements and their dealings with the various versions of modernity that they encounter. It considers trends of religious revitalisation and secularisation, and processes of nationalism and transnationalism through the prism of the theory of multiple modernities, acknowledging both its pluralist world view but also the argument that its definition of modernity is often so inclusive as to lose coherence. Providing a cutting edge take on 21st century religion and globalization, this volume is a key read for all scholars of religion, secularisation and transnationalism. Here is the human potential masterwork that defined the New Age. Called "an exciting vision of the future" (Cleveland Plain Dealer), "a handbook of the New Age" (USA Today), and "a new charter of human possibility" (Norman Cousins) upon its initial publication in 1980, *The Aquarian Conspiracy* is a breathtaking, compelling study of the changes in work, relationships, medicine, religion, education, and more that comprised the birth of the New Age movement. An influence on thinkers from Deepak Chopra to Al Gore, *The Aquarian Conspiracy* remains a thorough, detailed classic of contemporary thought—an impeccable document that traces one of the most powerful cultural movements of our age.

Uno straordinario trattato sui misteri, le trance, la ritualità dello sciamanesimo in Brasile. Come Castaneda in Messico, qui Lattuada ci fa scoprire l'origine iniziatiche dei segreti hanno portato il Brasile ad essere il paese dove le pratiche sciamaniche sono diventate parte della società di oggi. Anima Edizioni pubblica a grande richiesta un testo introvabile, già pubblicato da MEB edizioni! Il racconto dei misteri dell'Umbanda, che a tratti si fa commento religioso o confronto tra la cultura occidentale e il paesaggio umano e naturale del Brasile. L'Umbanda è una forma di religiosità sincretistica, nata dall'incontro tra le credenze degli afroamericani, le tradizioni amerinde e le sembianze culturali del cattolicesimo. Il racconto dei misteri dell'Umbanda, si snoda in un lungo dialogo con Mae Divina (madre divina), personalità depositaria dei segreti iniziatici, del simbolismo e delle pratiche di guarigione dell'Umbanda. L'autore ci illustra in questo libro anche l'influenza europea dello spiritismo di Allan Kardec, che ha trasformato lo sciamanesimo dell'Umbanda in una via di realizzazione misterica, più dotta e più raffinata delle consimili credenze sciamaniche brasiliane, ancora legate alle radici africane.

After experiencing the SARS outbreak in 2003, Hong Kong, Singapore, and Taiwan all invested in various techniques to mitigate future pandemics involving myriad cross-species interactions between humans and birds. In some locations microbiologists allied with veterinarians and birdwatchers to follow the mutations of flu viruses in birds and humans and create preparedness strategies, while in others, public health officials worked toward preventing pandemics by killing thousands of birds. In *Avian Reservoirs* Frédéric Keck offers a comparative analysis of these responses, tracing how the anticipation of bird flu pandemics has changed relations between birds and humans in China. Drawing on anthropological theory and ethnographic fieldwork, Keck demonstrates that varied strategies dealing with the threat of pandemics—stockpiling vaccines and samples in Taiwan, simulating pandemics in Singapore, and monitoring viruses and disease vectors in Hong Kong—reflect local geopolitical relations to mainland China. In outlining how interactions among pathogens, birds, and humans shape the way people imagine future pandemics, Keck illuminates how interspecies relations are crucial for protecting against such threats.

"This volume contains a generous selection from thirteen collections of his poetry, including *Gesta Romanorum* (1952-1954), *Ogni Terzo Pensiero / Every Third Thought* (1989 -1993) and *Barlumi di Storia / Glimmers of History* (2002), and thus presents his accomplishment in all its scope and depth. Here are developed his major themes: love and loss; the rewards and responsibilities of being a son, a husband, a father and a lover; and the sweep of Italian history from Mussolini to Berlusconi."--Provided by publisher

This book was written from a religious perspective, from my personal teachings such as Pae de Santo and what it claims is to answer questions that are only evacuated if we formally belong to the religion and are members of a "Terreiro". In this volume, you will find answers and doctrines concerning the Nation or Batuque (Cult to the Orixas), Umbanda: White and Crusade (Cult to the Caboclos) and Quimbanda (Cult to Exu and Pomba-Gira). If you are interested in learning more about the Afro-Brazilian Religion, this book will be an excellent starting point.

Summary: a guide to the beliefs, concepts, terms, people, and organizations that make up the New Age movement. Extraordinary document (1608) on witchcraft and demonology offers striking insight into early 17th century mind. Serious discussions of witches' powers, poisons, crimes, more. Rare limited edition. In this, his culminating work, the leading international figure in consciousness research masterfully synthesizes his vast findings, drawing not only upon psychedelic therapy and Holotropic Breathwork, but also from literature, cross-cultural studies, ancient mystical sources and psychological data, resulting in a profound consolidation and articulation of what is now known about nonordinary states of consciousness. *The Cosmic Game* discusses the broadest philosophical, metaphysical and spiritual insights gleaned in Grof's research concerning human nature and reality, addressing the most fundamental questions human beings have asked about the nature of existence since time immemorial. Insights from research into nonordinary states of consciousness portray existence as an astonishing play of the cosmic creative principle that transcends time, space, linear causality, and polarities of every kind and suggest an identity of the individual psyche in its furthest reaches with the universal creative principle and the totality of existence. This identity of the human being with the Divine is the ultimate secret that lies at the core of all great spiritual traditions. "What moves this book into the status of a classic is that it is in substantial agreement with the world's great wisdom and spiritual traditions. This modern corroboration of the perennial philosophy is a stunning achievement and deserves publication to the widest audiences." -- Ken Wilber, author of *Up from Eden: A Transpersonal View of Human Evolution* and *The Atman Project: A Transpersonal View of Human Development* "The *Cosmic Game* is the latest and best of Stanislav Grof's extraordinary contributions to our understanding of human consciousness. This book provides a coherent picture of how individual experience fits into universal patterns of consciousness" -- Frances Vaughan, author of *Shadows of the Sacred: Seeing through Spiritual Illusions* "Perhaps the most important of all his works, representing as it does an integration of the most profound of his clients' experiences and demonstrating a remarkable convergence with the deepest spiritual experiences reported across centuries and cultures. This convergence is a finding of the greatest significance." -- Roger Walsh, author of *The Spirit of Shamanism* "Grof is the world's leading authority on the deep exploration of the mind and soul... This is a wonderful gift!" -- Charles Tart, author of *States of Consciousness* and *Psi: Scientific Studies of the Psychic Realm*

A manual of magical and mystical techniques for contacting the Goddess within • Draws from two thousand years of source material to demonstrate the ongoing reality of the feminine power and its relevance for today • Includes rituals, exercises, and techniques for evoking the Goddess • Explains how the dynamics of the sacred or magic circle serve as a guide to living harmoniously In this wide-ranging view of magic and ritual, Gareth Knight demonstrates the presence of the Goddess throughout Western esoteric traditions. From Greek myths and the Mysteries of Isis to the emergence of the cult of the Blessed Virgin and seventeenth-century Rosicrucian spiritual alchemy, he shows how the Goddess--the elemental consciousness of Earth--has revealed herself in different times and places. Honoring her many guises, Knight explores the powers of the Goddess as maiden, mother, initiator, protector, sorceress, and faery queen. Guided meditations on each of these qualities lead the practitioner into direct contact with the potent healing energy of the Divine Feminine. The author also offers rituals, exercises, and other practical tools for integrating the Western magical tradition with worship of the Goddess. He shows how we, and our planet, have suffered due to the repression of the feminine principle. For our own health, and that of our environment as well, we must recognize the power of the Goddess within to reconstitute and guide our existence. This is a collection of essays on Pentecostal and Charismatic Christianity in Asia, a neglected but vitally important area of Christian studies. The many and various forms of Asian Pentecostalism certainly represent a truly remarkable expression of Christianity that will be with us for a long time to come, and we ignore this at our peril. This book presents Charismatic face of Christianity that is becoming its most prominent expression. The voices of these mostly Asian scholars are an important contribution to our understanding of Pentecostalism in Asia, they will open to the academic world new vistas in research and orientation, and they will set parameters for the future study of Christianity in the World's largest and most diverse continent. The book begins with thematic studies on Asian Charismatic Christianity, and then deals with the phenomenon in nine countries in three different regions, South Asia, South East Asia and East Asia, followed by conclusions. This is an important contribution to our understanding of global Christianity that should not be missed.
